

TEXT AMENDMENTS:

POLICY 1.4.5: The Density Reduction/Groundwater Resource (DR/GR) land use category includes upland areas that provide substantial recharge to aquifers most suitable for future wellfield development. These areas also are the most favorable locations for physical withdrawal of water from those aquifers. Only minimal public facilities exist or are programmed.

1. New land uses in these areas that require rezoning or a development order must demonstrate compatibility with maintaining surface and groundwater levels at their historic levels (except as provided in Policies 33.1.3 and 33.3.43) utilizing hydrologic modeling, the incorporation of increased storage capacity, and inclusion of green infrastructure. The modeling must also show that no adverse impacts will result to properties located upstream, downstream, as well as ~~and~~ adjacent to the site property. Offsite mitigation may ~~can~~ be utilized, and may be required, to demonstrate this compatibility. Evidence as to historic levels may be submitted during the rezoning or development review processes.
2. Permitted land uses include agriculture, natural resource extraction and related facilities, conservation uses, public and private recreation facilities, and residential uses at a maximum density of one dwelling unit per ten acres (1 du/10 acres). See Policies 33.3.2, 33.3.3, ~~and~~ 33.3.4, and 33.3.5 for potential density adjustments resulting from concentration or transfer of development rights.
 - a. For residential development, also see Objective 33.3 and following policies. Commercial and civic uses can be incorporated into Mixed-Use Communities to the extent specifically provided in those policies.
 - b. Individual residential parcels may contain up to two acres of Wetlands without losing the right to have a dwelling unit, provided that no alterations are made to those wetland areas.
 - c. The Future Limerock Mining overlay (Map 14) identifies sufficient land near the traditional Alico Road industrial corridor for continued limerock mining to meet regional demands through the Lee Plan's planning horizon (currently 2030). See Objective 33.1 and following policies.
3. Private Recreational Facilities may be permitted in accordance with the site locational requirements and design standards, as further defined in Goal 16. No Private

recreational facilities may occur within the DR/GR land use category without a rezoning to an appropriate planned development zoning category, and compliance with the Private Recreation Facilities performance standards, contained in Goal 16 of the Lee Plan.

POLICY 1.7.14: The Southeast ~~DR/GR~~ Density Reduction/Groundwater Resource overlay (Map 17) is described in Policies 33.3.1 through 33.3.34. This overlay affects only Southeast Lee County and identifies ~~three~~ four types of land:

1. “Existing Acreage Subdivisions:” existing rural residential subdivisions that should be protected from adverse external impacts such as natural resource extraction.
2. “Rural Golf Course Communities:” potential locations for the concentration of development rights on property zoned Private Recreational Facilities Planned Development and located in the Southeast Density Reduction/Groundwater Resource area.
3. “Mixed-Use Communities:” locations where this concentration of development rights from large contiguous tracts with the Density Reduction/Groundwater Resource area that can be supplemented by transfer of development rights from non-contiguous tracts in the Southeast Density Reduction/Groundwater Resource area. See Objective 33.3 and following policies.
4. “Improved Residential Communities:” property with existing residential approvals that are inconsistent with the Southeast Density Reduction/Groundwater Resource area that could be improved environmentally.

POLICY 33.2.3: It is in southwest Florida’s interest for public and nonprofit agencies to actively pursue acquisition of partial or full interest in land within the Tier 1 areas in this overlay through direct purchase; partnerships with other government agencies; long-term purchase agreements; right of first refusal contracts; land swaps; and other appropriate means. These lands would provide critical connections to other conservation lands that serve as the backbone for water resource management and wildlife movement within the DR/GR. Tier 2 lands are of equal ecological and water resource importance as Tier 1 but have better potential to remain in productive agricultural use as described in Policies 33.2.5 and 33.2.6. Tier 3 lands and the southern two miles of Tiers 5, 6, and 7 can provide an important wildlife connection to conservation lands in Collier County and an anticipated regional habitat link to the Okaloacoochee Slough State Forest.

1. The county will consider incentives for private landowners to maintain and improve water resources and natural ecosystems on properties within Tier 2 through Tier 7, including but not limited to acquiring agricultural or conservation easements; compensation for water storage that is in the public interest; and providing matching funds to secure federal and state funds/grants for improving agricultural best management practices or protection/restoration of wetlands on existing agricultural operations.
2. Tiers 1, 2, 3, and the southern two miles of Tiers 5, 6, and 7 will qualify for incentives when development rights are transferred to less sensitive sites in accordance with Policies 33.3.34 and 33.3.45.
3. Permanent protection of land within all tiers may also occur through:
 - a. Using resource extraction mitigation fees to acquire land;
 - b. Establishing a Regional Offsite Mitigation Area (ROMA); or
 - c. Concentrating development as depicted in the Rural Residential overlay (Map 17) as detailed in Policies 33.3.2, 33.3.3 and 33.3.34.

OBJECTIVE 33.3: RESIDENTIAL AND MIXED-USE DEVELOPMENT. Designate on a Future Land Use Map overlay ~~existing acreage subdivision areas~~ areas that should be protected from adverse impacts of mining (Existing Acreage Subdivisions), ~~and~~ specific locations for concentrating existing development rights on large tracts (Mixed-Use Communities), and vacant properties with existing residential approvals that are inconsistent with the density Reduction/Groundwater Resource future land use category (Improved Residential Communities).

POLICY 33.3.2: Unsubdivided land is too valuable to be consumed by inefficient land-use patterns. Although additional acreage or ranchette subdivisions may be needed in the future, the preferred pattern for using existing residential development rights from large tracts is to concentrate them as compact internally connected Mixed-Use Communities along existing roads and away from Future Limerock Mining areas. Map 17 identifies future locations for Mixed-Use Communities where development rights can be concentrated from major DR/GR tracts into traditional neighborhood developments (see glossary).

1. Mixed-Use Communities must be concentrated from contiguous property owned under single ownership or control; Allowable residential development without the benefit of TDR credits is limited to the existing allowable dwelling units from the

- upland and wetland acreage of the entire contiguous DR/GR tract. The only net increases in dwelling units will be through incentives as specified in the LDC for permanent protection of indigenous native uplands on the contiguous tract (up to one extra dwelling unit allowed for each five acres of preserved or restored indigenous native uplands) and through the acquisition of TDRs credits from TDR sending areas as provided in Policies 33.3.34 and 33.3.45.
- a. When expanded with transferred development rights, the maximum gross density is 5 dwelling units per acre of total land designated as a Mixed-Use Community as shown on Map 17.
 - b. The maximum basic intensity of non-residential development is 75 square feet, per by right clustered dwelling unit.
 - c. The additional intensity that can be created using TDR credits may not exceed 300,000 square feet of non-residential floor area in any Mixed-Use Community.
 - d. These limits on dwelling units and non-residential floor area do not apply to any land in a Mixed-Use Community that is designated Central Urban rather than DR/GR. Numerical limits for Central Urban land are as provided elsewhere in the Lee Plan.
2. Contiguous property under the same ownership may be developed as part of a Mixed-Use Community provided the property under contiguous ownership does not extend more than 400 feet beyond the perimeter of the Mixed-Use Community as designated on Map 17.
 3. In 2010 an exception was made to the requirement in Policy 1.4.5 that DR/GR land uses must demonstrate compatibility with maintaining surface and groundwater levels at their historic levels. Under this exception, construction may occur on land designated as a Mixed-Use Community on Map 17 provided the impacts to natural resources, including water levels and wetlands, are offset through appropriate mitigation within Southeast Lee County. Appropriate mitigation for water levels will be based upon site-specific data and modeling acceptable to the Division of Natural Resources. Appropriate wetland mitigation may be provided by preservation of high quality indigenous habitat, restoration or reconnection of historic flowways, connectivity to public conservation lands, restoration of historic ecosystems or other mitigation measures as deemed sufficient by the Division of Environmental Sciences. When possible, it is recommended that wetland mitigation be located within

Southeast Lee County. The Land Development Code will be revised to include provisions to implement this policy.

4. To create walkable neighborhoods that reduce automobile usage and minimize the amount of DR/GR land consumed by development, the Land Development Code will specify how each Mixed-Use Community will provide:
 - a. A compact physical form with identifiable centers and edges, with opportunities for shopping and workplaces near residential neighborhoods;
 - b. A highly interconnected street network, to disperse traffic and provide convenient routes for pedestrians and bicyclists;
 - c. High-quality public spaces, with building facades having windows and doors facing tree-lined streets, plazas, squares, or parks;
 - d. Diversity not homogeneity, with a variety of building types, street types, open spaces, and land uses providing for people of all ages and every form of mobility; and
 - e. Resiliency and sustainability, allowing adaptation over time to changing economic conditions and broader transportation options.

POLICY 33.3.3: Properties within the DR/GR that have existing approvals for residential development inconsistent with the current DR/GR density requirements, may damage surface and sub-surface water resources, impact habitat, and encroach on environmentally important land if developed consistent with the vested approvals. As an incentive to reduce these potential impacts additional densities may be granted if strict criteria improving the adverse impacts are followed.

1. These properties may be designated on Map 17 as “Improved Residential Communities,” provided they meet all of the following requirements:
 - a. Abut lands designated as future urban areas;
 - b. Adjacent to and eligible for public water and sewer services;
 - c. Can provide two (2) direct accesses to an arterial roadway, and;
 - d. Is not already designated on Lee Plan Map 17 as an Existing Acreage Subdivision or a Mixed Use Community.

2. In order to request an increase in density, the property must be rezoned to a Residential Planned Development (RPD) that demonstrates and is conditioned to provide the following:
 - a. Reduced stress to the onsite potable aquifers and is more consistent with water resource goals of Lee County in the DR/GR than the existing development approvals.
 - b. Increased conservation areas, relative to the existing approvals, with a restoration plan and long term maintenance commitment.
 - c. Active and passive recreational amenities to promote a healthy lifestyle.
 - d. Demonstrates a net benefit for water resources, relative to the existing approvals that demonstrates the following.
 - (1) Lower irrigation demand.
 - (2) Eliminates private irrigation wells
 - (3) Protects Public wells by meeting or exceeding the requirements of the Well Field Protection Ordinance.
 - (4) Uses Florida Friendly Plantings with low irrigation requirements in Common Elements.
 - (5) Connects to public water and sewer service, and must connect to reclaimed water when available.
 - (6) Reduces impervious area relative to existing approvals improving opportunities for groundwater recharge.
 - (7) Designed to accommodate existing or historic flowways.
 - e. Includes an enhanced lake management plan, that addresses at a minimum the following issues:
 - (1) Best management practices for fertilizers and pesticides
 - (2) Erosion control and bank stabilization
 - (3) Lake maintenance requirements
 - (4) Public well field protection
 - f. Indigenous Management Plans must address human-wildlife coexistence.
3. Properties meeting the above criteria and requirements may be permitted additional residential dwelling units in addition to the already existing approvals, but in no case in excess of three (3) dwelling units per DR/GR upland acre. The application for Residential Planned Development must identify the source of the additional residential dwelling units from the criteria below. Approval of the rezoning will be conditioned to reflect the source of additional dwelling units:

- a. 2 dwelling units for every acre of offsite DR/GR property acquired for conservation purposes with the possibility of passive recreation activities.
- b. 2 dwelling units for every additional acre of offsite DR/GR property put under a conservation easement dedicated to Lee County.
- c. 1.5 dwelling units for every additional acre of onsite property put under a conservation easement.
- d. 1 dwelling unit for every acre of onsite restoration, subject to restoration plan approval as part of the Planned Development rezoning process.
- e. 2 dwelling units for every acre of non-isolated DR/GR preserved primary and secondary panther habitat.
- f. 2 dwelling units for every acre of protected onsite wetlands connected to a regionally significant flowway identified in the Lee Plan.
- g. 1 dwelling unit for every \$8,500 (the current estimated cost to purchase an acre of Southeast DR/GR land) the applicant provides to the county to extinguish density on other Southeast DR/GR parcels.
- h. 1 dwelling unit for every \$8,500 the applicant provides to the county to construct a planned large mammal roadway crossing in the Southeast DR/GR area.

The improvements or acquisition of properties serve to mitigate impacts of the increased density. Future “Improved Residential Communities” proposed to be added to Map 17 must provide a reanalysis of the cost to purchase one acre of DR/GR property if criteria (g.) or (h.) are used to account for the increased density.

POLICY 33.3.34: Owners of major DR/GR tracts without the ability to construct a Mixed-Use Community on their own land are encouraged to transfer their residential development rights to Future Urban Areas (see Objective 1.1), specifically the Mixed-Use Overlay, the Lehigh Acres Specialized Mixed-Use Nodes, and any Lee Plan designation that allows bonus density (see Table 1(a)), or to future Mixed-Use Communities, Rural Golf Course Communities, or Improved Residential Communities on land so designated on Map 17. These transfers would avoid unnecessary travel for future residents, increase housing diversity and commercial opportunities for nearby Lehigh Acres, protect existing agricultural or natural lands, and allow the conservation of larger contiguous tracts of land.

1. To these ends, Lee County will establish a program that will allow and encourage the transfer of upland and wetland development rights (TDR) to designated TDR

receiving areas. This program will also allow limited development in accordance with Policy 16.2.6 and 16.2.7.

2. Within the Mixed-Use Communities shown on Map 17, significant commercial and civic uses are required. Each Mixed-Use Community adjoining S.R. 82 must be designed to include non-residential uses not only to serve its residents but also to begin offsetting the shortage of non-residential uses in adjoining Lehigh Acres. At a minimum, each community adjoining S.R. 82 must designate at least 10% of its developable land into zones for non-residential uses. Specific requirements for incorporating these uses into Mixed-Use Communities are set forth in the Land Development Code.
3. Mixed-Use Communities must be served by central water and wastewater services. All Mixed-Use Communities were added to the future water and sewer service areas for Lee County Utilities (Lee Plan Maps 6 and 7) in 2010. Development approvals for each community are contingent on availability of adequate capacity at the central plants and on developer-provided upgrades to distribution and collection systems to connect to the existing systems. Lee County Utilities has the plant capacity at this time to serve full build-out of all Mixed-Use Communities. Lee County acknowledges that the Three Oaks wastewater treatment plant does not have sufficient capacity to serve all anticipated growth within its future service area through the year 2030. Lee County commits to expand that facility or build an additional facility to meet wastewater demands. One of these improvements will be included in a future capital improvements program to ensure that sufficient capacity will be available to serve the Mixed-Use Communities and the additional development anticipated through the year 2030.
4. Development approvals for Mixed-Use Communities are contingent on adequate capacity in the public school system (see Goal 67).
5. The state has designated S.R. 82 as an “emerging component” of Florida’s Strategic Intermodal System, a designation that establishes the levels of service Lee County must adopt for S.R. 82. Lee County will seek to include the Mixed-Use Communities and appropriate adjacent urban areas in a multimodal transportation district to mitigate regulatory barriers these levels of service would impose on Lee County’s ability to accomplish Objective 33.3 and its policies. As an alternative, Lee County may pursue a comparable mechanism, such as a transportation concurrency exception area, transportation concurrency management area, transportation concurrency backlog area/plan, long-term concurrency management system, or FDOT level-of-

service variance, that would achieve similar results. Lee County's planning will include the following steps:

- a. Actively seek advice, technical assistance, and support from Florida DOT and DCA while formulating the scope of a technical evaluation of a potential multimodal transportation district that includes the four Mixed-Use Communities adjoining S.R. 82 and appropriate adjacent urban areas.
 - b. Conduct the necessary technical studies to determine the potential for substantial trip diversion from Lehigh Acres residents, the viability of transit service to these Mixed-Use Communities and appropriate adjacent urban areas, and the practicality of maintaining the adopted level-of-service standards on S.R. 82.
 - c. Adopt a Lee Plan amendment establishing a multimodal transportation district (or comparable mechanism).
6. Lee County will complete these three steps by 2016. Until step 5.c is adopted, TDR credits may not be redeemed in the Mixed-Use Communities located along S.R. 82. No redemption of TDR credits that will increase dwelling units or non-residential floor area will be permitted, if these increases would cause the adopted level of service for S.R. 82 to be exceeded (see Goal 37). This restriction applies unless a Mixed-Use Community addresses its transportation impacts through the DRI process consistent with F.S. 163.3180(12).
- a. This temporary restriction does not prohibit landowners from concentrating development rights from contiguous DR/GR property under common ownership or control.
 - b. Lee County encourages the creation of TDR credits from Southeast DR/GR lands and the transfer of those credits to all other designated receiving areas, including:
 - (1) Other Mixed-Use Communities;
 - (2) Rural Golf Course Communities;
 - (3) Improved Residential Communities;
 - (34) Future Urban Area (see Objective 1.1);
 - (45) Mixed-Use Overlay;
 - (56) Lehigh Acres Specialized Mixed-Use Nodes;
 - (67) Lee Plan designation that allow bonus density (see Table 1(a)); and,
 - (78) Incorporated municipalities that have formally agreed to accept TDR credits.

POLICY 33.3.45: The new TDR program will have the following characteristics:

1. This program will be in addition to the existing wetland TDR program described in Article IV of Chapter 2 of the Land Development Code.
2. The preferred receiving locations for the transfer of TDRs are within designated Future Urban Areas due to their proximity to public infrastructure and urban amenities (see Objective 1.1), specifically the Mixed Use Overlay, the Lehigh Acres Specialized Mixed Use Nodes, and the future urban land use categories that allow bonus density (see Table 1(a)). The only sites in the DR/GR area permitted to receive transferred development rights are Mixed-Use Communities, Improved Residential Communities or Rural Golf Course Communities as shown on Map 17.
3. TDR credits will be available from sending areas as follows:
 - a. One TDR credit may be created for each allowable dwelling unit attributable to sending parcels within the Southeast DR/GR area. As an incentive for permanently protecting indigenous native uplands, one extra dwelling unit will be allowed for each five acres of preserved or restored indigenous native uplands.
 - b. As an additional incentive for protecting certain priority restoration lands (see Policy 33.2.3.2), each TDR credit created pursuant to the preceding subsection will qualify for up to two additional TDR credits if the credits are created from land in Tiers 1, 2, 3 or the southern two miles of Tiers 5, 6 or 7, as shown on the DR/GR Priority Restoration overlay.
4. The maximum number of TDR credits that can be created from the Southeast DR/GR lands is 9,000.
5. No more than 2,000 dwelling units can be placed on receiving parcels within the Southeast DR/GR Mixed-Use Communities through the TDR credit program.
6. TDR Credits may be redeemed in designated TDR receiving areas as follows:
 - a. In Mixed-Use Communities in DR/GR areas, each TDR credit may be redeemed for a maximum of one dwelling unit plus a maximum of 800 square feet of non-residential floor area.
 - b. In Rural Golf Course Communities, see Policy 16.2.7.

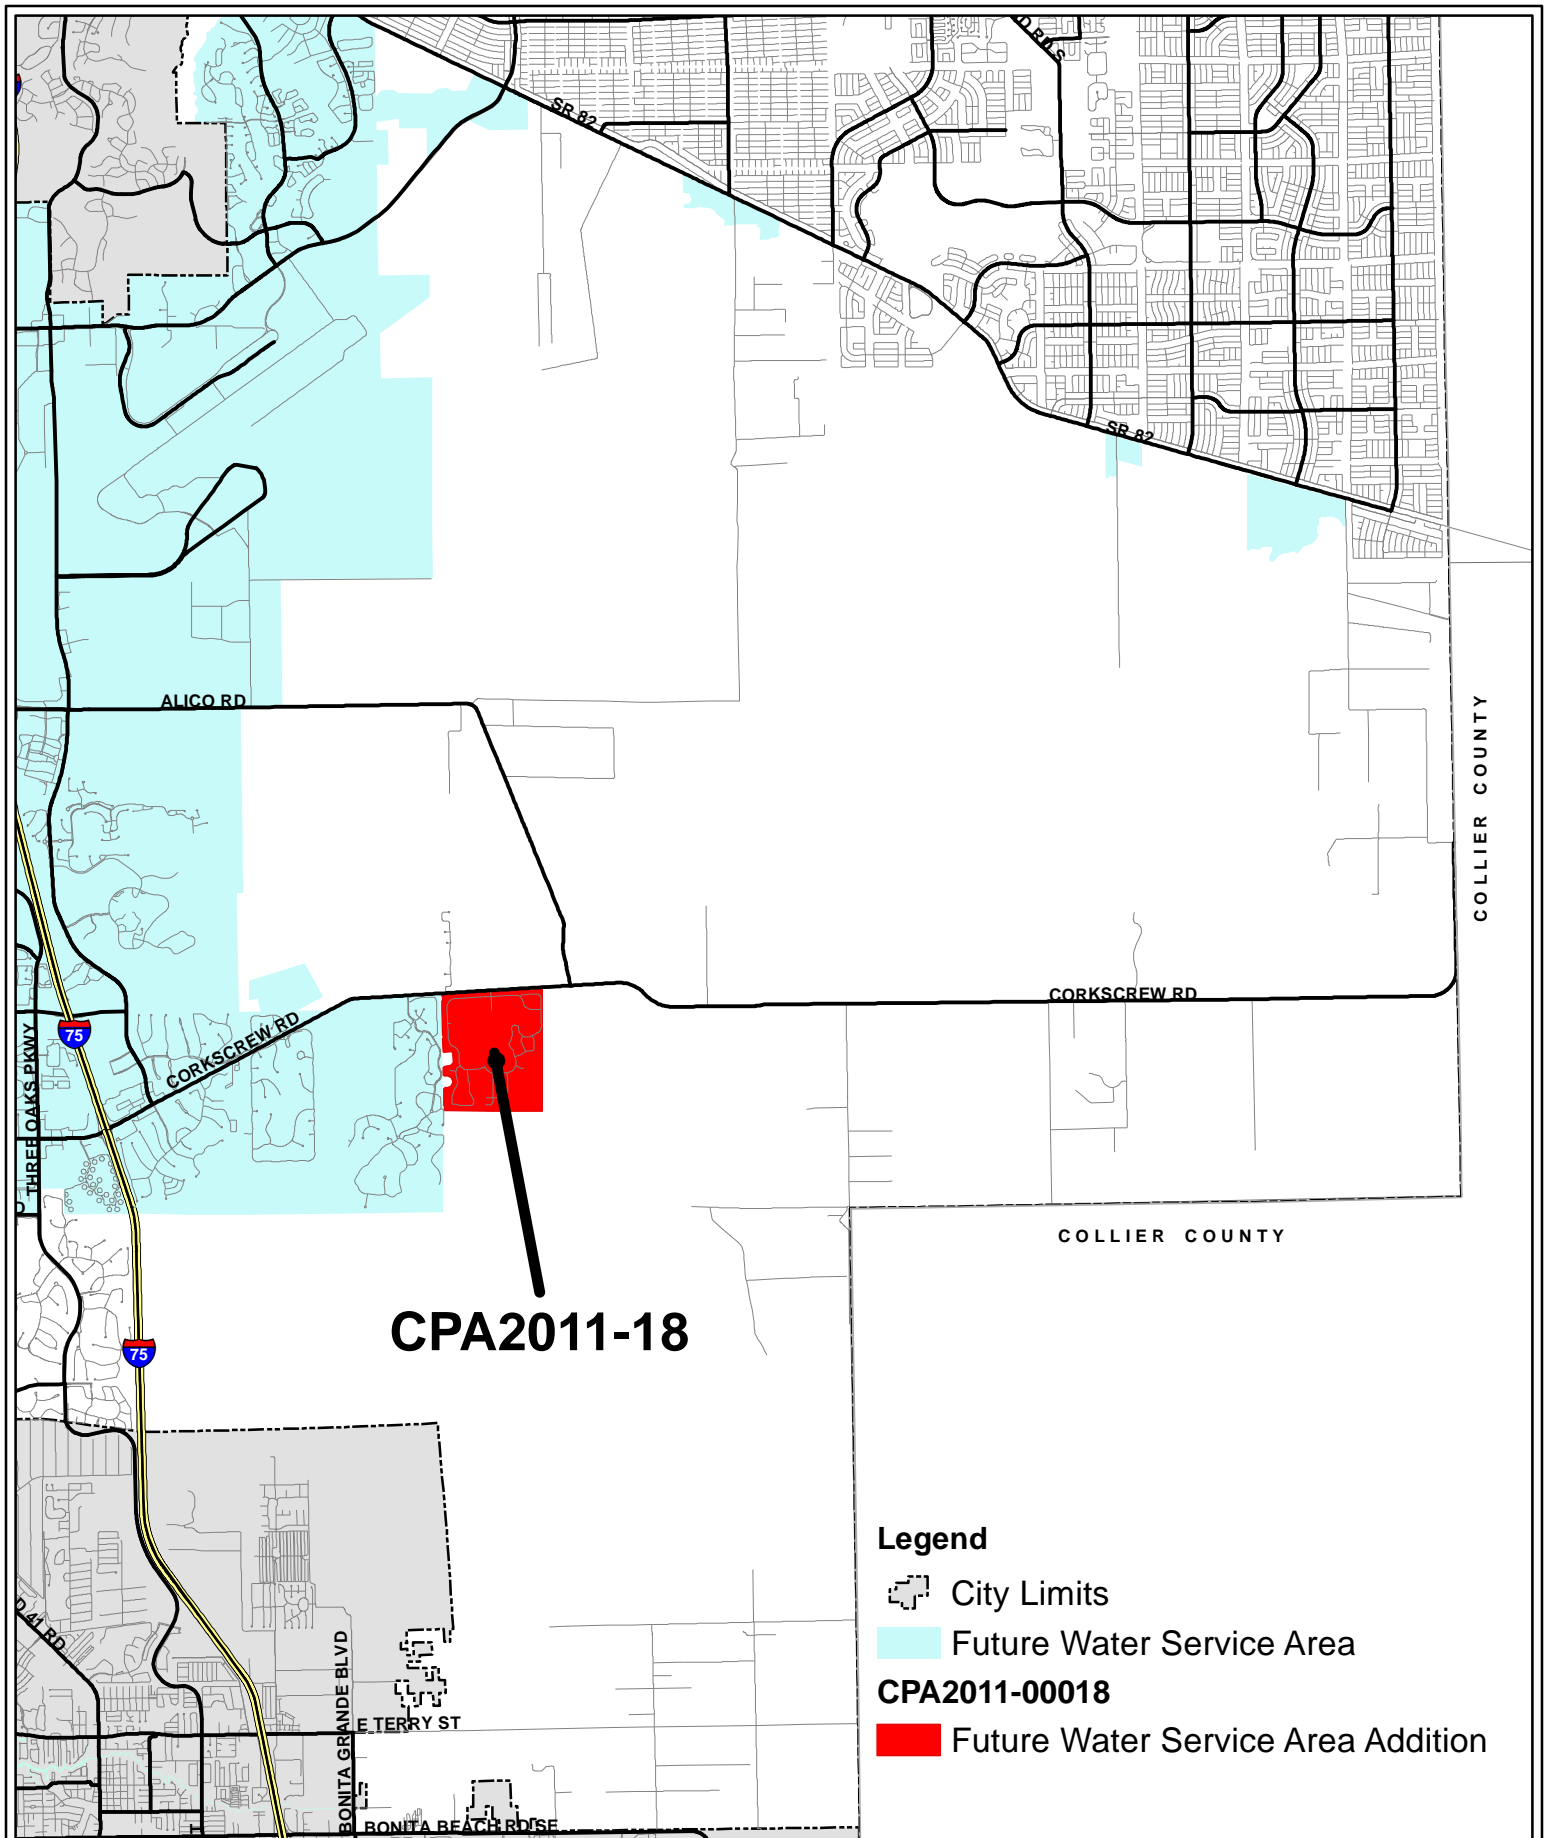

- c. In the Future Urban Areas described in paragraph 2. above, each TDR credit may be redeemed for a maximum of two dwelling units. In these Future Urban Areas, the redemption of TDR credits cannot allow densities to exceed the maximum bonus density specified in Table 1(a). TDR credits may not be redeemed for non-residential floor area in these Future Urban Areas.
 - d. Redemption of TDR credits within incorporated municipalities may be allowed where interlocal agreements set forth the specific terms of any allowable transfers and where the redemption allows development that is consistent with the municipality's comprehensive plan. As in the County's Future Urban Areas, each TDR credit may be redeemed for a maximum of two dwelling units.
7. When severing development rights from a tract of land in anticipation of transfer to another tract, a landowner must execute a perpetual conservation easement on the tract that acknowledges the severance of development rights and explicitly states one of the following options:
- a. Continued agricultural uses will be permitted;
 - b. Conservation uses only;
 - c. Conservation use and restoration of the property; or
 - d. some combination of the above options.

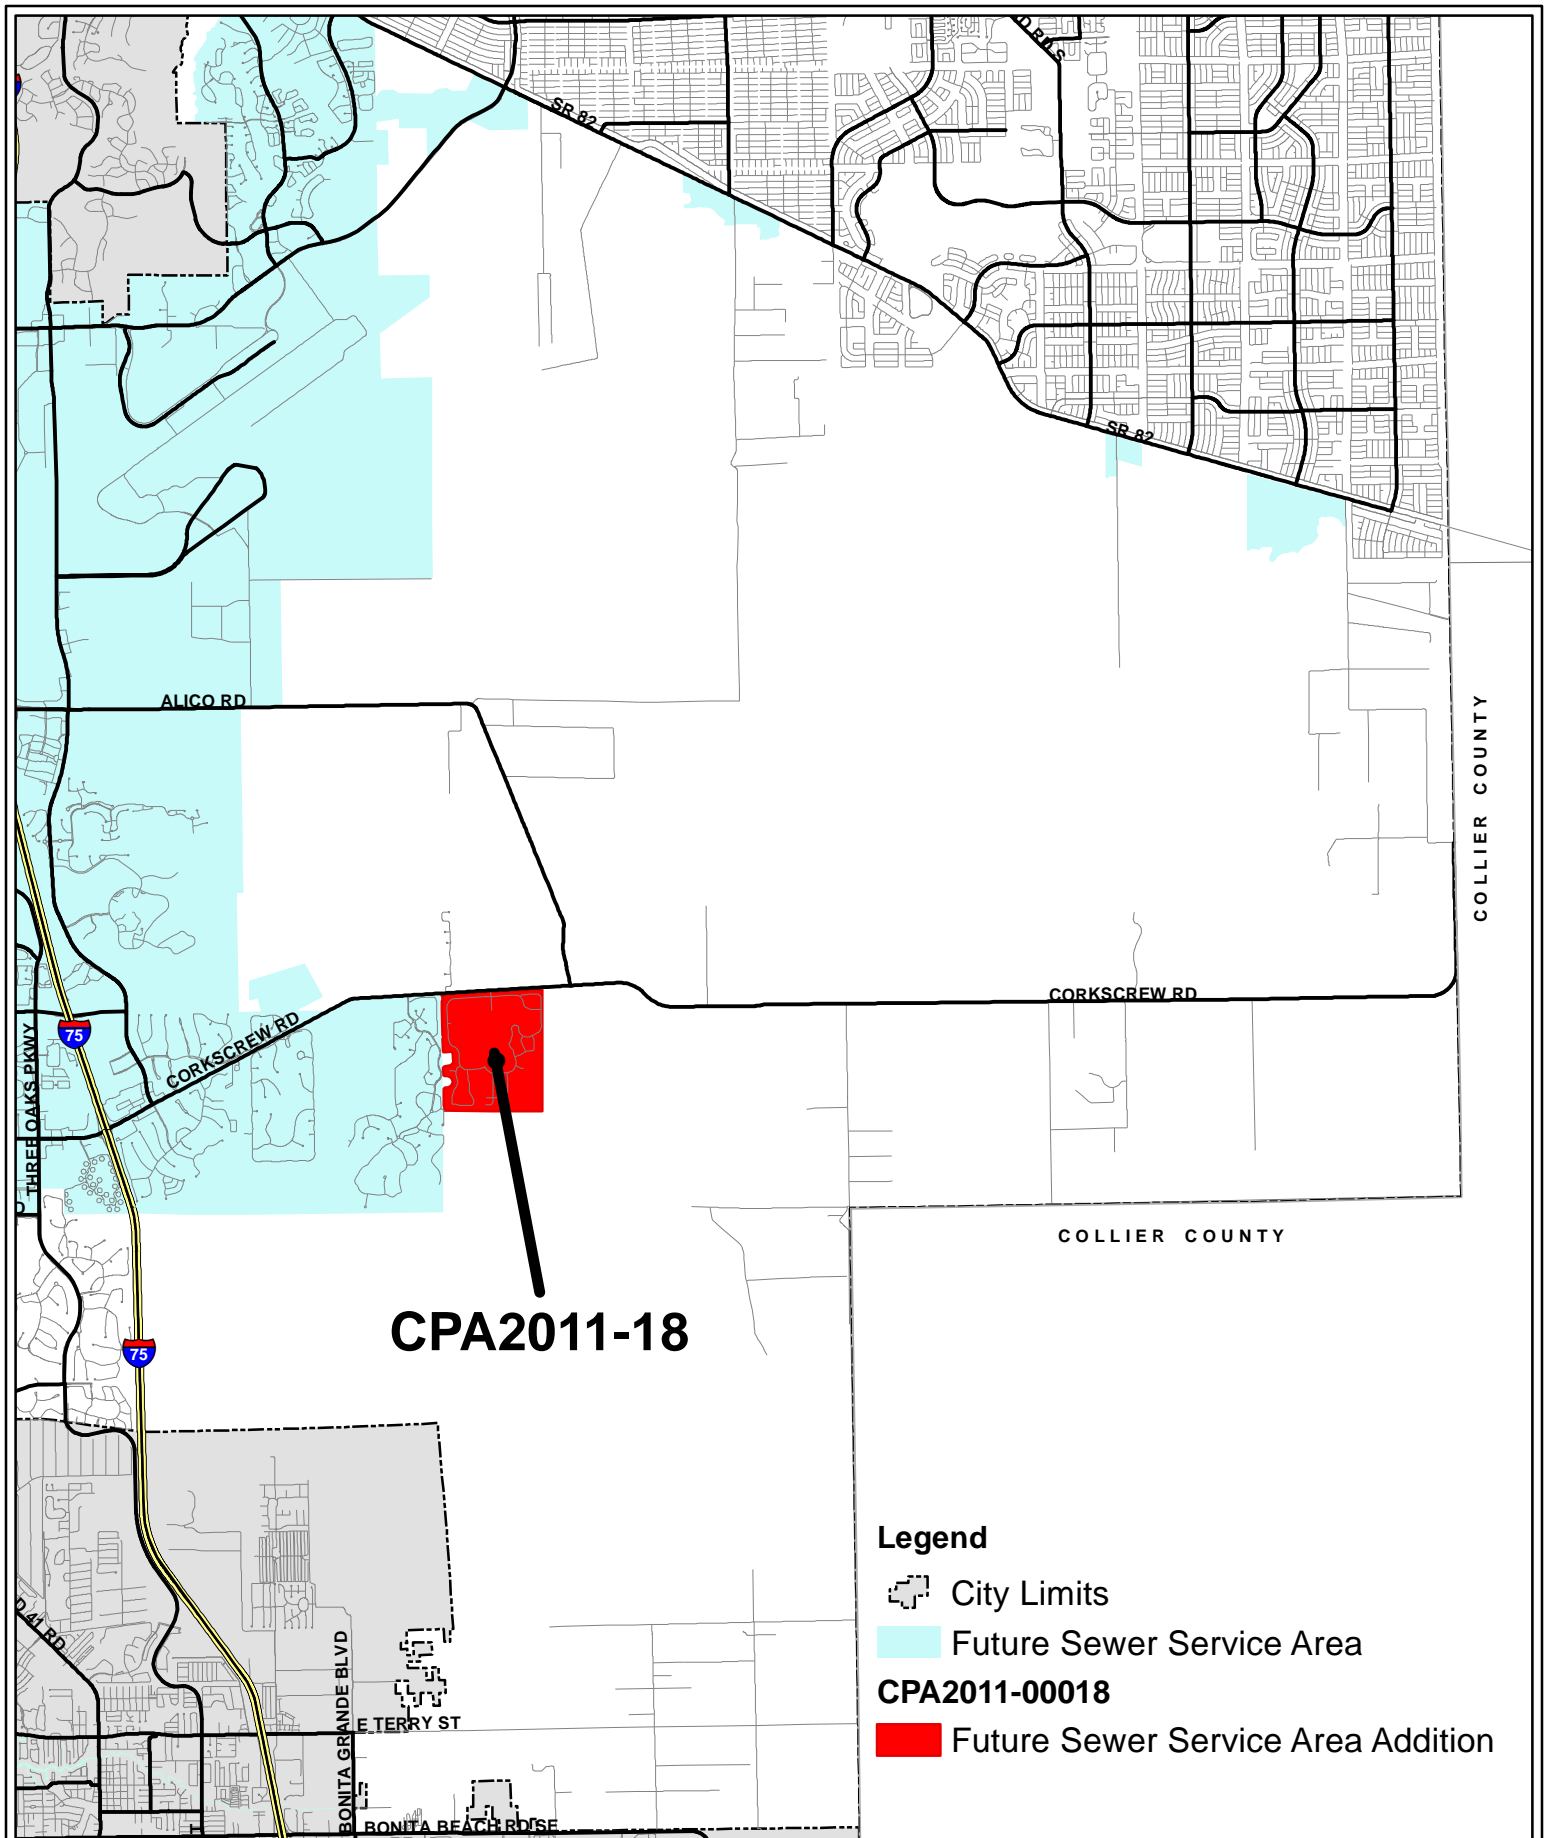

POLICY 33.3.56: The Land Development Code will be amended within one year to specify procedures for concentrating existing development rights on large tracts, for transferring development rights between landowners, for seeking approval of additional acreage subdivisions, and for incorporating commercial and civic uses into Mixed-Use Communities as designated on Map 17.

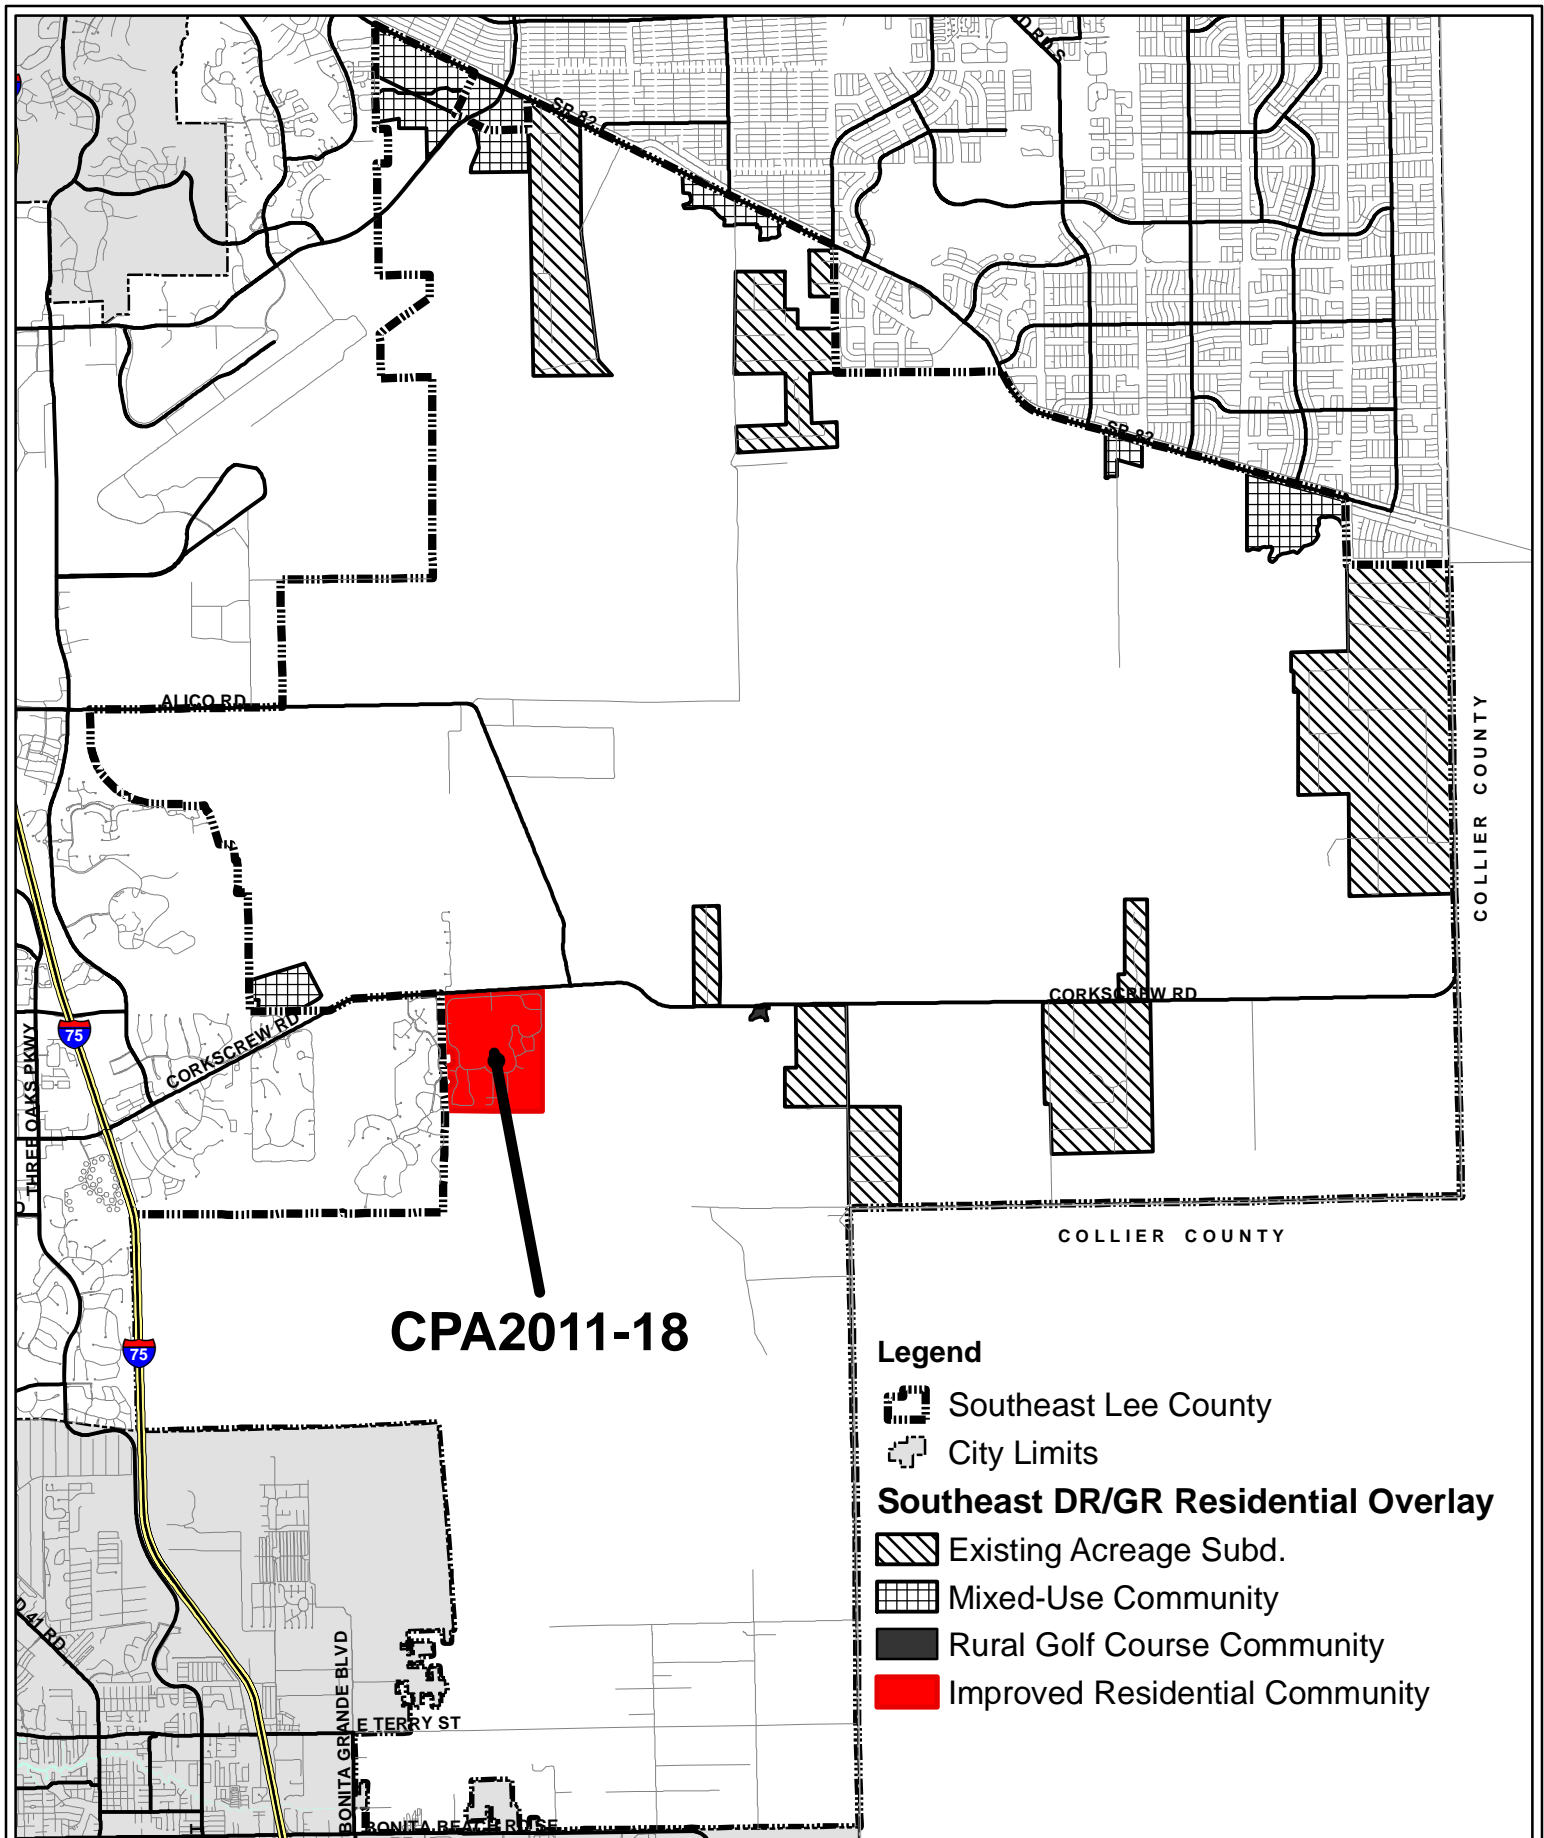

POLICY 33.3.67: By 2012 Lee County will evaluate the establishment and funding of a DR/GR TDR bank that will offer to purchase development rights for resale in the TDR system. The purpose of this program is to give potential sellers the opportunity to sell rights even if no developer is ready to use them and to give potential development applicants the opportunity to obtain the necessary rights without seeking them on the open market.

MAPS AMENDMENTS:

- Identify the subject property with a new overlay on Lee Plan Map 17 as an “Improved Residential Community.”
- Include the subject property within the boundaries of the future water service area identified on Map 6 of the Lee Plan.
- Include the subject property within the boundaries of the future sewer service area identified on Map 7 of the Lee Plan.

**MEMORANDUM
FROM
PUBLIC WORKS
Natural Resources Division**

Date: April 16, 2012

TO: Paul O'Connor
Director, Planning Division

From: Roland Ottolini
Director, Natural Resources
Division

SUBJECT: CPA2011-00018 Corkscrew Woods Plan Amendment

Natural Resources staff has reviewed the information provided by the applicant including the Hydrogeologic Setting and Groundwater Flow Model Analysis for the Corkscrew Woods Development in Lee County, Florida, RCS-Corkscrew Lakes, LLC prepared by Progressive Water Resources, dated April 12, 2012 and previous calculations submitted by Morris Depew and Associates on January 25, 2012.

It is our understanding that the proposed amendment will reduce the impacts to groundwater resources by replacing Sandstone domestic and irrigation wells with potable water supplied by Lee County Utilities and irrigation supply from the on-site lake. Although the number of units has increased, the change in source of water and the reduction in irrigated area provide a net overall benefit to groundwater levels when compared to existing approvals in place. Furthermore, the proposed amendment reduces the project footprint to the south and thereby provides increased flow-way preservation.

As a condition to our approval, the following items shall be addressed in the development order phase:

- 1) Storm water runoff shall be directed to specifically designed and designated storm water treatment areas; it must not be directly diverted or placed into the existing 222 acre lake.
- 2) The applicant shall not discharge storm water from the development into the County's MS4 system unless specifically authorized by the Division of Natural Resources.
- 3) A lake management plan shall be submitted for review and approval by the Division of Natural Resources. Among other issues, the plan shall address issues related to maintenance of water levels and littoral plants in the lake.
- 4) All proposed sanitary sewer lines shall be designed to meet the State required (Chapter 62-532) setback of 100 feet from the existing 222 acre on-site lake and nearby Lee County Utilities public water supply wells. The waters contained in this lake are directly connected to potable water bearing aquifer(s) and as such must be protected from sanitary hazards. As defined in Chapter 62-550: (75) "SANITARY HAZARD" means a physical condition which involves or affects any part of a drinking water system or the raw water

source, and that creates an imminent or potentially serious risk to the health of any person who consumes water from that system.

Based on the information provided and given the above concerns are addressed in the development order phase, the Lee County Division of Natural Resources finds that no significant impacts on present or future water resources will result from the change. The Division of Natural Resources staff recommends that the Board of County Commissioners make a formal finding that no significant impacts on present or future water resources will result from changing the Future Land Use Category, as required in Lee Plan Policy 2.4.2 and Policy 2.4.3. This memo does not intend to relieve the applicant from complying with any other part of the Lee Plan. Nor does this approval imply approval from the Division of Environmental Sciences and Lee County Utilities on related matters.

**MEMORANDUM
FROM
DEPARTMENT OF COMMUNITY DEVELOPMENT
DIVISION OF ENVIRONMENTAL SCIENCES**

Date: April 10, 2012

E-mail: amartin@leegov.com

Project: Corkscrew Woods
Case: CPA2011-00018
Strap: 21-46-26-01-00000.0010 et al.

PROJECT:

The applicant is requesting to amend the Future Land Use Map from Density Reduction/Groundwater Recharge (DR/GR) to Sub-Outlying Suburban, Wetland Conservation, Upland Conservation, DRGR, and Wetlands to allow for the development of 1,023 residential dwelling units. The proposed breakdown of land use categories consists of: 513.06 acres in Sub-Outlying Suburban, 41.03 acres of Wetland Conservation, 57.19 acres of Upland Conservation, and 110.84 acres of DR/GR and Wetlands (Tract H).

PROJECT SITE:

The site is approximately 722.12 acres in size and is located on the south side of Corkscrew Rd. approximately 3.5 miles east of I-75. The site is currently zoned agricultural (AG-2). The surrounding land use categories consist of Suburban to the west, DR/GR & Wetlands to the north south and east. In 1990, the site was granted a development order (90-04-005.00D) to develop a residential community. Then in 1996 the site was granted a special exception (96-02-319.06S) to allow mining. The residential development order was amended to show this mine pit and redistribute the single family lots as a proposed post mine use. The mine was completed in 2007. Reclamation of the mine pit has begun and is 75% completed, however an area that was slated to be mined was never dug due to the presence of the processing equipment in this location. This resulted in the applicant having to amend their state permits to show the new mine lake configuration. This amendment is ongoing and the area being proposed for modification is the only area left in need of reclamation.

As the site exists today there is an active development order on the site for a residential community. This community contains 254 platted single family lots consisting of 291 acres and a 221 acre lake. These lots are to be serviced by well and septic. The road infrastructure is in place with only a final lift of asphalt remaining to complete the project. In addition, to the platted single family lots there are approximately 157 acres of wetlands/uplands scattered throughout the

site. These preservation areas were identified as open areas on the approved development order and approximately 45 acres are protected under conservation easements dedicated to the South Florida Water Management District. The remaining 112 acres not protected via conservation easements are located in two locations. There is a 1.2 acre wetland located adjacent to the lake shown as Tract C in the plat (recorded per INST #2007000289772), which is being proposed by the applicant to be impacted. The remaining 110.8 acres is located within an area termed as Tract H in the plat (recorded per INST #2007000289772). Tract H is an open area, consisting of both uplands and wetlands, that was shown on the original development order however it was not required to be preserved to meet any requirements of Lee County or the SFWMD. This area is owned by the applicant, however, during the purchase of the property from Cemex the applicant entered into an agreement that gives Cemex the right to use this area as future mitigation for wetland impacts offsite.

ENVIRONMENTAL ASSESSMENT:

A vegetative community assessment Lee County Land Development Code (LDC) Section 10-473 was conducted by Passarella & Associates, Inc. in September 2011. The assessment and a Florida Land Use, Cover and Classification System (FLUCCS) map was submitted by the applicant. The site consists of the following: 285.37 acres of FLUCCS 740 Disturbed Lands; 214.20 acres of FLUCCS 163 Rock Quarry; 80.32 acres of FLUCCS 6219E1 Cypress Disturbed (0-24% Exotics); 50.59 acres of FLUCCS 4119E1 Pine Flatwoods Disturbed (0-24% Exotics); 22.14 acres of FLUCCS 814 Road; 17.34 acres of FLUCCS 6249E1 Cypress/Pine/Cabbage Palm Disturbed (0-24% Exotics); 13.28 acres of FLUCCS 747 Berm; 9.77 acres of FLUCCS 6259E1 Hydric Pine Disturbed (0-24% Exotics); 5.35 acres of FLUCCS 6309E1 Wetland Forested Mixed Disturbed (0-24% Exotics); 3.75 acres of FLUCCS 6219E4 Cypress Disturbed (75-100% Exotics); 3.38 acres of FLUCCS 6419E1 Freshwater Marsh Disturbed (0-24% Exotics); 3.03 acres of FLUCCS 6319E1 Wetland Shrub Disturbed (0-24% Exotics); 2.90 acres of FLUCCS 4279E1 Live Oak Disturbed (0-24% Exotics); 2.76 acres of FLUCCS 3209E2 Shrub and Brushland Disturbed (25-49% Exotics); 1.97 acres of FLUCCS 4159E1 Pine Disturbed (0-24% Exotics); 1.88 acres of FLUCCS 3219E1 Palmetto Prairie (0-24% Exotics); 1.56 acres of FLUCCS 3209E4 Shrub and Brushland Disturbed (75-100% Exotics); 1.15 acres of FLUCCS 6439E1 Wet Prairie Disturbed (0-24% Exotics); 0.69 acres of FLUCCS 7401 Disturbed Land Hydric; 0.27 acres of FLUCCS 3209E1 Shrub and Brushland Disturbed (0-24% Exotics); 0.24 acres of FLUCCS 4281E1 Cabbage Palm Hydric Disturbed (0-24% Exotics); 0.10 acres of FLUCCS 743 Spoil Area; 0.06 acres of FLUCCS 525 Shallow Pond; and 0.02 acres of FLUCCS 6189E2 Willow Disturbed (25-49% Exotics).

County Staff conducted a site inspection on January 26, 2012 and verified the findings of the applicant's consultant. The majority of the site consists of disturbed lands from the mining operation. The remaining indigenous communities have been managed over time for exotics which has resulted in very little exotic coverage within the indigenous areas. The primary communities on the site consist of slash pine flatwoods, cypress swamps, and some mesic oak communities. The submittal of the environmental assessment by the applicant is consistent with the following Lee Plan Standard.

Standard 11.4: In any case where there exists or there is the probability of environmentally sensitive areas (as identified by Lee County, the Corps of Engineers, Department of Environmental Protection, SFWMD, or other applicable regulatory agency), the developer/applicant must prepare an environmental assessment that examines the existing conditions, addresses the environmental problems, and proposes means and mechanisms to protect, conserve, or preserve the environmental and natural resources.

PROTECTED SPECIES:

A protected species survey for Lee County listed species meeting the requirements of Lee County Land Development Code (LDC) Section 10-473 was conducted by Passarella & Associates, Inc. in September 2011. The survey was submitted by the applicant. The site contains the following listed species: American Alligator (*alligator mississippiensis*), Little Blue Heron (*Egretta caerulea*), Florida Black Bear (*Ursus americanus floridanus*), and Big Cypress Fox Squirrel (*Sciurus niger avicennia*). Though not directly observed on the site during the survey this site is located within the primary panther zone and telemetry points of collared panthers have been recorded on the site. These points are primarily located within the Tract H area; however, the entire site may be used by panthers since the points are only recorded within a static moment in time and do not represent the everyday movements of the panther.

PROPOSED RESTORATION:

The applicant is proposing 57.19 acres of uplands in Uplands Conservation land use. This is in addition to 41.03 acres of wetlands in Wetlands Conservation land use covering the existing wetlands onsite protected by the conservation easements. The 57.19 acre uplands area is proposed for restoration. Originally, the 57.19 acres was shown on the approved residential development order to contain single family home lots along with road infrastructure (which is roughed in today). The applicant proposes to remove the roads that are currently partially built and bring these areas back down to natural grade. The restoration area would then be planted with native vegetation to mimic both wetland and upland communities. This design would allow for the use of these areas along with other existing preserves as stormwater management; which would allow for a greener stormwater system through the use of natural communities for water filtration. In addition to the the plantings, the applicant has agreed to restore the hydrologic connection between the onsite preserves and the proposed restoration area with the adjacent Flint Pen slough. This would be accomplished through the removal of existing storm water berms or portions of these berms that are located around the perimeter of the existing wetland conservation areas and along the south and east property lines. Considering the proposed restoration and hydrologic improvements the site would be compliant with the following Lee Plan goals, standards, policies, and objectives with regards to conservation lands, flowways, green infrastructure, and preservation.

POLICY 1.4.5: The Density Reduction/Groundwater Resource (DR/GR) land use category includes upland areas that provide substantial recharge to aquifers most suitable for future wellfield development. These areas also are the most favorable locations for physical withdrawal of water from those aquifers. Only minimal public facilities exist or are programmed.

1. New land uses in these areas that require rezoning or a development order must demonstrate compatibility with maintaining surface and groundwater levels at their historic levels (except as provided in Policies 33.1.3 and 33.3.3) utilizing hydrologic modeling, the incorporation of increased storage capacity, and inclusion of green infrastructure. The modeling must also show that no adverse impacts will result to upstream, downstream, and adjacent property. Offsite mitigation can be utilized, and may be required, to demonstrate this compatibility. Evidence as to historic levels may be submitted during the rezoning or development review processes.

POLICY 1.4.6: The Conservation Lands include uplands and wetlands that are owned and used for long range conservation purposes. Upland and wetland conservation lands will be shown as separate categories on the FLUM. Upland conservation lands will be subject to the provisions of this policy. Wetland conservation lands will be subject to the provisions of both the Wetlands category described in Objective 1.5 and the Conservation Lands category described in this policy. The most stringent provisions of either category will apply to wetland conservation lands. Conservation lands will include all public lands required to be used for conservation purposes by some type of legal mechanism such as statutory requirements, funding and/or grant conditions, and mitigation preserve areas required for land development approvals. Conservation Lands may include such uses as wildlife preserves; wetland and upland mitigation areas and banks; natural resource based parks; ancillary uses for environmental research and education, historic and cultural preservation, and natural resource based parks (such as signage, parking facilities, caretaker quarters, interpretive kiosks, research centers, and quarters and other associated support services); and water conservation lands such as aquifer recharge areas, flowways, flood prone areas, and well fields. 2020 lands designated as conservation are also subject to more stringent use provisions of the 2020 Program or the 2020 ordinances.

POLICY 33.2.1: Large-scale ecosystem integrity in Southeast Lee County should be maintained and restored. Protection and/or restoration of land is of even higher value when it connects existing corridors and conservation areas. Restoration is also highly desirable when it can be achieved in conjunction with other uses on privately owned land including agriculture. Lee County Natural Resources, Conservation 20/20, and Environmental Sciences staff will work with landowners who are interested in voluntarily restoring native habitats and landowners who are required to conduct restoration based upon land use changes. The parameters for the required restoration will be established in the Land Development Code by 2012.

Objective 60.4: The Six Mile Cypress Basin and the Density Reduction/Groundwater resource land use category are both identified as “critical areas for surface water management.” The county will maintain existing regulations to protect the unique environmental and water resource values of these areas.

Objective 60.5: The long-term benefits of incorporating green infrastructure as part of the surface water management system to include improved water quality, improved air quality, improved water recharge/infiltration, water storage, wildlife habitat, recreational opportunities, and visual relief within the urban environment.

Policy 60.5.1: The County encourages new developments to design their surface water management systems to incorporate best management practices including, but not limited to, filtration marshes, grassed swales planted with native vegetation, retention/detention lakes with

enlarged littoral zones, preserved or restored wetlands and meandering flow-ways.

Policy 60.5.2: The County encourages new developments to design their surface water management system to incorporate existing wetland systems.

Policy 60.5.3: The County encourages the preservation of existing natural flow-ways and the restoration of historic natural flow-ways.

Objective 61.2: Support a surface water management strategy that relies on natural features (flow ways, sloughs, strands, etc.) and natural systems to receive and otherwise manage storm and surface water.

ENVIRONMENTAL CONCERNS:

The applicant's proposal increases the density from the currently permitted 254 single family lots to a potential 1023 residential units. This increase in density can have a negative impact on wildlife in the area. The site is located adjacent to the Flint Pen slough, public conservation lands, which is located to the east and south of the property. This area is a major flowway and wildlife movement corridor for large mammals such as the Florida panther and the black bear. The requested increase in density will generate an increase in traffic by as many as 4,600 two way vehicle trips per day on Corkscrew road. Corkscrew road is frequently crossed by large mammals, such as the Florida panther and black bear, as they move from south to north in their typical migration patterns. This, coupled with an increase in traffic, may result in higher instances of traffic related deaths of large mammals and any other small animals that may be crossing the road.

To mitigate for the increased density on site the applicant is proposing lands for conservation which include, a restoration area (as outlined above) along the south property line. This average 1000' wide restoration area is located along the south property line and connects the existing wetland conservation areas with the 110 acre Tract H, which is located along the southeast and east property lines. All total this will result in over 200 acres of conservation lands and DRGR/Wetland land uses along the south and east property lines of the site adjacent to the Flint Pen slough, providing a buffer area between the proposed residential uses and the adjacent conservation lands. Recently, Lee County completed an extensive exotic removal effort within section 33 township 46 range 26 of the Flint Pen slough which directly abuts this property along its south property line. Efforts by the applicants to restore the connection between these pieces both physically and hydrologically will serve to enhance the county's efforts in the Flint Pen slough. Considering the proposed restoration and preservation the site would be compliant with the following Lee Plan goals, standards, policies, and objectives with regards to flowways, green infrastructure, and preservation.

Objective 77.3: New developments must use innovative open space design to preserve existing native vegetation, provide visual relief, and buffer adjacent uses and proposed/existing right-of-ways. This objective and subsequent policies are to be implemented through the zoning process.

Policy 107.2.10: Development adjacent to aquatic and other nature preserves, wildlife refuges, and recreation areas must protect the natural character and public benefit of these areas including, but not limited to, scenic values for the benefit of future generations.

Policy 107.2.13: Promote optimal conditions rather than minimum conditions for the natural

system as the basis for sound planning.

Policy 107.3.1: Encourage upland preservation in and around preserved wetlands to provide habitat diversity, enhance edge effect, and promote wildlife conservation.

Objective 114.1: The natural functions of wetland and wetland systems will be protected and conserved through the enforcement of the county's wetland protection regulations and the goals, objectives, and policies in this plan. "Wetlands" include all of those lands, whether shown on the Future Land Use Map or not, that are identified as wetlands in accordance with Florida Statute (F.S.) 373.019(17) through the use of the unified state delineation methodology described in Florida Administrative Code (FAC) Chapter 17-340, as ratified and amended by F.S. 373.4211.

Policy 117.1.8: The county will support the acquisition and protection of the Flint Pen Strand as a major retention and aquifer recharge area.

Dunn, Brandon

To: Dunn, Brandon; Noble, Matthew
Subject: CPA2011-00018 - Corkscrew Woods

Brandon,

I have reviewed the materials submitted for the proposed Corkscrew Woods Comprehensive Plan Amendment. The project is already platted with vested rights for 254 single family dwelling units. The proposal would be to amend the Future Land Use designation on the property from DR/GR to Sub-outlying Suburban in an effort to allow the construction of 800 single family dwelling units on the property. This represents an increase in daily trips of nearly 4,600 vehicles (two-way).

Corkscrew Road has sufficient capacity from I-75 to Alico Road to withstand the increase in traffic associated with the increase in dwelling units. Presently, the segment of Corkscrew Road from I-75 to Ben Hill Griffin Parkway is operating at just under 25% of its four-lane capacity, the segments from Ben Hill Griffin Parkway to Wildcat Run and Wildcat Run to Alico Road are operating at 12% of the possible carrying capacity of the roadway. It is important to note that Lee County Department of Transportation is currently widening the section of Corkscrew Road from Ben Hill Griffin Parkway to the Bella Terra entrance from its current two-lane condition to a three-lane cross section which will increase the capacity of the roadway.

A long range analysis was also completed as a part of the proposed Comprehensive Plan Amendment review. Should all of the developments that are presently approved on these links of Corkscrew Road be constructed and built out, the roadway would be operating at just under 30% of its capacity from I-75 to Ben Hill Griffin Parkway and just under 50% of the capacity from Ben Hill Griffin Parkway to Alico Road. Addition of the Corkscrew Woods traffic to Corkscrew Road would result in the roadway operating at no worse than 75% of its capacity. As a result, there is sufficient roadway capacity to sustain the proposed Comprehensive Plan Amendment.

Let me know if you need me to expound on this any further.

Memo

To: Paul O'Connor,
Division of Planning

From: Andy Getch, P.E.
Engineering Manager I

Date: April 18, 2012
Subject: CPA2011-18, Corkscrew Woods

The Department of Transportation has reviewed the above-referenced privately-initiated future land use map plan amendment to change the land use designation of approximately 722 acres from "DR/GR" and "Wetlands" to "Sub-outlying Suburban" "Wetland Conservation and Upland Conservation". The applicant indicates there will be 1,025 single family units at build-out. The level of service (LOS) analysis of short range (5 years) provided by the applicant indicates all the study area roadway segments (3 miles radius) are anticipated to operate at or better than the adopted LOS standard in 2016. For 2030 long range transportation plan analysis, added 1,025 single family dwelling units into Zdata1 file, representing TAZ 1650 and rerun 2030 FSUTMS model. We have determined that the land use change on this property will not alter the future road network plan.

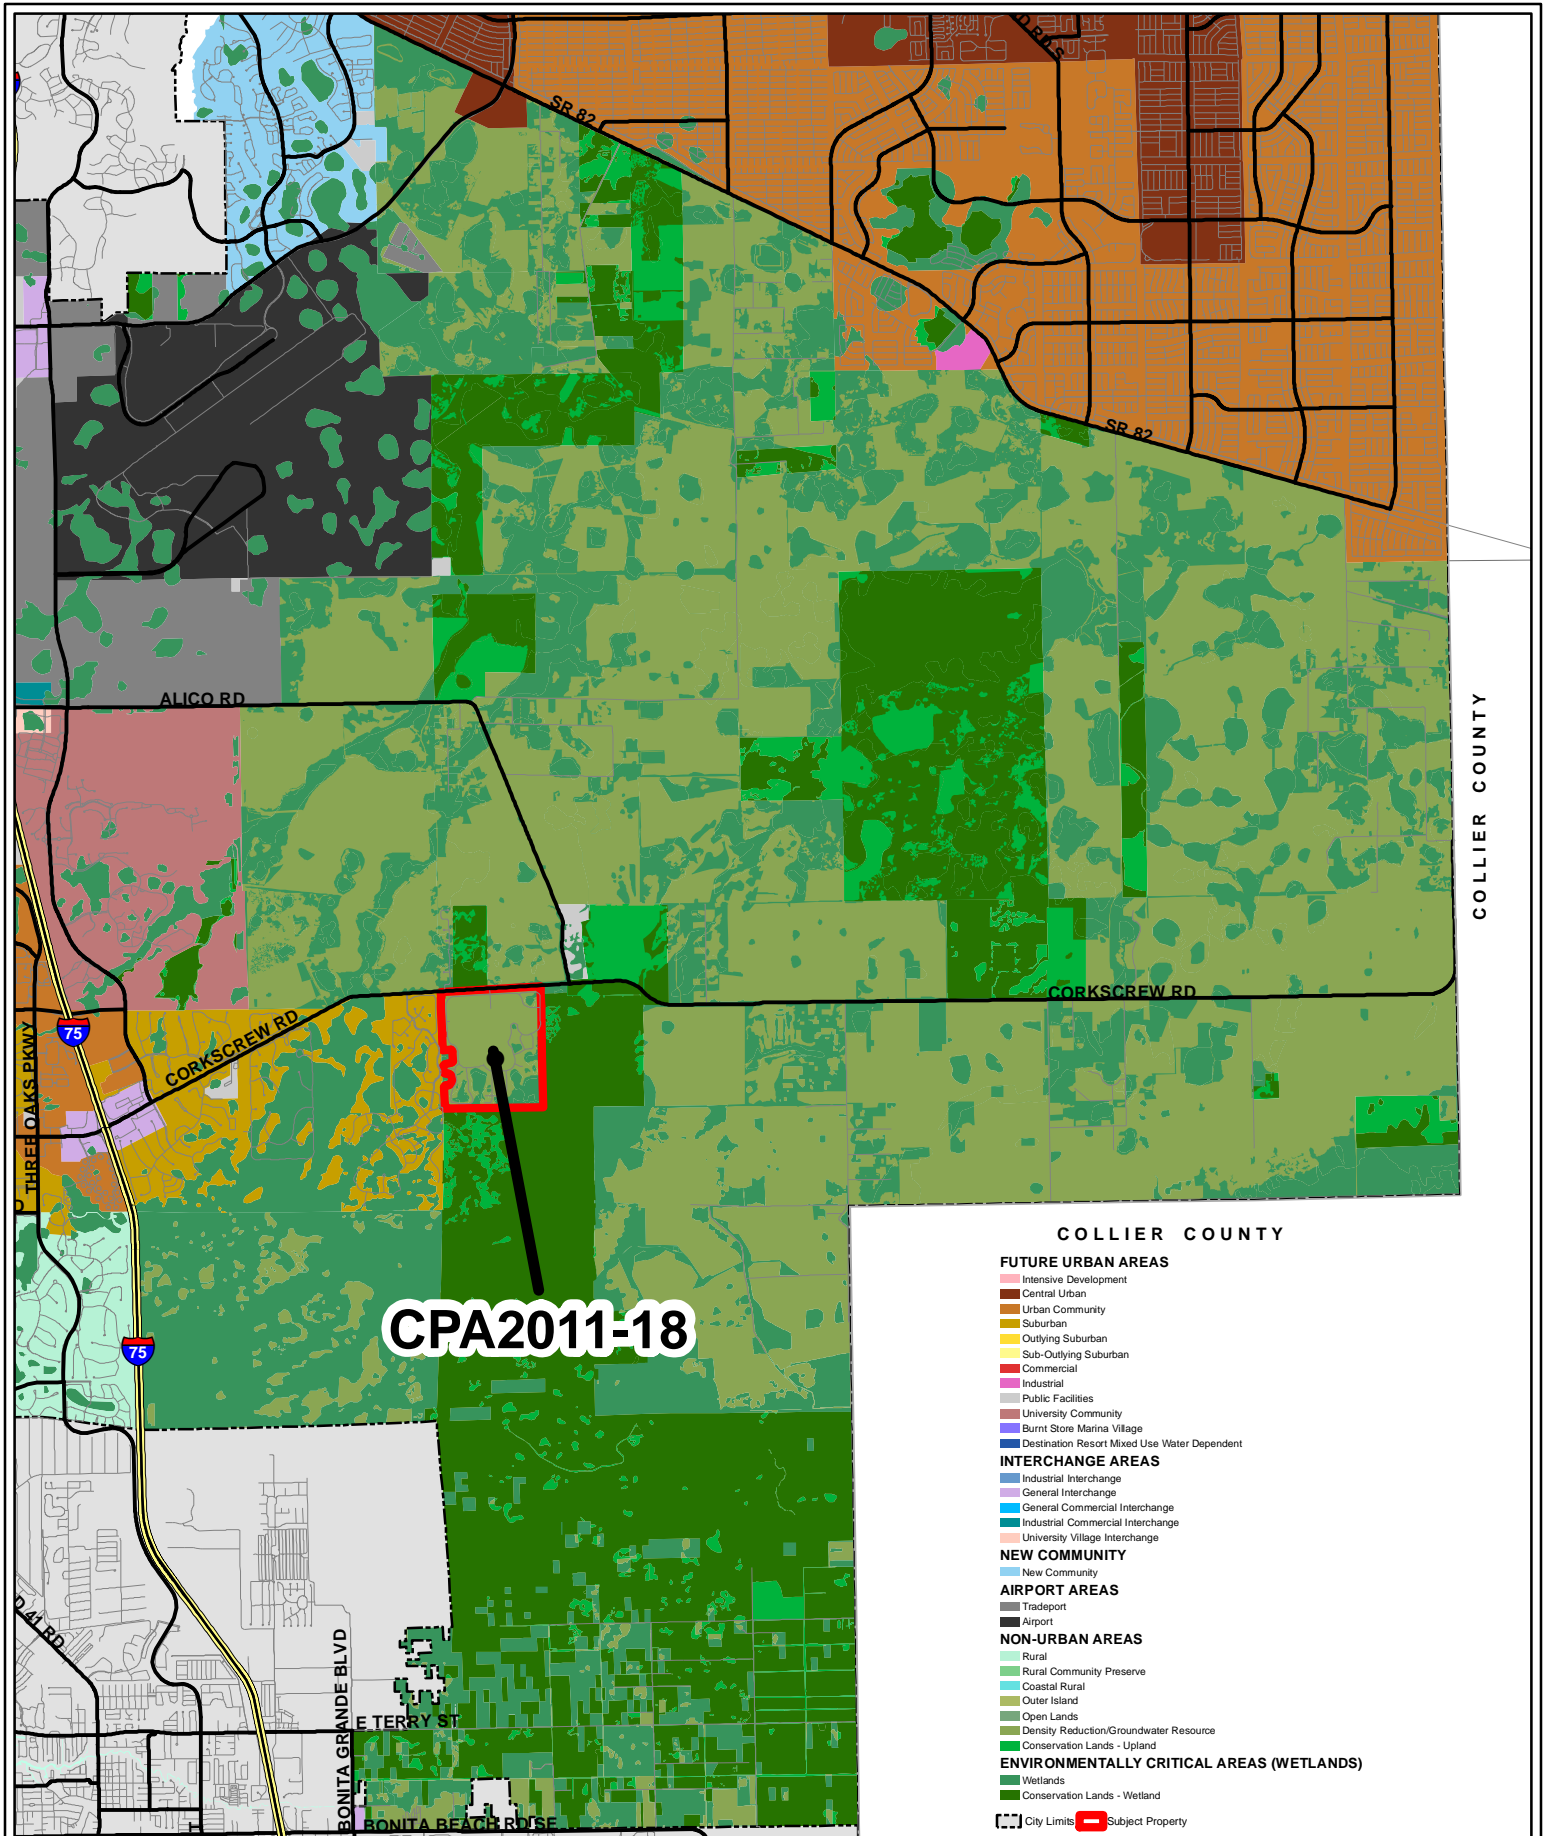

The Lee Tran Transit Development Plan and Vision Plan do not identify public transit routes (existing and future) serving the project area. The closest public transit facility is Lee Tran Route 60 on Ben Hill Griffin Parkway, which is about 3 miles from the project.

There are no existing bicycle/pedestrian facilities in the project frontage on Corkscrew Road. The nearest pedestrian facility is a sidewalk which ends at School House Lane, approximately two miles west of the project. The nearest bicycle facility is designated bicycle lanes on Ben Hill Griffin Parkway. Lee Plan Map 3D, the Lee County Bikeways/Walkways Facility Plan, shows future undesignated bike lanes and sidewalk (shared use) facilities on Corkscrew Road in front of the project in the future.

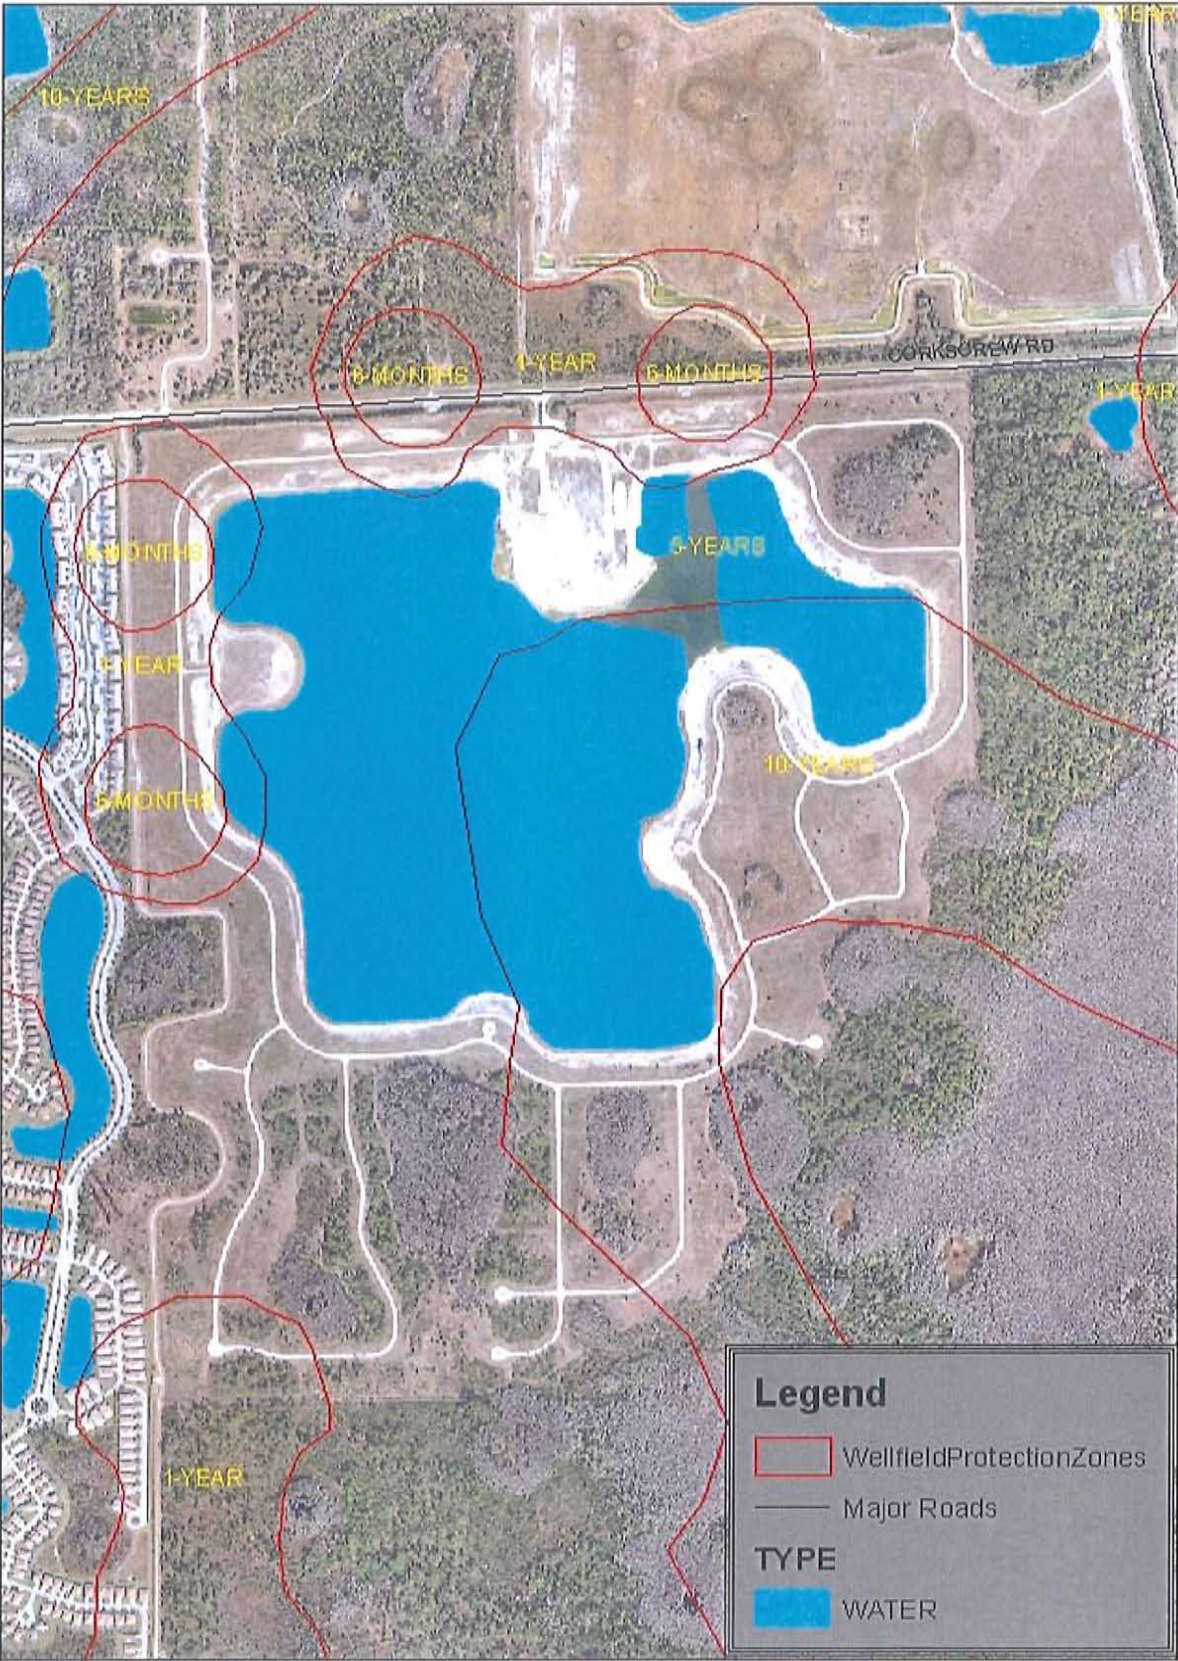

Please let me know if you have any further questions.

SECTION 1 SUMMARY

CORKSCREW WOODS COMPREHENSIVE PLAN AMENDMENT

The Corkscrew Woods Comprehensive Plan Amendment has been filed on behalf of the Cameratta Companies for the purpose of changing the future land use designation on approximately ± 611.28 acres. The Corkscrew Woods site is located near the Estero community on the south side of Corkscrew Road, adjacent to the Bella Terra development.

Corkscrew Woods is platted (vested) for 254 single family lots. The site has been partially cleared, graded and roadway base has been installed. There is an approximately ± 222 acre lake in the north-central portion of the property.

Three amendments are proposed:

First, an amendment to the future land use classifications from Density Reduction/Groundwater Resources and Wetlands to Suburban, Conservation (wetland and upland) and a portion of the site would remain in the Density Reduction/ Groundwater Resources.

Future Land Use	DR/GR	Wetland	Conservation		Suburban
			Wetland	Upland	
Current Acres +/-	602.36	119.76	0	0	0
Proposed Acres +/-	0	110.84	41.03	57.19	513.06

The Suburban Future Land Use Category will allow a maximum density of six dwelling units per acre. However, the request limits the maximum density to two dwelling units and recreational use on the ± 513.06 acres for a theoretical maximum of 1,021 single family homes. The Wetlands will allow a maximum density of 1 dwelling unit per 20 acres for a theoretical maximum of 2 single family homes. The Suburban and Wetland maximum density together is 1,023 single family units. The site is currently vested for 254 units; therefore the theoretical increase is for 769 dwelling units. The density is further limited by the proposed text amendments. Approximately ± 110 acres will remain within the DR/GR category in the southeast portion of the site. This area of the property is owned by the applicant and therefore is included in the request. However the applicant is not proposing to alter the Future Land Use designation.

Second, amendments to Lee Plan Maps 1, 6, 7, 16 are proposed to change the Future Land Use Category, include the property in the Estero Planning Area, expand Lee County Utilities water and wastewater service areas to include Corkscrew Woods, and remove the property from the Southeast Lee County Planning Community and place it in the Estero Planning Community.

Third, text amendments to Policies 1.1.5 and 1.4.6 are proposed. The amendment to Policy 1.1.5 would define and limit the requested density to the subject property. A minimum of 600 dwelling units and a maximum of 800 dwelling units would be allowed on the subject property. This maximum further caps the density from the allowable 1,023 dwelling units at 2 dwelling units an acre. The location of the density would also be limited to the subject property, ensuring that units not constructed could not be utilized by another property for a future request. Policy 1.4.6 establishes the requirement that the Upland Conservation area be restored and placed in a conservation easement. The amendment also includes language that the area can also be utilized in the future for passive recreation.

While the amendment will remove lands from the Density Reduction/Groundwater Resource classification the change must be considered in the context of a suburban-intensity vested plan of development, historic impacts to the site, physical improvements to the site, and the opportunity to improve the form of development, ensure central water wastewater treatment and enhance protection of natural resources.

This amendment will improve the existing vested authorization for single family residential development on the Corkscrew Woods property and further the goals of the Lee Plan:

1. There will be a significant expansion to conservation lands in the southern and southeastern portions of the property. Approximately ± 57.19 acres will be placed in the Upland Conservation category; currently this area is partially platted for residential use. The Upland Conservation will mesh with the ± 41.03 acres protected by the Wetland Conservation category and ± 110.84 remaining in the DR/GR resulting in ± 209.06 acres directly set aside for natural resource protection comprising together 29% of the site. These lands will supplant 39 vested single family lots and provide an expanded buffer of up to 2,082 feet to better complement CREW lands to the south and east.
2. The Suburban classification and additional, strengthened natural resource set-aside and will enable increased residential density and clustering of residential use thereby improving the efficient use of land and responding to market demands.
3. With the Suburban category it becomes practical to service the development with central water and central sewer and eliminate the ability to improve residential lots with septic

tanks. This is a very important benefit given the nearby location of Lee County water supply wells and natural resources.

4. By providing central potable water to the Corkscrew Woods development the subdivision could provide a westerly connection point for use by the existing Bella Terra development. This looping of the water system would benefit the existing residents and public safety by providing a second water access point and an increase in water flows.
5. The additional conservation lands will provide an ability to create an access drive and parking area for better access to CREW lands.
6. The Corkscrew Woods amendment will establish a transitional land use that completes and finalizes development east of I-75 on the south side of Corkscrew Road.

As demonstrated by the supporting application material, public facilities and services are adequate to serve the additional development potential and the amendment is consistent with the Lee Plan and does not promote the proliferation of urban sprawl.

To provide certainty the applicant is prepared to work with the Lee County on sub-area policies to better define allowable development. In addition, the applicant is anticipating a request for a concurrent zoning change pursuant to Section 163.3184(12), Florida Statutes.

II. REQUESTED CHANGE (Please see Item 1 for Fee Schedule)

A. TYPE: (Check appropriate type)

☒ Text Amendment

☒ Future Land Use Map Series Amendment
(Maps 1 thru 24)

List Number(s) of Map(s) to be amended:

1, 6, 7 and 16

1. Future Land Use Map amendments require the submittal of a complete list, map, and two sets of mailing labels of all property owners and their mailing addresses, for all property within 500 feet of the perimeter of the subject parcel. An additional set of mailing labels is required if your request includes a change to the Future Land Use Map (Map 1, page 1). The list and mailing labels may be obtained from the Property Appraisers office. The map must reference by number or other symbol the names of the surrounding property owners list. The applicant is responsible for the accuracy of the list and map.

E. Potential development of the subject property:

1. Calculation of maximum allowable development under existing FLUM:

Residential Units/Density	254 units/ .5 +/- units per acre
Commercial intensity	NA
Industrial intensity	NA

2. Calculation of maximum allowable development under proposed FLUM:

Residential Units/Density	1,023 units
Commercial intensity	NA
Industrial intensity	NA

IV. AMENDMENT SUPPORT DOCUMENTATION

At a minimum, the application shall include the following support data and analysis. These items are based on comprehensive plan amendment submittal requirements of the State of Florida, Department of Community Affairs, and policies contained in the Lee County Comprehensive Plan. Support documentation provided by the applicant will be used by staff as a basis for evaluating this request. To assist in the preparation of amendment packets, the applicant is encouraged to provide all data and analysis electronically. (Please contact the Division of Planning for currently accepted formats.)

A. General Information and Maps

NOTE: For each map submitted, the applicant will be required to provide a reduced map (8.5" x 11") for inclusion in public hearing packets.

The following pertains to all proposed amendments that will affect the development potential of properties (unless otherwise specified).

1. Provide any proposed text changes.
2. Provide a current Future Land Use Map at an appropriate scale showing the boundaries of the subject property, surrounding street network, surrounding designated future land uses, and natural resources.
3. Provide a proposed Future Land Use Map at an appropriate scale showing the boundaries of the subject property, surrounding street network, surrounding designated future land uses, and natural resources.
4. Map and describe existing land uses (not designations) of the subject property and surrounding properties. Description should discuss consistency of current uses with the proposed changes.
5. Map and describe existing zoning of the subject property and surrounding properties.
6. The certified legal description(s) and certified sketch of the description for the property subject to the requested change. A metes and bounds legal description must be submitted specifically describing the entire perimeter boundary of the property with accurate bearings and distances for every line. The sketch must be

tied to the state plane coordinate system for the Florida West Zone (North America Datum of 1983/1990 Adjustment) with two coordinates, one coordinate being the point of beginning and the other an opposing corner. If the subject property contains wetlands or the proposed amendment includes more than one land use category a metes and bounds legal description, as described above, must be submitted in addition to the perimeter boundary of the property for each wetland or future land use category.

7. A copy of the deed(s) for the property subject to the requested change.
8. An aerial map showing the subject property and surrounding properties.
9. If applicant is not the owner, a letter from the owner of the property authorizing the applicant to represent the owner.

B. Public Facilities Impacts

NOTE: The applicant must calculate public facilities impacts based on a maximum development scenario (see Part II.H.).

1. Traffic Circulation Analysis

The analysis is intended to determine the effect of the land use change on the Financially Feasible Transportation Plan/Map 3A (20-year horizon) and on the Capital Improvements Element (5-year horizon). Toward that end, an applicant must submit the following information:

Long Range – 20-year Horizon:

- a. Working with Planning Division staff, identify the traffic analysis zone (TAZ) or zones that the subject property is in and the socio-economic data forecasts for that zone or zones;
- b. Determine whether the requested change requires a modification to the socio-economic data forecasts for the host zone or zones. The land uses for the proposed change should be expressed in the same format as the socio-economic forecasts (number of units by type/number of employees by type/etc.);
- c. If no modification of the forecasts is required, then no further analysis for the long range horizon is necessary. If modification is required, make the change and provide to Planning Division staff, for forwarding to DOT staff. DOT staff will rerun the FSUTMS model on the current adopted Financially Feasible Plan network and determine whether network modifications are necessary, based on a review of projected roadway conditions within a 3-mile radius of the site;
- d. If no modifications to the network are required, then no further analysis for the long range horizon is necessary. If modifications are necessary, DOT staff will determine the scope and cost of those modifications and the effect on the financial feasibility of the plan;
- e. An inability to accommodate the necessary modifications within the financially feasible limits of the plan will be a basis for denial of the requested land use change;
- f. If the proposal is based on a specific development plan, then the site plan should indicate how facilities from the current adopted Financially Feasible Plan and/or the Official Trafficways Map will be accommodated.

Short Range – 5-year CIP horizon:

- a. Besides the 20-year analysis, for those plan amendment proposals that include a specific and immediated development plan, identify the existing roadways serving the site and within a 3-mile radius (indicate laneage, functional classification, current LOS, and LOS standard);
 - b. Identify the major road improvements within the 3-mile study area funded through the construction phase in adopted CIP's (County or Cities) and the State's adopted Five-Year Work Program;
Projected 2030 LOS under proposed designation (calculate anticipated number of trips and distribution on roadway network, and identify resulting changes to the projected LOS);
 - c. For the five-year horizon, identify the projected roadway conditions (volumes and levels of service) on the roads within the 3-mile study area with the programmed improvements in place, with and without the proposed development project. A methodology meeting with DOT staff prior to submittal is required to reach agreement on the projection methodology;
 - d. Identify the additional improvements needed on the network beyond those programmed in the five-year horizon due to the development proposal.
2. Provide an existing and future conditions analysis for (see Policy 95.1.3):
- a. Sanitary Sewer
 - b. Potable Water
 - c. Surface Water/Drainage Basins
 - d. Parks, Recreation, and Open Space
 - e. Public Schools.

Analysis should include (but is not limited to) the following (see the Lee County Concurrency Management Report):

- Franchise Area, Basin, or District in which the property is located;
- Current LOS, and LOS standard of facilities serving the site;
- Projected 2030 LOS under existing designation;
- Projected 2030 LOS under proposed designation;
- Existing infrastructure, if any, in the immediate area with the potential to serve the subject property.
- Improvements/expansions currently programmed in 5 year CIP, 6-10 year CIP, and long range improvements; and
- Anticipated revisions to the Community Facilities and Services Element and/or Capital Improvements Element (state if these revisions are included in this amendment).
- Provide a letter of service availability from the appropriate utility for sanitary sewer and potable water.

In addition to the above analysis for Potable Water:

- Determine the availability of water supply within the franchise area using the current water use allocation (Consumptive Use Permit) based on the annual average daily withdrawal rate.
- Include the current demand and the projected demand under the existing designation, and the projected demand under the proposed designation.
- Include the availability of treatment facilities and transmission lines for reclaimed water for irrigation.
- Include any other water conservation measures that will be applied to the site (see Goal 54).

3. Provide a letter from the appropriate agency determining the adequacy/provision of existing/proposed support facilities, including:
 - a. Fire protection with adequate response times;
 - b. Emergency medical service (EMS) provisions;
 - c. Law enforcement;
 - d. Solid Waste;
 - e. Mass Transit; and
 - f. Schools.

In reference to above, the applicant should supply the responding agency with the information from Section's II and III for their evaluation. This application should include the applicant's correspondence to the responding agency.

C. Environmental Impacts

Provide an overall analysis of the character of the subject property and surrounding properties, and assess the site's suitability for the proposed use upon the following:

1. A map of the Plant Communities as defined by the Florida Land Use Cover and Classification system (FLUCCS).
2. A map and description of the soils found on the property (identify the source of the information).
3. A topographic map depicting the property boundaries and 100-year flood prone areas indicated (as identified by FEMA).
4. A map delineating the property boundaries on the Flood Insurance Rate Map effective August 2008.
5. A map delineating wetlands, aquifer recharge areas, and rare & unique uplands.
6. A table of plant communities by FLUCCS with the potential to contain species (plant and animal) listed by federal, state or local agencies as endangered, threatened or species of special concern. The table must include the listed species by FLUCCS and the species status (same as FLUCCS map).

D. Impacts on Historic Resources

List all historic resources (including structure, districts, and/or archeologically sensitive areas) and provide an analysis of the proposed change's impact on these resources. The following should be included with the analysis:

1. A map of any historic districts and/or sites, listed on the Florida Master Site File, which are located on the subject property or adjacent properties.
2. A map showing the subject property location on the archeological sensitivity map for Lee County.

E. Internal Consistency with the Lee Plan

1. Discuss how the proposal affects established Lee County population projections, Table 1(b) (Planning Community Year 2030 Allocations), and the total population capacity of the Lee Plan Future Land Use Map.

2. List all goals and objectives of the Lee Plan that are affected by the proposed amendment. This analysis should include an evaluation of all relevant policies under each goal and objective.
 3. Describe how the proposal affects adjacent local governments and their comprehensive plans.
 4. List State Policy Plan and Regional Policy Plan goals and policies which are relevant to this plan amendment.
- F. Additional Requirements for Specific Future Land Use Amendments
1. Requests involving Industrial and/or categories targeted by the Lee Plan as employment centers (to or from)
 - a. State whether the site is accessible to arterial roadways, rail lines, and cargo airport terminals,
 - b. Provide data and analysis required by Policy 2.4.4,
 - c. The affect of the proposed change on county's industrial employment goal specifically policy 7.1.4.
 2. Requests moving lands from a Non-Urban Area to a Future Urban Area
 - a. Demonstrate why the proposed change does not constitute Urban Sprawl. Indicators of sprawl may include, but are not limited to: low-intensity, low-density, or single-use development; 'leap-frog' type development; radial, strip, isolated or ribbon pattern type development; a failure to protect or conserve natural resources or agricultural land; limited accessibility; the loss of large amounts of functional open space; and the installation of costly and duplicative infrastructure when opportunities for infill and redevelopment exist.
 3. Requests involving lands in critical areas for future water supply must be evaluated based on policy 2.4.2.
 4. Requests moving lands from Density Reduction/Groundwater Resource must fully address Policy 2.4.3 of the Lee Plan Future Land Use Element.
- G. Justify the proposed amendment based upon sound planning principles. Be sure to support all conclusions made in this justification with adequate data and analysis.

Item 1: Fee Schedule

Map Amendment Flat Fee	\$2,000.00 each
Map Amendment > 20 Acres	\$2,000.00 and \$20.00 per 10 acres
Small Scale Amendment (10 acres or less)	\$1,500.00 each
Text Amendment Flat Fee	\$2,500.00 each

AFFIDAVIT

I, Nicholas Cameratta, certify that I am the owner or authorized representative of the property described herein, and that all answers to the questions in this application and any sketches, data, or other supplementary matter attached to and made a part of this application, are honest and true to the best of my knowledge and belief. I also authorize the staff of Lee County Community Development to enter upon the property during normal working hours for the purpose of investigating and evaluating the request made through this application.

SPECIAL WARRANTY DEED

THIS INDENTURE, effective as of the 13 day of December, 2011 between **RMC FLORIDA GROUP, LTD**, a United Kingdom Private limited company, whose address is 1501 Belvedere Road, West Palm Beach, Florida 33406, ("Grantor") and **RCS-CORKSCREW LAKES, LLC**, a Colorado limited liability company, whose address is c/o Real Capital Solutions, att: Sharon Eshima, 1450 Infinite Drive, Suite E2, Louisville, CO 80027, hereinafter called ("Grantee").

That Grantor, for and in consideration of the sum of Ten and No/100 U.S. Dollars (\$10.00), lawful money of the United States of America, to it in hand paid by the Grantee, at or before the unsealing and delivery of these presents, the receipt of which is hereby acknowledged, has granted, bargained, sold, alienated, remised, released, conveyed and confirmed and by these presents does grant, bargain, sell, alien, remise, release, convey and confirm unto the Grantee and its successors and assignees forever, the following parcel of land (the "Property"), situate, lying and being in the County of Lee, State of Florida, and more particularly described as follows:

All of the land encompassed in the Plat of Corkscrew Woods, as recorded at Official Instrument Number 2007000289772 of the Public Records of Lee County, Florida.

SUBJECT, HOWEVER, TO THE FOLLOWING:

Real property taxes and assessments for 2012, and for subsequent years;

Zoning and other regulatory laws and ordinances affecting the Land.

The restrictions set forth in **Exhibit "A"** attached hereto which restrictions are hereby imposed upon the Property as a covenant running with the land. Easements, reservations, restrictions, rights of way as set forth on Schedule B attached hereto.

TOGETHER with all and singular the tenements, hereditaments and appurtenances thereunto belonging or in any way appertaining.

TO HAVE AND TO HOLD the same in fee simple forever.

AND the Grantor hereby covenants with said Grantee that the Grantor is lawfully seized of the Property hereby conveyed in fee simple; that it has good right and lawful authority to sell and convey said Property; that it hereby specially warrants the title to said Property and will defend the same against the lawful claims of all persons whomsoever claiming by, through or under Grantor.

IN WITNESS WHEREOF, the said Grantor has caused these presents to be executed in its name, by its proper officers, and its corporate seal to be affixed, the day and year first above written.

EXHIBIT "A"

RESTRICTIVE COVENANTS AND CONDITIONS

Following the recording of this deed, neither the Property, nor any portion thereof, shall be used, developed or operated, for the purpose of producing, manufacturing, selling or distributing ready-mix concrete, concrete aggregates, fly ash, slag, cement, concrete block, pipe, cementitious material or other products or services competitive with those sold or furnished by Grantor (the "Use Restriction"). The Use Restriction shall run with the land and be binding on Grantee and its successors and assigns.

Grantor shall have the right to enforce, by proceedings at law or in equity, the Use Restriction, and the right to recover damages or other amounts due for violation thereof. Grantee acknowledges that breach of the Use Restriction would cause immediate and irreparable harm to Grantor for which money damages may be inadequate. Grantor shall therefore be entitled to an injunctive relief for any breach by Grantee of the Use Restriction without proof of actual damages and without the posting of a bond or other security. Such remedy shall not be deemed to be the exclusive remedy for a breach of the Use Restriction, and shall be in addition to all other remedies available to Grantor at law or in equity.

SCHEDULE "B"

1. Matters contained in Lee County Ordinance No. 86-14 pertaining to garbage and solid waste collection, recorded in Official Records Book 2189, page 3281, as amended by Ordinance No. 86-38 recorded in Official Records Book 2189, page 3334.
2. Perpetual Easement Grant for water utility purposes granted to Lee County recorded in Official Records Book 2804, page 2020.
3. Easement granted to Florida Power & Light Company recorded in Official Records Book 2835, page 9.
4. The land described herein lies within the Estero Fire Prevention and Rescue Service District, as evidenced by the Affidavit and Agreement recorded in Official Records Book 2339, page 2108.
5. Terms, covenants, conditions, restrictions and easements created by and set forth in the Deed of Conservation Easement to South Florida Water Management District recorded in Official Records Book 3281, page 2720.
6. Terms, covenants, conditions, restrictions and easements created by and set forth in the Declaration of Covenants and Restrictions of Corkscrew Woods recorded at Instrument No. 20070287872, as amended, including, but not limited to, provisions for private charges or assessments and liens for liquidated damages; but omitting any covenants or restrictions, if any, based upon race, color, religion, sex, sexual orientation, familial status, marital status, disability, handicap, national origin, ancestry, or source of income, as set forth in applicable state or federal laws, except to the extent that said covenant or restriction is permitted by applicable law.
7. Restrictions, dedications and easements shown on the plat of Corkscrew Woods recorded at Official Records Instrument Number 2007000289772.

April 23, 2009

Re: DHR No.: 2008-06191B
Additional Info. Received: April 22, 2009
Application No.: 080827-7
Applicant: Cemex Construction Materials Pacific, LLC
Project: Corkscrew Woods
Lee County

Dear Ms. Layman:

Our office received the required map and reviewed the referenced project in accordance with Chapters 267 and 373, *Florida Statutes*, Florida's Coastal Management Program, and implementing state regulations, for possible impact to historic properties listed, or eligible for listing, in the *National Register of Historic Places*, or otherwise of historical, architectural or archaeological value. The State Historic Preservation Officer is to advise and assist state and federal agencies when identifying historic properties, assessing effects upon them, and considering alternatives to avoid or minimize adverse effects.

Our review of the Florida Master Site File indicates that no significant archaeological or historical resources are recorded within the project area. Furthermore, because of the location and/or nature of the projects it is unlikely that any such site will be affected.

If there are any questions concerning our comments or recommendations, please contact Katherine Peterson, Historic Sites Specialist, by phone at (850) 245-6333, or by electronic mail at kdpeterson@dos.state.fl.us. We appreciate your continued interest in protecting Florida's historic properties.

Sincerely,

Frederick P. Gaske, Director, and
State Historic Preservation Officer

SECTION 3 TEXT CHANGES

Policy 1.1.5: The Suburban areas are or will be predominantly residential areas that are either on the fringe of the Central Urban or Urban Community areas or in areas where it is appropriate to protect existing or emerging residential neighborhoods. These areas provide housing near the more urban areas but do not provide the full mix of land uses typical of urban areas. The standard residential densities are the same as the Urban Community category. Higher densities, commercial development greater than neighborhood centers, and industrial land uses are not permitted. Bonus densities are not allowed.

1. For property South of Corkscrew Road in Section 21, Township 46S, Range 26E and Section 28, Township 46S, Range 26E of the Estero Area subject to CPA 2011-00018:
 - a. The property may be developed at a density of two dwelling units per acre (as limited herein), permitted through the planned development zoning process, in which the residential development is clustered.
 - b. A maximum of eight hundred (800) dwelling units and minimum of Six hundred (600), along with accessory uses, accessory recreation uses and ancillary commercial uses are permitted on ±513 acres through the use of clustering and the planned development zoning process. Any development in excess of 600 units will connect to public utilities.

Policy 1.4.6: The Conservation lands include uplands and wetlands that are owned and used for long range conservation purposes. Upland and wetland conservation lands will be shown as separate categories on the FLUM. Upland Conservation lands will be subject to the provisions of this policy. Wetland conservation lands will be subject to the provisions of both the Wetlands category described in Objective 1.5 and the Conservation Lands Category described in this policy. The most stringent provisions of either category will apply to wetlands conservation lands. Conservation lands will include all public lands required to be used for conservation purposes by some type of legal mechanism such as statutory requirements, funding and/or grant conditions, and mitigation uses as wildlife preservers; wetland and upland mitigation areas and banks; natural resource based parks; ancillary uses for environmental research and education, historic and cultural preservation, and natural resource based parks (such as signage, parking facilities, caretaker quarters, interpretive kiosks, research centers, and quarters, and other associated support services); and water conservation lands such as aquifer recharge areas, flowways, flood prone areas, and well fields. 2020 lands designated as conservation are also subject to more stringent provisions of the 2020 program or the 2020 ordinances.

1. For property South of Corkscrew Road in Section 21, Township 46S, Range 26E and Section 28, Township 46S, Range 26E of the Estero Area subject to CPA 2011-00018:

- a. The areas designated 'Upland Conservation,' will be subject to a restoration plan as part of the planned development zoning approval, can be used for passive recreation, and will be subject to a conservation easement established as part of the local development order.

CORKSCREW WOODS

A SUBDIVISION LYING IN
SECTIONS 21 & 28, TOWNSHIP 46 SOUTH, RANGE 26 EAST,
LEE COUNTY, FLORIDA

INSTRUMENT NO. **2007000289772**

SHEET 3 OF 18

DETAIL "A"
NOT TO SCALE

DETAIL "B"
NOT TO SCALE

NOTE
MANY OF THE CORNERS OF THIS SUBDIVISION WERE OBSTRUCTED BY THE PRESENCE OF AN
EXISTING FENCE THAT LIES ALONG THE WESTERN BOUNDARY. 4" X 4" CONCRETE
MONUMENTS WITH ALUMINUM DISKS WERE SET AS WITHIN 5' TO THE CORNERS. THE
CONCRETE MONUMENTS WERE STAMPED "ADA 8811 S" WITHIN 5' OF THE CORNERS
AND ALSO STAMPED ON THE DISK.

CORKSCREW WOODS

A SUBDIVISION LYING IN
SECTIONS 21 & 28, TOWNSHIP 46 SOUTH, RANGE 26 EAST,
LEE COUNTY, FLORIDA

INSTRUMENT NO. **2007000289772**

SHEET 7 OF 18

- LEGEND:
- ▲ = SET P.C.P. & S.G.P. (PERMANENT CONTROL POINTS)
 - = SET P.M. (PERMANENT REFERENCE MONUMENTS)
 - = SET MONUMENT AND CAP (P.M.)
 - = FOUND IRON ROD AND CAP (P.M.)
 - = FOUND CONCRETE MONUMENT (P.M.)
 - P.U.E. = PUBLIC UTILITY EASEMENT
 - P.O.C. = POINT OF COMMENCEMENT
 - P.O.B. = POINT OF BEGINNING
 - C.R. = COUNTY RECORDS
 - L.M.E. = LAKE MAINTENANCE EASEMENT
 - D.E. = DRAINAGE EASEMENT
 - U.E. = UTILITY EASEMENT
 - O.R. = OFFICIAL RECORDS
 - N.R. = INTERNAL
 - R.O. = ROAD
 - P.B. = PLAT BOOK
 - [Symbol] = DESIGNATION OF CURVE SHOWN IN CURVE TABLE
 - [Symbol] = DESIGNATION OF LINE SHOWN IN LINE TABLE
 - Q = CENTERLINE
 - [Symbol] = RADIAL
 - [Symbol] = NON-RADIAL
 - R.W. = RIGHT-OF-WAY

NOTE:
MANY OF THE CORNERS OF THIS SUBDIVISION WERE OBTAINED BY THE PRESENCE OF AN EXISTING FENCE THAT LIES ALONG THE WESTERN BOUNDARY. 4" X 4" CONCRETE MONUMENTS WITH ALUMINUM DISCS WERE SET AS WITNESSES TO THE CORNERS. THE CONCRETE MONUMENTS WERE STAMPED "M&B" & "P&B" WITH THE OFFSET VALUE ALSO STAMPED ON THE SIDE.

NOTE: MANY OF THE CORNERS OF THIS SUBDIVISION WERE OBSCURED BY THE PRESENCE OF AN EXISTING FENCE THAT LIES ALONG THE WESTERLY BOUNDARY. 4" X 4" CONCRETE MONUMENTS WITH ALUMINUM DISKS WERE SET AS WITNESSES TO THE CORNERS. THE CONCRETE MONUMENTS WERE STAMPED "SELA MAY 5 1978" AND WITH THE OFFICE VALUE ALSO STAMPED ON THE GASK.

DDOS90-04-005.000 / PLT2007-00003

NOTE:
MANY OF THE CORNERS OF THIS SUBDIVISION WERE OBSTRUCTED BY THE PRESENCE OF AN EXISTING FENCE THAT LIES ALONG THE WESTERLY BOUNDARY. 4" X 4" CONCRETE MONUMENTS WITH ALUMINUM DISKS WERE SET AS WITNESSES TO THE CORNERS. THE CONCRETE MONUMENTS WERE STAMPED "MCA 689" & WITNESS PRIME WITH THE OFFSET VALUE AS ALSO STAMPED ON THE DISK.

LEGEND:

- ▲ = SET # C.B. L.B. 6001 (PERMANENT CONTROL)
- = SET # 30 (PERMANENT REFERENCE MARK)
- = SET # 60 IRON ROD AND CAP L.B. 6001
- = FOUND IRON ROD AND CAP # 1 (R.C.)
- = FOUND CONCRETE MONUMENT (F.C.M.)
- P.U.E. = PUBLIC UTILITY EASEMENT
- P.O.C. = POINT OF COMMENCEMENT
- P.O.B. = POINT OF BEGINNING
- L.C.R. = LANCE COUNTY RECORDS
- L.M.E. = LANCE MAINTENANCE EASEMENT
- D.E. = DRAINAGE EASEMENT

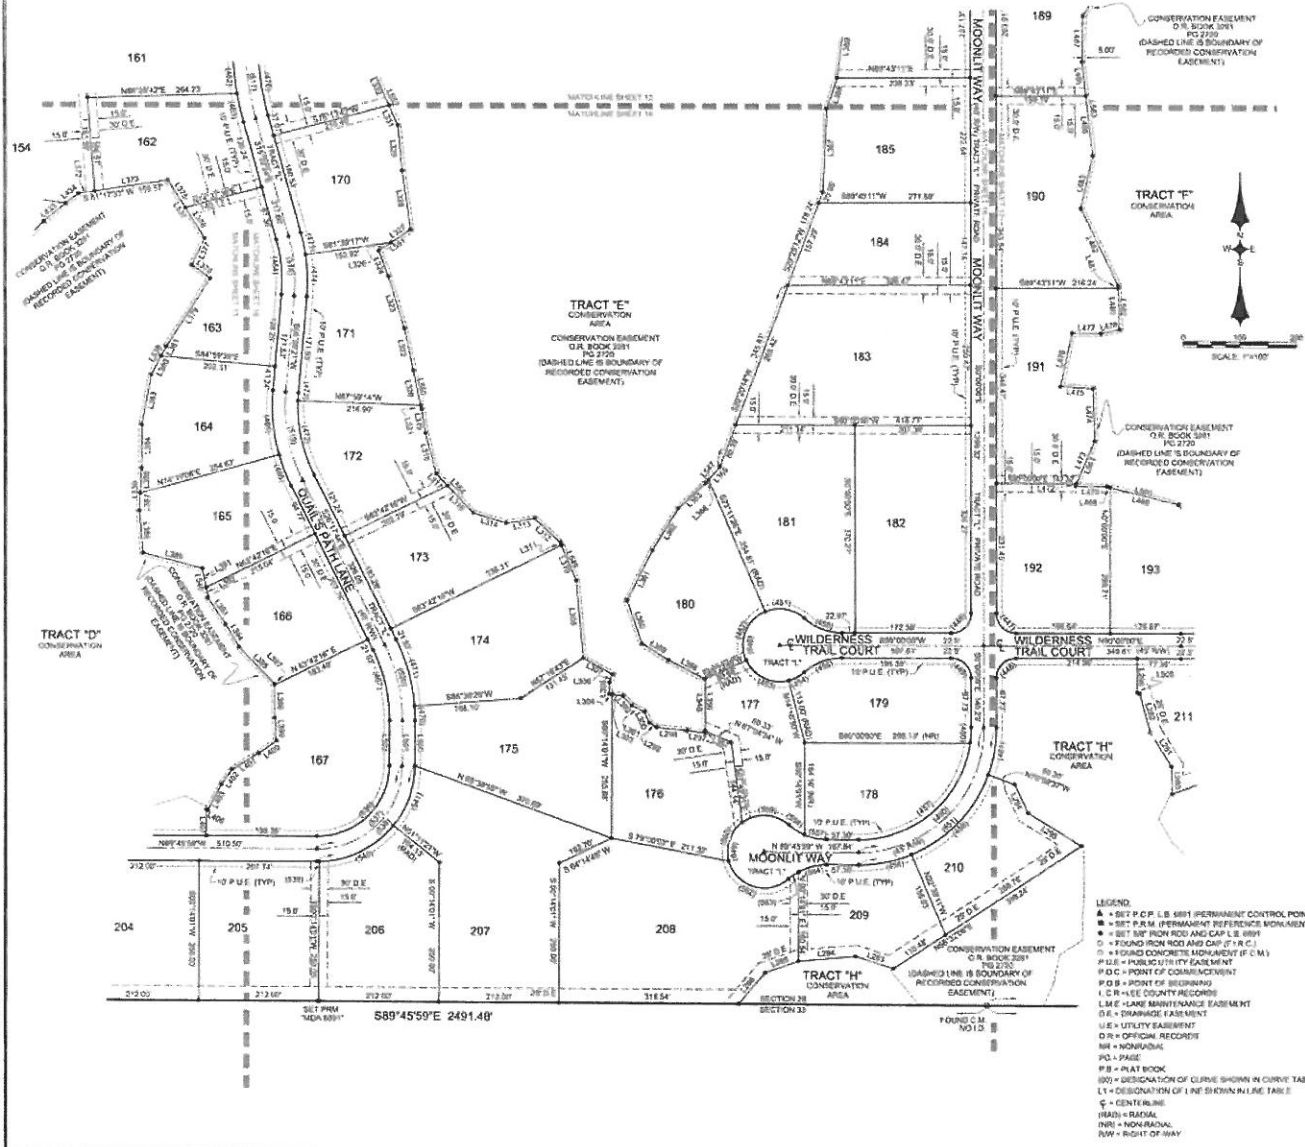

U.E. = UTILITY EASEMENT
O.R. = OFFICIAL RECORDS
N.R. = NON-RADIAL
P.D. = PAVE
B = PLAT BOOK
(C) = DESIGNATION OF CURVE SHOWN IN CURVE TABLE
L1 = DESIGNATION OF LINE SHOWN IN LINE TABLE
C = CENTERLINE
RAD1 = RADIAL
N.R1 = NON-RADIAL
R.W. = RIGHT-OF-WAY

DO590-04-005 000 / PLT2007-00003

NOTES:

1. THERE ARE NO EXISTING BUILDINGS OR STRUCTURES ON SITE.
2. THE SITE IS CURRENTLY ZONED AG-2.
3. THERE ARE NO EXISTING PUBLIC UTILITIES ON SITE.
4. THERE ARE EXISTING LEE COUNTY UTILITY MONITORING WELLS IN THE MIDDLE OF THE SITE TO BE RELOCATED. THERE WILL BE PRODUCTION WELLS ALONG THE NORTH AND WEST PROPERTY LINE.
5. THE 100 YEAR FLOOD ELEVATION, WITH ZERO DISCHARGE, IS ELEVATION 20.2' NAVD.
6. MINIMUM ELEVATION OF THE ROAD CENTERLINE IS 20.25'.
7. THE SITE IS SAFE FOR BUILDING PURPOSES BASED ON REVIEW OF FEMA FLOOD MAPS, USGS SOIL MAP FOR LEE COUNTY, AND SURVEY TESTING.
8. ALL CONSTRUCTION SHALL BE IN ACCORDANCE WITH LATEST STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION, WHERE APPLICABLE.
9. A 15' DRAINAGE AND PUBLIC UTILITY EASEMENT IS LOCATED ALONG BOTH SIDES OF ALL INTERNAL ROADS. SEE CROSS-SECTIONS FOR ADDITIONAL INFORMATION.
10. A 30' DRAINAGE EASEMENT (15' EITHER SIDE OF LOT) IS LOCATED ALONG SPECIFIED SIDE LOT LINES. THE REMAINDER OF THE LOTS HAVE A 15' DRAINAGE EASEMENT (7.5' EITHER SIDE OF LOT). ALL LOTS HAVE A 15' (7.5' EITHER SIDE OF LOT) UTILITY EASEMENT.
11. COMMON AREAS ADJACENT TO WETLAND PRESERVES HAVE A 25' UPLAND BUFFER.
12. LOT ADJACENT TO WETLAND PRESERVE SHALL HAVE A 5' SET BACK FENCE. THE FENCE SHALL BE LOCATED 5' INLAND OF THE WETLAND PRESERVE.
13. A 25' OR 50' DRAINAGE EASEMENT IS LOCATED AROUND THE PERIMETER OF THE PROPERTY AS SHOWN.
14. EXCAVATION WILL BE SET NO DRAINAGE REQUIRED.
15. THERE WILL BE NO EXCAVATION WITHIN 200' OF ANY WETLAND SETBACK AREA.
16. PHASE 1: CONSTRUCT PERIMETER FENCE, PROJECT CONTROL STRUCTURE. ALL PHASE 1 WETLANDS ARE TO BE PRESERVED.
17. PHASE 2: FENCE CONSTRUCTION OF LAKE, DEVELOPMENT OF ROADS, UTILITIES, AND BALANCE OF STORM WATER MANAGEMENT SYSTEM.
18. WET DETENTION CONTROL ELEVATION = 17.50'
19. MINIMUM CENTERLINE OF ROADWAY SHOULDER = 18.00'
20. MINIMUM TOP OF PERMITS BERM = 20.5'
21. MINIMUM FINISHED FLOOR ELEVATION = 21.00'
22. MAINTENANCE OF EXISTING VEGETATION IN THE WETLAND PRESERVE, WETLAND ENHANCEMENT AREAS, AND UPLAND BUFFER AREAS SHALL BE CONDUCTED IN PERPETUITY TO ENSURE THAT THE WETLANDS AND BUFFER ARE FREE OF EXOTIC VEGETATION (BRASSICA PERENNIALS, MIMULUS, AUSTRALIAN PINE, CLAMMING PINE, ETC.) IMMEDIATELY FOLLOWING A MAINTENANCE ACTIVITY AND THAT AERIAL COVERAGE IS NO MORE THAN 5% OF THE TOTAL PRESERVE AREAS BETWEEN MAINTENANCE ACTIVITIES.
23. EASEMENTS, CONVEYERS, STRUCTURES, ETC. TO BE SHOWN IN MORE DETAIL ON PAVING, GRADING & UTILITY PLANS.

DESCRIPTION

WETLAND NO. 1

(COPIED FROM O.R. BOOK 3281, PAGE 2720)

A TRACT OR PARCEL OF LAND SITUATED IN SECTION 21, TOWNSHIP 46 SOUTH, RANGE 26 EAST, LEE COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

COMMENCING AT THE SOUTHEAST CORNER OF SAID SECTION 21, THENCE N89°43'28"W ALONG THE SOUTH LINE OF SAID SECTION 21 A DISTANCE OF 521.37 FEET; THENCE N00°16'32"E FOR 19.22 FEET TO THE POINT OF BEGINNING; THENCE N85°26'13"W FOR 90.06 FEET; THENCE N62°01'21"W FOR 51.55 FEET; THENCE N62°30'50"W FOR 87.74 FEET; THENCE N63°58'28"W FOR 50.10 FEET; THENCE N11°00'59"W FOR 66.67 FEET; THENCE N07°39'06"W FOR 40.78 FEET; THENCE S87°15'54"W FOR 87.97 FEET; THENCE N17°10'21" W FOR 86.11 FEET; THENCE N04°22'06"W FOR 102.97 FEET; THENCE N29°13'16"E FOR 105.10 FEET; THENCE N49°39'16"E FOR 146.34 FEET; THENCE S83°38'38"E FOR 63.10 FEET; THENCE S81°01'20"E FOR 135.77 FEET; THENCE S58°21'33"E FOR 64.66 FEET; THENCE N76°39'53"E FOR 45.17 FEET; THENCE N30°35'47"E FOR 45.24 FEET; THENCE N17°01'45"E FOR 86.38 FEET; THENCE S33°43'50"E FOR 89.04 FEET; THENCE S86°44'32"E FOR 44.27 FEET; THENCE N50°34'24"E FOR 58.33 FEET; THENCE S76°31'55"E FOR 95.53 FEET; THENCE S14°30'26"W FOR 62.13 FEET; THENCE S82°31'44"W FOR 55.38 FEET; THENCE S82°38'14"W FOR 39.49 FEET; THENCE S35°05'12"W FOR 77.14 FEET; THENCE S14°32'18"W FOR 46.78 FEET; THENCE S09°48'55"W FOR 86.63 FEET; THENCE S08°58'27"E FOR 40.29 FEET; THENCE S49°23'40"W FOR 36.27 FEET; THENCE S24°16'50"W 40.33 FEET; THENCE S21°01'41"W FOR 60.11 FEET; THENCE S76°39'58"W 68.86 FEET; S05°07'15"W FOR 59.06 FEET; THENCE S20°24'19"W FOR 83.01 FEET TO SAID POINT OF BEGINNING.

CONTAINING 5.81 ACRES, MORE OR LESS.

NOTE:

WETLAND NO. 1 IS LOCATED WITHIN "TRACT B" OF "CORKSCREW WOODS" A SUBDIVISION RECORDED AS CLERK'S INSTRUMENT NUMBER 2007000289772, PUBLIC RECORDS OF LEE COUNTY, FLORIDA,
