Re: CPA 2015-00013

If the proposed Comp Plan changes effect any area other than specifically Pine Island due notice needs to be given to the residents of Lee County and presented as such. If changes need to be made to the Comp Plan and the LDC then it needs to be addressed as a separate issue as it effects al of Lee County.

I am concerned that the proposed changes to the Comp Plan in the Pine Island hearing have the potential to effect other islands in Lee County. As resident of San Carlos Island I object to any possible changes to the Comp Plan or LDC that would effect our Island without residents having the opportunity to voice their opinion.

If this hearing has the potential to change the language or intent of the Comp Plan that could affect all of Lee County proper notice should be given to the public. Other Comp Plan policies discourage increasing densities on islands or In the CHHA.

Please do not approve any changes outside the scope of Pine Island.

Thank you,

William J. Semmer
