NOTICE TO SURROUNDING PROPERTY OWNERS

CASE NUMBER:	DCI2013-00003
CASE NAME:	RIVER HALL
REQUEST:	Amend the existing River Hall (fka Hawks' Haven) Residential Planned Development (RPD) and Commercial Planned Development (CPD) zoning to increase the maximum number of dwelling units within River Hall from 1,999 to 2,695, for an increase of 696 dwelling units, and to permit Recreational Facilities, Private On-Site, and townhouse and multi-family dwelling units in the CPD portion of the community.
LOCATION:	Located off I-75 at exit 141, head east on SR 80/Palm Beach Blvd. approximately 5.7 miles to River Hall Pkwy.. The property is located off of River Hall Pkwy., Fort Myers Shores Planning Community, Lee County, FL.
LEE COUNTY PLANNER:	Direct inquiries to Alvin Block, AICP, Principal Planner, at (239) 533-8371, at the Department of Community Development, 1500 Monroe St., Ft. Myers, FL 33901.
PROPERTY OWNERS REPRESENTATIVE:	TINA M. EKBLAD MORRIS-DEPEW ASSOC., INC. 239-337-3993

Notice is hereby given that the Lee County Hearing Examiner will hold a public hearing at 9:00 AM on 01/14/2015 on the above case. The public hearing will be held in the Hearing Examiner's Meeting Room, 1500 Monroe St., Ft. Myers, FL 33901.

You must appear in person, or through counsel, or an authorized agent and provide testimony, legal argument or other evidence at the hearing to become a participant with the right to address the Board of County Commissioners.

After the Hearing Examiner has made a written recommendation, the case will be scheduled for a public hearing before the Board of County Commissioners who will review the recommendation and make a final decision.

If you did not appear before the Hearing Examiner or otherwise become a participant for that case in which you wish to testify, the law does not permit you to address the Board of County Commissioners.

Copies of the staff report will be available two weeks prior to the hearing. The file may be reviewed at the Lee County Zoning Division, 1500 Monroe St., Fort Myers, FL 33901. Call 239/533-8585 for additional information.

Persons with disabilities who need an accommodation to participate in the hearing should contact Jamie Princing at 1500 Monroe Street, Fort Myers, Florida 33901 (239-533-8585 or at jprincing@leegov.com). To ensure availability of services, please request accommodation as soon as possible, but preferably five or more business days prior to event. Persons using a TDD may contact Jamie Princing through the Florida Relay Services, 711.

INSTRUCTIONS
(Sect... C.1.c., Lee County Administrative Code ... 2-8)

A zoning sign must be posted on the parcel subject to any zoning application for a minimum of fifteen CALENDAR (15) days in advance of the Hearing Examiner's Public Hearing and maintained through the Board of County Commissioners Hearing, if any. This signs will be provided by the Zoning Division in the following manner:

a. Signs for case #DCI2013-00003 must be posted by December 30, 2014.
b. The sign must be erected in full view of the public, not more than five (5) feet from the nearest street right-of-way or easement.
c. The sign must be securely affixed by nails, staples or other means to a wood frame or to a wood panel and then fastened securely to a post, or other structure. The sign may not be affixed to a tree or other foliage.
d. The applicant must make a good faith effort to maintain the sign in place, and readable condition until the requested action has been heard and a final decision rendered.
e. If the sign is destroyed, lost, or rendered unreadable, the applicant must report the condition to the Zoning Division, and obtain duplicate copies of the sign from the Zoning Division.

The Division may require the applicant to erect additional signs where large parcels are involved with street frontages extending over considerable distances. If required, such additional signs must be placed not more than three hundred (300) feet apart.

When a parcel abuts more than one (1) street, the applicant must post signs along each street. When a subject parcel does not front a public road, the applicant must post the sign at a point on a public road which leads to the property, and the sign must include a notation which generally indicates the distance and direction to the parcel boundaries and the dimensions of the parcel.

NOTE: AFTER THE SIGN HAS BEEN POSTED, THE AFFIDAVIT OF POSTING NOTICE, BELOW, SHOULD BE RETURNED NO LATER THAN THREE (3) WORKING DAYS BEFORE THE INITIAL HEARING DATE TO LEE COUNTY ZONING DIVISION, 1500 MONROE ST., FT. MYERS, FL 33901.

(Return the completed Affidavit below to the Zoning Division as indicated in previous paragraph.)

Re: DCI2013-00003 – River Hall

Dear Mary:

As requested by your email of December 12, 2014, this letter will transmit the proposed revisions to the above – referenced zoning application made necessary by the revisions to CPA2012-00001 that are being filed contemporaneously with this submittal.

The changes to the Future Land Use Map (FLUM) amendment proposed in the revision to CPA2012-00001 have resulted in a maximum yield of 2749 dwelling units under the FLUM, as shown in the table below:

Land Use Category	**Acreage**	**Density**	**DU Allowed Under Lee Plan**	**DU Already Permitted by Plat and DO**	**DU Remaining to be Permitted**
Suburban	71.5	6 du/ac	429	186	243
Sub-O.S.	585.6	2 du/ac	1171	598	573
Rural	1140.3	1 du/ac	1140	1119	21
Wetlands	181.0	.05 du/ac	9	0	9
Total	**1978.4**		**2749**	**1903**	**846**

As you will recall, during my meeting with you, Brandon and Chip prior to Thanksgiving, I suggested a dwelling unit cap of 2695 units as the maximum buildout scenario for River Hall. Although the revised FLUM amendment results in a density slightly higher than what we previously discussed, we will continue to request that the dwelling unit cap in the zoning amendment remain at 2695 dwelling units.

Henderson, Franklin, Starnes & Holt, P.A.

Enclosed you will find the following documents and materials to update the zoning application to reflect the changes necessitated by the modifications to CPA2012-00001:

1. Revised Master Concept Plan.

2. Revised sketches and legal descriptions for the area within River Hall that is subject to the amendment. Please note that no lands of the River Hall Community Development District are included.

3. Proposed revisions to the zoning conditions contained in Resolution Z-05-051, shown in redline format. Please note the proposed revisions to condition #5:

   a. The total residential dwelling count in River Hall is amended to 2695.

   b. The area that remains designated as Rural after adoption of CPA2012-00001 will be limited to a maximum density of 1 du/acre, or a maximum of 1140 dwelling units on 1140.3 acres.

   c. The condition in Resolution Z-05-051 limiting the transfer of units between land use categories has been relocated from condition 2.a. to condition 5.

4. The Applicant's Project Summary prepared by Morris-Depew Associates, which provides an updated and comprehensive analysis of the zoning request, as amended. This Summary contains a "clean" copy of the proposed zoning conditions referenced in #3 above.

5. An updated TIS based on 2695 du prepared by David Plummer and Associates.

6. Updated application forms and supporting materials.

Please contact me should you have any questions or if you need additional information. Thank you.

Sincerely,

Russell P. Schropp

PRELIMINARY DENSITY CALCULATIONS

PLEASE SEE THE ATTACHED SPREADSHEET FOR CALCULATIONS

i. Complete only if living units are proposed in a Future Land Use Category.
ii. If more than one classification, calculations for each classification must be submitted.
iii. If wetlands are located on the property, density calculations are considered preliminary pending a wetlands jurisdictional determination.

A. Intensive Development Category

1. **Standard Units**	**Max. standard density**	**Units**
a. Total upland acres (from Part 2, D.1.a.)	_____ x 14 equals	_____
b. Total preserved freshwater wetlands acres (from Part 2, D.1.b.)	_____ x 14 equals	_____
c. Total impacted wetlands acres (from Part 2, D.1.c.)	_____ x 1/20 equals	_____
d. **Total Allowed Standard Units** (A.1.a. plus A.1.b. plus A.1.c.) (1)		_____
2. **Bonus Units** (2)		
a. Low-moderate-housing density		_____
b. TDR units		_____
c. Sub-total (A.2.a. plus A.2.b.)		_____
5. **Total Permitted Units** (A.1.d. plus A.2.c.) (1)		_____

Notes:
(1) Subject to revision if wetlands jurisdictional determination indicates a different acreage of wetlands.
(2) If low-moderate housing density credits or Transfer of Development Rights (TDRs) credits are included, attach the calculations and approvals hereto.

B. Central Urban Category

1. **Standard Units**	**Max. standard density**	**Units**
a. Total upland acres (from Part 2, D.2.a.)	_____ x 10 equals	_____
b. Total preserved freshwater wetlands acres (from Part 2, D.2.b.)	_____ x 10 equals	_____
c. Total impacted wetlands acres (from Part 2, D.2.c.)	_____ x 1/20 equals	_____
d. **Total Allowed Standard Units** (B.1.a. plus B.1.b. plus B.1.c.) (1)		_____
2. **Bonus Units** (2)		
a. Low-moderate-housing density		_____
b. TDR units		_____
c. Sub-total (B.2.a. plus B.2.b.)		_____
5. **Total Permitted Units** (B.1.d. plus B.2.c.) (1)		_____

Notes:
(1) Subject to revision if wetlands jurisdictional determination indicates a different acreage of wetlands.
(2) If low-moderate housing density credits or Transfer of Development Rights (TDRs) credits are included, attach the calculations and approvals hereto.

C. Urban Community Category

		Max. standard density		Units
1.	**Standard Units**			
a.	Total upland acres (from Part 2, D.3.a.)	_____	x 6 equals	_____
b.	Total preserved freshwater wetlands acres (from Part 2, D.3.b.)	_____	x 6 equals	_____

d.	**Total Allowed Standard Units** (C.1.a. plus C.1.b. plus C.1.c.) (1)			_____
2.	**Bonus Units** (2)			
a.	Low-moderate-housing density			_____
b.	TDR units			_____
c.	Sub-total (C.2.a. plus C.2.b.)			_____
5.	**Total Permitted Units** (C.1.d. plus C.2.c.) (1)			_____

Notes:
(1) Subject to revision if wetlands jurisdictional determination indicates a different acreage of wetlands.
(2) If low-moderate housing density credits or Transfer of Development Rights (TDRs) credits are included, attach the calculations and approvals hereto.

D. Suburban Category

		Max. standard density		Units
1.	**Standard Units**			
a.	Total upland acres (from Part 2, D.4.a.)	_____	x 6 equals	_____
b.	Total preserved freshwater wetlands acres (from Part 2, D.4.b.)	_____	x 6 equals	_____
c.	Total impacted wetlands acres (from Part 2, D.4.c.)	_____	x 1/20 equals	_____
d.	**Total Permitted Units** (D.1.a. plus D.1.b. plus D.1.c.) (1)			_____

Notes:
(1) Subject to revision if wetlands jurisdictional determination indicates a different acreage of wetlands.

E. Outlying Suburban Category

		Max. standard density		Units
1.	**Standard Units**			
a.	Total upland acres (from Part 2, D.5.a.)	_____	x 3 equals	_____
b.	Total preserved freshwater wetlands acres (from Part 2, D.5.b.)	_____	x 3 equals	_____
c.	Total impacted wetlands acres (from Part 2, D.5.c.)	_____	x 1/20 equals	_____
d.	**Total Permitted Units** (E.1.a. plus E.1.b. plus E.1.c.) (1)			_____

Notes:
(1) Subject to revision if wetlands jurisdictional determination indicates a different acreage of wetlands.

F. Sub-Outlying Suburban Category

		Max. standard density		Units
1.	**Standard Units**			
a.	Total upland acres (from Part 2, D.6.a.)	585.6	x 2 equals	1,171
b.	Total preserved freshwater wetlands acres (from Part 2, D.6.b.)	_____	x 2 equals	N/A
c.	Total impacted wetlands acres (from Part 2, D.6.c.)	_____	x 1/20 equals	N/A
d.	**Total Permitted Units** (F.1.a. plus F.1.b. plus F.1.c.) (1)			**1,171**

Notes:
(1) Subject to revision if wetlands jurisdictional determination indicates a different acreage of wetlands.

G. Rural, Outer Island, Rural Community Preserve Categories

1. Standard Units	Max. standard density	Units
a. Total upland acres (from Part 2, D.7.a.)	_____ x 1 equals	_____
b. Total wetlands acres (from Part 2, D.7.b.)	_____ x 1/20 equals	_____
c. **Total Permitted Units** (G.1.a. plus G.1.b.)(1)		_____

Notes:
(1) In the Rural category located in Section 24, Township 43 south, Range 23 East and South of the Gator slough, the maximum density is 2.2.5 acres.
(2) Subject to revision if wetlands jurisdictional determination indicates a different acreage of wetlands.

H. Conservation Category

1. Standard Units	Max. standard density	Units
a. Total upland acres (from Part 2, D.8.a.)	_____ x 2/1 equals	_____
b. Total wetlands acres (from Part 2, D.8.b.)	_____ x 2/1 equals	_____
c. **Total Permitted Units** (H.1.a. plus H.1.b.)(1)		_____

Notes:
(1) Subject to revision if wetlands jurisdictional determination indicates a different acreage of wetlands.

I. Resource Category

1. Standard Units	Max. standard density	Units
a. Total upland acres (from Part 2, D.9.a.)	_____ x 1/10 equals	_____
b. Total wetlands acres (from Part 2, D.9.b.)	_____ x 1/20 equals	_____
c. **Total Permitted Units** (I.1.a. plus I.1.b.)(1)		_____

Notes:
(1) Subject to revision if wetlands jurisdictional determination indicates a different acreage of wetlands.

J. Wetlands Category

1. Standard Units	Max. standard density	Units
a. Total wetlands acres (from Part 2.D.10.a)	_____ x 1/20 equals	_____
c. **Total Permitted Units** (J.1.a.)(1)		_____

Notes:
(1) Subject to revision if wetlands jurisdictional determination indicates a different acreage of wetlands.

K. New Community Category

1. Standard Units	Max. standard density	Units
a. Total upland acres (from Part 2, D.11.a.)	_____ x 6 equals	_____

ENVIRONMENTAL ISSUES

A. Topography: Describe the range of surface elevations of the property:
Please see the attached response from Passarella and Associates.

B. Sensitive Lands: Identify any environmentally sensitive lands, including, but not limited to, wetlands (as defined in the LEE Plan Section XII), flowways, creek beds, sand dunes, other unique land forms [see LEE Plan Policy 77.1.1 (2)] or listed species occupied habitat [see LCLDC Section 10-473].
Please see the attached response from Passarella and Associates.

C. Preservation/Conservation of Natural Features: Describe how the lands listed in PART 4.B. above will be protected by the completed project:
Please see the attached response from Passarella and Associates.

D. Shoreline Stabilization: If the project is located adjacent to navigable natural waters, describe the method of shoreline stabilization, if any, being proposed:
Please see the attached response from Passarella and Associates.

PART 6
SANITARY SEWER & POTABLE WATER FACILITIES

A. Special Effluent: If the discharge of any special effluent is anticipated, please specify what it is and what strategies will be used to deal with its' special characteristics:
N/A

B. Private On-Site Facilities: If a private on-site wastewater treatment and disposal facility is proposed, please provide a detailed description of the system including:

1. Method and degree of treatment:
   N/A
2. Quality of the effluent:
   N/A
3. Expected life of the facility:
   N/A
4. Who will operate and maintain the internal collection and treatment facilities:
   N/A
5. Receiving bodies or other means of effluent disposal:
   N/A

C. Spray Irrigation: If spray irrigation will be used, specify:

1. The location and approximate area of the spray fields:
   N/A
2. Current water table conditions:
   N/A
3. Proposed rate of application:
   N/A
4. Back-up system capacity:
   N/A

PART 7 – SUBMITTAL REQUIREMENTS		
Copies* Required	**Exhibits**	**ITEM [LCLDC Section]**
		PUBLIC HEARING APPLICATION FORM
15		**Public Hearing Application Form (Application for Public Hearing for Zoning Action Form, OR, if a DRI with Rezoning, submit Application for Public Hearing for a DRI Form). [34-373(a)(1)]**
1		**Application Fee. [34-373(a)(2)]**
		DESCRIPTION OF EXISTING CONDITIONS
4	D-1-B	**Historical or Archaeological sites:** The nature and location of any known or recorded historical or archaeological sites as listed on the Florida Master Site File or the Lee County Historical Site Survey, and the location of any part of the property that is located within level 1 or level 2 zones of archaeological sensitivity pursuant to LCLDC Chapter 22 [22-106]. The plan must show the outline of historic buildings and approximate extent of archaeological sites. A description of proposed improvements that may impact archaeological or historical resources must also be provided. **[34-373(a)(4)h.]**
15	D-1-C	**Public Transit.** A map or other depiction of the property in relation to existing and proposed public transit routes, as well as to bus stops, if located within the Lee Tran public transit service area. **[34-373(a)(4)g.]**
5	D-7-A	**A Boundary Survey**, prepared and sealed by a professional surveyor, that meets the minimum technical standards set forth in chapter 5J-17, F.A.C. The boundary survey must identify and depict all easements affecting the subject property, whether recorded or unrecorded, and all other physical encumbrances readily identified by a field inspection. **(2 originals required) [34-373(a)(4)a.]**
15	D-7-B	**Area Location Map** (on 8.5" x 11" paper). A map marked to show the location of the property to be developed in relation to arterial and collector streets as well as the location of existing easements and rights-of-way on or abutting the property. **[34-373(a)(4)b.]**
15	D-7-C	**Existing Zoning and Current Land Uses**. A map or other depiction of the existing zoning and current land uses (i.e. single family residence, multiple-family building, retail commercial, office building, etc.) surrounding the tract or parcel to a distance of 500 feet. **[34-373(a)(4)c.]**
15	D-7-D	**Aerial Photograph** with the site clearly delineated. **[34-373(a)(4)d.] Originals only - photocopies are not acceptable.**
4	D-7-E	**Soils Map.** Maps drawn at the same scale as the Master Concept Plan marked or overprinted to show the soils classified in accordance with the USDA/SCS System. **[34-373(a)(4)e.i.]**
4	D-7-F	**FLUCCS Map**. A Florida Land Use, Cover and Classification System (FLUCCS) map, at the same scale as the Master Concept Plan, prepared by an environmental consultant. The FLUCCS map must clearly delineate any Federal and State jurisdictional wetlands and other surface waters, including the total acreage of Federal and State wetlands. **[34-373(a)(4)e.ii.]**
4	D-7-G	**Rare & Unique Upland Habitat Map.** Maps drawn at the same scale as the Master Concept Plan marked or overprinted to show significant areas of rare and unique upland habitat as defined in the LEE Plan Section XII. **[34-373(a)(4)e.iii.]**
4	D-7-H	**Topographic Map.** A County topographic map (if available) or a USGS quadrangle map showing the subject property. **[34-373(a)(4)e.iv.]**
4	D-7-I	**Existing and Historic Flow-Ways Map**. Map(s) drawn at the same scale as the master concept plan marked or overprinted to show existing and historic flow-ways. **[34-373(a)(4)e.v.]**
		NARRATIVE COMPLIANCE STATEMENTS
15	D-7-J	**LEE Plan Compliance.** A narrative explanation as to how the proposed development complies with the LEE Plan. **[34-373(a)(5)]**
3	D-7-K	**Design Standards Compliance.** A narrative explanation as to how the proposed development complies with the Design Standards set forth in LCLDC Section 34-411 as well as the Community Design Standards as specified in LCLDC Chapter 33. **[34-373(a)(5); 34-202(a)(10)]**
3	D-7-L	**Decision-Making Compliance.** A narrative explanation as to how the proposed development complies with the guidelines for decision-making embodied in LCLDC Sections 34-145(c)(2)a & e. and 34-145(d)(3). **[34-373(a)(5)]**

		MASTER CONCEPT PLAN
2 & 15	D-7-M.1 (24X 36) & D-7-M.2 (11X17)	**Master Concept Plan, Non-PRFPD** . A graphic illustration (Master Concept Plan) of the proposed development, showing and identifying the information required by LCLDC Section 34-373(a)(6)a - i. Copies of the Master Concept Plan must be provided in two sizes, 24" x 36" (2 copies), and 11" x 17" (15 copies - **2 originals required**) in size and must clearly legible and drawn at a scale sufficient to adequately show and identify the required information. {See Instructions, Part 7, below.} **[34-373(a)(6)]**
2 & 15	D-7-N.1 (24X36) & D-7.N.2 (11X17)	**Master Concept Plan, PRFPD :** A clearly legible and properly scaled drawing (Master Concept Plan) showing and identifying the information required by LCLDC Section 34-941(g)(1). Copies of the Master Concept Plan must be provided in two sizes, 24" x 36" (2 copies), and 11" x 17" (15 copies - **2 originals required**) in size and must clearly legible and drawn at a scale sufficient to adequately show and identify the required information. {See Instructions, Part 7, below.} **[34-941(g)]**
5	D-7-O	**Traffic Impact Statement.** A traffic impact statement in a format and to the degree of detail required by the County and in conformance with the adopted Lee County Administrative Code. **[34-373(a)(7)]** TIS is not required for an existing development. **[34-341(b)(2)d.1.]**
15	D-7-P	**Schedule of Uses.** A schedule of uses keyed to the Master Concept Plan as well as a summary for the entire property including the information required by LCLDC Section 34-373(a)(8)]. **[34-373(a)(8)]**
15	D-7-Q	**Schedule of Deviations and Written Justification.** A schedule of deviations and a written justification for each deviation requested as part of the Master Concept Plan. The location of each requested deviation must be located/shown on the Master Concept Plan. Deviation documentation and detail drawings including sample detail drawings must be provided illustrating how each deviation will operate to the benefit, or at least not to the detriment, of the public interest. **[34-373(a)(9); 34-412(a)]**
		ADDITIONAL REQUIREMENTS FOR MAJOR PDs
4	D-7-R	**Surface Water Management Plan** A written description of the surface water management plan as required by LCLDC Section 34-373(b)(1)a. - e. **[34-373(b)(1)]**
15	D-7-S	**Phasing Program.** If the development is to be constructed in phases or if the Traffic Impact Statement utilized phasing, then a description of the phasing program must be submitted. **[34-373(b)(3)]**
		ADDITIONAL REQUIREMENTS FOR LARGE PROJECTS
4	D-7-T	**Protected Species Survey.** A protected species survey is required for large developments (as defined in LCLDC Section 10-1) as specified in LCLDC Section 10-473. **[34-373(b)(2)]**
		ADDITIONAL REQUIREMENTS FOR AMENDMENTS TO BUILT PLANNED DEVELOPMENTS
4	D-7-U	**Proof of Notice to Other Property Owners.** The consent of the owners of the remainder of the original planned development is not required, but these owners must be given notice of the application and other proceedings as if they were owners of property abutting the subject property regardless of their actual proximity to the subject property. **[34-373(c)]**
		ADDITIONAL REQUIREMENTS FOR DRIs
15	D-7-V	**Binding letter of interpretation from DCA or a complete and sufficient ADA (See also Application for Public Hearing for DRI Form) [34-373(d)(2)]**
		ADDITIONAL EXHIBITS - PRFPDs
4	D-7-W	**Conceptual Surface Water Management Plan.** A Conceptual Surface Water Management Plan must be submitted. The plan must be viable and take into consideration any natural flowway corridors, cypress heads, natural lakes, and the restoration of impacted natural flowway corridors. **[34-941(d)(3)b.i.1)]**
15	D-7-X	**Well Drawdown Information.** If within an area identified as an anticipated drawdown area for existing or future well development, demonstration of compliance with LCLDC Section 34-941(d)(3)d.i & ii. must be provided. **[34-941(d)(3)d.]**
15	D-7-Y	**Preliminary Indigenous Restoration Plan.** A Preliminary Indigenous Restoration Plan must be provided if on-site indigenous restoration is being used to meet the indigenous native plant community preservation requirement. **[34-941(e)(5)f.iii.]**
15	D-7-Z	**Environmental Assessment**. An Environmental Assessment must be provided which includes, at a minimum, an analysis of the environment, historical and natural resources. **[34-941(g)(2)]**
15+	D-7-AA	**Demonstration of Compatibility.** Written statements concerning how the applicant will assure the compatibility of the proposed development with nearby land uses (by addressing such things as noise, odor, lighting and visual impacts), and the adequate provision of drainage, fire and safety, transportation, sewage disposal and solid waste disposal must be provided. **[34-941(g)(4)]**

Planned Development Amendment
SCHEDULE OF DEVIATIONS
Revised December 15, 2014

The following deviations were approved via Resolution Z-05-051 and should carry forward through the Planned Development Amendment.

1. Deviation 1 sought relief from the LDC §10-385(d)(3)a requirement to provide a maximum fire hydrant spacing of 800 feet in the one- and two-dwelling unit area, to eliminate this requirement in areas along the "spine" road where no homes exist. This deviation was APPROVED.
2. Deviation 2 was Withdrawn
3. Deviation (3) sought relief from the LDC §10-329(d)(4) requirement to provide lake banks to be sloped at a maximum 4:1 slope, to allow bulkheads for up to 25 percent of the shoreline of lake banks. This deviation was APPROVED.
4. Deviation (4) sought relief from the LDC §34-2194(b) requirement to provide a 25-foot setback from bodies of water, to allow 20-foot setbacks for the manmade lakes to be consistent with the existing development orders and permits. This deviation was APPROVED.

The following deviations are new and requested as a part of this Planned Development Amendment application

5. Deviation from LDC Section 10-415(b)(1)c. which requires a minimum setback of 20 feet from buildings and a 30 foot setback for indigenous plant communities subject to fire to allow a side setback of 17 feet for the following existing platted lots: River Hall Country Club, Phase Two, Block K, Lots 29, 57, 76, and 77; Hampton Lakes at River Hall, Phase One, Lot 87.

Justification: The River Hall Community was approved by the Board of County Commissioners for a Residential Planned Development on September 19, 2005. The development footprint and indigenous open space identified in the existing Master Concept Plan for the River Hall RPD are not being amended as part of this application. The setback requirements for indigenous communities were incorporated into the Land Development Code as part of Ordinance 05-14, approved August 23, 2005. At the time the Ordinance was approved, the River Hall RPD was in process and scheduled for a public hearing at the Board of County Commissioners. As a result, the existing development pattern of the River Hall Community was not required to provide the 30 foot indigenous setback. The approved side setback in Z-05-051 for the principal structure from the side lot line is 5'.

The requested 17' is for specific side setback locations within the existing platted portions of the River Hall Community where the side yard abuts an upland preserve. The requested setback provides the maximum distance available on the existing platted lot for emergency services vehicles and staff to

access the indigenous habitat and yet allows the existing platted development and development tracts to remain consistent with the previously approved development plan. Should these parcels be replatted at a future time, the requested deviation would not be applicable.

6. Deviation from LDC Section 10-415(b)(1)c. which requires a minimum setback of 20 feet from buildings and a 30 foot setback for indigenous plant communities subject to fire to allow a setback of 20 feet for all existing platted lots.

Justification: The River Hall Community was approved by the Board of County Commissioners for a Residential Planned Development on September 19, 2005. The development footprint and indigenous open space identified in the existing Master Concept Plan for the River Hall RPD are not being amended as part of this application. The setback requirements for indigenous communities were incorporated into the Land Development Code as part of Ordinance 05-14, approved August 23, 2005. At the time the Ordinance was approved, the River Hall RPD was in process and scheduled for a public hearing at the Board of County Commissioners. As a result, the existing development pattern of the River Hall Community was not required to provide the indigenous setback. The approved setback in Z-05-051 for the principal structure from the rear setback is 15'.

The requested 20' is for the existing platted portions of the River Hall Community to address the existing conditions of the Community. This setback provides adequate distance for emergency services vehicles and staff to access the indigenous habitat and will allow the existing platted development and development tracts to remain consistent with the previously approved development plan. It is important to note that a substantial portion of the community, as defined by LDC §34-381(4), has approved Development Orders and is platted for residential development. Should these parcels be replatted at a future time, the requested deviation would not be applicable.

7. Deviation from LDC Section 10-329(d)(4) which requires banks of excavations to be sloped at a ratio not greater than six horizontal to one vertical from the top of bank to a water depth of two feet below the dry season water table to allow a 4:1 slope.

Justification: The slope requirements for the excavation bank slopes were incorporated into the Land Development Code as part of Ordinance 09-23, approved June 23, 2009, after the approval of the River Hall RPD on September 19, 2005. As a result, the existing slopes within the development provide a 4 to 1 slope. The requested 4:1 slope will allow a consistent and compatible development pattern to continue throughout the residential development. The deviation works within the existing physical conditions of the Residential Planned Development to enhance its economic feasibility and does not pose a threat to the public health safety and welfare.

8. Deviation from LDC Section 10-291(3) which requires residential subdivisions of more than five acres to provide more than one means of ingress or egress for the development to allow one ingress or egress onto State Road 80.

Justification: The River Hall Community was approved by the Board of County Commissioners for a Residential Planned Development on September 19, 2005.

The requirement for residential development to provide more than one means of ingress or egress was incorporated into the Land Development Code as part of Ordinance 07-24, approved August 14,

2007. At the time the Ordinance was approved, the River Hall RPD was already approved. As a result, the River Hall Community does not provide a secondary access at this time. The applicant agrees to design, permit and construct the secondary access to 75th Street West as shown on page 4 of the MCP within 24 months of the PD Amendment being approved. This is contingent upon approval from the East County Water Control District (ECWCD) to cross the 50-foot wide canal along the south side of River Hall. ~~Rather, the Community is conditioned to provide a second access upon the issuance of the 1,598 certificate of occupancy per Condition 26 of Zoning Resolution Z-05-051.~~

~~The Planned Development Amendment Application does not propose to amend this condition. Per Lee County Staff, this deviation is requested to provide compliance with the current Land Development Code until the 1,598th certificate of occupancy is issued.~~

9. Deviation from LDC Section 34-934 which permits dwelling units within a CPD when there are at least 50,000 square feet or more of commercial uses to allow dwelling units within the existing River Hall CPD which was permitted for 45,000 square feet of commercial uses.

Justification: The applicant has proposed to amend the schedule of uses for the existing proposed Commercial Planned Development to promote a mix of uses along SR 80 at the front entry of the River Hall Community. Objective 21.4 of the Caloosahatchee Shores Community encourages Mixed Use Development that promotes a mix of commercial and residential uses to facilitate alternative transportation an internal capture. The addition of the requested multi-family residential would promote the integration of commercial and residential uses, the additional recreational and civic uses would promote pedestrian and bicycle connections to the existing surrounding development along the proposed multi-use path adjacent to SR 80. The addition of the residential uses within the CPD will promote infill development and the clustering of uses, improving the efficient use of both land and existing utilities to create a well-designed community with a mix of uses that supports the needs and demands of the area's residents.

DESCRIPTION (REZONE AREA)

Parcel in
Sections 25, 27, 34, 35 and 36, Township 43 South, Range 26 East
Lee County, Florida

A tract or parcel of land lying in Section 25, 27, 34, 35 and 36, Township 43 South, Range 26 East Lee County, Florida, said tract or parcel of land being more particularly described as follows:

PARCEL 1:

A tract or parcel of land lying in Section 27, Township 43, Range 26, Lee County, Florida, said tract or parcel of land being more particularly described as follows:

Commencing at the North Quarter Corner of said Section 27 run S00°51'17"E along the East line of the West Half (W 1/2) of said Section 27 1,573.70 feet to the POINT OF BEGINNING.
From said Point of Beginning continue S00°51'17"E along said East line for 614.10 feet to an intersection with the Northerly line of Conservation Easement CE-5, described in a deed recorded in Official Record Book 3492, at Page 568, Lee County Records; thence run along the Northerly and Westerly line of of said Conservation Easement the following thirty-seven (37) courses: S89°08'43"W for 93.44 feet to a point on a non-tangent curve; Westerly along an arc of a curve to the right of radius 66.36 feet (delta 16°50'32") (chord bearing N84°55'21"W) (chord 19.44 feet) for 19.51 feet; N71°01'07"W for 89.50 feet to a point of curvature; Northwesterly along an arc of a curve to the right of radius 70.00 feet (delta 23°16'07") (chord bearing N59°23'03"W) (chord 28.23 feet) for 28.43 feet to a point of tangency; N47°45'00"W for 184.10 feet to a point of curvature; Westerly along an arc of a curve to the left of radius 30.00 feet (delta 72°55'14") (chord bearing N84°12'37"W) (chord 35.66 feet) for 38.18 feet; S55°56'06"W for 16.37 feet to a point on a non-tangent curve; Southwesterly along an arc of a curve to the right of radius 26.40 feet (delta 05°46'39") (chord bearing S56°05'54"W) (chord 2.66 feet) for 2.66 feet to a point on a non-tangent curve; Westerly along an arc of a curve to the right of radius 70.00 feet (delta 89°33'57") (chord bearing N76°34'03"W) (chord 98.62 feet) for 109.43 feet; S28°40'01"W for 168.43 feet; S49°55'00"W for 120.21 feet; S08°34'30"W for 59.47 feet; S16°25'18"E for 53.01 feet; S10°53'06"W for 52.02 feet; S21°20'30"E for 68.84 feet; N62°54'21"E for 119.90 feet; S66°05'27"E for 32.67 feet; S15°30'06"E for 72.37 feet; S40°08'04"E for 34.02 feet; S03°40'51"E for 25.26 feet; S70°07'12"W for 69.86 feet; S61°26'29"W for 17.36 feet; S72°08'48"W for 19.92 feet; N60°51'22"W for 30.42 feet; N77°06'37"W for 44.10 feet; S64°52'29"W for 38.94 feet; S20°52'27"W for 43.82 feet; S31°30'37"E for 59.12 feet; N86°41'36"E for 84.58 feet; S63°46'58"E for 10.50 feet; S40°41'16"E for 40.28 feet; S42°43'38"E for 45.16 feet; S67°36'20"E for 23.72 feet; S41°52'34"E for 38.96 feet; S63°15'06"E for 38.14 feet; S89°23'27"E for 35.43 feet; N63°29'28"E for 1.44 feet to a point on a non-tangent curve and Southeasterly along an arc of a curve to the right of radius 294.98 feet (delta 79°24'50") (chord bearing S37°32'25"E) (chord 376.91 feet) for 408.86 feet to an intersection with the Northerly line of lands described

in a deed recorded in Official Record Book 4326, at Page 2075, Lee County Records; thence run S89°59'57"W along said Northerly line for 290.94 feet to a point on a non-tangent curve and an intersection with the Northerly line of Conservation Easement CE-6, described in a deed recorded in Official Record Book 3492, at Page 568, Lee County Record; thence run along the Northerly and Westerly line of of said Conservation Easement the following nineteen (19) courses: Northerly along an arc of a curve to the right of radius 366.19 feet (delta 02°18'35") (chord bearing N06°14'13"E) (chord 14.76 feet) for 14.76 feet; N67°30'09"W for 128.15 feet; N22°29'51"E for 111.26 feet to a point on a non-tangent curve; Northwesterly along an arc of a curve to the right of radius 284.50 feet (delta 15°17'25") (chord bearing N54°28'27"W) (chord 75.70 feet) for 75.92 feet; Westerly along an arc of a curve to the left of radius 215.00 feet (delta 48°01'46") (chord bearing N70°51'26"W) (chord 175.00 feet) for 180.23 feet to a point to tangency; S85°07'41"W for 47.77 feet; S04°52'19"E for 25.00 feet; S85°07'41"W for 40.00 feet; N04°52'19"W for 25.00 feet; S85°07'41"W for 99.33 feet; S04°52'19"E for 84.36 feet; S00°40'13"E for 44.90 feet; S09°23'27"W for 21.52 feet; S85°07'41"W for 214.14 feet; S04°52'19"E for 195.19 feet to a point of curvature; Southerly along an arc of a curve to the right of radius 645.00 feet (delta 24°05'35") (chord bearing S07°10'29"W) (chord 269.23 feet) for 271.23 feet; S56°46'33"E for 5.45 feet; S22°03'38"E for 26.30 feet and S44°22'17"E for 89.18 feet to an intersection with said Northerly line of lands described in a deed recorded in Official Record Book 4326, at Page 2075, Lee County Records; thence run S84°07'47"W along said Northerly line for 35.31 feet to a point on a non-tangent curve and an intersection with the Easterly right of way line of River Hall Parkway described in a deed recorded in Official Record Book 4326, at Page 1851, Lee County Records; thence run along said Easterly right of way line the following five (5) courses: Northerly along an arc of a curve to the right of radius 700.00 feet (delta 35°18'45") (chord bearing N17°39'25"W) (chord 424.63 feet) for 431.42 feet to a point of tangency; N00°00'03"W for 514.62 feet to a point of curvature; Northeasterly along an arc of a curve to the right of radius 300.00 feet (delta 58°24'51") (chord bearing N29°12'23"E) (chord 292.78 feet) for 305.86 feet to a point of tangency; N58°24'48"E for 260.56 feet to a point of curvature; Northerly along an arc of a curve to the left of radius 430.00 feet (delta 113°16'07") (chord bearing N01°46'45"E) (chord 718.25 feet) for 850.07 feet to an intersection with the Southerly line of lands described in Instrument No. 2007000309267, Lee County Records; thence run the following three courses along said Southerly line: N59°14'31"E for 186.92 feet; N00°00'00"E for 85.63 feet to a point of tangency and Northeasterly along an arc of a curve to the right of radius 67.00 feet (delta 65°23'59") (chord bearing N32°42'00'E) (chord 72.39 feet) for 76.48 feet to an intersection with the West line of the Southeast Quarter (SE 1/4) of the Northeast Quarter (NE 1/4) of the Northwest Quarter (NW 1/4) of said Section 27 also being an intersection with the Westerly line of Conservation Easement CE-3, described in a deed recorded in Official Record Book 3492, at Page 568, Lee County Records thence run along the Westerly and Southerly line of said Conservation Easement the following twelve (12) courses: S00°50'17"E for 60.93 feet; S34°56'26"E for 102.67 feet; S09°14'30"E for 48.67 feet; S67°52'13"E for 81.78 feet; S48°12'54"E for 71.57 feet; S01°01'22"W for 27.84 feet; S80°11'09"E for 57.75 feet; S87°52'40"E for 72.84 feet; N88°30'21"E for 65.61 feet; N87°58'32"E for 123.03 feet; N86°30'04"E for 86.75 feet and N89°08'44"E for 62.31 feet to the POINT OF BEGINNING.

DESCRIPTION (CONTINUED)

Containing 22.74 acres, more or less.

PARCEL 2:

A tract or parcel of land lying in Section 27, Township 43, Range 26, Lee County, Florida, said tract or parcel of land being more particularly described as follows:

Commencing at the North Quarter Corner of said Section 27 run S00°51'17"E along the East line of the West Half (W 1/2) of said Section 27 for 763.79 feet to an intersection with the Southerly right of way line of State Road 80, (F.D.O.T. right of way map, Section 1202-(106)202) (150 feet wide); thence run S77°10'14"W along said Southerly right of way line for 1,346.60 feet to an intersection with the West line of of the Northeast Quarter (NE 1/4) of the Northwest Quarter (NW 1/4) of said Section 27; thence run S00°49'17"E along said West line for 284.51 feet to the Southwest Corner of said Fraction and the POINT OF BEGINNING.
From said Point of Beginning run N88°54'52"E along the South line of said Fraction, along being the South line of lands described in Instrument No. 2013000006374, Lee County Records for 14.28 feet; thence run N70°31'00"E still along said South line of lands for 91.71 feet to a point on a non-tangent curve and an intersection with the Westerly right of way line of River Hall Parkway described in a deed recorded in Official Record Book 4326, at Page 1851, Lee County Records; thence run along said Westerly right of way line the following two (2) courses: thence run Southeasterly along an arc of a curve to the left of radius 550.00 feet (delta 38°10'13") (chord bearing S44°57'39"E) (chord 359.67 feet) for 366.41 feet to a point to reverse curvature; and Southerly along an arc of a curve to the right of radius 330.00 feet (delta 99°34'05") (chord bearing S14°15'43"E) (chord 503.99 feet) for 573.47 feet to an intersection with the Northerly line of lands described in Instrument No. 2005000189275, Lee County Records thence run N49°27'03"W along said Northerly line for 61.57 feet an intersection with the Easterly line of Conservation Easement CE-2, described in a deed recorded in Official Record Book 3492, at Page 568, Lee County Records thence run along the Easterly and Northerly line of said Conservation Easement the following eighteen (18) courses: N45°39'05"E for 15.51 feet to a point on a non-tangent curve; Northeasterly along an arc of a curve to the left of radius 243.59 feet (delta 02°15'07") (chord bearing N44°10'13"E) (chord 9.57 feet) for 9.57 feet; N49°27'03"W for 6.01 feet to a point on a non-tangent curve; Northeasterly along an arc of a curve to the left of radius 237.59 feet (delta 38°59'14") (chord bearing N23°36'50"E) (chord 158.57 feet) for 161.67 feet; S54°38'48"E for 4.76 feet; S76°07'10"E for 1.94 feet to a point on a non-tangent curve; Northerly along an arc of a curve to the left of radius 243.59 feet (delta 06°53'49") (chord bearing N01°19'46"E) (chord 29.31 feet) for 29.32 feet; N54°38'48"W for 20.18 feet; N54°38'46"W for 62.62 feet; N56°19'59"W for 41.82 feet; N60°57'46"W for 41.20 feet; N58°35'37"W for 49.86 feet; N86°11'12"W for 74.80 feet; N28°14'18"W for 31.90 feet; N78°18'45"W for 52.55 feet; N74°02'56"W for 65.51 feet; N33°39'00"W for 113.45 feet and N67°25'04"W for 70.30 feet to an intersection with said West line of of the Northeast Quarter (NE 1/4) of the Northwest Quarter (NW 1/4) of said Section 27; thence run N00°49'17"W along sadi West line for 178.87 feet to the POINT OF BEGINNING.
Containing 2.46 acres, more or less.

II. REQUEST:

Applicant requests APPROVAL of the request for the Amendment of the Existing Residential Planned Development, RPD and Commercial Planned Development, CPD zoning to increase the number of residential dwelling units in River Hall community by 696 (2,695 total DU's) and include additional recreational uses within the commercial portion of the Community.

A. PROPOSED CONDITIONS:

1. Development of this project must be consistent with the five-page Master Concept Plan (MCP) entitled "RIVER HALL: Formerly known as Hawk's Haven", stamped received December 17, 2014, last revised December 17, 2014, except as modified by the conditions below. Development must comply with all requirements of the LDC at time of local development order approval, except as may be granted by deviation as part of this planned development. If changes to the MCP are subsequently pursued, appropriate approvals will be necessary.

2. The following limits apply to the project and uses:

a. SCHEDULE OF USES

RESIDENTIAL, GOLF & AMENITY SITES

Accessory Uses and Structures
Administrative Office
Agricultural Uses - See Conditions 3.h and 8.
Club - country and private
Consumption on Premises - limited to the clubhouse/amenity areas.
No outdoor seating unless approved as a special exception (public hearing required).
Dwelling Units - to be comprised of single-family (R-1 or RMF-1), two-family attached (RMF-1), townhouse (RMF-1), multiple-family (RMF-1), zero-lot-line units (RMF-1)

Entrance Gates and Gatehouse
Essential Services
Essential Services Facilities, Group I
Excavation, Water Retention - No blasting and removal of excavated material off site is not permitted.
Fences and Walls

Golf Course - 36 holes, golf maintenance facility, cart barn and related accessory uses to a golf course. (See Condition 23 for additional requirements)
Golf and Tennis Pro Shops (limited to ancillary use in clubhouse)
Golf Driving Range
Golf Training Facility
Model Home and Model Unit - must be in compliance with LDC §34-1954
Model Display Center, must be in compliance with LDC §34-1955, limited to one which must be located in the sales center area shown on the MCP and must only serve this project.
Parking Lot, Accessory
Parks, Group I
Real Estate Sales Office - limited to sales of lots, homes or units within the development, and must be located in the clubhouse, amenity or model unit sites.
Recreational Facilities - Private, On-site only
Residential Accessory Uses - In compliance with LDC §622(c)42 and LDC Article VII Division 2.
Signs, in compliance with LDC Chapter 30
Storage, Open, recreational vehicles, boats and similar items for residents only, limited to locations shown on the MCP and must be shielded behind a continuous visual screening at least eight feet in height when visible from any residential use, and six feet in height when visible from any street right-of-way or street easement. (See Condition 22 for additional requirements)
Temporary Uses

TOWN CENTER (CPD)

Maximum 15,000 sf office and maximum 30,000 sf retail within the Town Center CPD parcel only.
Accessory Uses and Structures
Administrative Office
Agricultural Uses - See Condition 3.h and 8.
Banks and Financial Establishments, Group I
Business Services, Group I
Consumption on Premises - Indoor only in conjunction with a Restaurant use only. No outdoor seating unless approved as a special exception (public hearing required).
Day Care Center, Adult & Child
Drive-through in connection with any approved use except drugstore/pharmacy
Dwelling units, limited to Townhouse (RMF-1) and multi-family (RMF-1)
EMS, Fire or Sheriff's Station
Essential Services

Essential Service Facilities, Group I
Excavation, Water Retention-No blasting; Removal of excavated material off site not permitted.
Food Stores, Group I (may sell food and non-food products)
Hardware Store
Laundry or Dry Cleaning, Group I
Parking lot, accessory
Parks, Group I, Group II (limited to civic center)
Personal Services, Group I
Pharmacy/Drugstore - limited to one with a multi-occupancy complex only and no drive-through.
Place of Worship, Religious Facilities
Real Estate Sales Office
Repair Shop, Group I
Restaurant, Groups I, II, III
Specialty Retail Shops, Group I
Temporary Uses

ELEMENTARY SCHOOL SITE

f. Maximum Height:
45 feet/3 stories for Residential uses
35 feet/3 stories for Commercial uses
35 feet/3 stories for Recreational/Amenity sites on the perimeter of the subject property
Recreational/Amenity sites on the interior of the project may be 60 feet/three stories

i. Except for zero-lot-line and two-family units, structures, including but not limited to, sidewalks, air conditioners, mechanical equipment, door stoops, walls, etc. may not be located within the required 5-foot side setback of each lot. Prior to issuance of Certificate of Occupancy on each lot, the Engineer of Record must certify that the drainage for each lot is built in compliance with the *Typical Lot Grading Detail* provided.

ii. For zero-lot-line and two-family units, on the side opposite zero-lot-line or two-family attached structure, structures, including but not limited to, sidewalks, air conditioners, mechanical equipment, door stoops, walls, etc. may not be located within the required 5-foot side setbacks; or prior to issuance of Certificate of Occupancy on each lot, the Engineer of Record must certify that the drainage for each lot is built in compliance with the *Typical Lot Grading Detail* provided.

c. GOLF DRIVING RANGE:

If the Golf Driving Range is open after daylight hours, all lighting must comply with LDC §34-936(g), be of the lowest intensity meeting life safety codes, and be shielded and directed away from adjacent residential areas.

3. The following conditions address environmental issues:

a. The "American Alligator Management Plan" provided as part of the "Protected Species Management Plan for Schulman Parcel" counter stamped May 19, 1999 incorporated into this resolution of approval as Exhibit D. Prior to local development order approval, the location of the American Alligator Management Plan signage must be delineated on the development order plans for Division of Environmental Sciences' review and approval. Warning signs must be placed where there is potential for human/alligator interaction. These signs must discourage the feeding or harassment of alligators.

b. The "Gopher Tortoise Management Plan" provided as part of the "Protected Species Management Plan for Shulman Parcel" counter stamped May 19, 1999 incorporated into this resolution of approval as Exhibit D. Any revisions to the Tortoise Management Plan are subject to Environmental Sciences' review and approval.

c. The "Florida Burrowing Owl Management Plan" provided as part of the "Protected Species Management Plan for Schulman Parcel," counter stamped May 19, 1999, must be revised for Division of Environmental Sciences' review and approval at the time of local development order submittal. The plan must either commit to preserving the existing burrowing owl burrows in place with a buffer in accordance with LDC Appendix H, or commit to a detailed relocation management plan. The developer demonstrates it is necessary to impact the burrows, the management proposal must provide details about where appropriate replacement habitat for the owls will be provided, how the owls will be attracted to this area, and how it will be protected during construction activities on the site.

d. The developer must submit a detailed Scrub Jay Management Plan to the Division of Environmental Sciences for review and approval at the time of local development order submittal. This plan must follow the general guidelines of the "Florida Scrub Jay Management Plan" provided as part of the "Protected Species Management Plan for Schulman Parcel," counter stamped May 19, 1999 and incorporated into this resolution of approval as Exhibit D. The finalized Scrub Jay Management Plan must be approved by the Florida Fish and Wildlife Conservation Commission (FWC) prior to local development order approval.

e. The developer must submit a detailed Sandhill Crane Management Plan to the Division of Environmental Sciences for review and approval at the time of local development order submittal.

f. Conditions 3.a.-e. above were satisfied by the Protected Species Management Plan dated May 2006 prepared by Passarella and Associates and approved by the Division of Environmental Sciences (DES). Prior to approval of any additional residential development orders, a revised Protected Species Management Plan must be submitted to DES for review and approval. Revisions to the plan will include resident educational materials for the gopher tortoise, listed wading birds, and scrub jays, as well as incorporate a large mammal management plan.

g. Open space must be provided in accordance with the MCP. All individual tracts must provide a minimum of ten percent open space within the tract and may be met with private open space.

h. The developer must provide a minimum of 465 acres of indigenous preservation areas in substantial compliance with the MCP. The preserves must be delineated on the local development order plans when they are within or adjacent to the development phase or tract to be developed.

i. The developer must barricade all indigenous preservation areas to exclude cattle grazing within 60 days of approval of the planned development by the Board of County Commissioners.

j. Prior to local development order approval, the plans for any residential units on individual lots that abut a preserve must delineate a preserve boundary sign location at every other lot line and provide a detail of the sign for the Division of Environmental Sciences' Staff review and approval.

k. Every effort must be made in the final design of the golf course and residential tracts to preserve large native trees. The developer must schedule an on-site preconstruction meeting with Division of Environmental Sciences' Staff prior to the issuance of a vegetation removal permit for any phase of development to confirm preservation and barricading requirements prior to the initiation of site clearing.

4. The following recommendations are presented in order to mitigate future hurricane damage and loss of life, as well as to ensure compliance with Lee Plan objectives.

a. The developer must establish a homeowners' or residents' association that will provide an educational program on an annual basis, in conjunction with the staff of Emergency Management, who will provide literature, brochures and speakers for Hurricane Awareness/Preparedness Seminars, describing the risks of natural hazards. The intent of this recommendation is to provide a mechanism to educate residents concerning the actions they should take to mitigate the dangers inherent in these hazards.

b. The developer must formulate an emergency hurricane notification and evacuation plan, which will be subject to review and approval by the Lee County Office of Emergency Management.

c. If access to this development or any portions thereof, is through a security gate or similar device that is not manned 24 hours a day, it must be equipped with an override strip installed in a glass covered box to be used by drivers of emergency vehicles to gain entry, consistent with LDC §34-1749.

d. The developer must cooperate with the Division of Public Safety/Emergency Management in determining and participating in a means to lessen hurricane shelter impacts on the County's hurricane preparedness process and public safety. Those "means" could include the provision of equipment, monies in lieu of equipment, or such other goods, materials or actions deemed appropriate by Emergency Management that results in the provision of additional shelters, or improvement of roads for use as additional evacuation routes. The choice of "means" will rest with the developer, so long as the choice adequately mitigates the adverse impacts.

5. The following conditions are included to address Lee Plan consistency issues:

a. In accordance with CPA2012-01, the total residential dwelling count within River Hall will not exceed 2695 dwelling units. The portion of the property within the Rural future land use category must maintain densities of one dwelling unit per acre or less. No more than 1,140 dwelling units may be constructed in the Rural designated areas of the project. Densities may not be shifted between future land use categories unless a new public hearing occurs and the allocation of density complies with provisions of Policy 5.1.10 of the Lee Plan.

b. Given the limited existing available Rural 2020 Planning Community Acreage Allocation, at the time of rezoning, the available Rural allocation must be

determined by the Planning Division prior to any development order approval for residential use in the Rural portions of the site. No development order will be issued or approved if the acreage, when added to the acreage contained in the updated existing land use database, exceeds the limitation established by Lee Plan Table 1 (b), Acreage Allocation Table (per Lee Plan Policy 1.7.6). In order to develop more Rural acreage with residential uses, the Lee Plan must be amended to change the Rural residential acreage allocation for the Fort Myers Shores planning community in Table 1 (b). Adequate data and analysis to support this amendment must be submitted by the applicant at the time of the request for the Lee Plan amendment. Development in excess of the current Table 1 (b) allocations will not be permitted until Table 1 (b) is amended accordingly.

6. The following conditions are included to address the golf course:

a. The developer of the golf course must use fertilizers with a low leaching potential (slow release). The fertilizers must not be applied after active growth of the turfgrass has ceased, and must be kept to the lowest reasonable levels; and

b. To reduce sources of pollutants, especially nutrients and pesticides associated with the golf course, the golf course manager must implement a chemicals management plan that includes an integrated pest management (IPM) program and a nutrient management program so that nutrients and pesticides are used only when absolutely necessary. The program must address prevention, diagnosis, and limited treatment with pesticides when necessary rather than blanket treatment with broad spectrum pesticides as insurance against all pest species. The application of pesticides will involve only the purposeful and minimal application of pesticides, aimed only at identified targeted species. The regular widespread application of broad spectrum pesticides is prohibited. The IPM program must minimize the use of pesticides and must include the use of the US Department of Agriculture - Natural Resources Conservation Service (USDA-NRCS) Soil Pesticide Interaction Rating guide to select pesticides for use that have a minimum potential for leaching or loss from runoff. The nutrient management program must be based upon the USDA-NRCS Nutrient Management Standard and must include the use of soil tests to determine needed applications of nutrients. Only EPA-approved chemicals may be used. Turf managed areas (including fairways, tees, and greens) within 35 feet of wetlands or preserve areas are prohibited. This chemicals management plan must be submitted to and approved by Lee County Planning Division Staff prior to the development order approval.

c. The golf course manager must coordinate the application of pesticides with the irrigation practices (the timing and application rates of irrigation water) to reduce runoff and the leaching of applied pesticides and nutrients.

d. The utilization of a golf course manager licensed by the state to use restricted pesticides and experienced in the principles of IPM is required. The golf course manager is responsible for ensuring that the golf course fertilizers are selected and applied to minimize fertilizer runoff into the surface water and the leaching of those fertilizers into the groundwater.

e. The storage, mixing, and loading of fertilizer and pesticides must be designed to prevent/minimize the pollution of the natural environment.

f. The golf course must comply with the "Best Management Practices for Golf Course Maintenance Departments," prepared by the Florida Department of Environmental Protection, as amended.

g. The golf course must be planted with a turfgrass cultivated variety that is drought and pest resistant, and that requires relatively low fertilizer use.

h. The irrigation system must operate on an "as needed" basis through the utilization of weather forecasting and ongoing assessment of the moisture content of the soil.

i. All fairways, greens, and tees must be elevated above the 25-year flood level, and all greens must utilize underdrains. The effluent from these underdrains must be pre-treated prior to discharge into the balance of the project's water management system.

j. Stormwater run-off must be pre-treated through an acceptable recreated natural system or dry retention and water retention system, prior to discharging the run-off into existing lake or wetland (any aquatic) systems.

k. An annual monitoring report of ground water and surface water quality is required for the golf course operation. The monitoring program must include: testing to assess whether there are any herbicide, pesticide or fertilizer pollution of the water within the area of the golf course; identification of the locations for the ground water monitoring and testing on a map(s); testing and recording requirements. The developer must submit the test results with the monitoring report to the Lee County Planning Division. The monitoring program will be established and operated at the expense of the developer, or other comparable

legal entity charged with the legal responsibility of managing the golf course. This plan will be evaluated in accordance with the directives of Chapter 17-302, F.A.C., water quality standards.

l. If groundwater or surface water pollution occurs, as that term is defined by the rules or regulations in effect at the time, and if the pollution is caused by the application of fertilizers, herbicides or pesticides to the golf course, the application must cease until the developer submits a revised management plan. If mitigation is necessary to address the pollution, the developer must implement a mitigation plan approved by Lee County.

7. Model units and homes are permitted in compliance with the following conditions:

a. Each model must be a unique example. Multiple examples of the same unit are not permitted; and

b. All model sites must be designated on the development order plans; and

c. Prior to constructing model homes within this project, the lots upon which the model homes will be constructed will have been shown on a preliminary plat filed concurrently with the required local development order for this project. Such model home(s) will comply with all setbacks set forth within the Property Development Regulations for River Hall (f/k/a Hawk's Haven) or the LDC, whichever applies. Should setback problems arise after construction of a model home, it will be the responsibility of the owner/developer to resolve the setback problem.

d. Hours of operation for model units and real estate sales within the model units are limited to Monday through Sunday, 8 a.m. through 8 p.m.

8. AGRICULTURAL USES: Existing bona fide agricultural uses on this site are allowed only in strict compliance with the following:

a. Bona fide agricultural uses that are in existence at the time the application for this project was filed, and as shown on Exhibit E attached hereto, may continue until approval of a local development order for the area of the project containing those uses.

b. Additional clearing of trees or other vegetation in agricultural areas is prohibited. Existing areas of bona fide agricultural use may be maintained, i.e., mowed, but not cleared or expanded. This prohibition is not intended to preclude County approved requests for the removal of invasive exotic vegetation.

c. Prior to issuance of a local development order, the property owner must provide written proof, subject to approval by the County Attorney's Office, of the following:

i. Termination of all agricultural use on any portion of the property included in the development order application/approval. Proof must include a sworn affidavit from the person or entity holding title to the subject property that specifically provides:

(1) the date the agricultural uses ceased;

(2) the legal description of the property subject to the development order approval;

(3) an affirmative statement that the owner acknowledges and agrees that all agricultural uses are illegal and prohibited on the property and that the owner covenants with the county that they will not allow any such uses on the property unless and until the property is re-zoned to permit such uses; and,

(4) that the affidavit constitutes a covenant between the owner and the county that is binding on the owner and their assignees and successors in interest.

The covenant must be properly recorded in the public records of the county at the owner's expense.

ii. Termination of the agricultural tax exemption for any portion of the property included in the development order application/approval. Proof as to termination must include of a copy of the request to terminate the tax exemption provided to the Property Appraiser.

9. Construction traffic is prohibited on Hickey Creek Road.

10. Buildings exceeding 35 feet in height must maintain additional building separation as regulated by LDC §34-2174(a).

11. Approval of this zoning request does not address access onto S.R. 80, since Lee County has no jurisdiction over that roadway. The developer must pursue this access approval with the Florida Department of Transportation (FDOT). In accordance with the signal warrant analysis conducted by FDOT April 22, 2014, the developer will coordinate with FDOT to install a traffic signal at the intersection of S.R. 80 and River Hall Parkway. The signal design will be initiated within 30 days of the effective date of this Resolution and the design will be submitted to FDOT for review within 150 days of the effective date of this Resolution. The developer will pursue final design approval from FDOT with all due diligence. Construction and installation of the signal shall proceed forward immediately after design approval by FDOT. Actual timing of installation is subject to agency review, permitting, manufacturing, construction, installation, testing and other factors.

12. Approval of this rezoning does not give the developer an undeniable right to receive local development order approval. Future development order approvals must satisfy the requirements of the Lee Plan Planning Communities Map and Acreage Allocations Table, Map 16 and Table 1(b).

13. This development must comply with all of the requirements of the LDC at the time of local development order approval, except as may be granted by deviations approved as part of this planned development.

14. The developer is required to design the project in a manner that will provide the internal "outparcels" (separate tracts encapsulated by the project property) the ability to obtain reasonable and practicable access through the subject property, unless the developer provides a circuit court order indicating that the internal outparcels are not legally entitled to access through the subject property. However, this rezoning does not obviate the developer's responsibility to provide access to the internal "outparcels" in accordance with Florida law.

15. If the developer constructs structures other than conventional single-family homes within 100 feet of the "outparcels," the developer must provide a 25-foot-wide enhanced vegetative buffer completely around the outparcel. In addition, the enhanced vegetative buffer must utilize native vegetation, indigenous to the plant community in which it is to be planted. The vegetation must be installed prior to vertical construction and it must be installed according to the following density and size:

a. Six trees per 100 linear feet - At installation, trees must be a minimum of 12 to 14 feet tall, with a 2-1/2 inch minimum caliper and a 5-foot minimum

canopy. No palm trees, or completely deciduous trees, may be used to meet the requirements of this enhanced buffer.

b. 33 shrubs per 100 linear feet - 1) At installation, all shrubs must be 18 to 24 inches in height, 3-gallon pots, and spaced 30 to 36 inches on center; and 2) all shrubs used to meet the enhanced buffer requirements must reach a mature height in excess of six feet under normal growing conditions. If these "outparcels" come under the control of the developer prior to construction within the 100-foot-wide area, then compliance with this condition is not required.

16. Vehicle access from the northern boundary of the subject property over and across Hickory Creek Road is prohibited.

17. Accessory uses must be located on the same tract, parcel or outparcel where a principal use is located. Accessory uses must be incidental and subordinate to the principal use of the tract, parcel or outparcel.

18. No development blasting is permitted as part of this project unless approved at a subsequent public hearing as an amendment to the planned development.

19. All required buffers must utilize 100 percent native vegetation.

20. Upon passage of this Zoning Resolution, Zoning Resolution #Z-99-056, Administrative Amendment ADD2004-00067, and Zoning Resolution #Z-05-051 are null and void.

21. The school site is limited to a public school operated by the School District of Lee County.

22. Outdoor storage areas must be in compliance with §34-3001, et seq, of the Lee County LDC, with the additional requirements as outlined on page 2 of 2 of the attached MCP, including a 200-foot perimeter setback and enhanced buffer.

23. A plan showing landscaping in accordance with page 2 of 2 of the approved MCP must be submitted and approved prior to the issuance of a development order for the golf course maintenance facility and amenity center.

24. Signage referencing the town center is prohibited within 50 feet of the right-of-way of Palm Beach Boulevard (State Road 80).

25. BUFFERS.

a. A Type "B" buffer must be added to the MCP for the "Town Center" portion bordering agriculturally-zoned property to the east, in accordance with the LDC. This buffer will not include the existing conservation areas shown on the approved MCP.

b. A Type "D" buffer must be added to the MCP on the "spine" Road for the commercial Town Center portion of the property, in accordance with the LDC.

26. Within 24 months of the effective date of this Resolution, the developer will design, permit, and construct the secondary access to 75th Street West shown on page 4 of the MCP. In the event the secondary access is not constructed within 24 months of the effective date of this Resolution, the Director of Community Development may issue a reasonable extension for completion if the developer demonstrates good faith progress on the design, permitting and construction of the access. This requirement is contingent upon approval from the East County Water Control District (ECWCD) to cross the 50-foot-wide canal along the south side of River Hall. The County will work with the developer to obtain approval to cross the 50-foot-wide canal.

27. Approval of this zoning request does not address mitigation of the project's vehicular or pedestrian traffic impacts. Additional conditions consistent with the Lee County LDC may be required to obtain a local development order.

Approval of this zoning does not constitute a finding that the proposed project meets the concurrency requirements set forth in the LDC Chapter 2 and the Lee Plan. The developer is required to demonstrate compliance with all concurrency requirements prior to the issuance of a local development order.

28. Within ninety (90) days of the effective date of this Resolution, the developer will submit a request to the South Florida Water Management District (SFWMD) for a letter modification to the consumptive use permit for the project to reinstate the groundwater monitoring requirements that were not included in the 2013 permit renewal. These requirements include conditions 31, 32, and 33 of the original Permit No. 36-04006-W issued in 2006. If the SFWMD approves the requested modification, all monitoring reports filed with the SFWMD pursuant to the permit will also be simultaneously filed with the County's Department of Natural Resources.

29. The developer will provide the ability for drainage from the ECWCD to pass through the project's surface water management system in order to lower flood stages within the ECWCD. The intent of this condition is to provide for a storm water conveyance from the existing ECWCD canal along the southern boundary of River Hall during major storm events. This condition is not intended to require the construction of any physical improvements to the surface water management system within River Hall, but only to require access to and authority for the ECWCD to utilize the surface water management system within River Hall in accordance with its existing permit. Documentation of compliance with this requirement will be provided by the developer to the County prior to the issuance of any additional residential development orders; provided, however, that this will not prohibit the issuance of development orders solely for infrastructure improvements (including but not limited to sewer, water, and drainage) for the project.

30. The developer will design, permit, and construct an 8-foot wide sidewalk/bicycle path along State Road 80 between River Hall Parkway and Buckingham Road. The design will be submitted to FDOT for review within 150 days of the effective date of this Resolution. The developer will pursue final construction approval from FDOT with all due diligence. Construction and installation of the sidewalk shall proceed forward immediately after design approval by FDOT. Actual timing of installation is subject to FDOT review and permitting.

31. The developer will coordinate with Lee County Emergency Management Services to accommodate the provision of EMS services at a location near the intersection of River Hall Parkway and State Road 80. At the developer's option, the developer may satisfy this condition by providing either: (a) space within an existing or new structure, along with associated parking; (b) a donation of land not to exceed one-half (1/2) acre along River Hall Parkway for construction of an EMS facility at the County's expense; or (c) some other facility or donation mutually acceptable to the developer and County.

B. DEVIATIONS:

The first four (4) deviations were approved along with Resolution Z-05-051. They remain unchanged from that approval and are listed in order to provide an exhaustive list of the approvals associated with existing development. Deviations five (5) through nine (9) are new, and approval is sought as part of the current amendment request.

1. Deviation (1) sought relief from the LDC §10-385(d)(3)a requirement to provide a maximum fire hydrant spacing of 800 feet in the one- and two-dwelling

unit area, to eliminate this requirement in areas along the "spine" road where no homes exist. This deviation was APPROVED.

2. Deviation (2) was withdrawn.

3. Deviation (3) sought relief from the LDC §10-329(d)(4) requirement to provide lake banks to be sloped at a maximum 4:1 slope, to allow bulkheads for up to 25 percent of the shoreline of lake banks. This deviation was APPROVED.

4. Deviation (4) sought relief from the LDC §34-2194(b) requirement to provide a 25-foot setback from bodies of water, to allow 20-foot setbacks for the manmade lakes to be consistent with the existing development orders and permits. This deviation was APPROVED.

5. Deviation from LDC Section 10-415(b)(1)c which requires a minimum setback of 20 feet from buildings and a 30 foot setback for indigenous plant communities subject to fire to allow a side setback of 17 feet for the following existing platted lots: River Hall Country Club, Phase Two, Block K, Lots 29, 57, 76 and 77; Hampton Lakes At River Hall, Phase One, Lot 87. This deviation is APPROVED.

The River Hall Community was approved by the Board of County Commissioners for a Residential Planned Development on September 19, 2005. The development footprint and indigenous open space identified in the existing Master Concept Plan for the River Hall RPD are not being amended as part of this application. The setback requirements for indigenous communities were incorporated into the Land Development Code as part of Ordinance 05-14, approved August 23, 2005. At the time the Ordinance was approved, the River Hall RPD was in process and scheduled for a public hearing at the Board of County Commissioners. As a result, the existing development pattern of the River Hall Community was not required to provide the 30 foot indigenous setback. The approved side setback in Z-05-051 for the principal structure from the side lot line is 5'.

The requested 17' is for specific side setback locations within the existing platted portions of the River Hall Community where the side yard abuts an upland preserve. The requested setback provides the maximum distance available on the existing platted lot for emergency services vehicles and staff to access the indigenous habitat and yet allows the existing platted development and development tracts to remain consistent with the previously approved development plan. Should these parcels be replatted at a future time, the requested deviation would not be applicable.

6. Deviation from LDC Section 10-415(b)(1)c which requires a minimum setback of 20 feet from buildings and a 30 foot setback for indigenous plant communities subject to fire to allow a rear setback of 20 feet for all existing platted lots. This deviation is APPROVED.

The River Hall Community was approved by the Board of County Commissioners for a Residential Planned Development on September 19, 2005. The development footprint and indigenous open space identified in the existing Master Concept Plan for the River Hall RPD are not being amended as part of this application. The setback requirements for indigenous communities were incorporated into the Land Development Code as part of Ordinance 05-14, approved August 23, 2005. At the time the Ordinance was approved, the River Hall RPD was in process and scheduled for a public hearing at the Board of County Commissioners. As a result, the existing development pattern of the River Hall Community was not required to provide the indigenous setback. The approved setback in Z-05-051 for the principal structure from the rear setback is 15'.

The requested 20' is for the existing platted portions of the River Hall Community to address the existing conditions of the Community. This setback provides adequate distance for emergency services vehicles and staff to access the indigenous habitat and will allow the existing platted development and development tracts to remain consistent with the previously approved development plan. It is important to note that a substantial portion of the community, as defined by LDC §34-381(4), has approved Development Orders and is platted for residential development. Should these parcels be replatted at a future time, the requested deviation would not be applicable.

7. Deviation from LDC Section 10-329(d)(4) which requires banks of excavations to be sloped at a ratio not greater than 6 horizontal to 1 vertical from the top of bank to a water depth of 2 feet below the dry season water table to allow a 4:1 slope. This deviation is APPROVED.

The slope requirements for the excavation bank slopes were incorporated into the Land Development Code as part of Ordinance 09-23, approved June 23, 2009, after the approval of the River Hall RPD on September 19, 2005. As a result, the existing slopes within the development provide a 4 to 1 slope. The requested 4:1 slope will allow a consistent and compatible development pattern to continue throughout the residential development. The deviation works within the existing physical conditions of the Residential Planned Development to enhance its economic feasibility and does not pose a threat to the public health safety and welfare.

8. Deviation from LDC Section 10-291(3) which requires residential subdivisions of more than 5 acres to provide more than 1 means of ingress or egress for the development to allow 1 point of ingress or egress onto State Road 80. This deviation is APPROVED, subject to condition 26.

The River Hall Community was approved by the Board of County Commissioners for a Residential Planned Development on September 19, 2005. The requirement for residential development to provide more than one means of ingress or egress was incorporated into the Land Development Code as part of Ordinance 07-24, approved August 14, 2007. At the time the Ordinance was approved, the River Hall RPD was already approved. As a result, the River Hall Community does not provide a secondary access at this time. The applicant agrees to design, permit and construct the secondary access to 75th Street West as shown on page 4 of the MCP within 24 months of the PD Amendment being approved. This is contingent upon approval from the East County Water Control District (ECWCD) to cross the 50-foot wide canal along the south side of River Hall.

9. Deviation from LDC Section 34-934 which permits dwelling units within a CPD when there are at least 50,000 square feet or more of commercial uses to allow dwelling units within the existing River Hall CPD which was permitted for 45,000 square feet of commercial uses. This deviation is APPROVED.

The applicant has proposed to amend the schedule of uses for the existing proposed Commercial Planned Development to promote a mix of uses along SR 80 at the front entry of the River Hall Community. Objective 21.4 of the Caloosahatchee Shores Community encourages Mixed Use Development that promotes a mix of commercial and residential uses to facilitate alternative transportation an internal capture. The addition of the requested multi-family residential would promote the integration of commercial and residential uses, the additional recreational and civic uses would promote pedestrian and bicycle connections to the existing surrounding development along the proposed multi-use path adjacent to SR 80. The addition of the residential uses within the CPD will promote infill development and the clustering of uses, improving the efficient use of both land and existing utilities to create a well-designed community with a mix of uses that supports the needs and demands of the area's residents.

III. BACKGROUND INFORMATION AND ANALYSIS

Introduction/Synopsis

The current request is intended to provide infill development for a portion of the River Hall (f/k/a Hawk's Haven) development currently under unified control of the

current developer/owner, GreenPointe, LLC. This action will amend the existing RPD and CPD zoning approval to increase the number of residential dwelling units in River Hall development by 696 dwelling units (to a total of 2,695), all of which will be placed into areas already shown as future development, and include additional recreational uses within the commercial portion of the community. This application is being reviewed along with a Comprehensive Plan Amendment (CPA2012-00001) which will serve to assign future land use categories to the areas in which the additional dwelling units would be placed. This rezoning will also assist in the proper allocation of dwelling units already permitted into the appropriate future land use categories that match the densities allowable.

The initial application involved a Lee Plan amendment consisting of a text amendment, modifications to Table 1(b), and a Future Land Use Map (FLUM) amendment to remove 1,247 acres of land from Rural and Wetlands and place that acreage into Conservation Wetlands, Conservation Uplands, and Sub-Outlying Suburban. During the pendency of the amendment process a number of events occurred that eventually led to the current request. Currently, as a result of a portion of the acreage having been removed from the CPA, none of the Wetlands acreage is being re-designated, and only 585.6 acres of Rural are being moved into Sub-Outlying Suburban. Table 2, below, details the specific density breakdowns. The result of the modified requests provides for an increase in the total number of permissible units across the entirety of the River Development to a total of of 2,696 DU's, 696 additional units beyond the already approved 1999.

Zoning/Development History

Hawks Haven:

The Development was originally named Hawk's Haven and approved as an RPD by the adoption of Zoning Resolution Z-99-056 on October 18, 1999. This approval allowed the development of up to 1,598 dwelling units on 1,797 acres. The RPD zoning was amended administratively by ADD2004-00067A. The amendment identified an emergency access, revised conditions, relocated the open storage and golf maintenance faculties, and identified the location of a 20 acre school site. Subsequent local development order approvals[1] for development of infrastructure, residential home sites, golf course, and other amenities were granted.

River Hall:

[1] Cascades at River Hall (2004-00248 & 2004-00266; 575 lots, infrastructure, & sales facilities); Hampton Lakes at River Hall (2004-00305, 2005-00156, & 2006-00042; amenity and sales center and 404 lots); River Hall Elementary School (2005-00233; 1,000 student elementary school and infrastructure); and River Hall Country Club (2004-00330 & 2005-00182; 18 hole golf course and clubhouse, 745 lots, 138 condominiums, and infrastructure).

On September 19, 2005, the Board of County Commissioners approved a rezoning from RPD (the original Hawk's Haven) and AG-2 to Residential Planned Development and Commercial Planned Development[2] for an enlarged 1,978 acre development now named River Hall. This approval added 181 acres to the development and permitted up to 1,999 dwelling units; 15,000 square feet of office, and 30,000 square feet of retail. Clearing and grading of the entire site was undertaken in stages, along with the construction of necessary infrastructure, amenities, and 18 of the permitted 36 golf course holes.

As of the application date, there were 324 occupied dwelling units, or 16% of the 1,999 units approved by Resolution Z-05-051. Existing development consisted of 132 occupied homes in River Hall Country Club, along with 18 holes of the golf course and phase 1 of the clubhouse facilities, 70 occupied homes in Hampton Lakes plus phase 1 of the Town Hall, and 122 occupied homes within Cascades. Since that time additional golf course facilities have been commenced along with new model homes within River Hall Country Club. A total of 1,903 dwelling units have been entitled through development orders and platting efforts.

Master Concept Plan

The Master Concept Plan is a five-page Plan submitted on December 17, 2014. Development tracts are identified on the MCP showing the locations of the proposed additional units. The applicant proposes the development of a total of 2,695 residential units within River Hall. The applicant wants the ability to develop zero lot line, duplex, townhouse, and multi-family dwellings as permitted uses.

Lee Plan Compliance

Planning Community Map and Allocation Table

The applicant has proposed an amendment to Table 1(b), the Year 2030 Allocations Table. The applicant has requested an amendment to Table 1(b) to accommodate the added acreage necessary for the requested increase in Sub-Outlying Suburban area. This is further explained below. Map 16 and Table 1(b) provide the allocations and geographic applicability of the allocations. Map 16 identifies 22 Planning Communities. The subject property is within the Planning Community #4, Fort Myers Shores. Table 1(b) uses the Planning Communities to allocate the number of acres that may be developed for residential, commercial, or industrial uses within each future land use category. Lee Plan Policy 1.7.6 provides further guidance concerning the Planning Communities map and Acreage Allocation Table (Map16 and Table 1(b)).

Currently the subject property has 1,726 acres of land within the rural future land use categoryand 181 acres of Wetlands. The applicant is proposing an amendment to the Future Land Use Map to add 585.6 acres of Sub-Outlying Suburban. The amendment language authorizing this addition has been transmitted by the Florida Department of Economic Opportunity, and a report has been received from that Agency offering no substantive comments. The applicant is also proposing an amendment to Table 1(b) so that sufficient acreage will be available to allow the build-out of the River Hall development should the proposed changes to the Future Land Use Map be adopted.

[3] Applicant has agreed to cap zoning approval at 2,695 dwelling units, although a calculation of the FLUM density achieves the potential 2,749 dwelling unit count.

Table 3: Excerpt from Lee Plan Table 1(b)

Amending the Future Land Use to Sub-Outlying Suburban allows a maximum density of 2 dwelling unit per acre. The Planned Development Amendment will limit the area to ±553 acres and the density increase to an additional 696 dwelling units. The additional units will be clustered into only those the portions of the River Hall Community subject to the Planned Development Amendment request. Within the amendment area, no lands will be re-platted and, as demonstrated on the Master Concept Plan, the existing development footprint will be utilized for the additional density. This will serve to promote the clustering of residential density and uses, improving the efficient use of both land and existing utilities to create a well-designed, healthy lifestyle community with a mix of uses which supports the needs and demands of the area's residents – the definition of a Suburban Place. No revisions are proposed to the open space or conservation areas.

The River Hall Community has existing Suburban, Rural and Wetland Future Land Uses, together with the proposed Sub-Outlying Suburban, the River Hall Community will be limited to 2,695 units by the proposed Planned Development Amendment in concert with the accompanying FLUM amendment. The proposed amendment is not contiguous across the subject property due to the nature of infill development within an existing, partially built subdivision. The RPD/CPD modifications are based upon the applicant's ownership and the desire for the infill development described in the application. The proposed amendment will promote infill development and provide a transition from the existing adjacent residential developments to the south and west of the community to the rural and conservation land uses to the north and east. The proposal integrates various land uses and facilitates transportation options to provide opportunities for walking, biking and riding.

The proposed amendment also promotes the logical extension of the adjacent, existing residential development pattern in this urbanized portion of the county, and will permit infill development of the subject property, which is served by existing public, urban infrastructure. The previously approved open space, height and property development regulations relating to lot size in Z-05-051 will not be amended by this request. In addition, multi-family residential has been added to the

uses requested within the Commercial Planned Development to encourage a mix of uses. These additional units will create a commercial mixed use node adjacent to an existing commercial to serve the residential of River Hall and the surrounding community.

Lee Plan Consistency

Originally, the River Hall Comprehensive Plan Amendment, CPA2012-00001, requested a Future Land Use Map Amendment to remove ±1,278 acres of the subject property from the Rural and Wetlands Future Land Use Categories and re-designate this portion of the property into the Conservation Uplands and Conservation Wetlands and Sub-Outlying Suburban. On October 22, 2014, that amendment was approved to be transmitted to the Department of Economic Opportunity by the Lee County Board of County Commissioners. As previously described, since that time a detailed review of the development needs has been conducted and the Planned Development Amendment area has been reduced to promote greater consistency with the Lee Plan.

River Hall is currently classified by the Lee Plan as Suburban, Rural and Wetland. Given the approved planned development, existing infrastructure, and surrounding land uses, the Rural designation is no longer appropriate for the subject property. Objective 1.4 sets forth a land use framework for non-urban areas including the Rural land use classification. The Lee Plan states such areas are not anticipated for urban development at this time. However the approved planned development and existing infrastructure already provides for a suburban level density and uses. According to Future Land Use Policy 1.4.1, within the Rural Classification, permitted land uses include residential, agriculture, and minimal non- residential land uses that are needed to serve the rural community. The maximum density is one dwelling unit per acre. This definition is not consistent with the existing approval for River Hall. Thus, as it currently exists, the River Hall development is inconsistent with the description and intent of the Lee Plan land use designation in which it is located.

As proposed by this request, River Hall would be consistent with the Lee Plan definitions and the Sub-Outlying Suburban future land use designation. The property is located in a developed area of the County with established residential communities, commercial development, and some Conservation and Rural lands. Letters of Availability have been received from service providers demonstrating public infrastructure is available to support the additional 696 additional dwelling units. The property transitions density from the 2 to 4 dwelling units per acre permitted to the South and West to the 1 dwelling unit per acre and Conservation lands permitted to the North and West. The requested density will be directed toward the existing unplatted developable areas of the community, creating an infill

development. The Sub-Outlying Suburban category provides for lower densities appropriate for the site's transitional location and the proposed Conservation Future Land Use categories to promote an infill land use.

Lee Plan Policy 1.1.11 states, "The Sub-Outlying Suburban areas are residential areas that are predominantly low-density development. Generally the requisite infrastructure needed for higher density development is not planned or in place. It is intended that these areas will develop at lower residential densities than other Future Urban Areas and are placed within communities where higher densities are incompatible with the surrounding area and where there is a desire to retain a low-density community character. Higher densities, commercial development greater than neighborhood centers, and industrial land uses are not permitted. The standard density range is from one dwelling unit per acre (1 du/acre) to two dwelling units per acre (2 du/acre). Bonus densities are not allowed." A review of the existing development patterns and the proposed infill development as depicted upon the MCP demonstrates that the existing single-family and multi-family development activities are consistent with a suburban land form. The most appropriate transition land use category found within the Lee Plan, consistent with existing and proposed development, is Sub-Outlying Suburban. The proposed added units will create a land area consistent with the density maximums and the surrounding community character. The proposed zoning amendment is consistent with this Lee Plan policy.

Goal 2 Growth Management

This portion of the Lee Plan establishes land use policy to support projects that propose an economically feasible plan for development. The proposed Planned Development Amendment promotes a contiguous and compact growth pattern and infills an existing subdivision with urban infrastructure. The request utilizes the existing development footprint to establish a density consistent with the existing surrounding residential developments. A review of the design of the infrastructure for the subject property demonstrates: 1.) the potable water system has been designed to accommodate the added units; 2.) the wastewater collection system has been designed to accommodate the added units; 3.) the irrigation system has been designed to accommodate the added units; 4.) the surface water management system has been designed to accommodate the added units; 5.) the internal circulation system has been designed to accommodate the added units; and 6.) the amenities have been designed to accommodate the added units.

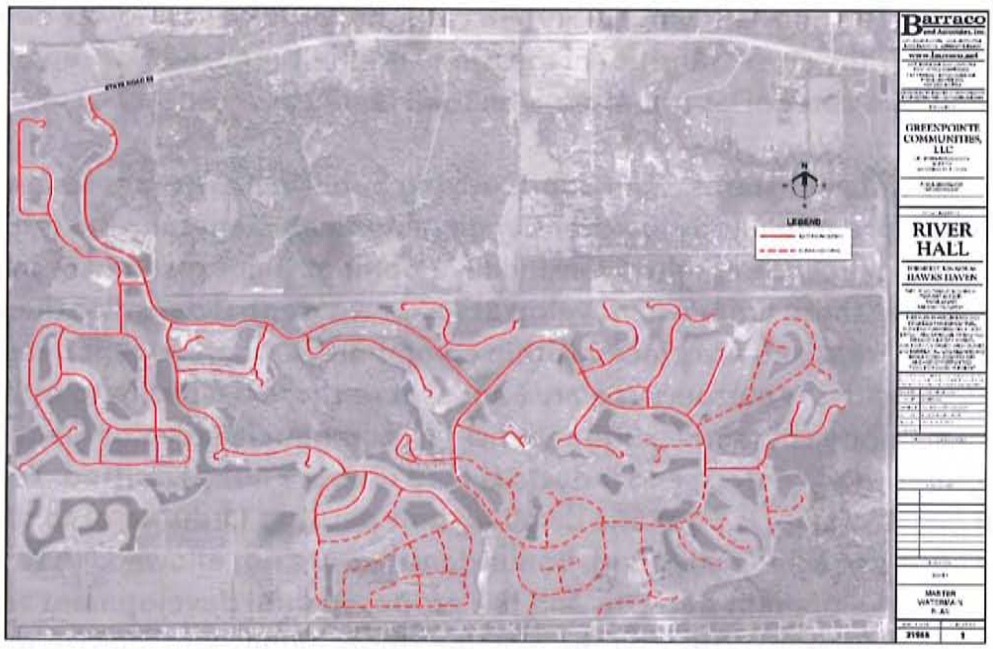

Figure 5: Potable Water Facilities

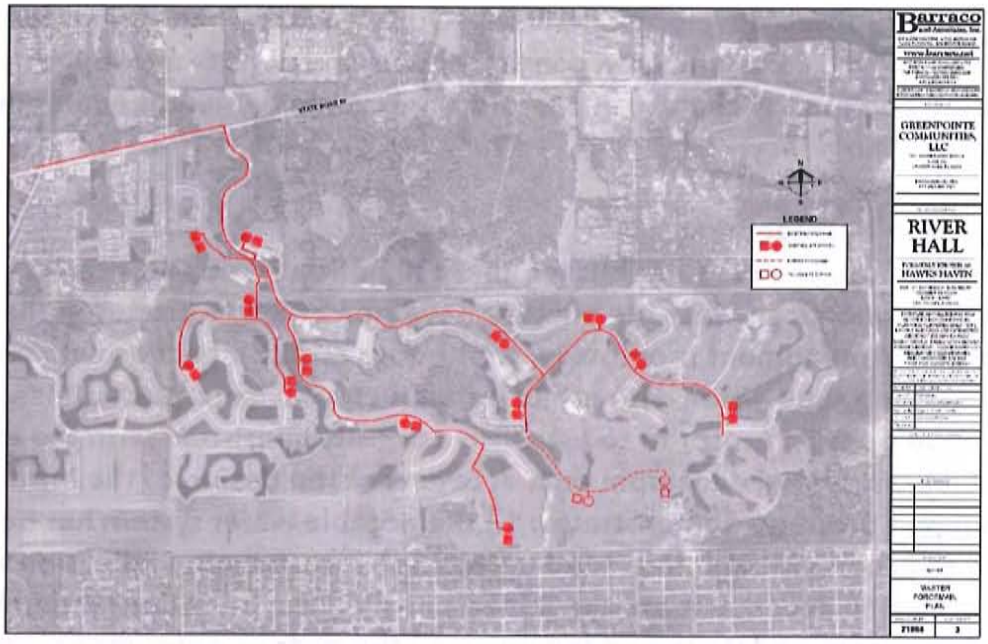

Figure 6: Wastewater Collection Facilities

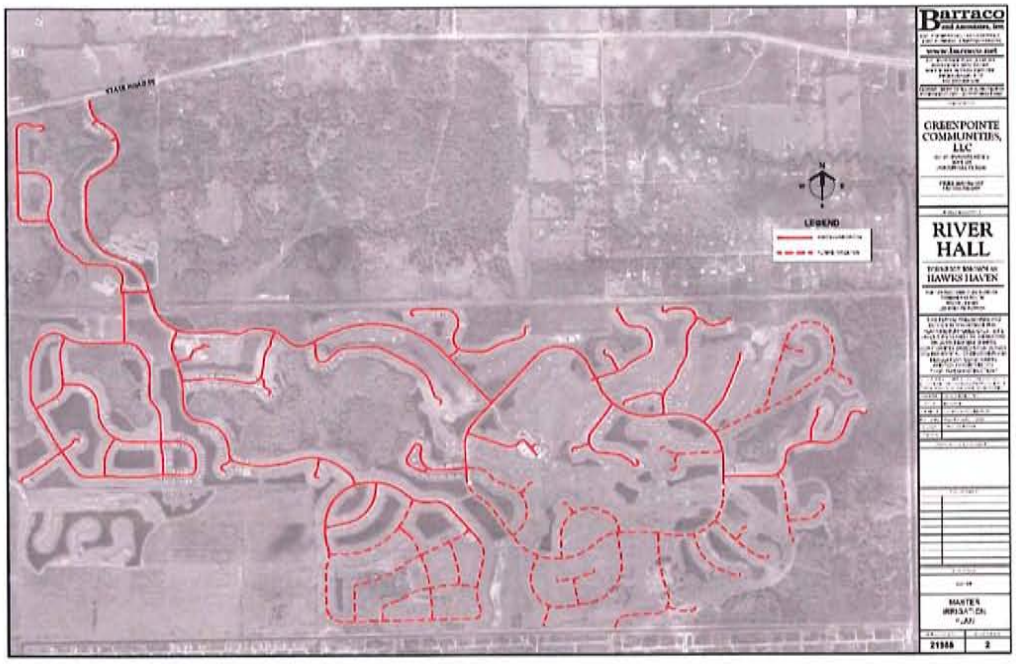

Figure 7: Irrigation Facilities

Figure 8: Master Drainage Facilities

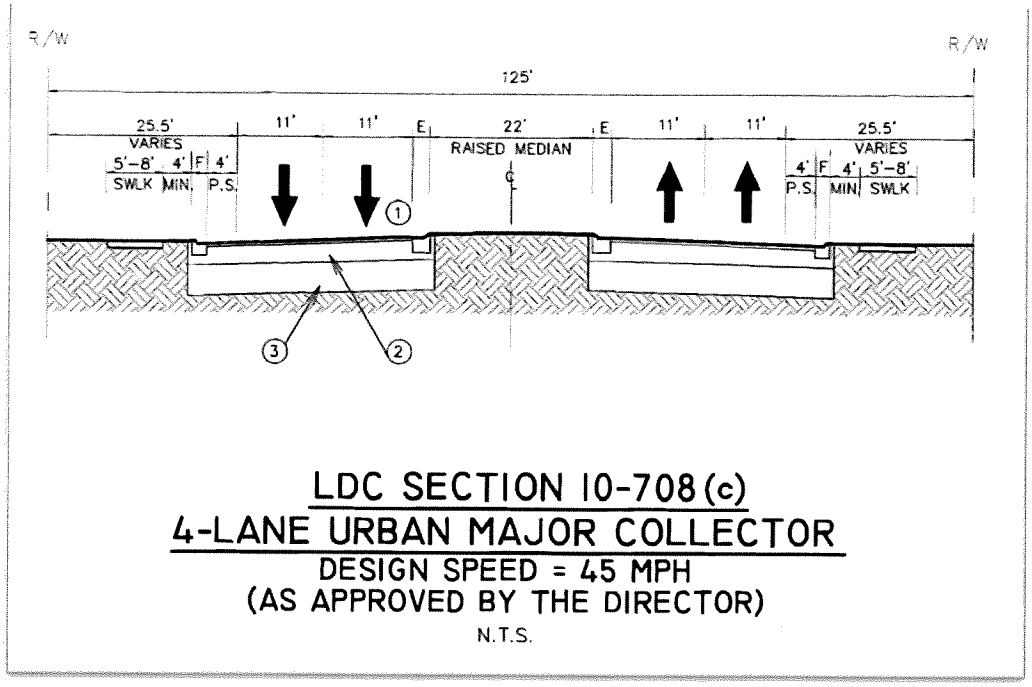

Figure 9: River Hall Parkway Roadway Section – LDC 10-296, Closed Drainage

The requested additional 696 units will be located on existing unplatted areas of the development within the proposed Sub-Outlying Suburban Future Land Use – depicted as "Future Neighborhoods" on the original marketing literature. Letters of Availability have been received demonstrating there is adequate capacity within the existing public infrastructure system to service the additional 696 dwelling units requested. The Comprehensive Plan Amendment and Planned Development Amendment will promote a mix of uses that serve the residents of River Hall and surrounding area.

Goal 5 Residential Uses

Goal 5 provides for sufficient land to be provided in appropriate locations on the Future Land Use Map to accommodate the projected population of Lee County. The approved planned development and existing infrastructure allow a suburban level density which is consistent with the abutting residential developments. The proposed Planned Development Amendment will expand the uses permitted within the existing CPD to provide additional uses that will permit a commercial and civic node to meet the needs of area residents as well as the River Hall Community. The additional dwelling units requested will be located within the existing unplatted and developable areas of the Community to ensure no reduction to open space, buffering, landscaping or recreation areas occurs. Lot sizes, configurations, and designs will be consistent with existing approved development in order to promote the unified aesthetic of the development. No added buffering between

development tracts will be required as the styles of development will be consistent with that which already exists. The proposed infill will also allow the economically viable addition of the next phase of the golf course, increasing the recreational opportunities and amenities of the development. Consequently, the River Hall site should be viewed as an infill property where development intensity is logically stepped down from the adjacent Suburban and Urban Future Land Use Categories and a mix of uses are provided for the community and surrounding area consistent with the intentions of the policies associated with Goal 5.

Consistent with the first sentence of existing Condition 5a. in Z-05-051, the proposed Planned Development Amendment also ensures the portion of the project remaining in the Rural Future Land Use will maintain one dwelling unit per acre. The proposed Planned Development amendment is limited to 553 acres, which were included in CPA2012-00001 to be reallocated to the Sub-Outlying Suburban Category. The remaining ±1,393 acres will be allocated between the Rural, Wetlands and Suburban Future Land Use Categories. The table below demonstrates the acreage of each Future Land Use Category, the maximum number of dwelling units allowed, the number of permitted dwelling units, and the remaining available units in each Future Land Use Category.

Future Land Use	Acres	Dwelling Units Allowed	Dwelling Units Entitled	Dwelling Units Available
Suburban	71.5	429	185	244
Wetlands	181	9	0	9
Rural	1,140.3	1,140	1,119	21
Sub-outlying Suburban	585.6	1,171	598	573
TOTAL	**1,978.4**	**2,749**	**1,903**	**846**

Table 4: Lee Plan Units Available for Entitlement/Development

There are currently ±1,725.8 acres and 1,718 units approved by plat and development order within the Rural portion of the River Hall Community. The proposed Planned Development Amendment only utilizes ±553 acres of the proposed Sub-Outlying Suburban Future Land Amendment area to increase the total number of permitted residential dwelling units for the entirety of the River Hall development by 696. Outside the Planned Development Amendment area, ±1,140 acres would remain at the existing Rural density of 1 dwelling unit/acre as currently permitted in Z-05-051. This acreage is adequate to support the existing 1,119 permitted Rural dwelling units located outside the Planned Development Amendment area, providing the opportunity for an additional 21 Rural units to be permitted in the future, and maintain consistency with the existing Condition 5a. in Z-05-051. Meanwhile, the Sub-outlying Suburban area (±553 acres) will receive 573

dwelling units, with the balance remaining in the Suburban designated area (71.5 acres) for eventual development opportunities.

Goal 21 Caloosahatchee Shores
The proposed Comprehensive Plan and Planned Development Amendments for the River Hall Community are consistent with the Caloosahatchee Shores Community Plan. The existing architecture for the River Hall Community is Florida Vernacular. This style will continue throughout the development to ensure consistency and compatibility between the existing and future development within the community and surrounding neighborhoods. The proposed Planned Development Amendment does not seek to increase the intensity of the existing Commercial Planned Development. Rather, additional uses are proposed to establish a commercial and civic node which aligns with an existing Commercial Planned Development along Palm Beach Boulevard to establish a larger commercial node to serve area residents as well as the River Hall Community. The requested residential, recreational, and civic uses within the existing Commercial Planned Development will promote a mix of uses in a manner consistent with the density and intensity limitations of the Caloosahatchee Shores Policies.

The requested Comprehensive Plan Amendment and Planned Development Amendment for the River Hall Community meet the public needs identified in the Objectives and Policies of the Caloosahatchee Shores Community Plan.

Objective 21.1 Community Character
The Caloosahatchee Shores Community seeks to retain the Old Florida identity the area is known for. These policies encourage Florida vernacular architecture, native and enhanced landscaping and promote regulations for new development within the Land Development code related to architecture and site design.

The River Hall Community currently promotes Florida Vernacular architecture and 100% native vegetation in all required buffers. The Planned Development Amendment does not request any changes to these conditions, ensuring the existing design components will continue throughout the community to promote consistency and compatibility between the existing and future development. Any development within the existing Commercial Planned Development will comply with the requirements of the Caloosahatchee Shores Planning Community Section of the Land Development Code. It should be noted the existing approved height for the River Hall Community is compliant with the Caloosahatchee Shores LDC requirements and the Planned Development Amendment does not request a change to this property development regulation.

Objective 21.2 Commercial Land Uses
The policies established related to commercial land uses encourage the restriction of commercial uses to their existing locations and the redevelopment of existing commercial. The Community wishes to increase the commercial opportunities available within Caloosahatchee Shores and provide interconnections between commercial uses and surrounding residential areas to accommodate alternative modes of transportation.

The existing approval for the River Hall Community includes a Commercial Planned Development located at the north entrance of the property adjacent to Palm Beach Boulevard. The proposed Planned Development Amendment requests residential, recreational and civic uses to be permitted within the existing CPD to increase the availability of a variety of commercial and civic uses along Palm Beach Boulevard. This request will promote a mix of uses within the CPD to meet the needs of Caloosahatchee Shores as well as the River Hall Community. The location of the CPD within River Hall aligns with an existing Commercial Planned Development across Palm Beach Boulevard (SR 80) to create a larger commercial node available to the Caloosahatchee Shores Community.

The recreational uses proposed within the CPD will provide interconnection opportunities between the River Hall Community and existing surrounding uses. The developer has agreed to work with Lee County to extend a proposed trail to the West to provide a multi-use path along SR 80 to the intersection with Buckingham Road. The multi-use path will increase access to the surrounding commercial uses and provide alternative modes of transportation.

Objective 21.3 Residential Uses
The Caloosahatchee Shores Community values residential development and seeks to reduce conflicts between uses while promoting the protection of natural resources, open space, and increased recreational opportunities.

The River Hall Community's existing approved Master Concept Plan ensures compatibility with surrounding uses. The approved Master Concept Plan locates the CPD in the northern portion of the property adjacent to Palm Beach Boulevard to provide convenient access from a major roadway. Residential uses are located adjacent to existing and future proposed residential uses. The proposed Planned Development Amendment directs the additional 696 dwelling units to the existing approved developable areas eliminating impacts to the existing open space and recreational areas while continuing to promote conservation areas along the eastern property boundary providing a buffer to Hickey's Creek Mitigation Park.

Objective 21.4 Mixed-use Development.
The Community desires developments that contain commercial and residential uses and provide interconnections between uses to facilitate alternative transportation and internal capture.

The proposed Planned Development Amendment requests residential, recreational, and civic uses to be permitted within the existing Commercial Planned Development. The residential uses would allow the addition of multi-family residential within the CPD to promote the integration of commercial and residential uses. The recreational and civic uses are requested to promote pedestrian and bicycle linkages to the existing surrounding development with a multi-use path along SR 80. The requested Planned Development Amendment will increase the mix of uses within the community and promote interconnectivity to facilitate alternative transportation and internal capture as consistent with this objective and its supporting policies.

Objective 21.5 Community Facilities/Parks
There is a desire to establish a broad mix of Community Facilities within the Caloosahatchee Shores Community. Therefore, these policies outline the types of facilities the Community will encourage and the connectivity desired between recreational uses.

The River Hall Community is proposing to increase recreational and civic opportunities for residents of the community and the surrounding area by the proposed Planned Development Amendment. Recreational and Civic uses are requested to be added to the schedule of uses for the CPD. The developer has also agreed to provide a multi-use path from the entry of River Hall along SR 80 to the intersection with SR 80 to provide multi-modal linkages to the existing surrounding uses. The amendment will promote the economic viability of the second phase of the golf course, providing added recreational opportunities for members of the golf club.

Objective 21.6 Public Participation
The involvement of the public in entitlement and permitting decisions is a high priority for the Caloosahatchee Shores Community. A Public informational session must be provided on all amendments and zoning actions and copies of the proposed amendments are to be distributed to known citizen groups and civic organizations.

GreenPointe Communities wishes to coordinate with the residents of the Caloosahatchee Shores community regarding the proposed Comprehensive Plan

Amendment and Planned Development Amendment to discuss the proposals and gather feedback. A number of public informational sessions have already been held. On September 6, 2012 an informational session was held for all residents of the Caloosahatchee Shores Community to introduce the proposed Comprehensive Plan and Planned Development Amendments. During the meeting participants were asked to sign in and provide contact information so that informational updates regarding the amendments can be e-mailed to interested parties. Another community meeting was held April 17, 2014 to discuss the proposed Comprehensive Plan Amendment and Planned Development Amendment with the residents of River Hall as well as the Caloosahatchee Shores residents. Small group interactions with residents have also been held over the course of the process.

Consistency with Resource Protection

As demonstrated by the supporting information prepared by Passarella and Associates and by virtue of the exclusion of the existing conservation areas, the proposed amendment is consistent with and furthers Conservation Goals, Objectives and Policies. The proposed amendment will utilize the existing development footprint to ensure there are no impacts to the existing native habitats on-site. Lee Plan Goal 107 states, "To manage the county's wetland and upland ecosystems so as to maintain and enhance native habitats, floral and faunal species diversity, water quality, and natural surface water characteristics." Lee Plan Objective 107.3 indicates that Lee County will, "Maintain and enhance the fish and wildlife diversity and distribution within Lee County for the benefit of a balanced ecological system." Finally, Lee Plan Policy 107.3.1 states that the County will, "Encourage upland preservation in and around preserved wetlands to provide habitat diversity, enhance edge effect, and promote wildlife conservation."

The existing conservation easement areas and indigenous preserved provided long-term protection of the natural wetland and upland habitats within the River Hall Community. Indigenous habitats most suitable for protection, enhancement and conservation were previously identified and retained. These areas are not included in the area proposed for the Planned Development Amendment. The proposed request will not reduce the previously approved indigenous preserved, conservation easement areas, or recreational/golf course areas.

Goals 53 & 56 Community Facilities and Services

The amendment is consistent with potable water Goal 53 and associated Objective 53.1, Policy 53.1.1, and Policy 53.1.2; as well as wastewater Goal 56 and associated Objective 56.1 and Policy 56.1.2. Public Facilities are in place and are serving the existing development of the River Hall Communities. Letters of Availability have

been received from all service providers stating adequate capacity exists to service the additional 696 units requested for the River Hall Community.

Goal 43 Mass Transit
The requested Planned Development Amendment will promote the Goals, Objectives and Policies of the Lee County Mass Transit system. The existing Commercial Planned Development will remain; however the PD Amendment includes additional uses to promote residential, civic, and recreation uses creating a truly mixed use center to serve the needs of the River Hall Community as well as residents from the surrounding area. When considered in conjunction with the approved Commercial Planned Development across Palm Beach Boulevard, a commercial and civic node is established in this location along Palm Beach Boulevard to serve the needs of area residents. These uses are located within a comfortable walking or bicycling distance and the requested uses within the CPD will promote internal capture within the River Hall Community.

Should residents of River Hall desire to utilize Mass Transit, the existing Lee Tran Stop for Route 100 at the Riverdale Library is less than a mile from the entrance of the River Hall Community. The Lee County Transit – Lee Tran Title IV Program Update 2012-2014 indicates this route has approximately 80.42% excess capacity. The report also indicates the Lee Tran system as a whole has substantial capacity remaining. GreenPointe has agreed to provide a multi-use path along SR 80 to the intersection of Buckingham Road to promote multi-modal connections. The multi-use path will cross directly in front of the commercial plaza where the Lee Tran Stop is located ensure safe access to any resident desiring to walk or bike to the existing Lee Tran stop.

Neighborhood Compatibility
In addition to establishing an appropriate and realistic Future Land Use Category for the subject property, the proposed Comprehensive Plan and Planned Development Amendments promote compatibility with the existing surrounding land uses and envisioned future land uses.

The residential developments of Portico, Riverdale Shores, Hawks Preserve and Riverdale Estates are located west of River Hall and have a density of approximately 2 units per acre. The Reserve at Buckingham is also located to the west and has approximately 4 units per acre. The proposed Planned Development Amendment would increase the density of the existing Rural portion of River Hall adjacent to the existing Sub-Outlying Suburban and Portico development to 2 dwelling units per acre. This density is compatible with the density of the existing abutting and surrounding residential neighborhoods. The requested Planned Development

Amendment would bring the existing density of the surrounding residential neighborhoods onto the subject property ensuring the consistency of the River Hall Community with the existing surrounding residential developments.

Surrounding Land Uses			
	FLU Designation	**Use**	**Notes**
North	Commercial and Rural	Vacant & Residential	Approved Commercial across from the entry at Palm Beach Blvd & S. Olga Dr.
South	Urban Community	Platted Residential	Lehigh Acres
East	Conservation – Upland	Hickey's Creek	Lee County Preserve & Recreation Area
West	Suburban and Sub-Outlying Suburban	Residential Single Family Developments	Commercial Plaza located nearby at Palm Beach Blvd and Buckingham Rd.

Table 5: Surrounding Land Uses

South of the River Hall Community is Lehigh Acres, in the Urban Community Future Land Use with a density of approximately 4 units per acre. The southern portion of River Hall abutting Lehigh Acres is currently approved for residential density and has an existing conservation area. The proposed residential density of this portion of River Hall at 2 dwelling units per acre is compatible with the existing residential development and allowable density of Lehigh Acres.

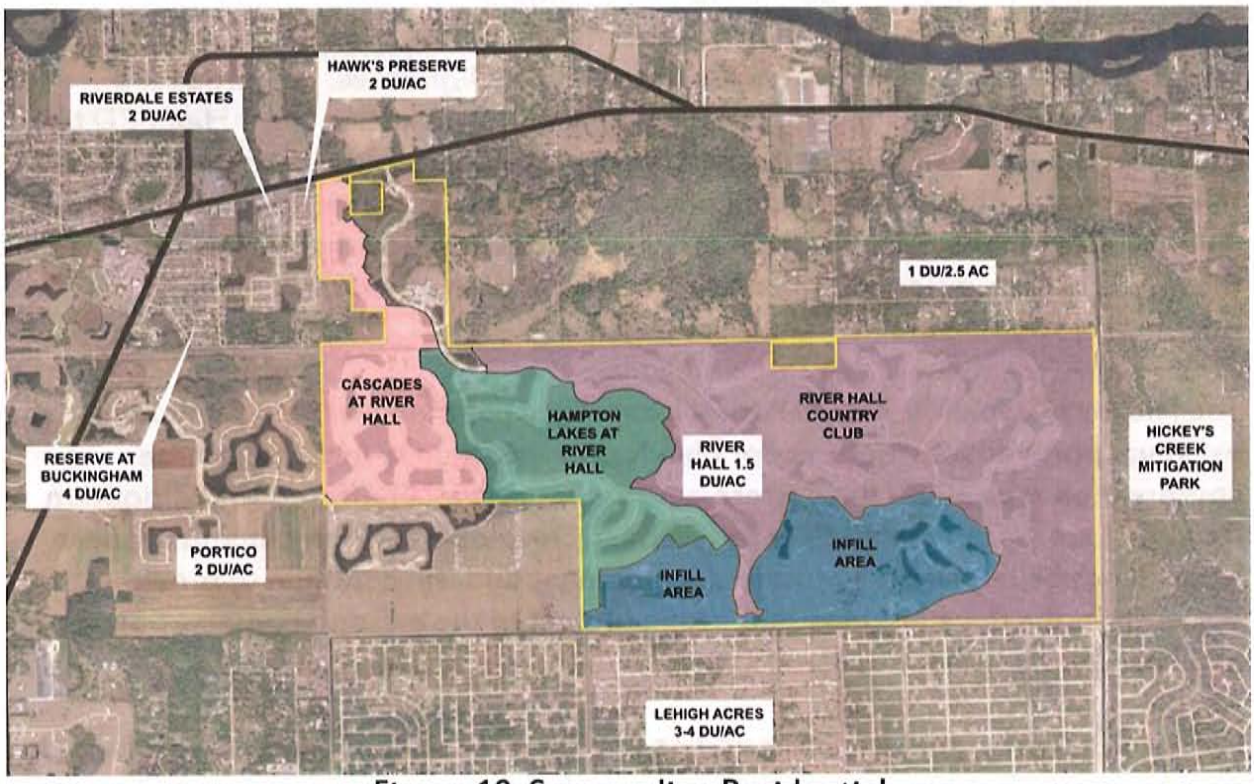

Figure 10: Surrounding Residential

Figure 11: Surrounding Urban & Suburban Uses

An existing Commercial Plaza is located near River Hall at the intersection of Palm Beach Boulevard and Buckingham Road and provides retail and commercial opportunities to area residents. A second commercial node was recently rezoned to commercial and is located directly north of the River Hall Community at the intersection of Palm Beach Boulevard and S. Olga Drive in the Commercial Future Land Use. The River Hall Community currently includes a commercial node at the main entrance along Palm Beach Boulevard and S. Olga Drive. The proposed request seeks to expand the uses permitted within the existing River Hall CPD to provide multi-family residential and recreational opportunities within this area of the community. This expanded mix of uses will create a commercial and civic node compatible with the existing commercial, provides additional opportunities to meet the needs of area residents, and meets the intent of the Caloosahatchee Shores Community Goals, Objectives and Policies.

The Hickey's Creek Mitigation Park is located east of the River Hall Community. The existing approved Master Concept Plan for the community includes a large conservation area along the eastern border that acts as a buffer to the Mitigation Park. This area is not included in the Planned Development Amendment request and will not be impacted by future development and will continue to provide a buffer from the developable areas of the project to the existing conservation areas and Lee County Mitigation Park.

In consideration of the uses surrounding the River Hall Community, the property is appropriately classified as an infill property where development is directed toward

the existing footprint and the intensity transitions from the abutting Suburban and Urban Community categories to the nearby Rural and Conservation categories. The development is a well-designed residential community with a mix of uses that support the needs and demands of the area's residents – the definition of a Suburban place. The Planned Development Amendment includes trails to provide linkages between the proposed commercial/civic node near the community's entry and the existing commercial uses at the intersection of SR 80 and Buckingham Road to connect the community to the surrounding uses and neighborhoods. These proposed improvements will integrate the various land uses and promote connectivity between River Hall and the existing surrounding uses.

Transportation
Please see attached amended Traffic Impact Statement.

LDC Design Standards Compliance
34-411. General Standards.
(a) All planned developments shall be consistent with the provisions of the Lee Plan.

The request is consistent with the Lee Plan. For a more detailed discussion of compliance, please see the attached Lee Plan Compliance Narrative.

(b) All planned developments, unless otherwise excepted, shall be designed and constructed in accordance with the provisions of all applicable County development regulations in force at that time.

The site is currently approved for a residential subdivision and some site improvements are completed. Any future construction will comply with the applicable Lee County regulations unless the subject of an approved deviation.

(c) The tract or parcel proposed for development under this article must be located so as to minimize the negative effects of the resulting land uses on surrounding properties and the public interest generally, and must be of such size, configuration and dimension as to adequately accommodate the proposed structures, all required open space, including private recreational facilities and parkland, bikeways, pedestrian ways, buffers, parking, access, on-site utilities, including wet or dry runoff retention, and reservations of environmentally sensitive land or water.

The Master Concept Plan demonstrates compliance with this standard. It is designed to accommodate the additional 696 dwelling units requested, including recreational and civic uses, within the existing approved development footprint.

The Master Concept Plan has not significantly changed since its approval in 2005. The additional dwelling units and recreational and civic uses are directed to areas which were previously approved for development. The previously approved conservation areas are not included in the planned development amendment request and will not be negatively impacted by the proposed amendment. The approved open space acreage is not proposed to be modified by the requested amendment.

(d) The tract or parcel shall have access to existing or proposed roads:

(1) In accordance with Chapter 10 and as specified in the Lee Plan traffic circulation element or the official trafficways map of the County;

(2) That have either sufficient existing capacity or the potential for expanded capacity to accommodate both the traffic generated by the proposed land use and that traffic expected from the background (through traffic plus that generated by surrounding land uses) at a level of service D or better on an annual average basis and level of service E or better during the peak season, except where higher levels of service on specific roads have been established in the Lee Plan; and

(3) That provide ingress and egress without requiring site-related industrial traffic to move through predominantly residential areas.

The development has access to Palm Beach Boulevard, a major arterial street. Pursuant to the attached Traffic Impact Statement, Palm Beach Boulevard will continue to operate at the required Level of Service.

(e) If within the Lee Tran public transit service area, the development shall be designed to facilitate the use of the transit system.

The residential development is not within the Lee Tran service area but proposes to establish a multi-use path along SR 80 to the intersection with Buckingham Road. It should be noted the existing Lee Tran service has approximately 80% capacity available should residents of River Hall desire to walk to the Riverdale Library Lee Tran stop less than a mile from the development entry. The proposed multi-use path would be constructed adjacent to the existing Lee Tran Stop providing safe multi-modal access from River Hall to the stop.

(f) Development and subsequent use of the planned development shall not create or increase hazards to persons or property, whether on or off the site, by increasing the probability or degree of flood, erosion or other danger, nor shall it impose a

nuisance on surrounding land uses or the public's interest generally through emissions of noise, glare, dust, odor, air or water pollutants.

The development will not result in increased drainage impacts or otherwise impose any nuisance on surrounding properties or land uses through emissions of noise, dust, odor, light, air or water pollutants.

(g) Every effort shall be made in the planning, design and execution of a planned development to protect, preserve or to not unnecessarily destroy or alter natural, historic or archaeological features of the site, particularly mature native trees and other threatened or endangered native vegetation. Alteration of the vegetation or topography that unnecessarily disrupts the surface water or groundwater hydrology, increases erosion of the land, or destroys significant wildlife habitat is prohibited. That habitat is significant that is critical for the survival of rare, threatened or endangered species of flora or fauna.

The Master Concept Plan submitted with this application is consistent with this standard. The functioning wetlands and conservation areas as well as existing open space on the subject property are not included in this amendment request therefore they will remain protected. The additional dwelling units and recreational and civic uses are directed toward approved developable areas and will not negatively impact the existing conservation areas. The proposed request does not decrease the open space provided in the existing approval.

(h) A fundamental principle of planned development design is the creative use of the open space requirement to produce an architecturally integrated human environment. This shall be coordinated with the achievement of other goals, e.g., the preservation or conservation of environmentally sensitive land and waters or archaeological sites.

The River Hall Community complied with this requirement during the original approval in 2005. The existing conservation areas are not included in this planned development amendment and ACOE and SFWMD permits have been issued for the development. The requested dwelling units and recreational and civic uses will be directed toward existing developable areas to further produce an architecturally integrated human environment.

(i) Site planning and design shall minimize any negative impacts of the planned development on surrounding land and land uses.

The property is located in an area of existing residential subdivisions and commercial development. These uses were previously found to be compatible with the residential development and the applicant believes the planned development amendment request remains compatible with these uses.

(j) Where a proposed planned development is surrounded by existing development or land use with which it is compatible and of an equivalent intensity of use, the design emphasis shall be on the integration of this development with the existing development, in a manner consistent with current regulation.

The property is located in an area that transitions from urban type uses to non-urban uses; River Hall is surrounded by development of varying intensity. The request is consistent with the existing and proposed uses surrounding the development. The Planned Development Amendment proposes a multi-use path to connect River Hall to the surrounding commercial and residential areas along SR 80.

(k) Where the proposed planned development is surrounded by existing development or land use with which it is not compatible or which is of a significant higher or lower intensity of use (plus or minus ten percent of the gross floor area per acre if a commercial or industrial land use, or plus or minus 20 percent of the residential density), or is surrounded by undeveloped land or water, the design emphasis will be to separate and mutually protect the planned development and its environs.

As noted above, the property is located in an area that transitions from urban to non-urban type uses; River Hall is surrounded by development of varying intensity. The request is consistent with the existing and proposed uses surrounding the development. The Planned Development Amendment proposes pathways and trails to connect River Hall to the surrounding residential communities and conservation areas.

(l)In large residential or commercial planned developments, the site planner is encouraged to create subunits, neighborhoods or internal communities which promote pedestrian activity and community interaction.

The River Hall Community accomplishes this standard to the greatest extent possible on this previously developed parcel. The project includes several subunits with different housing types. The Planned Development Amendment proposes to add residential and recreational and civic uses to the Commercial area.

(m) In order to enhance the viability and value of the resulting development, the designer shall ensure the internal buffering and separation of potentially conflicting uses within the planned development.

The types of uses depicted on the Master Concept Plan have been previously separated, buffered, and approved in order to enhance the viability and subsequent value of the resulting development. All required internal buffers, both street and use, will be provided with local Development Order approval.

(n) Density or type of use, height and bulk of buildings and other parameters of intensity should vary systematically throughout the planned development. This is intended to permit the location of intense or obnoxious uses away from incompatible land uses at the planned development's perimeter, or, conversely, to permit the concentration of intensity where it is desirable, e.g., on a major road frontage or at an intersection.

A review of the Master Concept Plan indicates compliance with this standard. The proposed planned development amendment utilizes the existing developable areas, which were previously found to be consistent with this provision.

(o) Unless otherwise provided for in this article, minimum parking and loading requirements shall be as set forth in article VII, divisions 25 and 26, of this chapter. Where it can be reasonably anticipated that specified land uses are generators of occasional peak demand for parking space, a portion of the required parking may be pervious or semi-pervious surfaces subject to the condition that it be constructed and maintained so as to prevent erosion of soil. In all cases, however, sufficient parking shall be provided to prevent the spilling over of parking demand onto adjacent properties or rights-of-way at times of peak demand.

All required parking areas shall be provided in accordance with Chapter 34.

(p) Joint use of parking by various land uses within the planned development may be permitted by special condition where it can be demonstrated or required that the demand for parking by the various uses will not conflict. Joint parking agreements between uses within and uses without the planned development shall be governed by agreement per general regulation (see section 34-2018), without exception.

Not applicable

(q) Internal consistency through sign control, architectural controls, uniform planting schedules and other similar controls is encouraged.

The development will be consistent with the existing approved and constructed architecture, signage, and plantings.

Decision Making Compliance

34-145(c)(2) Considerations. In reaching a decision, the Hearing Examiner must consider the following, whenever applicable:

a. Whether there exist changed or changing conditions that make approval of the request appropriate.

The area surrounding the subject property has changed in recent years. The residential communities surrounding River Hall have densities that range from 2 to 4 dwelling units per acre. The proposed amendment would be consistent with the existing surrounding densities while providing a transition to the Rural and Conservation lands to the North and making efficient use of the existing infrastructure in the area. The River Hall Community is an infill development where the additional density will be directed to the existing development footprint; residential, recreational and civic uses will be added as allowable uses in the commercial portion of the development; and connections to the surrounding residential properties via a multi-use path along SR 80 will promote a well-designed and connected residential community.

Several important benefits will be made possible through the Residential Planned Development Amendment including enhancing the transition of land use, promoting infill development, establishing connections for walking and riding to surrounding properties, and promoting recreational and civic uses in this area of the County. The approved open space acreage will not be decreased by the proposed request.

This request is appropriate due to the proposed future land use amendment establishing the amendment area within the Sub-Outlying Suburban Future Land Use. This zoning petition has been submitted pursuant to Section 163.3184(12), Florida Statutes, which allows for a concurrent zoning change.

e. Whether the request is consistent with the goals, objectives, policies and intent of the Lee Plan.

The request is consistent with the Lee Plan; please see the Project Summary and Lee Plan Consistency (above) for further analysis.

34-145(d)(3) Findings. Before preparing a recommendation to the Board of County Commissioners on a zoning matter, the Hearing Examiner must find that:

a. The applicant has proved entitlement to the rezoning or special exception by demonstrating compliance with the Lee Plan, this land development code, and any other applicable code or regulation: and

The proposed Planned Development Amendment will promote infill redevelopment on the subject property at a density consistent with the surrounding uses. The Lee Plan Compliance narrative demonstrates consistency with the Lee Plan. The proposed Master Concept Plan and supporting application documentation further demonstrate compliance with the Lee Plan, the Land Development Code and all other land use regulations. With the re-designation of the subject property to Sub-Outlying Suburban, the request for an additional 696 dwelling units will limit the allowable density of the subject property to 2,695 dwelling units. The amendment will promote the property allocation of dwelling units to the appropriate future land us categories on the property ensure the allowable densities are maintained. The deviations requested do not pose a negative impact to public health safety and welfare nor do they pose a negative impact to the adjacent properties.

b. The request will meet or exceed all performance and locational standards set forth for the potential uses allowed by the request; and.

The request meets or exceeds the minimum performance and locational standards contained in the Lee Plan and Land Development Code.

c. The request, including the use of TDR or affordable housing bonus density units, is consistent with the densities, intensities and general uses set forth in the Lee Plan; and

The property is proposed to be designated Sub-Outlying Suburban. This will increase the maximum density allowable under the Lee Plan to 2,749 residential units. The planned development amendment proposes to cap the unit count within River Hall at 2,695, well below the maximum allowed under the Lee Plan. This request is consistent with the permitted density of each Future Land Use Category as set forth in the Lee Plan. The additional uses requested are permitted within the Rural and Sub-Outlying Suburban Future Land Use Categories.

d. The request is compatible with existing or planned uses in the surrounding area; and

The request is consistent with the existing and proposed uses in the surrounding area. A full explanation of compatibility with surrounding uses is provided with the Lee Plan Consistency Narrative.

The properties adjacent to the River Hall Community in the West have an approximate density of 2 to 4 dwelling units per acre. Commercial uses are approved at the intersection of Palm Beach Boulevard and S. Olga Drive, aligning with the existing CPD within River Hall and creating a commercial node. The proposed Comprehensive Plan and Planned Development amendments establishes River Hall as a infill property where development is directed toward the existing footprint and the development intensity transitions from the abutting residential communities to the nearby Rural and Conservation areas. The proposed request will create a well-designed residential community with a mix of uses that support the internal residents as well as the surrounding area.

e. Approval of the request will not place an undue burden upon existing transportation or planned infrastructure facilities and will be served by streets with the capacity to carry traffic generated by the development; and

The provided Traffic Impact Statements for the Comprehensive Plan and Planned Development Amendments demonstrate that approval of the request will not place undue burden upon the existing transportation system. Sufficient capacity is available to accommodate traffic generated by this development.

f. Where applicable, the request will not adversely affect environmentally critical areas and natural resources.

The Planned Development Amendment only includes lands that were previously approved for development. The proposal does not decrease the open space acreage or modify the conservation areas of the existing approval.

g. In the case of a planned development rezoning or mine excavation planned development, the decision of the Hearing Examiner must also be supported by the formal findings required by sections 34-377(a)(2) and (4).

LDC 377(a)(2) The recommendation made to the Board of County Commissioners must be supported by formal findings that address the guidelines set forth in section 34-145(d)(3) of this chapter. In addition, the findings must address whether the following criteria can be satisfied:

a. The proposed use or mix of uses is appropriate at the subject location;

b. The recommended conditions to the concept plan and other applicable regulations provide sufficient safeguards to the public interest.

c. The recommended conditions are reasonably related to the impacts on the public's interest created by or expected from the proposed development.

The Planned Development Amendment is consistent with the existing development within the area. The application and supporting documentation demonstrate that the proposed mix of uses are appropriate and that steps taken by the applicant to ensure sufficient safeguards to the public interest are in place. Any future recommended conditions will be reviewed by the applicant to ensure they are reasonably related to any perceived impacts.

LDC 377(a)(4) If the application includes a schedule of deviations pursuant to section 34-412, the Hearing Examiner's recommendation must approve, approve with modification or reject each requested deviation based upon a finding that each item:

a. Enhances the achievement of the objectives of the planned development; and

b. Preserves and promotes the general intent of this chapter to protect the public health, safety and welfare

If the Hearing Examiner concludes that the application omits the necessary deviations, he may include those omitted deviations in his recommendation without an additional hearing.

A Schedule of Deviations has been submitted with the application. The deviations recognize the existing conditions of the River Hall Community to provide a consistent and compatible pattern of development. The applicant has provided a narrative indicting compliance with the standards set forth above.

h. Where the change proposed is within a future urban area category, the Hearing Examiner must also find that urban services, as defined in the Lee

Plan, are, or will be, available and adequate to serve the proposed land use.

The proposed Planned Development Amendment will be located within the Sub-Outlying Suburban and existing Rural and Suburban future land use designations and urban services as defined in the Lee Plan are available. The following definition is found in the Lee Plan:

URBAN SERVICES - The requisite services, facilities, capital improvements, and infrastructure necessary to support growth and development at levels of urban density and intensity. Urban services as used in this plan include, but are not limited to:

- *public sewer and water*
- *paved streets and roads*
- *public transit*
- *parks and recreation facilities*
- *urban levels of police, fire, and emergency services*
- *urban surface water management*
- *schools*
- *employment, industrial, and commercial centers*
- *institutional, public, or administrative facilities*
- *community facilities such as senior citizens' centers, libraries, and community centers.*

Some of these facilities are already in place and have the capacity available to serve the additional 696 dwelling units. Some of these facilities are proposed to be incorporated into the Planned Development Amendment further improving the services available to residents within the community and surrounding area.

i. If the rezoning is to Compact PD, the recommendation of the Hearing Examiner must also include findings regarding the provisions set forth in section 32-504(a).

Not applicable.

Conclusion

The proposed Planned Development Amendment provides infill development for the portion of River Hall under unified control of the current developer/owner GreenPointe Communities, LLC. The amendment will increase the number of residential dwelling units by 696 and locate these units within areas already identified for future development. The maximum number of units for the River Hall Community will be capped at 2,695. No lands will be replatted to accommodate the

density increase and the minimum property development regulations will not be changed ensuring the new residential lots are consistent and compatible with the existing platted lots. The revised amendment area is consistent with the Lee Plan and will promote the proper allocation of dwelling units to the appropriate future land use categories to ensure the allowable densities of the Future Land Use are maintained. The requested 696 units will be located in the unplatted portions of the amendment area adjacent to existing residential developments to the south and west of the River Hall Community. No changes are proposed to the existing upland and wetland preserves or open space.

As demonstrated herein, the rezoning, as requested, will meet or exceed all performance and locational standards set forth for the proposed uses allowed by the request. The request is consistent with the densities, intensities and general uses set forth in the Lee Plan, and the currently allowed uses do not provide any reasonable uses for the subject property. The current approvals provide for no additional units to be developed on the property, leaving the area vacant and undevelopable. The request, as proposed and conditioned, is compatible with existing or planned uses in the surrounding area, and will not place an undue burden upon existing transportation or planned infrastructure facilities; it will be served by streets with the capacity to carry traffic generated by the development. An approval of this request will not adversely affect environmentally critical areas or natural resources, and all proposed development will occur within the already approved development envelope. In addition, the requested rezoning is appropriate at the subject location, conforming to the existing pattern of approved land uses. The recommended conditions to the concept plan and other applicable regulations provide sufficient safeguard to the public interest, and are reasonably related to the impacts created by or expected from the proposed development. All urban services, as defined in the Lee Plan, are, or will be, available and adequate to serve the proposed land use. Finally, the requested deviations, as conditioned, enhance achievement of the planned development objectives, and preserve and promote the general intent of LDC Chapter 34, to protect the public health, safety and welfare.

Structures, including but not limited to, sidewalks, air conditioners, mechanical equipment, door stoops, walls, etc. may not be located within the required 5-foot side setbacks; or prior to issuance of Certificate of Occupancy on each lot, the Engineer of Record must certify that the drainage for each lot is built in compliance with the *typical lot grading detail* provided.

c. GOLF DRIVING RANGE:

If the Golf Driving Range is open after daylight hours, all lighting must comply with LDC §34-936(g), be of the lowest intensity meeting life safety codes, and be shielded and directed away from adjacent residential areas.

3. The following conditions address environmental issues:

a. The "American Alligator Management Plan" provided as part of the "Protected Species Management Plan for Schulman Parcel" counter stamped May 19, 1999 incorporated into this resolution of approval as Exhibit D. Prior to local development order approval, the location of the American Alligator Management Plan signage must be delineated on the development order plans for Division of Environmental Sciences' review and approval. Warning signs must be placed where there is potential for human/alligator interaction. These

signs must discourage the feeding or harassment of alligators.

b. The "Gopher Tortoise Management Plan" provided as part of the "Protected Species Management Plan For Shulman Parcel" counter stamped May 19, 1999 incorporated into this resolution of approval as Exhibit D. Any revisions to the Tortoise Management Plan are subject to Environmental Sciences' review and approval.

c. The "Florida Burrowing Owl Management Plan" provided as part of the "Protected Species Management Plan For Schulman Parcel," counter stamped May 19, 1999, must be revised for Division of Environmental Sciences' review and approval at the time of local development order submittal. The plan must either commit to preserving the existing burrowing owl burrows in place with a buffer in accordance with LDC Appendix H, or commit to a detailed relocation management plan. The developer demonstrates it is necessary to impact the burrows, the management proposal must provide details about where appropriate replacement habitat for the owls will be provided, how the owls will be attracted to this area, and how it will be protected during construction activities on the site.

d. The developer must submit a detailed Scrub Jay Management Plan to the Division of Environmental Sciences for review and approval at the time of local development order submittal. This plan must follow the general guidelines of the "Florida Scrub Jay Management Plan" provided as part of the "Protected Species Management Plan For Schulman Parcel," counter stamped May 19, 1999 and incorporated into this resolution of approval as Exhibit D. The finalized Scrub Jay Management Plan must be approved by the Florida Fish and Wildlife Conservation Commission (FWC) prior to local development order approval.

e. The developer must submit a detailed Sandhill Crane Management Plan to the Division of Environmental Sciences for review and approval at the time of local development order submittal.

~~f~~ f. Conditions 3.a.-e. above were satisfied by the Protected Species Management Plan dated May 2006 prepared by Passarella and Associates and approved by the Division of Environmental Sciences (DES). Prior to approval of any additional residential development orders, a revised Protected Species Management Plan must be submitted to DES for review and approval. Revisions to the plan will include resident educational materials for the gopher tortoise, listed wading birds, and scrub jays; as well as incorporate a large mammal management plan.

g. Open space must be provided in accordance with the MCP. All individual tracts must provide a minimum of ten percent open space within the tract and may be met with private open space.

gh. The developer must provide a minimum of 465 acres of indigenous preservation areas in substantial compliance with the MCP. The preserves must be delineated on the local development order plans when they are within or adjacent to the development phase or tract to be developed.

hi. The developer must barricade all indigenous preservation areas to exclude cattle grazing within 60 days of approval of the planned development by the Board of County Commissioners.

ij. Prior to local development order approval, the plans for any residential units on individual lots that abut a preserve must delineate a preserve boundary sign location at every other lot line and provide a detail of the sign for the Division of Environmental Sciences' Staff review and approval.

jk. Every effort must be made in the final design of the golf course and residential tracts to preserve large native trees. The developer must schedule an on-site preconstruction meeting with Division of Environmental Sciences' Staff prior to the issuance of a vegetation removal permit for any phase of development to confirm preservation and barricading requirements prior to the initiation of site clearing.

4. The following recommendations are presented in order to mitigate future hurricane damage and loss of life, as well as to ensure compliance with Lee Plan objectives.

a. The developer must establish a homeowners' or residents' association that will provide an educational program on an annual basis, in conjunction with the staff of Emergency Management, who will provide literature, brochures and speakers for Hurricane Awareness/Preparedness Seminars, describing the risks of natural hazards. The intent of this recommendation is to provide a mechanism to educate residents concerning the actions they should take to mitigate the dangers inherent in these hazards.

b. The developer must formulate an emergency hurricane notification and evacuation plan, which will be subject to review and approval by the Lee County Office of Emergency Management.

c. If access to this development or any portions thereof, is through a security gate or similar device that is not manned 24 hours a day, it must be equipped with an override strip installed in a glass covered box to be used by drivers of emergency vehicles to gain entry, consistent with LDC §34-1749.

d. The developer must cooperate with the Division of Public Safety/Emergency Management in determining and participating in a means to lessen hurricane shelter impacts on the County's hurricane preparedness process and public safety. Those "means" could include the provision of equipment, monies in lieu of equipment, or such other goods, materials or actions deemed appropriate by Emergency Management that results in the provision of additional shelters,

or improvement of roads for use as additional evacuation routes. The choice of "means" will rest with the developer, so long as the choice adequately mitigates the adverse impacts.

5. The following conditions are included to address Lee Plan consistency issues:

~~a.~~ a. In accordance with CPA2012-01, the total residential dwelling count within River Hall will not exceed 2695 dwelling units. The portion of the property within the Rural future land use category must maintain densities of one dwelling unit per acre or less. No more than 1,~~648~~140 dwelling units may be constructed in the Rural designated areas of the project. Densities may not be shifted between future land use categories unless a new public hearing occurs and the allocation of density complies with provisions of Policy 5.1.10 of the Lee Plan.

b. Given the limited existing available Rural 2020 Planning Community Acreage Allocation, at the time of rezoning, the available Rural allocation must be determined by the Planning Division prior to any development order approval for residential use in the Rural portions of the site. No development order will be issued or approved if the acreage, when added to the acreage contained in the updated existing land use database, exceeds the limitation established by Lee Plan Table 1 (b), Acreage Allocation Table (per Lee Plan Policy 1.7.6). In order to develop more Rural acreage with residential uses, the Lee Plan must be amended to change the Rural residential acreage allocation for the Fort Myers Shores planning community in Table 1 (b). Adequate data and analysis to support this amendment must be submitted by the applicant at the time of the request for the Lee Plan amendment. Development in excess of the current Table 1 (b) allocations will not be permitted until Table 1 (b) is amended accordingly.

6. The following conditions are included to address the golf course:

a. The developer of the golf course must use fertilizers with a low leaching potential (slow release). The fertilizers must not be applied after active growth of the turfgrass has ceased, and must be kept to the lowest reasonable levels; and

b. To reduce sources of pollutants, especially nutrients and pesticides associated with the golf course, the golf course manager must implement a chemicals management plan that includes an integrated pest management (IPM) program and a nutrient management program so that nutrients and pesticides are used only when absolutely necessary. The program must address prevention, diagnosis, and limited treatment with pesticides when necessary rather than blanket treatment with broad spectrum pesticides as insurance against all pest species. The application of pesticides will involve only the purposeful and minimal application of pesticides, aimed only at identified targeted species.

The regular widespread application of broad spectrum pesticides is prohibited. The IPM program must minimize the use of pesticides and must include the use of the US Department of Agriculture - Natural Resources Conservation Service (USDA-NRCS) Soil Pesticide Interaction Rating guide to select pesticides for use that have a minimum potential for leaching or loss from runoff. The nutrient management program must be based upon the USDA-NRCS Nutrient Management Standard and must include the use of soil tests to determine needed applications of nutrients. Only EPA-approved chemicals may be used. Turf managed areas (including fairways, tees, and greens) within 35 feet of wetlands or preserve areas are prohibited. This chemicals management plan must be submitted to and approved by Lee County Planning Division Staff prior to the development order approval.

c. The golf course manager must coordinate the application of pesticides with the irrigation practices (the timing and application rates of irrigation water) to reduce runoff and the leaching of applied pesticides and nutrients.

d. The utilization of a golf course manager licensed by the state *to* use restricted pesticides and experienced in the principles of IPM is required. The golf course manager is responsible for ensuring that the golf course fertilizers are selected and applied to minimize fertilizer runoff into the surface water and the leaching of those fertilizers into the groundwater.

e. The storage, mixing, and loading of fertilizer and pesticides must be designed to prevent/minimize the pollution of the natural environment.

f. The golf course must comply with the "Best Management Practices for Golf Course Maintenance Departments," prepared by the Florida Department of Environmental Protection, as amended.

g. The golf course must be planted with a turfgrass cultivated variety that is drought and pest resistant, and that requires relatively low fertilizer use.

h. The irrigation system must operate on an "as needed" basis through the utilization of weather forecasting and ongoing assessment of the moisture content of the soil.

i. All fairways, greens, and tees must be elevated above the 25-year flood level, and all greens must utilize underdrains. The effluent from these underdrains must be pre-treated prior to discharge into the balance of the project's water management system.

j. Stormwater run-off must be pre-treated through an acceptable recreated natural system or dry retention and water retention system, prior to discharging the run-off into existing lake or wetland (any aquatic) systems.

k. An annual monitoring report of ground water and surface water quality is

required for the golf course operation. The monitoring program must include: testing to assess whether there are any herbicide, pesticide or fertilizer pollution of the water within the area of the golf course; identification of the locations for the ground water monitoring and testing on a map(s); testing and recording requirements. The developer must submit the test results with the monitoring report to the Lee County Planning Division. The monitoring program will be established and operated at the expense of the developer, or other comparable legal entity charged with the legal responsibility of managing the golf course. This plan will be evaluated in accordance with the directives of Chapter 17-302, F.A.C., water quality standards.

l. If groundwater or surface water pollution occurs, as that term is defined by the rules or regulations in effect at the time, and if the pollution is caused by the application of fertilizers, herbicides or pesticides to the golf course, the application must cease until the developer submits a revised management plan. If mitigation is necessary to address the pollution, the developer must implement a mitigation plan approved by Lee County.

7. Model units and homes are permitted in compliance with the following conditions:

a. Each model must be a unique example. Multiple examples of the same unit are not permitted; and

b. All model sites must be designated on the development order plans; and

c. Prior to constructing model homes within this project, the lots upon which the model homes will be constructed will have been shown on a preliminary plat filed concurrently with the required local development order for this project. Such model home(s) will comply with all setbacks set forth within the Property Development Regulations for River Hall (f/k/a Hawk's Haven) or the LDC, whichever applies. Should setback problems arise after construction of a model home, it will be the responsibility of the owner/developer to resolve the setback problem.

d. Hours of operation for model units and real estate sales within the model units are limited to Monday through Sunday, 8 a.m. through 8 p.m.

8. AGRICULTURAL USES: Existing bona fide agricultural uses on this site are allowed only in strict compliance with the following:

a. Bona fide agricultural uses that are in existence at the time the application for this project was filed, and as shown on Exhibit E attached hereto, may continue until approval of a local development order for the area of the project containing

those uses.

b. Additional clearing of trees or other vegetation in agricultural areas is prohibited. Existing areas of bona fide agricultural use may be maintained, i.e., mowed, but not cleared or expanded. This prohibition is not intended to preclude County approved requests for the removal of invasive exotic vegetation.

c. Prior to issuance of a local development order, the property owner must provide written proof, subject to approval by the County Attorney's Office, of the following:

i. Termination of all agricultural use on any portion of the property included in the development order application/approval. Proof must include a sworn affidavit from the person or entity holding title to the subject property that specifically provides:

(1) the date the agricultural uses ceased;

(2) the legal description of the property subject to the development order approval;

(3) an affirmative statement that the owner acknowledges and agrees that all agricultural uses are illegal and prohibited on the property and that the owner covenants with the county that they will not allow any such uses on the property unless and until the property is re-zoned to permit such uses; and,

(4) that the affidavit constitutes a covenant between the owner and the county that is binding on the owner and their assignees and successors in interest.

The covenant must be properly recorded in the public records of the county at the owner's expense.

ii. Termination of the agricultural tax exemption for any portion of the property included in the development order application/approval. Proof as to termination must include of a copy of the request to terminate the tax exemption provided to the Property Appraiser.

9. Construction traffic is prohibited on Hickey Creek Road.

10. Buildings exceeding 35 feet in height must maintain additional building separation as regulated by LDC §34-2174(a).

11. Approval of this zoning request does not address access onto S.R. 80, since Lee County has no jurisdiction over that roadway. The developer must pursue this access approval with the Florida Department of Transportation (FDOT). ~~Approval of this zoning request does not address mitigation of the project's vehicular or pedestrian traffic impacts. Additional conditions consistent with the Lee County LDC may be required to obtain a local development order~~In accordance with the signal warrant analysis conducted by FDOT dated April 22, 2014, the developer will coordinate with FDOT to install a traffic signal at the intersection of S.R. 80 and River Hall Parkway. The signal design will be initiated within 30 days of the effective date of this Resolution and the design will be submitted to FDOT for review within 150 days of the effective date of this Resolution. The developer will pursue final design approval from FDOT with all due diligence. Construction and installation of the signal shall proceed forward immediately after design approval by FDOT. Actual timing of installation is subject to agency review, permitting, manufacturing, construction, installation, testing and other factors.

12. Approval of this rezoning does not give the developer an undeniable right to receive local development order approval. Future development order approvals must satisfy the requirements of the Lee Plan Planning Communities Map and Acreage Allocations Table, Map 16 and Table 1(b).

13. This development must comply with all of the requirements of the LDC at the time of local development order approval, except as may be granted by deviations approved as part of this planned development.

14. The developer is required to design the project in a manner that will provide the internal "outparcels" (separate tracts encapsulated by the project property) the ability to obtain reasonable and practicable access through the subject property, unless the developer provides a circuit court order indicating that the internal outparcels are not legally entitled to access through the subject property. However, this rezoning does not obviate the developer's responsibility to provide access to the internal "outparcels" in accordance with Florida law.

15. If the developer constructs structures other than conventional single-family homes within 100 feet of the "outparcels," the developer must provide a 25-foot-wide enhanced vegetative buffer completely around the outparcel. In addition, the enhanced vegetative buffer must utilize native vegetation, indigenous to the plant community in which it is to be planted. The vegetation must be installed prior to vertical construction and it must be installed according to the following density and size:

    a. Six trees per 100 linear feet - At installation, trees must be a minimum of 12 to 14 feet tall, with a 2-1/2 inch minimum caliper and a 5-foot minimum canopy. No palm trees, or completely deciduous trees, may be used to meet the requirements of this enhanced buffer.

    b. 33 shrubs per 100 linear feet - 1) At installation, all shrubs must be 18 to 24 inches in height, 3-gallon pots, and spaced 30 to 36 inches on center; and 2)

all shrubs used to meet the enhanced buffer requirements must reach a mature height in excess of six feet under normal growing conditions. If these "outparcels" come under the control of the developer prior to construction within the 100-foot-wide area, then compliance with this condition is not required.

16. Vehicle access from the northern boundary of the subject property over and across Hickory Creek Road is prohibited.

17. Accessory uses must be located on the same tract, parcel or outparcel where a principal use is located. Accessory uses must be incidental and subordinate to the principal use of the tract, parcel or outparcel.

18. No development blasting is permitted as part of this project unless approved at a subsequent public hearing as an amendment to the planned development.

19. All required buffers must utilize 100 percent native vegetation.

20. Upon passage of this Zoning Resolution, Zoning Resolution #Z-99-056 ~~and~~, Administrative Amendment ADD2004-00067, and Zoning Resolution #Z-05-051 are null and void.

21. The school site is limited to a public school operated by the School District of Lee County.

22. Outdoor storage areas must be in compliance with §34-3001, *et seq*, of the Lee County LDC, with the additional requirements as outlined on page 2 of 2 of the attached MCP, including a 200-foot perimeter setback and enhanced buffer.

23. A plan showing landscaping in accordance with page 2 of 2 of the approved MCP must be submitted and approved prior to the issuance of a development order for the golf course maintenance facility and amenity center.

24. Signage referencing the town center is prohibited within 50 feet of the right-of-way of Palm Beach Boulevard (State Road 80).

25. BUFFERS.

    a. A Type "B" buffer must be added to the MCP for the "Town Center" portion bordering agriculturally-zoned property to the east, in accordance with the LDC. This buffer will not include the existing conservation areas shown on the approved MCP.

    b. A Type "D" buffer must be added to the MCP on the "spine" Road for the

commercial Town Center portion of the property, in accordance with the LDC.

26. ~~The MCP must be amended to include a 2nd full access that crosses the existing 50-foot-wide canal to the south to connect into 75th Street West in Lehigh Acres. The developer may show the access at any location along the southern boundary~~Within 24 months of the ~~property except where~~effective date of this Resolution, the ~~MCP shows conservation easements. The~~ developer ~~is not obligated to~~will design, permit, and construct ~~this access until Lee County has issued a certificate of occupancy for 1,598 homes~~the secondary access to 75th Street West shown on page 4 of the MCP. In the event the secondary access is not constructed within 24 months of the ~~project. Responsibilities regarding improvements to 75th Street West or other abutting Lehigh roads will be determined at~~effective date of this Resolution, the ~~time~~Director of Community Development may issue a reasonable extension for completion if the ~~access is approved for~~developer demonstrates good faith progress on the design, permitting and construction~~.~~ of the access. This requirement is contingent upon approval from the East County Water Control District (ECWCD) to cross the 50-foot-wide canal along the south side of River Hall. The County will work with the developer to obtain approval to ~~bridge~~cross the 50-foot-wide canal.

27. Approval of this zoning request does not address mitigation of the project's vehicular or pedestrian traffic impacts. Additional conditions consistent with the Lee County LDC may be required to obtain a local development order.

Approval of this zoning does not constitute a finding that the proposed project meets the concurrency requirements set forth in the LDC Chapter 2 and the Lee Plan. The developer ~~may obtain the necessary~~is required to demonstrate compliance with all concurrency requirements prior to the issuance of a local development order.

28. Within ninety (90) days of the effective date of this Resolution, the developer will submit a request to the South Florida Water Management District (SFWMD) for a letter modification to the consumptive use permit for the project to reinstate the groundwater monitoring requirements that were not included in the 2013 permit renewal. These requirements include conditions 31, 32, and 33 of the original Permit No. 36-04006-W issued in 2006. If the SFWMD approves the requested modification, all monitoring reports filed with the SFWMD pursuant to the permit will also be simultaneously filed with the County's Department of Natural Resources.

29. The developer will provide the ability for drainage from the ECWCD to pass through the project's surface water management system in order to lower flood stages within the ECWCD. The intent of this condition is to provide for a storm water conveyance from the existing ECWCD canal along the southern boundary of River Hall during major storm events. This condition is not intended to require the construction of any physical improvements to the surface water management system within River Hall, but only to require access to and authority for the ECWCD to utilize the surface water management system within River Hall in accordance with its existing permit. Documentation of compliance with this requirement will be provided by the developer to the County prior to the issuance of any additional residential development orders

~~when the project meets Lee County Concurrency requirements. This~~ ; provided, however, that this will not prohibit the issuance of development orders solely for infrastructure improvements (including but not limited to sewer, water, and drainage) for the project.

30. The developer will design, permit, and construct an 8-foot wide sidewalk/bicycle path along State Road 80 between River Hall Parkway and Buckingham Road. The design will be submitted to FDOT for review within 150 days of the effective date of this Resolution. The developer will pursue final design approval ~~may require~~ from FDOT with all due diligence. Design and installation of the sidewalk shall proceed forward immediately after design approval by FDOT. Actual timing of installation is subject to FDOT review and permitting.

31. The developer will coordinate with Lee County Emergency Management Services to accommodate the provision of EMS services at a location near the intersection of River Hall Parkway and State Road 80. At the developer's option, the developer may satisfy this condition by providing either ~~road improvements~~ : (a) space within an existing or ~~a reduction in requested intensity and density.~~ new structure, along with associated parking; (b) a donation of land not to exceed one-half (1/2) acre along River Hall Parkway for construction of an EMS facility at the County's expense; or (c) some other facility or donation mutually acceptable to the developer and County.

SECTION C. DEVIATIONS:

1. Deviation (1) seeks relief from the LDC §10-385(d)(3)a requirement to provide a maximum fire hydrant spacing of 800 feet in the one- and two-dwelling unit area, to eliminate this requirement in areas along the "spine" road where no homes exist. This deviation is APPROVED.

2. Deviation (2) Withdrawn.

3. Deviation (3) seeks relief from the LDC §10-329(d)(4) requirement to provide lake banks to be sloped at a maximum 4:1 slope, to allow bulkheads for up to 25 percent of the shoreline of lake banks. This deviation is APPROVED.

4. Deviation (4) seeks relief from the LDC §34-2194(b) requirement to provide a 25-foot setback from bodies of water, to allow 20-foot setbacks for the manmade lakes to be consistent with the existing development orders and permits. This deviation is APPROVED.

5. Deviation from LDC Section 10-415(b)(1)c which requires a minimum setback of 20 feet from buildings and a 30 foot setback for indigenous plant communities subject to fire to allow a side setback of 17 feet for the following existing platted lots: River Hall Country Club, Phase Two, Block K, Lots 29, 57, 76 and 77; Hampton Lakes At River

Hall, Phase One, Lot 87. This deviation is APPROVED.

6. Deviation from LDC Section 10-415(b)(1)c which requires a minimum setback of 20 feet from buildings and a 30 foot setback for indigenous plant communities subject to fire to allow a rear setback of 20 feet for all existing platted lots. This deviation is APPROVED.

7. Deviation from LDC Section 10-329(d)(4) which requires banks of excavations to be sloped at a ratio not greater than 6 horizontal to 1 vertical from the top of bank to a water depth of 2 feet below the dry season water table to allow a 4:1 slope. This deviation is APPROVED.

8. Deviation from LDC Section 10-291(3) which requires residential subdivisions of more than 5 acres to provide more than 1 means of ingress or egress for the development to allow 1 point of ingress or egress onto State Road 80. This deviation is APPROVED, subject to condition 26.

9. Deviation from LDC Section 34-934 which permits dwelling units within a CPD when there are at least 50,000 square feet or more of commercial uses to allow dwelling units within the existing River Hall CPD which was permitted for 45,000 square feet of commercial uses. This deviation is APPROVED.

RIVER HALL RPD/CPD
PLANNED DEVELOPMENT AMENDMENT

RIVER HALL RPD/CPD
PLANNED DEVELOPMENT AMENDMENT
TRAFFIC IMPACT STATEMENT

1.0 Introduction

River Hall RPD/CPD is an existing residential development located within unincorporated Lee County. The Project site is located on SR 80 in east Lee County, approximately three-fourths of a mile east of Buckingham Road at River Hall Parkway (Exhibit 1).

The River Hall community is currently zoned RPD/CPD and is identified as Suburban, Rural and Wetlands on the Lee Plan Future Land Use Map (FLUM). The existing FLUM and the RPD/CPD zoning for the River Hall community allows for 1,999 residential dwelling units and supporting amenities.

In 2012, the applicant initiated a Comprehensive Plan Amendment (CPA) to change the land use designation on a portion of the property from Rural to Sub-Outlying Suburban. The proposed CPA would potentially allow an increase of 1,000 dwelling units to a total of 2,999 dwelling units. For purposes of the rezoning, the proposal has been revised to reflect an increase of 696 dwelling units to a total of 2,695 dwelling units at buildout. The revised buildout year is anticipated to be year 2020.

The traffic assessment has been prepared consistent with the Lee County Guidelines for Zoning Traffic Studies and also consistent with the previous agreed-upon methodology established at the methodology meeting with Lee County Staff. In particular, the traffic assessment of SR 80 was prepared consistent with the standards established for Florida SIS (Strategic Intermodal System) facilities.

2.0 Development Parameters

A summary of the development parameters is presented in the table below. As shown, the "Existing-To-Date" represents the 307 single-family units plus amenities that are built and occupied in the community as of November, 2014.

The "Approved PD" parameters represent the 1,999 dwelling units plus amenities that are allowed under the current zoning. The Master Concept Plan of the approved PD is presented in Exhibit 2a.

The "PD Amendment" parameters allow the addition of 696 dwelling units to the Project to a total of 2,695 dwelling units plus amenities. The Master Concept Plan reflective of the PD amendment is provided in Exhibit 2b.

Development Parameters Summary

River Hall Land Use	Existing-To-Date (As of Nov./2014)	Approved PD	PD Amendment
Zoning	RPD/CPD	RPD/CPD	RPD/CPD
Buildout Year	Existing	2009	2020/2021
Single-Family (d.u.)	307	1,347	2,043
Multifamily (d.u.)	0	102	102
Active Adult (d.u.)		550	550
Total Residential (d.u.)	0	1,999	2,695
Office (sq. ft.)	0	15,000	15,000
Retail (sq. ft.)	0	30,000	30,000
Total Commercial (sq. ft.)	0	45,000	45,000
Golf w/Clubhouse (Holes)	18	36	36

The Project is anticipated to be built-out in year 2020. Consistent with Lee County guidelines, the future traffic conditions will reflect year 2021 (the year following the Project build-out).

3.0 Project Access

The Project is currently served by River Hall Parkway, the main entry road from SR 80. The current zoning resolution provides for a secondary access at the south property line. The connection of the secondary access is anticipated to be with Ruth Avenue in Lehigh Acres. It is anticipated that the secondary access will accommodate less than three percent of the future River Hall external traffic.

4.0 Study Methodology

The transportation methodology report dated October 18, 2012 was prepared by David Plummer and Associates, Inc. (DPA), Appendix A. The methodology report was presented and discussed with Lee County Development Services and DOT staff at the methodology meeting on October 25, 2012. This traffic study has been prepared consistent with the agreed upon methodology.

5.0 Study Area

As identified in the methodology report, the study area included the following major roadway segments.

Study Area - Major Roadway Segments

Roadway	From	To
SR 80	SR 31	Joel Boulevard
SR 31	From SR 80	SR 78
Buckingham Road	SR 80	Gunnery Road

The study area was subject to the "area of influence". The area of influence is defined as the area in that the Project traffic represents 10% or more of the maximum roadway service volume at Level-of-Service (LOS) "C".

In addition to the above roadway segments, the following intersections were identified within the study area and were analyzed as part of this traffic study.

Study Area - Intersections

Intersection
SR 80 and SR 31
SR 80 and Buckingham Road
SR 80 and River Hall Parkway (Project Entrance)

6.0 Area Roadway Network

The existing and future surrounding area roadway networks, assumed for purposes of the traffic analysis, are described below.

6.1 Existing Network

The existing roadway network in the vicinity of the Project is shown in Exhibit 1. As depicted, there are several major roadways in the vicinity of the Project including SR 80, SR 31 and Buckingham Road.

SR 80 is a State-maintained, east-west arterial connecting Lee County with Hendry County to the east. SR 80 west of SR 31 exists as six-lanes divided while east of SR 31 is four-lanes divided. SR 80 is part of the Florida Strategic Intermodal System (SIS).

SR 31 is a State-maintained, two-lane arterial that extends north from SR 80 into Charlotte and DeSoto County.

Buckingham Road is a County-maintained, two-lane, arterial that extends south from SR 80 into Lehigh Acres.

6.2 Future (Existing plus Committed) Network

Improvements that are scheduled for construction within the first three years of the current Lee County Capital Improvement Program and the Florida DOT Five-Year Work Program are considered to be committed improvements for purposes of Lee County traffic studies. With the exception of the on-going SR 31 PD&E Study between SR 80 and North River Road, there are currently no committed roadway improvements scheduled within the study area.

7.0 Data Collection

For purposes of this study, the traffic data were collected from following sources.

- Original 2014 intersection turning movement counts
- 2013 Lee County Traffic Count Report
- 2013 Lee County Traffic Concurrency Report
- FDOT Florida Traffic Online (2013)

7.1 Turning Movement Counts

The intersection tuning movement counts were conducted on November 19, 2014 at the following external intersections.

- SR 80 / SR 31
- SR 80 / Buckingham Road
- SR 80 / River Hall Parkway

Intersection turning movement counts were conducted at the following locations along River Hall Parkway within the River Hall community.

- Elementary School North Entrance
- Elementary School Middle Entrance
- Elementary School South Entrance / Paradise Palm Boulevard

The SR 80/River Hall Parkway intersection represented the controlling intersection that established the AM peak hour of between 7:00 to 8:00 and the PM peak hour of between 5:00 to 6:00 for the intersection analyses. To reflect peak season (K_{100}) traffic conditions, a peak season adjustment factor of 1.13 derived from the 2013 Lee County Traffic Count Report for PSC #5 was then applied to the raw counts. The complete intersection turning movement counts and adjustments are provided in Appendix B.

7.2 Roadway Volume Reports and Signal Operating Plans

The utilized traffic data information from the 2013 Lee County Traffic Count Report and the 2013 Lee County Concurrency Report are documented in Appendix C.

The signal operating plans (SOP) for the SR 80/SR 31 and SR 80/Buckingham Road intersections were obtained from the Lee County DOT and included as part of Appendix C.

8.0 Existing 2014 Traffic Volumes

The existing trip generation and resultant external roadway traffic volumes associated with the River Hall Elementary School and River Hall community are discussed below.

8.1 Existing 2014 River Hall Elementary School Trip Generation

The River Hall Elementary School (RHES) is located within the River Hall Community. The school is a public entity and is not part of the River Hall RPD/CPD development. The current 2014 enrollment is 922 students, Appendix D.

Based on the traffic counts conducted at the three school entrances along River Hall Parkway and documented as part of Appendix B, the existing trip generation of RHES coincident with the AM and PM peak hours of the adjacent street were calculated and presented below.

River Hall Elementary School
Trip Generation Summary
Existing Enrollment [1]

Trip Type	AM Peak Hour [2]			PM Peak Hour [3]		
	In	Out	Total	In	Out	Total
Total	94	27	121	60	88	148

(1) November 2014 Enrollment = 922 students.
(2) Based on AM peak hour (7:00 to 8:00 am) turning-movement counts conducted on November 19, 2014. Does not necessarily reflect the morning peak hour generation of the school.
(3) Based on PM peak hour (5:00 to 6:00 pm) turning-movement counts conducted on November 19, 2014. Does not necessarily reflect the afternoon peak hour generation of the school.

The existing turning movement volumes at the three school entrances along River Hall Parkway are depicted in Appendix E.

8.2 Existing 2014 River Hall Trip Generation

Based on the traffic counts conducted along River Hall Parkway, the existing trip generation of River Hall RPD/CPD coincident with the AM and PM peak hours of the adjacent street is summarized below and further documented in Appendix E.

River Hall RPD/CPD

(2) Based on AM peak hour (7:00 to 8:00 am) turning-movement counts conducted on November 19, 2014.
(3) Based on PM peak hour (5:00 to 6:00 pm) turning-movement counts conducted on November 19, 2014.

9.0 Existing 2014 Traffic Conditions

Existing year (2014) traffic conditions for the roadway segments and intersections under study are presented in this section. All year 2013 existing traffic volumes from latest published databases were inflated to represent the existing traffic conditions, coincident with year 2014.

9.1 Existing 2014 Roadway Segment LOS

The "Estimated 2013 100th Highest Hr" peak directional volumes reported in the 2013 Lee County Concurrency Report were adjusted to represent 2014 roadway segment volumes. The adjustment factors were taken from the 2013 Lee County Traffic Count Report, based on historic growth rates from roadway traffic volumes reported between year 2004 and 2013.

Since the 2013 reported volumes also include the traffic from the existing River Hall development, the existing River Hall traffic was deducted from the total volumes before the 2014 inflation factor was applied. To be conservative, a minimum of 1 percent growth per year was applied where the calculated growth rates were negative or less than 1 percent. The relevant data from both the concurrency report and the traffic count report are provided in Appendix C.

The existing 2014 traffic conditions for the roadway segments under study are summarized in Exhibit 3. As shown in Exhibit 3, all the study area roadway segments currently operate better than the adopted LOS standard of The Lee Plan.

A map showing the River Hall external traffic assignment (as a percentage of Project traffic) on the area roadway network is depicted in Exhibit 4.

9.2 Existing 2014 Intersection LOS

Intersection turning movement counts were conducted at the study area intersections on November 19, 2014, Appendix B. Those counts were adjusted to reflect peak season conditions as discussed in the previous section of the report.

The existing peak season, AM and PM peak hour intersection turning movement volumes are depicted in Exhibits 5a and 5b, respectively. The complete existing 2014 intersection volumes are further documented in Appendix E.

Intersection capacity analyses were performed consistent with the methodologies of the Highway Capacity Manual 2010 (HCM 2010) and using the current version of Highway Capacity Software (HCS 2010).

The results of the HCM intersection capacity analyses under existing conditions are summarized below. The corresponding HCS worksheets (Appendix F) and signal operating plans obtained from the Lee County DOT are included as part of Appendix C.

Intersection Capacity Analysis - Existing 2014 LOS

	Level of Service	
Intersection	AM Peak Hour	PM Peak Hour
SR 80 and SR 31	E (1)	E (1)
SR 80 and Buckingham Road	D (1)	D (1)
SR 80 and River Hall Parkway (Project Entrance)	C/A (2)	F/B (2)

Footnotes:
(1) Signalized intersection, overall LOS reported.
Individual movements or approaches may experience delay.
(2) Unsignalized intersection, overall LOS/major-street left-turn LOS reported.

As shown above, the study area intersections generally operate at or better than acceptable LOS under existing conditions. However, some individual movements and/or approaches may experience delays under existing conditions.

10.0 Future 2021 Traffic with Approved PD

Future 2021 traffic volume estimates reflective of the approved planned development is described as follows.

10.1 Future 2021 General Background Traffic (Approved PD)

The future (2021) peak hour background traffic, coincident with the currently approved Project at buildout, was estimated by applying historic annual growth rates to the existing traffic volumes from the 2013 Lee County Concurrency Report, less the existing River Hall traffic.

Historic growth rates were derived based on available traffic counts (from 2004 to 2013) listed in the Lee County 2013 Traffic Count Report. To be conservative, a minimum of 1 percent growth per year was applied where the calculated growth rates were negative or less than 1 percent. The resultant annual growth rates were applied to the estimated 2013 100th Highest Hour Directional roadway segment volumes from the 2013 Lee County Concurrency Report. For SR 80 (SIS), the AADT, K and D factors and projected growth rates were derived from the FDOT Florida Traffic Online (2013) database.

Furthermore, the background traffic assumption also reflected the recently approved Olga Square CPD with over 370,000 square feet of commercial use in the study area. Olga Square is situated on the north side of SR 80, directly across from River Hall. The Olga Square main access point

will add a north leg to the existing SR 80/ River Hall Parkway T-intersection. It is anticipated that River Hall will represent the primary customer base for Olga Square.

Therefore, the future 2021 background traffic volumes were derived based on a combination of general traffic growth and the site-specific traffic generation from Olga Square (less River Hall traffic). The combined background volumes represent a minimum of 2% annual growth between 2014 and 2021 for all roadway segments within the study area.

The above background traffic growth assumptions are included as part of the roadway segment analysis presented in Exhibit 6 with documentation provided in Appendix C.

10.2 Future 2021 River Hall Elementary School Traffic (Approved PD)

As part of the background traffic and based on the student enrollment increase from 2006 (700 students) to 2014 (922 students), a simple growth rate of 28 students per year (between 2006 and 2014) was calculated. It was estimated that the RHES enrollment would be 1,118 (922 + (28*7)) students, coincident with year 2021 (Appendix D). A growth factor of 1.21 (1,118/922) reflective of the student enrollment increase from year 2014 to 2021 was applied to the existing 2014 RHES traffic to derive future 2021 RHES traffic along River Hall Parkway and the external traffic at the SR 80 entrance.

The resultant AM and PM peak hour trip generation of the school is summarized as follows:

River Hall Elementary School
Trip Generation Summary
2021 with Approved PD

(1) Estimated 2021 Enrollment = 1,118 students.
Based on River Hall Elementary School enrollment data from 2006 and 2014.
(2006 = 700 students; 2014 = 922 students) = 222 added students/8 years = 28 added students/year.

Does not necessarily represent the peak hour of generation of the school.

(2) Estimated based on increase from existing 307 SF d.u. to 1,347 SF d.u. at 2021. Growth factor of 4.3880 applied to existing SF school trips. Does not necessarily represent the peak hour of generation of the school.

10.3 Future 2021 River Hall Trip Generation (Approved PD)

The River Hall RPD/CPD trip generation estimates reflective of the currently approved PD were derived using the Online Traffic Impact Study Software (OTISS) that incorporates the Institute of Transportation Engineers (ITE), Trip Generation, 9th Edition. In addition, OTISS enables the input of the mixed-use internal capture rates from NCHRP Report 684 – Enhancing Internal Trip Capture Estimation for Mixed-Use Developments. The output from OTISS summarizes the trip generation, internal trip capture and pass-by trip assumptions, Appendix G.

The components of the River Hall community trip generation include: i) existing development; ii) remaining development; and iii) total future development.

i) Existing Development Trips - Counted

The existing trip generation based on traffic counts were previously discussed and presented below.

(3) Based on PM peak hour (5:00 to 6:00 pm) turning-movement counts conducted on November 19, 2014.

ii) Remaining Development Trips (Approved PD) – ITE Estimates

As per the traffic methodology, the remaining development was calculated by the following:

a. The trips for the existing development parameters and the buildout development parameters were estimated using the equations/trip rates from the ITE Trip Generation, 9th Edition.

b. The trip generation estimates for the remaining to be built development were then estimated by subtracting the ITE estimated trips (AM and PM) for the existing development parameters from the ITE estimated trips for the Project buildout parameters. The difference in the trips represents the trip generation of the remaining to be built development, as summarized below.

(6) Estimated AM peak hour retail pass-by rate is less than 10% of passing traffic on SR 80.
(7) ITE estimated PM peak hour retail pass-by rate is less than 10% of passing traffic on SR 80.

c. The NCHRP Report 684 Enhancing Internal Trip Capture Estimation for Mixed-Use Developments rates were utilized to estimate the Project's internal trip capture (Appendix G). The internal capture rate has been estimated at 8.8% for the AM peak hour and 23.7% for the PM peak hour.

d. Retail pass-by trip rates of 10% and 30% for the AM and PM peak hours, respectively, were applied to the retail use (Appendix G). The assumed pass-by rates were much lower than the 55% estimated by the Institute of Transportation Engineers Trip Generation, 9th Edition and the resultant pass-by trips are significantly lower than the maximum 10% of the passing traffic on SR 80.

iii) Future Total Development Trips (Approved PD)

e. The resultant remaining development trips were then added to the 2014 existing driveway traffic volumes to derive the cumulative trip generation at buildout as shown below.

11.0 Future 2021 Traffic Conditions with Approved PD

Future year 2021 traffic conditions reflective of the currently approved Project are discussed in this section.

11.1 Future 2021 Roadway Segment LOS (Approved PD)

The future (2021) traffic conditions, coincident with the currently approved Project at build-out, for the roadway segments under study were derived by adding the estimated peak hour Project trips to the projected background traffic. The resultant future (2021) traffic conditions, coincident with the currently approved Project at build-out, are presented in Exhibit 6.

For consistency, the Project's traffic volumes were assigned to the study area roadway network based on the roadway segment trip assignment percentages from the River Hall CPA traffic analysis that was previously submitted to Lee County. The CPA traffic analysis relied on the MPO FSUTMS travel model.

The resultant assignment percentages were "smoothed" to better reflect real-world behavior. As shown in Exhibits 6 and 7, the significantly impacted roadway segments (Project trips at 10% or more of the service volumes at LOS "C") are identified. The Project does not have a significant impact on any roadway segments outside of the study area.

All of the study area roadway segments operate at or better than County adopted LOS standard, coincident with the approved PD at buildout. As such, River Hall does not have significant and adverse impacts on the surrounding roadway network with the approved PD.

11.2 Future 2021 Intersection LOS (Approved PD)

Future (2021) traffic conditions at the intersections, coincident with the currently approved Project at build-out, were derived by adding the build-out trip generation estimates to the projected background traffic volumes as detailed in Appendix H. The resultant 2021 intersection turning volumes are summarized in Exhibit 8a and 8b for AM and PM peak hours, respectively.

Intersection capacity analyses (HCM/HCS) performed for future conditions with the currently approved Project are summarized below and presented in Appendix I.

Intersection Levels of Service (LOS)
Future (2021) Conditions with Approved PD

	Without Improvement		With Improvement (3)	
Intersection	AM Peak	PM Peak	AM Peak	PM Peak
SR 80 and SR 31	E (1)	E (1)	D (1)	E (1)
SR 80 and Buckingham Road (1)	D (1)	F (1)	D (1)	D (1)
SR 80 and River Hall Parkway (Project Entrance)	F/C (2)	F/F (2)	C (4)	D (4)

Footnotes:
(1) Signalized intersection, overall LOS reported.
Individual turn lanes or approaches may experience delay.
(2) Unsignalized intersection, overall LOS/major-street left LOS reported.
(3) Turn-lane improvements only.
(4) Signalization, if and when warranted.

As shown above, all of the study area intersections are expected to operate with delay due to the increase in the background traffic growth and with the approved Project. However, turn-lane improvements are recommended to allow the intersections to operate at acceptable levels of service. The recommended improvements are discussed later in the study.

12.0 Future 2021 Traffic with PD Amendment

Future 2021 traffic volume estimates with the proposed planned development amendment is presented below.

12.1 Future 2021 General Background Traffic (PD Amendment)

The future (2021) peak hour background traffic, coincident with the proposed PD amendment of the Project at buildout, was estimated by applying historic annual growth rates to the existing traffic volumes, less the River Hall development traffic.

Historic growth rates were derived based on available traffic counts (from 2004 to 2013) listed in the Lee County 2013 Traffic Count Report. To be conservative, a minimum of 1 percent growth per year was applied where the calculated growth rates were negative or less than 1 percent. The resultant annual growth rates were applied to the estimated 2013 100th Highest Hour Directional (K_{100}, D_{100}) roadway segment volume from the 2013 Lee County Concurrency Report. For SR 80 (SIS), the AADT, K and D factors and projected growth rates were derived from the FDOT Florida Traffic Online (2013) database.

Furthermore, the background traffic assumption also reflected the recently approved Olga Square CPD with over 370,000 square feet of commercial use in the study area. Olga Square is situated on the north side of SR 80, directly across from River Hall. The Olga Square main access point will add a north leg to the existing SR 80/ River Hall Parkway T-intersection. It is anticipated that the proposed additional dwelling units at River Hall will enhance the primary customer base for Olga Square.

Therefore, the future 2021 background traffic volumes were derived based on a combination of general traffic growth and the site-specific traffic generation from Olga Square (less River Hall traffic). The combined background volumes represent a minimum of 2% annual growth between 2014 and 2021 for all roadway segments within the study area.

The above background traffic growth assumptions are included as part of the roadway segment analysis in Exhibit 9 with documentation provided in Appendix C.

12.2 Future 2021 River Hall Elementary School Traffic (PD Amendment)

As part of the background traffic and based on the student enrollment increase from 2006 (700 students) to 2014 (922 students), a simple growth rate of 28 students per year (between 2006 and 2014) was calculated. It was estimated that the RHES enrollment would be 1,118 (922 + (28*7)) students, coincident with year 2021 (Appendix D). A growth factor of 1.21 (1,118/922) reflective of the student enrollment increase from year 2014 to 2021 was applied to the existing 2014 RHES traffic to derive future 2021 RHES traffic along River Hall Parkway and the external traffic at the SR 80 entrance.

The resultant AM and PM peak hour trip generation of the school is summarized as follows:

River Hall Elementary School
Trip Generation Summary
2021 with PD Amendment

Trip Type	AM Peak Hour			PM Peak Hour		
	In	Out	Total	In	Out	Total
Total [1]	114	33	147	73	106	179

To/From River Hall Residential [2]	0	0	0	20	13	33
SR 80 Access	114	33	147	53	93	146

Footnotes:
(1) Estimated 2021 Enrollment = 1,118 students.
Based on River Hall Elementary School enrollment data from 2006 to 2014.
(2006 = 700 students; 2014 = 922 students) = 222 added students/8 years = 28 added students/year.
Does not necessarily represent the peak hour of generation of the school.
(2) Estimated based on increase from existing 307 SF d.u. to 2,043 SF d.u. at 2021.
Growth factor of 6.6547 applied to existing SF school trips.
Does not necessarily represent the peak hour of generation of the school.

With the PD amendment, there is an increase in trip interaction between the River Hall Elementary School and the River Hall community that would result in a reduction of the number of school trips on SR 80.

12.3 Future 2021 River Hall Trip Generation (PD Amendment)

The River Hall RPD/CPD trip generation estimates reflective of the proposed PD amendment were derived using the Online Traffic Impact Study Software (OTISS) that incorporates the Institute of Transportation Engineers (ITE), Trip Generation, 9th Edition. In addition, OTISS enables the input of the mixed-use internal capture rates from NCHRP Report 684 – Enhancing Internal Trip Capture Estimation for Mixed-Use Developments. The output from OTISS summarizes the trip generation, internal trip capture and pass-by trip assumptions, Appendix J.

The components of the River Hall CPD/RPD trip generation include: i) existing development; ii) remaining development; and iii) total future development.

i) Existing Development Trips - Counted

The existing trip generation based on traffic counts were previously discussed and presented below.

ii) Remaining Development Trips (PD Amendment) – ITE Estimates

As per the traffic methodology, the remaining development was calculated by the following:

a. The trips for the existing development parameters and the buildout development parameters were estimated using the equations/trip rates from the ITE Trip Generation, 9th Edition.

b. The trip generation estimates for the remaining to be built development were then estimated by subtracting the ITE estimated trips (AM and PM) for the existing development parameters from the ITE estimated trips for the Project buildout parameters. The difference in the trips represent the trip generation for the proposed, remaining to be built development.

Footnotes:
(1) OTISS based on ITE, Trip Generation, 9th Edition.
(2) Total Development = 2,695 residential units + amenities.
(3) Existing Development = 307 residential units + amenities.
(4) Remaining Development = 2,388 residential units + amenities.
(5) OTISS with NCHRP 684 Mixed-Use Internal Capture Rates applied.
(6) Estimated AM peak hour retail pass-by rate is less than 10% of passing traffic on SR 80.
(7) ITE estimated PM peak hour retail pass-by rate is less than 10% of passing traffic on SR 80.

c. The NCHRP Report 684 Enhancing Internal Trip Capture Estimation for Mixed-Use Developments rates were utilized to estimate the Project's internal trip capture (Appendix I). The internal capture rate has been estimated at 6.5% for the AM peak hour and 18.9% for the PM peak hour.

d. Retail pass-by trip rates of 10% and 30% for the AM and PM peak hours, respectively, were applied to the retail use (Appendix E). The assumed pass-by rates were much lower than the 55% estimated by the Institute of Transportation Engineers Trip Generation, 9th Edition and the resultant pass-by trips are significantly lower than the maximum 10% of the passing traffic on SR 80.

iii) Future Total Development Trips (PD Amendment)

e. The resultant remaining development trips were then added to the 2014 existing driveway traffic volumes to derive the cumulative trip generation at buildout.

13.0 Future 2021 Traffic Conditions with PD Amendment

Future year 2021 traffic conditions reflective of the proposed PD amendment are discussed in this section.

13.1 Future 2021 Roadway Segment LOS (PD Amendment)

The future (2021) traffic conditions, coincident with the PD amendment of the Project at build-out, for the roadway segments under study were derived by adding the estimated peak hour Project trips to the projected background traffic. The resultant future (2021) traffic conditions, coincident with the currently zoned Project at build-out, are presented in Exhibit 9.

For consistency, the Project's traffic volumes were assigned to the study area roadway network based on the roadway segment trip assignment percentages from the River Hall CPA traffic analysis that was previously submitted to Lee County. The CPA traffic analysis relied on the MPO FSUTMS travel model.

The resultant assignment percentages were "smoothed" to better reflect real-world behavior. As shown in Exhibits 9 and 10, the significantly impacted roadway segments (Project trips at 10% or more of the service volumes at LOS "C") are identified. The Project does not have a significant impact on any roadway segments outside of the study area.

All of the study area roadway segments operate at or better than County adopted LOS standard, coincident with the proposed PD amendment at buildout. As such, River Hall does not have significant and adverse impacts on the surrounding roadway network with the proposed PD amendment.

13.2 Future 2021 Intersection LOS (PD Amendment)

Future (2023) traffic conditions at the intersections, coincident with the PD amendment of the Project at build-out, were derived by adding the build-out trip generation estimates to the

projected background traffic volumes as detailed in Appendix K. The resultant 2023 intersection turning volumes are presented in Exhibit 11a and 11b for AM and PM peak hours, respectively.

Intersection capacity analyses (HCM/HCS) performed for future conditions with the PD Amendment of the Project are summarized below and presented in Appendix L.

Intersection Levels of Service (LOS)
Future (2021) Conditions with PD Amendment

	Without Improvement		With Improvement [3]	
Intersection	AM Peak	PM Peak	AM Peak	PM Peak
SR 80 / SR 31	D [1]	F [1]	D [1]	D [1]
SR 80 / Buckingham Road [1]	E [1]	F [1]	D [1]	D [1]
SR 80 / River Hall Parkway (Project Entrance)	F/B [2]	F/F [2]	C [4]	D [4]

Footnotes:
(1) Signalized intersection, overall LOS reported.
Individual turn lanes or approaches may experience delay.
(2) Unsignalized intersection, overall LOS/major-street left LOS reported.
(3) Turn-lane improvements only.
(4) Signalization, if and when warranted.

As shown above, all of the study area intersections are expected to operate with delay due to the increase in the background traffic growth and with the Project. However, turn-lane improvements are recommended to allow the intersections to operate at better than acceptable levels of service. The recommended improvements are discussed in the next section of the study.

14.0 Recommended Improvements

Based on the traffic analysis of the River Hall community under the current approved PD and the proposed PD amendment, and coincident with buildout year at 2021, the following improvements are recommended to maintain adopted level of service standards.

14.1 Roadway Improvements

Improvements including the widening of roadway segments within the study are not needed as summarized below.

Future (2021) Recommended Roadway Improvements

Roadway Improvements/Widening	Approved PD	PD Amendment
SR 80 from SR 31 to Joel Boulevard	None Needed	None Needed
SR 31 from SR 80 to North River Road	None Needed	None Needed
Buckingham Road from SR 80 to Gunnery Road	None Needed	None Needed

14.2 Intersection Improvements

Needed intersection turn-lane improvements are summarized below and depicted in Exhibits 12a, 12b and 12c.

Future (2021) Recommended Intersection Improvements

Footnotes:
(1) Olga Square CPD Access Connection - Assumed for planning purposes only.
(2) Signal warranted as per FDOT Signal Warrant Analysis for SR 80 at River Hall Parkway, dated April 22, 2014.

15.0 Traffic Impact Mitigation Plan

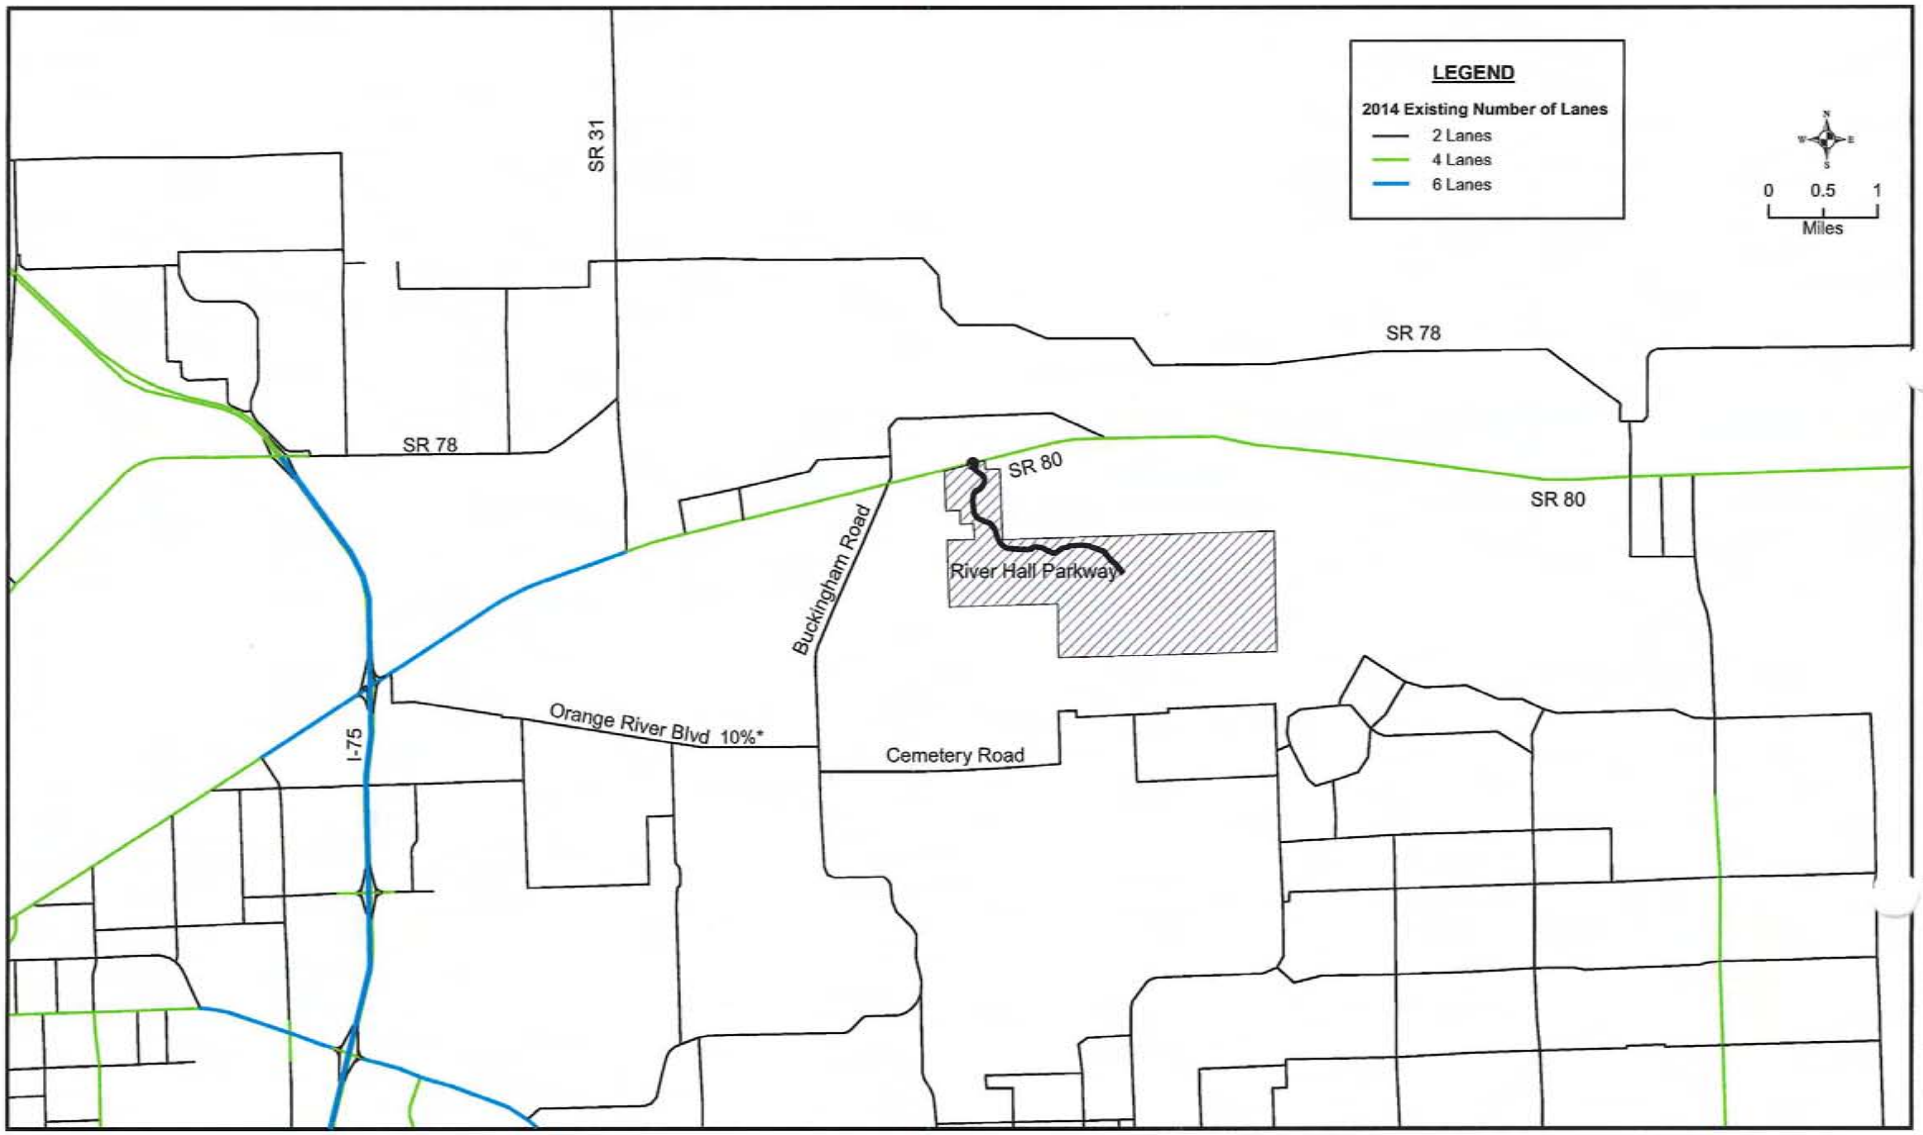

The Project will mitigate its impacts through the payment of roads impact fees. Based on the current Lee County RIF schedule and shown in Exhibit 13, it is estimated that the Project may generate an additional $4.7 million in road impact fees as a result of the PD amendment.

The County may use the impact fee monies towards addressing any future deficiencies, including turn-lane improvements at the SR 80/SR 31 and SR 80/Buckingham Road intersections, as deemed necessary by the Lee County DOT. In addition, the Project will be responsible for any additional site-related improvements at the two Project entrances attributed to the PD amendment, including turn-lane improvements and its share for the signalization of the SR 80/River Hall Parkway intersection.

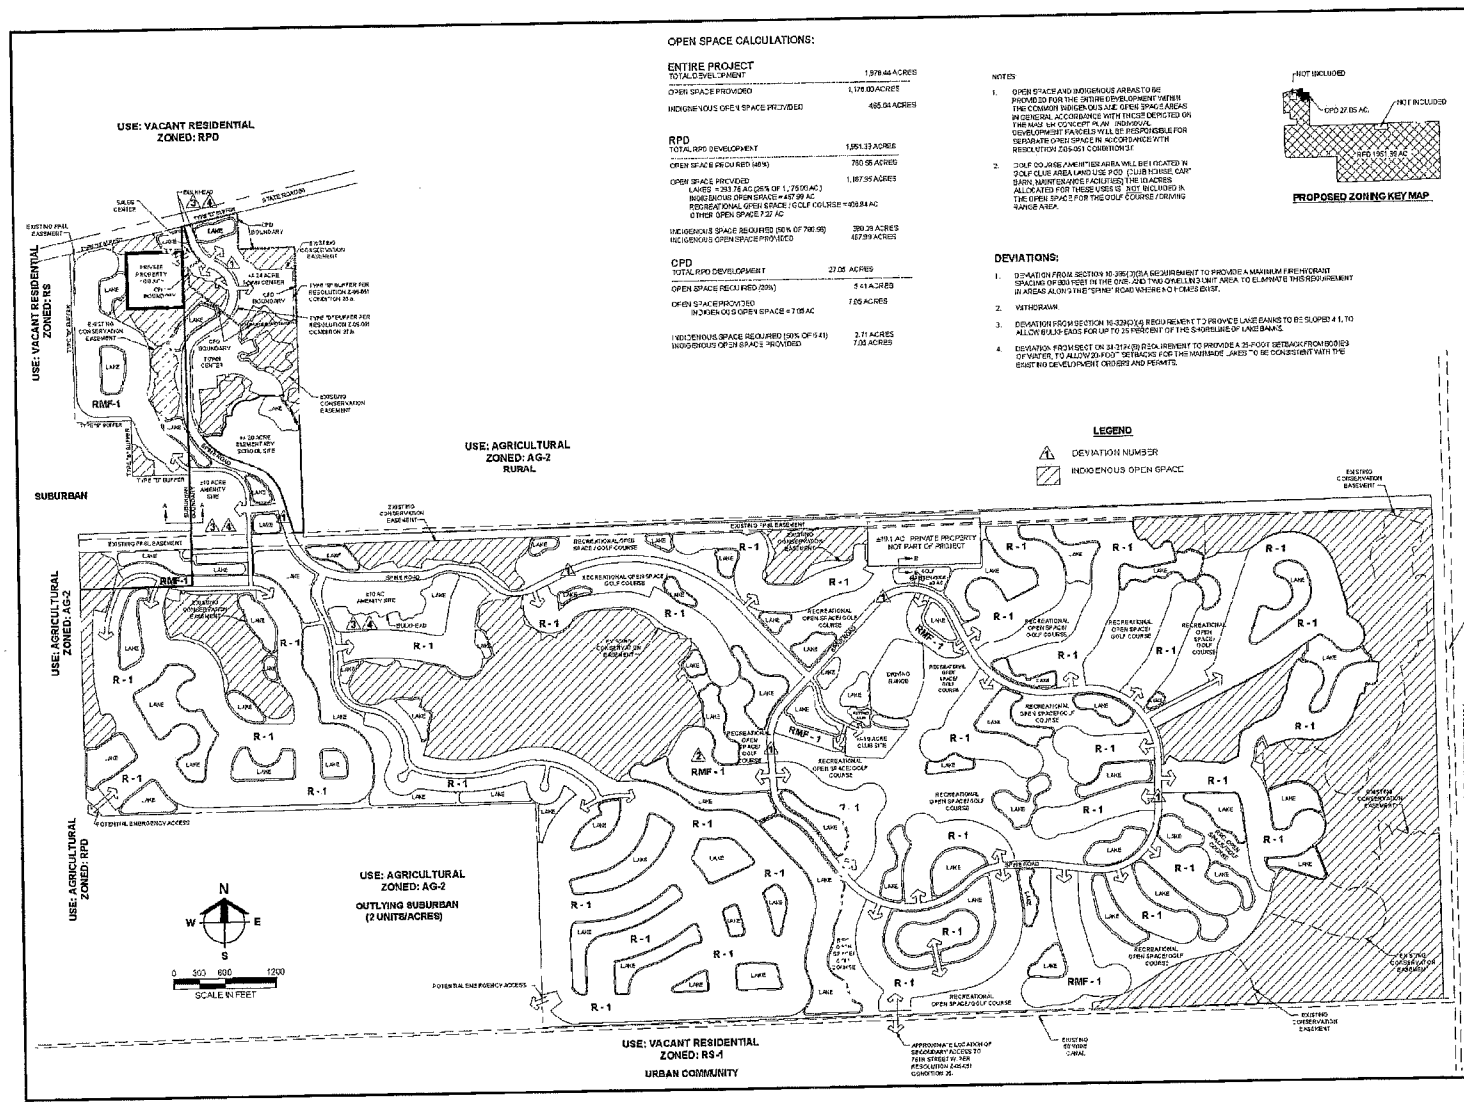

16.0 Conclusions

The conclusions of the traffic study are as follows.

- The PD amendment of River Hall will not create any adverse impacts on the surrounding roadway network.
- The PD amendment of River Hall will not require any additional roadway or intersection improvements as compared to the currently approved Project.
- The PD amendment of River Hall may generate an additional $4.7 million in road impact fees for Lee County to apply towards the funding of the same needed improvements anticipated for future background traffic growth and the currently approved Project.

RIVER HALL REZONING

TRANSPORTATION METHODOLOGY REPORT

Introduction

The River Hall Community is a mixed use, residential development located on SR 80, east of Buckingham Road in Lee County. The Community is an approved residential development, currently under construction. A recent amendment to The Lee Plan will allow increased residential densities, up to a total of 2,999 residential units. The purpose of the rezoning traffic impact statement is to support the rezoning of the property to allow higher residential densities.

The buildout development parameters remain to be finalized. The anticipated build-out year for the Community is the year 2020.

Methodology Meeting

A transportation methodology meeting will be held with Lee County. The transportation methodology report will be distributed prior to the meeting and reviewed during the meeting. The methodology report will be subsequently updated, as needed, based on the discussion during the methodology meeting.

Methodology Outline

This methodology report will be updated to reflect recommendations from the review agency during the transportation methodology meeting.

1. The study area major collector and arterial road segments will be analyzed coincident with Project buildout. Levels of service (LOS) on the study area road segments will be estimated for the peak season, peak hour (K_{100}), peak direction. The roadways are anticipated to include the following.

   Potential Road Segments Under Study

SR 80	River Hall Parkway to Joel Boulevard
SR 80	River Hall Parkway to SR 31
Buckingham Road	SR 80 to Orange River Boulevard
SR 31	SR 80 to SR 78

2. The following study area intersections will be analyzed in the AM and PM peak hours coincident with Project buildout. Levels of service (LOS) for the intersections under study will be estimated based on peak season, peak hour traffic using HCS 2010 software.

Potential Intersections Under Study

SR 80 / River Hall Parkway
SR 80 / Buckingham Road
SR 80 / SR 31

3. As indicated in the current zoning resolution, a secondary access point will be reflected in the ZTIS. A low number of trips associated with the remaining to be built development will be distributed to the secondary access. Due to the low utilization of this access, intersection and local roadway segment levels of service will not be performed.

4. The existing trip generation associated with the existing development at River Hall will be established from turning movement counts conducted at the intersection of SR 80 / River Hall Parkway and at the intersection of River Hall Parkway / River Hall Elementary School. The traffic counts at the intersection of SR 80 and River Hall Parkway (inbound left and right and outbound left and right) less the River Hall Elementary School volume will represent the existing-to-date trip generation for River Hall. The River Hall Elementary School traffic volumes will be derived from AM and PM peak hour (7 am to 9 am and 4 pm to 6 pm) turning movement counts at three intersections: River Hall Parkway / River Hall Elementary School West Entrance; River Hall Parkway / River Hall Elementary School Main Entrance; and River Hall Parkway / Paradise Palm Boulevard.

5. The estimated trip generation for River Hall at year 2020 (buildout) will be calculated based on the following method.

    a. The trips for the existing development parameters (less the River Hall Elementary School) and the buildout development parameters will be estimated using the equations/trip rates from the ITE Trip Generation, (9th Edition).
    b. The trip generation for the proposed, remaining to be built uses will be estimated by subtracting the ITE estimated trips (AM and PM) for the existing development parameters from the ITE estimated trips for the Project buildout parameters. The difference in the trips will represent the trip generation for the proposed, remaining to be built uses. These trips will then be added to the 2012 existing driveway traffic volumes (less the River Hall Elementary School) to derive the cumulative trip generation at buildout.
    c. The NCHRP Report 684/8-51 Internal Trip Capture Estimation Tool will be utilized to estimate the Project's internal trip capture.
    d. The retail pass-by trips, if any, will be estimated using the Institute of Transportation Engineers Trip Generation, 9th Edition, and should not exceed 10% of the passing traffic on the external roadway(s).

6. The trips associated with the proposed remaining to be built uses will be assigned to the SR 80 / River Hall Parkway entrance. The combination of the existing driveway turn volumes and the trips from the proposed, remaining to be built uses will represent the total turn lane volumes at Project buildout in 2020.

7. Future 2020 peak hour, peak season background traffic volumes will be derived by applying an historic growth rate to the existing traffic volumes. The growth rate(s) will be calculated based on historic growth trends as derived from the Lee County 2011 Traffic Count Report and / or the FDOT 2010 Traffic Information DVD. The historic growth rate(s) will be applied to the existing intersection turn volumes and roadway segment volumes after deducting out the existing Project volumes. The adjusted background traffic, existing Project traffic and proposed Project traffic will represent total traffic volumes with the Project.

8. AM and PM peak hour levels of service (LOS) analyses will be conducted for the intersections under study and a peak hour, peak season (K_{100}) roadway segment evaluation will be provided for the roadway segments under study. LOS standards consistent with the County's comprehensive plan will be used. Current Lee County service volumes will be used for the roadway segments under study.

9. The Project's proposed mitigation of its traffic impacts will be summarized. Estimates of the roads impact fees paid to date for the existing development and expected to be paid for the proposed buildout development will be.

The rezoning traffic analysis, findings and supporting documentation will be included as part of the rezoning application and submitted to the review agencies. The traffic impact statement will, of course, be subject to review and acceptance by the review agency.

[1] Values shown are presented as peak hour directional volumes for levels of service and are for the automobile/truck modes unless specifically stated. This table does not constitute a standard and should be used only for general planning applications. The computer models from which this table is derived should be used for more specific planning applications. The table and deriving computer models should not be used for corridor or intersection design, where more refined techniques exist. Calculations are based on planning applications of the Highway Capacity Manual and the Transit Capacity and Quality of Service Manual.

[2] Level of service for the bicycle and pedestrian modes in this table is based on number of motorized vehicles, not number of bicyclists or pedestrians using the facility.

[3] Buses per hour shown are only for the peak hour in the single direction of the higher traffic flow.

* Cannot be achieved using table input value defaults.

** Not applicable for that level of service letter grade. For the automobile mode, volumes greater than level of service D become F because intersection capacities have been reached. For the bicycle mode, the level of service letter grade (including F) is not achievable because there is no maximum vehicle volume threshold using table input value defaults.
