Subject: Meeting

Jessica. In looking back over all the documents that you and I have sent back and forth, I see in one of the documents that I do not need approval from the people at this meeting this evening to move forward with this project. Please confirm that this is correct. Here's the information that is required. There were a lot of people at this meeting, many of them were from Copperhead. The people from Copperhead were concerned about the possibility of a nursing home being built in their development. I didn't get all the names of all the people that were there because there were a lot of people there. There were no questions raised regarding anything happening in Vistana Villas. The meeting was held on Thursday October 26th at 5:30. The location was the Lehigh Acres Municipal Services improvement district building. The address is 601 East County Lane Lehigh Acres Florida 33936. I will call you sometime Friday to talk about this. Thank you. Virginia
