Re: Alico Airpark – Comprehensive Plan Amendment
Case Number – CPA2011-00019

Dear Mr. Lehnert:

This letter is in reference to the Comprehensive Plan Amendment application CPA2011-00019, Alico Airpark, received by our office on September 28, 2011. The last activity on this case was on February 9, 2016 when the applicant scheduled a meeting with staff to discuss the proposed amendment. At this meeting the applicant requested a 60 day extension to submit a revised application. Staff agreed to provide the requested 60 day extension and advised the applicant that the case would be considered withdrawn due to inactivity on Monday, April 11, 2016 if the required additional information was not provided.

Your client's previous application for CPA2011-00019, Alico Airpark, has been deemed withdrawn because required supplemental or corrected documents were not received in a timely manner.

Your client is urged to take advantage of this opportunity to do a thorough and complete review of the development plans for the site, under today's conditions and rules, to define a project that takes advantage of the strategic location between Southwest Florida International Airport and Florida Gulf Coast University on Alico Road and the value of being located within the Tradeport land use designation. Please do not hesitate to call if you have any questions.

Sincerely,

Brandon D. Dunn, Principal Planner
Lee County Planning Section
