

**Letter of Opposition re: Proposed Bay Harbour Marina Village Land Use Change
CPA2017-00005 DRMUVD Overlay for Bay Harbour Marina Village**

Name: SCOTT NEELY Phone/Email: 267-273-5845

Address: 865 OAK ST FT MYERS BEACH

I am a ☐ Property Owner ☒ Business Owner ☒ Resident on San Carlos Island, Florida.

Please let this letter serve as my Formal Request that you DENY the Proposed Bay Harbour Marina Village Land Use Change CPA2017-00005 DRMUVD. I am voicing my STRONG OPPOSITION to the Proposed Bay Harbour Marina Village Land Use Change. I request that you DENY the Proposed Bay Harbour Marina Village Land Use Change Request for the following reasons:

1. Put simply, the Request seeks too much – too much density, too much intensity. It seeks the maximum allowances while not sufficiently meeting the minimum requirements.
2. Matanzas Harbor is the only remaining major seaport designated by the Lee Plan. Matanzas is a designated federal channel; the only one between Key West and Tampa. The southern waterfront area is a designated Florida Working Waterfront with the Florida Department of Economic Opportunity's Waterfronts Florida Partnership Program. The existing industrial land use is imperative to the Working Waterfront.
3. The requested density is inconsistent with the Lee Plan's directives for density in the Coast High Hazard Area.
4. The Request seeks to include the property's entire 7.58 acres in calculating density including the non-residential areas.
5. The Request does not provide sufficient open spaces and is incompatible with and negatively affect the character of the surrounding area.
6. The Request's heights are inconsistent and incompatible with the adjacent residential & non-residential areas.
7. The Request is not justified by the Ebbtide approval.
8. One of the objectives of the San Carlos Island Lee Plan provisions is to manage development to maintain and enhance the area's quality of life. Similarly, commercial development should blend with the character of the surrounding area and redevelopment activities must be consistent with the desired community character. The weight of the evidence indicates the Applicant did not sufficiently demonstrate the Request meets these requirements.
9. The Request's densities are inconsistent and incompatible with the residential development in the surrounding area. They not only do not improve the area's existing character, they are potentially destructive to the character of the surrounding area. Further, the heights and building sizes are too intense for and inconsistent with the character of the surrounding area. The Request's design exacerbates rather than mitigates these impacts. Consequently, the Request is not compatible with, nor does it protect the character of, the surrounding area.

Please **DENY** the Proposed Bay Harbour Marina Village Land Use Change.
Thank you for your time and attention to this matter.

2. Matanzas Harbor is the only remaining major seaport designated by the Lee Plan. Matanzas is a designated federal channel; the only one between Key West and Tampa. The southern waterfront area is a designated Florida Working Waterfront with the Florida Department of Economic Opportunity's Waterfronts Florida Partnership Program. The existing Industrial land use is imperative to the Working Waterfront.
3. The requested density is inconsistent with the Lee Plan's directives for density in the Coast High Hazard Area.
4. The Request seeks to include the property's entire 7.58 acres in calculating density including the non-residential areas.
5. The Request does not provide sufficient open spaces and is incompatible with and negatively affects the character of the surrounding area.
6. The Request's heights are inconsistent and incompatible with the adjacent residential & non-residential areas.
7. The Request is not justified by the Ebttide approval.
8. One of the objectives of the San Carlos Island Lee Plan provisions is to manage development to maintain and enhance the area's quality of life. Similarly, commercial development should blend with the character of the surrounding area and redevelopment activities must be consistent with the desired community character. The weight of the evidence indicates the Applicant did not sufficiently demonstrate the Request meets these requirements.
9. The Request's densities are inconsistent and incompatible with the residential development in the surrounding area. They not only do not improve the area's existing character, they are potentially destructive to the character of the surrounding area. Further, the heights and building sizes are too intense for and inconsistent with the character of the surrounding area. The Request's design exacerbates rather than mitigates these impacts. Consequently, the Request is not compatible with, nor does it protect the character of, the surrounding area.

Please DENY the Proposed Bay Harbour Marina Village Land Use Change.
Thank you for your time and attention to this matter.

I am a ☒ Property Owner ☐ Business Owner ☐ Resident on San Carlos Island, Florida.

Please let this letter serve as my Formal Request that you **DENY** the Proposed Bay Harbour Marina Village Land Use Change CPA2017-00005 DRMUVD. I am voicing my **STRONG OPPOSITION** to the Proposed Bay Harbour Marina Village Land Use Change. I request that you **DENY** the Proposed Bay Harbour Marina Village Land Use Change Request for the following reasons:

1. Put simply, the Request seeks too much – too much density, too much intensity. It seeks the maximum allowances while not sufficiently meeting the minimum requirements.
2. Matanzas Harbor is the only remaining major seaport designated by the Lee Plan. Matanzas is a designated federal channel; the only one between Key West and Tampa. The southern waterfront area is a designated Florida Working Waterfront with the Florida Department of Economic Opportunity's Waterfronts Florida Partnership Program. The existing Industrial land use is imperative to the Working Waterfront.
3. The requested density is inconsistent with the Lee Plan's directives for density in the Coast High Hazard Area.
4. The Request seeks to include the property's entire 7.58 acres in calculating density including the non-residential areas.
5. The Request does not provide sufficient open spaces and is incompatible with and negatively affects the character of the surrounding area.
6. The Request's heights are inconsistent and incompatible with the adjacent residential & non-residential areas.
7. The Request is not justified by the Ebftide approval.
8. One of the objectives of the San Carlos Island Lee Plan provisions is to manage development to maintain and enhance the area's quality of life. Similarly, commercial development should blend with the character of the surrounding area and redevelopment activities must be consistent with the desired community character. The weight of the evidence indicates the Applicant did not sufficiently demonstrate the Request meets these requirements.
9. The Request's densities are inconsistent and incompatible with the residential development in the surrounding area. 6. The Request's heights are inconsistent and incompatible with the adjacent residential & non-residential areas.
7. The Request is not justified by the Ebbtide approval.
8. One of the objectives of the San Carlos Island Lee Plan provisions is to manage development to maintain and enhance the area's quality of life. Similarly, commercial development should blend with the character of the surrounding area and redevelopment activities must be consistent with the desired community character. The weight of the evidence indicates the Applicant did not sufficiently demonstrate the Request meets these requirements.
9. The Request's densities are inconsistent and incompatible with the residential development in the surrounding area. They not only do not improve the area's existing character, they are potentially destructive to the character of the surrounding area. Further, the heights and building sizes are too intense for and inconsistent with the character of the surrounding area. The Request's design exacerbates rather than mitigates these impacts. Consequently, the Request is not compatible with, nor does it protect the character of, the surrounding area.

Please DENY the Proposed Bay Harbour Marina Village Land Use Change.
Thank you for your time and attention to this matter.

**Letter of Opposition re: Proposed Bay Harbour Marina Village Land Use Change
CPA2017-00005 DRMUVD Overlay for Bay Harbour Marina Village**

Name: Lisa Wall Phone/Email: Lisa.Wyatt@comcast.net
Address: 1015 N. Waterway Dr
I am a Property Owner Business Owner ☒ Resident on San Carlos Island, Florida.

Please let this letter serve as my Formal Request that you **DENY** the Proposed Bay Harbour Marina Village Land Use Change CPA2017-00005 DRMUVD. I am voicing my **STRONG OPPOSITION** to the Proposed Bay Harbour Marina Village Land Use Change. I request that you **DENY** the Proposed Bay Harbour Marina Village Land Use Change Request for the following reasons:

1. Put simply, the Request seeks too much – too much density, too much intensity. It seeks the maximum allowances while not sufficiently meeting the minimum requirements.
2. Matanzas Harbor is the only remaining major seaport designated by the Lee Plan. Matanzas is a designated federal channel; the only one between Key West and Tampa. The southern waterfront area is a designated Florida Working Waterfront with the Florida Department of Economic Opportunity's Waterfronts Florida Partnership Program. The existing Industrial land use is imperative to the Working Waterfront.
3. The requested density is inconsistent with the Lee Plan's directives for density in the Coast High Hazard Area.
4. The Request seeks to include the property's entire 7.58 acres in calculating density including the non-residential areas.
5. The Request does not provide sufficient open spaces and is incompatible with and negatively affects the character of the surrounding area.
6. The Request's heights are inconsistent and incompatible with the adjacent residential & non-residential areas.
7. The Request is not justified by the Ebbtide approval.
8. One of the objectives of the San Carlos Island Lee Plan provisions is to manage development to maintain and enhance the area's quality of life. Similarly, commercial development should blend with the character of the surrounding area and redevelopment activities must be consistent with the desired community character. The weight of the evidence indicates the Applicant did not sufficiently demonstrate the Request meets these requirements.
9. The Request's densities are inconsistent and incompatible with the residential development in the surrounding area. They not only do not improve the area's existing character, they are potentially destructive to the character of the surrounding area. Further, the heights and building sizes are too intense for and inconsistent with the character of the surrounding area. The Request's design exacerbates rather than mitigates these impacts. Consequently, the Request is not compatible with, nor does it protect the character of, the surrounding area.

Please **DENY** the Proposed Bay Harbour Marina Village Land Use Change.

**Letter of Opposition re: Proposed Bay Harbour Marina Village Land Use Change
CPA2017-00005 DRMUVD Overlay for Bay Harbour Marina Village**

Name: EDMUND SHEA

Phone/Email: _____

Address: 845 OAK ST

I am a ☒ Property Owner _____ Business Owner ☒ Resident on San Carlos Island, Florida.

Please let this letter serve as my Formal Request that you DENY the Proposed Bay Harbour Marina Village Land Use Change CPA2017-00005 DRMUVD. I am voicing my STRONG OPPOSITION to the Proposed Bay Harbour Marina Village Land Use Change. I request that you DENY the Proposed Bay Harbour Marina Village Land Use Change Request for the following reasons:

1. Put simply, the Request seeks too much – too much density, too much intensity. It seeks the maximum allowances while not sufficiently meeting the minimum requirements.
2. Matanzas Harbor is the only remaining major seaport designated by the Lee Plan. Matanzas is a designated federal channel; the only one between Key West and Tampa. The southern waterfront area is a designated Florida Working Waterfront with the Florida Department of Economic Opportunity's Waterfronts Florida Partnership Program. The existing Industrial land use is imperative to the Working Waterfront.
3. The requested density is inconsistent with the Lee Plan's directives for density in the Coast High Hazard Area.
4. The Request seeks to include the property's entire 7.58 acres in calculating density including the non-residential areas.
5. The Request does not provide sufficient open spaces and is incompatible with and negatively affects the character of the surrounding area.
6. The Request's heights are inconsistent and incompatible with the adjacent residential & non-residential areas.
7. The Request is not justified by the Ebbtide approval.
8. One of the objectives of the San Carlos Island Lee Plan provisions is to manage development to maintain and enhance the area's quality of life. Similarly, commercial development should blend with the character of the surrounding area and redevelopment activities must be consistent with the desired community character. The weight of the evidence indicates the Applicant did not sufficiently demonstrate the Request meets these requirements.
9. The Request's densities are inconsistent and incompatible with the residential development in the surrounding area. They not only do not improve the area's existing character, they are potentially destructive to the character of the surrounding area. Further, the heights and building sizes are too intense for and inconsistent with the character of the surrounding area. The Request's design exacerbates rather than mitigates these impacts. Consequently, the Request is not compatible with, nor does it protect the character of, the surrounding area.

Please **DENY** the Proposed Bay Harbour Marina Village Land Use Change.

Thank you for your time and attention to this matter.
