

AC-11-1 Draft summary of comments to date

- City of Bonita Springs
 - o City manager submitted recommendations and comments on jurisdictional authority, clarification of revision process and coordination of City functional classification determinations, and matters relating to functional classification.
- LDCAC (Committee recommendation to return after Evaluation and Appraisal Report (EAR) submittal to Board of County Commissioners)
 - o Concerns with the use of the FDOT Urban Area Map (based on 2000 Census) to depict existing context. Some areas identified as urban on the map are identified as future non-urban areas on Lee Plan Future Land Use Map. Notation by staff that the FDOT map is the current basis for which design criteria to use in Florida Greenbook and will work with planning staff to identify existing context.
 - o Concerns with the timing of the administrative code amendment references to Future Land Use Map relative to the Lee Plan Evaluation and Report process.

Citizen comments

- BikeWalkLee:
 - o Context should also include other factors besides the LeePlan, need locations of high intensity nodes,
 - o Clarification of revision process
