Rejected Development Services Review by: Brian Roberts

1. Please show the existing parking access connection to the north on the west side of Lee Road.
Response: Please see the parking access that is on the northwest side of Lee Road that was added with the Amazon facility. The information was gathered and added via survey.
2. Please provide additional narrative/justification detailing why the proposed access cannot line up with the access across Lee Road to the north. Unless there are some special or unusual circumstances why access points cannot line up staff is hesitant to support the deviation request.
Response: Please see revised administrative amendment justification.
