Applicant's 48-Hour Letter Addendum**

Dear Ms. Rivera:

It has come to my attention that the corrected open space and indigenous numbers were not included in the staff report.

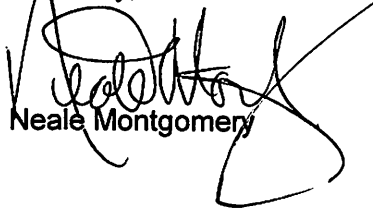

Condition 10: Open Space. The required open space should be 64.24 +/- acres, and not 67.66 +/- acres.

Condition 11: Indigenous Open Space. The minimum required indigenous open space should be 35.09 +/- acres and not 36.64 +/- acres.

It is my understanding that Environmental Sciences has been made aware of the correct numbers.

Your consideration of this matter is greatly appreciated.

Sincerely,

Neale Montgomery
