RE: APPLICATION FOR ADMINISTRATIVE VARIANCE
ITEC Northern Basin Lake Relief

Dear Ms. Sulzer,

Please see attached application seeking relief from lake slope and littoral plantings normally required in the Land Development Code. The ITEC northern water management basin is in close proximity to the RSW airport and with the approval of this request the attraction for birds to gather on the lake shoreline will be significantly reduced thus increasing the safety of the traveling public. Please find the following documents for approval and processing:

- 1.) Completed Application
- 2.) Filing Fee (Paid by Client Online)
- 3.) Affidavit of Authorization
- 4.) Description
- 5.) Explanation and Justification of Request
- 6.) Site Plan

Thank you for your assistance. Should you have any questions or concerns, please feel free to contact me at 239-936-9777 or jarrodmcclary@ce-sit.net.

Sincerely,
CE-SITE

Jarrod J. McCleary, E.I.
