RE: Fiddlesticks Blvd
Case # CPA2011-00020

Dear Mr. Dunn:

This letter is in response to your request dated October 7, 2011 for the Fiddlesticks Blvd for sufficiency comments in reference to the educational impact. This proposed structure is located in the South Choice Zone, Sub Zone S2.

The Developers request states there is a possibility of 1182 single family units. With regard to the inter-local agreement for school concurrency the generation rates are created from the type of dwelling unit and further broken down by grade level.

For single family the generation rate is .299 and further broken down into the following, .150 for elementary, .072 for middle and .077 for high. A total of 353 school-aged children would be generated and utilized for the purpose of determining sufficient capacity to serve the development. Currently within the School District there are sufficient seats available to serve this need.

Thank you for your attention to this issue. If I may be of further assistance, please call me at (239) 479-5661.

Sincerely,

Dawn Huff, Community Development Planner
Planning Department
