COMMUNITY DEVELOPMENT

Marissa Fewell  
Comprehensive Development  
1500 Monroe St  
Ft Myers, FL 33901

Dear Ms. Fewell,

I live at 849 Belcher Rd. on Boca Grande, Fl for over 24 years. I lived there when the Florida Power and Lights oil tanks were there. I own the local Boca Beacon newspaper since 1988.

I have supported prior plans to sell the FP&L land to the state for more park and when the Island GICIA supported buying the land and keeping natural and part of the park or just island conservation.

I would supportive if one person bought the property and made one nice estate out of it. May two homes, but not much more.

I oppose the idea of a gated community with 20 homes next to our very quiet street. The State park can attract a boat load of people but at the end of the day they are ALL gone and it is a sleepy little island street again.

I like the native vegetation and would not like to see 20 homes with their special landscaping that would come with the private gated keep us out of their yard and beach community.

Again, I say NO to changing our street and the end of the island.
