

Coastal Advisory Council Presentation Notes January 24, 2011

Moving Target - Share iteration to date - explain there could be further changes at many of the points in the process

- A. Internal Staff Review - More staff review possible (DNR, DCD, CAO)
- B. Comprehensive Plan Amendment Process - Train car Concept (LPA hearing, BoCC hearing when all proposed amendments get through the LPA process, Submit to Department of Community Affairs for review)
- C. Continued Involvement - Will Robert Neal be Point person, inform of LPA and BoCC dates, share concerns of DCA if any (ORC),

Planning staff will need some assistance in preparing the staff report which we already discussed Mr. Neal and believe him to be working on. (Why - the reason this amendment is needed and the benefits that will be provided by the proposed amendment.)
