RE: Bay Harbor Marina Village DC12015-00015 and CPA2015-00005 and REZ2015-00009

**I AM A RESIDENT/PROPERTY OWNER OF SAN CARLOS ISLAND
AND I AM IN SUPPORT OF THIS PROJECT!!!**

I am tired of the way this Island has looked since Hurricane Charley took out Compass Rose! There is a lot of drug use that occurs on this Island. They seem to gather in areas that have been abandon, which there are many along Main Street. The sidewalks are filled with garbage. The businesses that use to be here are gone. The first 3 blocks of Main Street is not what I want the entrance to my neighborhood to look like! We need someone to come in and clean things up! We need better sidewalks and improved roads that we can walk down and not get splashed with water after it rains! We need storm water drainage! We need to get rid of the drug houses and the boarded up buildings!

I would prefer to look at a beautiful fountain lining Main St! I would welcome the sidewalks and the road improvements that are required by new construction. I would love to have more lighting to feel safe walking to San Carlos Boulevard. The businesses on our Island don't have enough parking and a parking garage would help open up all the closed businesses! There are no long term rentals available anymore so there isn't any place for people who work the service industries, teachers, firemen, Coast Guard, store employees to be able to afford to rent. The project can help so many things that hurt our Island! I hope to see this ugly area turn into something I will enjoy coming home to!

I'M IN FAVOR OF BAY HARBOUR MARINA VILLAGE!

Re: Bay Harbor Marina Village DC12015-00015 and CPA2015-00005 and REZ2015-00009

**I AM A BUSINESS OWNER/OPERATOR ON SAN CARLOS ISLAND
AND WE NEED THIS PROJECT!**

As a business owner/operator of San Carlos Island, I can see the need for the Bay Harbor Marina Village project. We use to be just a fishing village here but those businesses have long moved away. The few businesses that remain go in and out of business every other year. The street along San Carlos has more empty building than prosperous businesses. Most locations don't have enough parking to stay in business and those that are in business have to share parking under the bridge. There use to be more fishing business that have either moved further up San Carlos or completely shut done due to lack of business. The Channel Mark has changed names so often that you can't keep up. If they had parking they might have a chance! So much of San Carlos Island residents are only here half of the year! I would be great to have year round tenants to help support the businesses! The businesses also need places for the employee to park. With seasonal traffic and construction it would be so helpful for the employees to live close to where they work! The need for affordable housing in a tourist destination is huge! The improvements and the clean up that a new development would make to this Island would be tremendous!

I would love to have more lighting to feel safe walking to San Carlos Boulevard. The businesses on our Island don't have enough parking and a parking garage would help open up all the closed businesses! There are no long term rentals available anymore so there isn't any place for people who work the service industries, teachers, firemen, Coast Guard, store employees to be able to afford to rent. The project can help so many things that hurt our Island! I hope to see this ugly area turn into something I will enjoy coming home to!

I'M IN FAVOR OF BAY HARBOUR MARINA VILLAGE!

RE: Bay Harbor Marina Village DC12015-00015 and CPA2015-00005 and REZ2015-00009

**I AM A RESIDENT/PROPERTY OWNER OF SAN CARLOS ISLAND
AND I AM IN SUPPORT OF THIS PROJECT!!!**

I am tired of the way this Island has looked since Hurricane Charley took out Compass Rose! There is a lot of drug use that occurs on this Island. They seem to gather in areas that have been abandon, which there are many along Main Street. The sidewalks are filled with garbage. The businesses that use to be here are gone. The first 3 blocks of Main Street is not what I want the entrance to my neighborhood to look like! We need someone to come in and clean things up! We need better sidewalks and improved roads that we can walk down and not get splashed with water after it rains! We need storm water drainage! We need to get rid of the drug houses and the boarded up buildings!

I would prefer to look at a beautiful fountain lining Main St! I would welcome the sidewalks and the road improvements that are required by new construction. I would love to have more lighting to feel safe walking to San Carlos Boulevard. The businesses on our Island don't have enough parking and a parking garage would help open up all the closed businesses! There are no long term rentals available anymore so there isn't any place for people who work the service industries, teachers, firemen, Coast Guard, store employees to be able to afford to rent. Re: Bay Harbor Marina Village DC12015-00015 and CPA2015-00005 and REZ2015-00009

**I AM A BUSINESS OWNER/OPERATOR ON SAN CARLOS ISLAND
AND WE NEED THIS PROJECT!**

As a business owner/operator of San Carlos Island, I can see the need for the Bay Harbor Marina Village project. We use to be just a fishing village here but those businesses have long moved away. The few businesses that remain go in and out of business every other year. The street along San Carlos has more empty building than prosperous businesses. Most locations don't have enough parking to stay in business and those that are in business have to share parking under the bridge. There use to be more fishing business that have either moved further up San Carlos or completely shut done due to lack of business. The Channel Mark has changed names so often that you can't keep up. If they had parking they might have a chance! So much of San Carlos Island residents are only here half of the year! I would be great to have year round tenants to help support the businesses! The businesses also need places for the employee to park. With seasonal traffic and construction it would be so helpful for the employees to live close to where they work! The need for affordable housing in a tourist destination is huge! The improvements and the clean up that a new development would make to this Island would be tremendous!

**I AM A RESIDENT/PROPERTY OWNER OF SAN CARLOS ISLAND
AND I AM IN SUPPORT OF THIS PROJECT!!!**

I am tired of the way this Island has looked since Hurricane Charley took out Compass Rose! There is a lot of drug use that occurs on this Island. They seem to gather in areas that have been abandon, which there are many along Main Street. The sidewalks are filled with garbage. The businesses that use to be here are gone. The first 3 blocks of Main Street is not what I want the entrance to my neighbor to look like! We need someone to come in and clean things up! We need better sidewalks and improved roads that we can walk down and not get splashed with water after it rains! We need storm water drainage! We need to get rid of the drug houses and the boarded up buildings!

I would prefer to look at a beautiful fountain lining Main St! I would welcome the sidewalks and the road improvements that are required by new construction. I would love to have more lighting to feel safe walking to San Carlos Boulevard. The businesses on our Island don't have enough parking and a parking garage would help open up all the closed businesses! There are no long term rentals available anymore so there isn't any place for people who work the service industries, teachers, firemen, Coast Guard, store employees to be able to afford to rent. The project can help so many things that hurt our Island! I hope to see this ugly area turn into something I will enjoy coming home to!

I'M IN FAVOR OF BAY HARBOUR MARINA VILLAGE!

Re: Bay Harbor Marina Village DC12015-00015 and CPA2015-00005 and REZ2015-00009

**I AM A BUSINESS OWNER/OPERATOR ON SAN CARLOS ISLAND
AND WE NEED THIS PROJECT!**

As a business owner/operator of San Carlos Island, I can see the need for the Bay Harbor Marina Village project. We use to be just a fishing village here but those businesses have long moved away. The few businesses that remain go in and out of business every other year. The street along San Carlos has more empty building than prosperous businesses. Most locations don't have enough parking to stay in business and those that are in business have to share parking under the bridge. There use to be more fishing business that have either moved further up San Carlos or completely shut done due to lack of business. The Channel Mark has changed names so often that you can't keep up. If they had parking they might have a chance! So much of San Carlos Island residents are only here half of the year! I would be great to have year round tenants to help support the businesses! The businesses also need places for the employee to park. With seasonal traffic and construction it would be so helpful for the employees to live close to where they work! The need for affordable housing in a tourist destination is huge! The improvements and the clean up that a new development would make to this Island would be tremendous!

RE: Bay Harbor Marina Village DC12015-00015 and CPA2015-00005 and REZ2015-00009

**I AM A RESIDENT/PROPERTY OWNER OF SAN CARLOS ISLAND
AND I AM IN SUPPORT OF THIS PROJECT!!!**

I am tired of the way this Island has looked since Hurricane Charley took out Compass Rose! There is a lot of drug use that occurs on this Island. They seem to gather in areas that have been abandon, which there are many along Main Street. The sidewalks are filled with garbage. The businesses that use to be here are gone. The first 3 blocks of Main Street is not what I want the entrance to my neighborhood to look like! We need someone to come in and clean things up! We need better sidewalks and improved roads that we can walk down and not get splashed with water after it rains! We need storm water drainage! We need to get rid of the drug houses and the boarded up buildings!

I would prefer to look at a beautiful fountain lining Main St! I would welcome the sidewalks and the road improvements that are required by new construction. I would love to have more lighting to feel safe walking to San Carlos Boulevard. The businesses on our Island don't have enough parking and a parking garage would help open up all the closed businesses! There are no long term rentals available anymore so there isn't any place for people who work the service industries, teachers, firemen, Coast Guard, store employees to be able to afford to rent. The project can help so many things that hurt our Island! I hope to see this ugly area turn into something I will enjoy coming home to!

I'M IN FAVOR OF BAY HARBOUR MARINA VILLAGE!

Re: Bay Harbor Marina Village DC12015-00015 and CPA2015-00005 and REZ2015-00009

**I AM A BUSINESS OWNER/OPERATOR ON SAN CARLOS ISLAND
AND WE NEED THIS PROJECT!**

As a business owner/operator of San Carlos Island, I can see the need for the Bay Harbor Marina Village project. We use to be just a fishing village here but those businesses have long moved away. The few businesses that remain go in and out of business every other year. The street along San Carlos has more empty building than prosperous businesses. Most locations don't have enough parking to stay in business and those that are in business have to share parking under the bridge. There use to be more fishing business that have either moved further up San Carlos or completely shut done due to lack of business. Extra parking could only facilitate and revitalize if it were available ! So much of San Carlos Island residents are only here half of the

year! I would be great to have year round tenants to help support the businesses! The businesses also need places for the employee to park. With seasonal traffic and construction it would be so helpful for the employees to live close to where they work! The need for affordable housing in a tourist destination is huge! The improvements and the clean up that a new development would make to this Island would be tremendous!

RE: Bay Harbor Marina Village DC12015-00015 and CPA2015-00005 and REZ2015-00009

**I AM A RESIDENT/PROPERTY OWNER OF SAN CARLOS ISLAND
AND I AM IN SUPPORT OF THIS PROJECT!!!**

I am tired of the way this Island has looked since Hurricane Charley took out Compass Rose! There is a lot of drug use that occurs on this Island. They seem to gather in areas that have been abandon, which there are many along Main Street. The sidewalks are filled with garbage. The businesses that use to be here are gone. The first 3 blocks of Main Street is not what I want the entrance to my neighborhood to look like! We need someone to come in and clean things up! We need better sidewalks and improved roads that we can walk down and not get splashed with water after it rains! We need storm water drainage! We need to get rid of the drug houses and the boarded up buildings!

I would prefer to look at a beautiful fountain lining Main St! I would welcome the sidewalks and the road improvements that are required by new construction. I would love to have more lighting to feel safe walking to San Carlos Boulevard. The businesses on our Island don't have enough parking and a parking garage would help open up all the closed businesses! There are no long term rentals available anymore so there isn't any place for people who work the service industries, teachers, firemen, Coast Guard, store employees to be able to afford to rent. The project can help so many things that hurt our Island! I hope to see this ugly area turn into something I will enjoy coming home to!

I'M IN FAVOR OF BAY HARBOUR MARINA VILLAGE!

**I AM A BUSINESS OWNER/OPERATOR ON SAN CARLOS ISLAND
AND WE NEED THIS PROJECT!**

As a business owner/operator of San Carlos Island, I can see the need for the Bay Harbor Marina Village project. We use to be just a fishing village here but those businesses have long moved away. The few businesses that remain go in and out of business every other year. The street along San Carlos has more empty building than prosperous businesses. Most locations don't have enough parking to stay in business and those that are in business have to share parking under the bridge. There use to be more fishing business that have either moved further up San Carlos or completely shut done due to lack of business. The Channel Mark has changed names so often that you can't keep up. If they had parking they might have a chance! So much of San Carlos Island residents are only here half of the year! I would be great to have year round tenants to help support the businesses! The businesses also need places for the employee to park. With seasonal traffic and construction it would be so helpful for the employees to live close to where they work! The need for affordable housing in a tourist destination is huge! The improvements and the clean up that a new development would make to this Island would be tremendous!

May 20, 2016

I feel the need to respond to one of the speakers that spoke at the hearing on April 29, 2016 because she addressed me in her comments personally. Her name was Lois Jenkins and she lives at 834 Oak St. which is across the street from me.

1. She commented that she could live where I live at Boardwalk Caper.
Correction: She could not live at Boardwalk Caper because they only allow one pet under 20 lbs and they have two dogs and four cats!

2. She commented that the condo would take away her sunset view. As I said before, her house is the street from mine so it doesn't even look over the project directly! Her home faces the other way! She can't see the project at all from her house! See pictures attached.

3. She commented that I don't plan to live in the property that I build on Oak St. I haven't decided if I will move in the the home or not but if I decide to rent it what business is it of hers. If she has a problem with people renting their properties why didn't she bring up Mr. Semmer who owns 6 properties and rents all of them. 853, 855, 861, 863, 865, 874 Oak St.

Lois Jenkins and Pamela Howell do not live at their home at 834 Oak Street full time although they are homesteaded. They complain about the junk, the weeds, the derelict boats and polluting the water but they can't even see Southern Comfort Storage from their house. See pictures.

My lot has a direct view of the project and I can't wait for it to be built! See Picture of my lot view!

I can't see any reason why anybody would be against cleaning up a mess that is an eye sore to everyone. It's also a hang out for all the homeless and drug people. I hope you will pass this and let this company clean this mess up and make this part of the Island look inviting and the property values will improve for everybody, It can be a nice place to live which would be much better then it is now!

Thank you

Re: Bay Harbor Marina Village DC12015 and CPA2015-00005 and REZ2015-00009

I AM A BUSINESS OWNER/OPERATOR ON SAN CARLOS ISLAND AND WE NEED THIS PROJECT!

I own and operate one of the two remaining shrimp offloading facilities on San Carlos Island. Erickson & Jensen Seafood Packers is a self-sufficient operation in that we have a net shop, welders, fiberglass repairs, fueling stations and a commercial fishermen's supply house on property. We operate here approximately 8 months and then move the bulk of operations to Texas from July through October. The Texas facility is mixed use commercial fishing with a recreational marina, dry storage and restaurant.

I believe The Bay Harbor project as well as the Ebb Tide proposal will serve San Carlos Island positively. Presently the Island has more empty buildings than prosperous businesses. These two projects would be the catalyst needed to revitalize this area and make San Carlos Island a Lee County destination.

AS A BUSINESS OWNER/OPERATOR ON SAN CARLOS ISLAND I AM IN SUPPPORT OF THIS PROJECT!
