Re: Comprehensive Plan Amendment CPA 2016-0006

To Local Planning Agency:

My name is Mary Jane Bray Abramson and I reside at 20800 Corkscrew Road, Estero, Florida. I wish to let your committee know that I do not approve the adding of the Troyer Property to the approved list of lands to be mined for lime rock in the future.

I also represent the interests of my parents Michael S. and Gertrude A. Bray of 20850 Corkscrew Road, Estero, Florida. They do not approve of adding the Troyer Property to the approved list of lands to be mined for lime rock.

It is my understanding from attending previous zoning and county commission meetings that Lee County has enough land dedicated to mining already along the Alico Road corridor to supply lime rock for fifty years or more. I do not see the need to add the Troyer Property as a future mining site when our county is already more than adequately supplied with lime rock.

For medical reasons I am unable to attend your meeting on Monday, February 27<sup>th</sup> at 8:30 a.m. I do plan to attend future meetings and speak in person. Please add me to your mailing list of citizens interested in the Troyer Property case.

Sincerely,

Mary J. Abramson

Dear Janet,

I live off of corkscrew road next to crew land and water trust.

I say NO to extending map 14.

A rock mind has no place in this area.

- 1) blasting for many years.
- 2) light pollution
- 3) excessive dump trucks on the road.
- 4) there is no shortage of base rock.
- 5) the list can go on and on.

Already a large development is being constructed on corkscrew road, this panther specialist advised against.

Know one really knows how this will impact the Florida panther once its completed.

Then there needs to be a complete study on the endangered Florida Panther before

Any kind of growth is permitted or allowed to move forward.

Thank you for your time.

Joe Staiger III
