APPLICATION FOR A COMPREHENSIVE PLAN AMENDMENT - MAP

Project Name: McGregor-Mixed Use Overlay

Project Description: Add 1.93 acres extend the Mixed-Use Overlay boundary west McGregor, North College Pkwy.

Map(s) to Be Amended: Map 1-C- Mixed Use Overlay

State Review Process: ☒ Small-Scale Review ☐ State Coordinated Review ☐ Expedited State Review

1. Name of Applicant: McGregor 12690 Properties, LLC

Address: 10481 Solaro St.

City, State, Zip: Fort Myers, FL 33913

Phone Number: _____

E-mail: _____

2. Name of Contact: Al Quattrone, P.E.- Quattrone & Associates, Inc

Address: 4301 Veronica Shoemaker Blvd

City, State, Zip: Fort Myers, FL 33916

Phone Number: 239-936-5222

E-mail: permits@qainc.net

3. Owner(s) of Record: Please See Owner on Record

Address: _____

City, State, Zip: _____

Phone Number: _____

E-mail: _____

4. Property Location:

1. Site Address: 12690, 12670, 12680 McGregor Blvd; Fort Myers, FL 33919

2. STRAP(s): 16-45-24-00-00007.0060, 16-45-24-00-00005.0000, 16-45-24-00-00006.0010

5. Property Information:

Total Acreage of Property: ±1.93 acres

Total Acreage Included in Request: ±1.93 acres.

Total Uplands: ±1.93 acres

Total Wetlands: 0

Current Zoning: C-1

Current Future Land Use Category(ies): Intensive Development

Area in Each Future Land Use Category: ±1.93 acres

Existing Land Use: Commercial

6. Calculation of maximum allowable development under current Lee Plan:

Residential Units/Density: 22 du/ac=42

Commercial Intensity: 19,300sf

Industrial Intensity: N/A

7. Calculation of maximum allowable development with proposed amendments:

Residential Units/Density: 22 du/ac=42

Commercial Intensity: 19,300sf

Industrial Intensity: N/A

Public Facilities Impacts

NOTE: The applicant must calculate public facilities impacts based on the maximum development.

- 1. Traffic Circulation Analysis:** The analysis is intended to determine the effect of the land use change on the Financially Feasible Highway Plan Map 3A (20-year plus horizon) and on the Capital Improvements Element (5-year horizon). Toward that end, an applicant must submit a Traffic Impact Statement (TIS) consistent with Lee County Administrative Code (AC)13-17.
 - a. Proposals affecting less than 10 acres, where development parameters are contained within the Traffic Analysis Zone (TAZ) or zones planned population and employment, or where there is no change in allowable density/intensity, may be eligible for a TIS requirement waiver as outlined in the Lee County TIS Guidelines and AC-13-17. Identification of allowable density/intensity in order to determine socio-economic data for affected TAZ(s) must be coordinated with Lee County Planning staff. Otherwise a calculation of trip generation is required consistent with AC-13-17 and the Lee County TIS Guidelines to determine required components of analysis for:
 - i. Total peak hour trip generation less than 50 total trip ends – trip generation.
 - ii. Total peak hour trip generation from 50 to 300 total trip ends – trip generation, trip distribution and trip assignment (manual or Florida Standard Urban Transportation Modeling Structure (FSUTMS) analysis consistent with AC-13-17 and TIS Guidelines), short-term (5 year) and long-range (to current Lee Plan horizon year) segment LOS analysis of the nearest or abutting arterial and major collector segment(s) identified in the Transportation Inventory based on the trip generation and roadway segment LOS analysis criteria in AC-13-17. A methodology meeting is recommended prior to submittal of the application to discuss use of FSUTMS, any changes to analysis requirements, or a combined CPA and Zoning TIS short term analysis.
 - iii. Total peak hour trip generation is over 300 total trip ends - trip generation, mode split, trip distribution and trip assignment (manual or FSUTMS analysis consistent with AC-13-17 and TIS Guidelines), short-term (five-year) and long-range (to current Lee Plan horizon year) segment LOS analysis of arterial and collector segments listed in the Transportation Inventory. LOS analysis will include any portion of roadway segments within an area three miles offset from the boundary of the application legal description metes and bounds survey. LOS analysis will also include any additional segments in the study area based on the roadway segment LOS analysis criteria in AC-13-17. A methodology meeting is required prior to submittal of the application.
 - b. Map amendment - greater than 10 acres -Allowable density/intensity will be determined by Lee County Planning staff.
- 2. Provide an existing and future conditions analysis for the following (see Policy 95.1.3):**
 - a. Sanitary Sewer
 - b. Potable Water
 - c. Surface Water/Drainage Basins
 - d. Parks, Recreation, and Open Space
 - e. Public Schools

Analysis for each of the above should include (but is not limited to) the following (see the Lee County Concurrency Management Report):

- a. Franchise Area, Basin, or District in which the property is located
- b. Current LOS, and LOS standard of facilities serving the site
- c. Projected 2030 LOS under existing designation
- d. Projected 2030 LOS under proposed designation
- e. Existing infrastructure, if any, in the immediate area with the potential to serve the subject property
- f. Improvements/expansions currently programmed in 5 year CIP, 6-10 year CIP, and long range improvements
- g. Provide a letter of service availability from the appropriate utility for sanitary sewer and potable water

In addition to the above analysis, provide the following for potable water:

- a. Determine the availability of water supply within the franchise area using the current water use allocation (Consumptive Use Permit) based on the annual average daily withdrawal rate.
- b. Include the current demand and the projected demand under the existing designation, and the projected demand under the proposed designation.
- c. Include the availability of treatment facilities and transmission lines for reclaimed water for irrigation.
- d. Include any other water conservation measures that will be applied to the site (see Goal 54).

3. Provide a letter from the appropriate agency determining the adequacy/provision of existing/proposed support facilities, including:

- a. Fire protection with adequate response times
- b. Emergency medical service (EMS) provisions
- c. Law enforcement
- d. Solid Waste
- e. Mass Transit
- f. Schools

In reference to above, the applicant must supply the responding agency with the information from application items 5, 6, and 7 for their evaluation. This application must include the applicant's correspondence/request to the responding agency.

Environmental Impacts

Provide an overall analysis of the character of the subject property and surrounding properties, and assess the site's suitability for the proposed change based upon the following:

1. A map of the Plant Communities as defined by the Florida Land Use Cover and Classification system (FLUCCS).
2. A map and description of the soils found on the property (identify the source of the information).
3. A topographic map depicting the property boundaries and 100-year flood prone areas indicated (as identified by FEMA).
4. A map delineating the property boundaries on the most recent Flood Insurance Rate Map.
5. A map delineating wetlands, aquifer recharge areas, and rare & unique uplands.
6. A table of plant communities by FLUCCS with the potential to contain species (plant and animal) listed by federal, state or local agencies as endangered, threatened or species of special concern. The table must include the listed species by FLUCCS and the species status (same as FLUCCS map).

Impacts on Historic Resources

List all historic resources (including structure, districts, and/or archaeologically sensitive areas) and provide an analysis of the proposed change's impact on these resources. The following should be included with the analysis:

1. A map of any historic districts and/or sites listed on the Florida Master Site File which are located on the subject property or adjacent properties.
2. A map showing the subject property location on the archaeological sensitivity map for Lee County.

Internal Consistency with the Lee Plan

1. Discuss how the proposal affects established Lee County population projections, Lee Plan Table 1(b) and the total population capacity of the Lee Plan Future Land Use Map.
2. List all goals and objectives of the Lee Plan that are affected by the proposed amendment or that affect the subject property. This analysis should include an evaluation of all relevant policies under each goal and objective.
3. Describe how the proposal affects adjacent local governments and their comprehensive plans.

State Policy Plan and Regional Policy Plan

List State Policy Plan and Regional Policy Plan goals, strategies and actions, and policies which are relevant to this plan amendment.

Justify the proposed amendment based upon sound planning principles

Support all conclusions made in this justification with adequate data and analysis.

Planning Communities/Community Plan Area Requirements

If located within a planning community/community plan area, provide a meeting summary document of the required public informational session [Lee Plan Goal 17].

Sketch and Legal Description

The certified legal description(s) and certified sketch of the description for the property subject to the requested change. A metes and bounds legal description must be submitted specifically describing the entire perimeter boundary of the property with accurate bearings and distances for every line. The sketch must be tied to the state plane coordinate system for the Florida West Zone (North America Datum of 1983/1990 Adjustment) with two coordinates, one coordinate being the point of beginning and the other an opposing corner. If the subject property contains wetlands or the proposed amendment includes more than one land use category a metes and bounds legal description, as described above, must be submitted in addition to the perimeter boundary of the property for each wetland or future land use category.

SUBMITTAL REQUIREMENTS

Clearly label all submittal documents with the exhibit name indicated below.

For each map submitted, the applicant will be required to submit a 24"x36" version and 8.5"x11" reduced map for inclusion in public hearing packets.

MINIMUM SUBMITTAL ITEMS (3 Copies)

<input checked="" type="checkbox"/>	Completed Application (Exhibit – M1)
<input checked="" type="checkbox"/>	Disclosure of Interest (Exhibit – M2)
<input checked="" type="checkbox"/>	Surrounding Property Owners List, Mailing Labels, and Map For All Parcels Within 500 Feet of the Subject Property (Exhibit – M3)
<input checked="" type="checkbox"/>	Existing Future Land Use Map (Exhibit – M4)
<input checked="" type="checkbox"/>	Map and Description of Existing Land Uses (Not Designations) of the Subject Property and Surrounding Properties (Exhibit – M5)
<input checked="" type="checkbox"/>	Map and Description of Existing Zoning of the Subject Property and Surrounding Properties (Exhibit – M6)
<input checked="" type="checkbox"/>	Signed/Sealed Legal Description and Sketch of the Description for Each FLUC Proposed (Exhibit – M7)
<input checked="" type="checkbox"/>	Copy of the Deed(s) of the Subject Property (Exhibit – M8)
<input checked="" type="checkbox"/>	Aerial Map Showing the Subject Property and Surrounding Properties (Exhibit – M9)
<input checked="" type="checkbox"/>	Authorization Letter From the Property Owner(s) Authorizing the Applicant to Represent the Owner (Exhibit – M10)
<input type="checkbox"/>	Proposed Amendments (Exhibit – M11)
<input checked="" type="checkbox"/>	Lee Plan Analysis (Exhibit – M12)
<input checked="" type="checkbox"/>	Environmental Impacts Analysis (Exhibit – M13)
<input checked="" type="checkbox"/>	Historic Resources Impact Analysis (Exhibit – M14)
<input checked="" type="checkbox"/>	Public Facilities Impacts Analysis (Exhibit – M15)
<input type="checkbox"/>	Traffic Circulation Analysis (Exhibit – M16)
<input checked="" type="checkbox"/>	Existing and Future Conditions Analysis - Sanitary Sewer, Potable Water, Surface Water/Drainage Basins, Parks and Rec, Open Space, Public Schools (Exhibit – M17)
<input checked="" type="checkbox"/>	Letter of Determination For the Adequacy/Provision of Existing/Proposed Support Facilities - Fire Protection, Emergency Medical Service, Law Enforcement, Solid Waste, Mass Transit, Schools (Exhibit – M18)
<input checked="" type="checkbox"/>	State Policy Plan and Regional Policy Plan (Exhibit – M19)
<input checked="" type="checkbox"/>	Justification of Proposed Amendment (Exhibit – M20)
<input type="checkbox"/>	Planning Communities/Community Plan Area Requirements (Exhibit – M21)

APPLICANT – PLEASE NOTE:

Changes to Table 1(b) that relate directly to and are adopted simultaneously with a future land use map amendment may be considered as part of this application for a map amendment.

Once staff has determined the application is sufficient for review, 15 complete copies will be required to be submitted to staff. These copies will be used for Local Planning Agency hearings, Board of County Commissioners hearings, and State Reviewing Agencies. Staff will notify the applicant prior to each hearing or mail out to obtain the required copies.

If you have any questions regarding this application, please contact the Planning Section at (239) 533-8585.

AFFIDAVIT

I, _____, certify that I am the owner or authorized representative of the property described herein, and that all answers to the questions in this application and any sketches, data, or other supplementary matter attached to and made a part of this application, are honest and true to the best of my knowledge and belief. I also authorize the staff of Lee County Community Development to enter upon the property during normal working hours for the purpose of investigating and evaluating the request made through this application.

The **Just** value is the total parcel assessment (less any considerations for the cost of sale). This is the closest value to *Fair Market Value* we produce and is dated as of January 1st of the tax year in question ([F.A.C. 12D-1.002](#)).

The **Land** value is the portion of the total parcel assessment attributed to the land.

The **Market Assessed** value is the total parcel assessment (less any considerations for the cost of sale) based upon the assessment standard. Most parcels are assessed based either upon the *Highest and Best Use* standard or the *Present Use* standard ([F.S. 193.011](#)). For *Agriculturally Classified* parcels (or parts thereof), only agricultural uses are considered in the assessment ([F.S. 193.461 \(6\) \(a\)](#)). The difference between the *Highest and Best Use/Present Use* and the *Agricultural Use* is often referred to as the *Agricultural Exemption*. (i.e. Market Assessed = Just - Agricultural Exemption)

The **Capped Assessed** value is the *Market Assessment* after any *Save Our Homes* or *10% Assessment Limitation* cap is applied. This assessment cap is applied to all properties and limits year-to-year assessment increases to either the *Consumer Price Index* or 3%, whichever is lower for Homestead properties OR 10% for non-Homestead properties.

The **Exemptions** value is the total amount of all exemptions on the parcel.

The **Taxable** value is the *Capped Assessment* after exemptions (*Homestead, etc.*) are applied to it. This is the value that most taxing authorities use to calculate a parcel's taxes.
(i.e. Taxable = Capped Assessed - Exemptions)

Exemptions / Classified Use (Current)

The **Just** value is the total parcel assessment (less any considerations for the cost of sale). This is the closest value to *Fair Market Value* we produce and is dated as of January 1st of the tax year in question ([E.A.C. 12D-1.002](#)).

The **Land** value is the portion of the total parcel assessment attributed to the land.

The **Market Assessed** value is the total parcel assessment (less any considerations for the cost of sale) based upon the assessment standard. Most parcels are assessed based either upon the *Highest and Best Use* standard or the *Present Use* standard ([F.S. 193.011](#)). For *Agriculturally Classified* parcels (or parts thereof), only agricultural uses are considered in the assessment ([F.S. 193.461 \(6\) \(a\)](#)). The difference between the *Highest and Best Use/Present Use* and the *Agricultural Use* is often referred to as the *Agricultural Exemption*.
(i.e. Market Assessed = Just - Agricultural Exemption)

The **Capped Assessed** value is the *Market Assessment* after any *Save Our Homes* or *10% Assessment Limitation* cap is applied. This assessment cap is applied to all properties and limits year-to-year assessment increases to either the *Consumer Price Index* or 3%, whichever is lower for Homestead properties OR 10% for non-Homestead properties.

The **Exemptions** value is the total amount of all exemptions on the parcel.

The **Taxable** value is the *Capped Assessment* after exemptions (*Homestead, etc.*) are applied to it. This is the value that most taxing authorities use to calculate a parcel's taxes.
(i.e. Taxable = Capped Assessed - Exemptions)

The **Just** value is the total parcel assessment (less any considerations for the cost of sale). This is the closest value to *Fair Market Value* we produce and is dated as of January 1st of the tax year in question ([F.A.C. 12D-1.002](#)).

The **Land** value is the portion of the total parcel assessment attributed to the land.

The **Market Assessed** value is the total parcel assessment (less any considerations for the cost of sale) based upon the assessment standard. Most parcels are assessed based either upon the *Highest and Best Use* standard or the *Present Use* standard ([F.S. 193.011](#)). For *Agriculturally Classified* parcels (or parts thereof), only agricultural uses are considered in the assessment ([F.S. 193.461 \(6\) \(a\)](#)). The difference between the *Highest and Best Use/Present Use* and the *Agricultural Use* is often referred to as the *Agricultural Exemption*. (i.e. Market Assessed = Just - Agricultural Exemption)

The **Capped Assessed** value is the *Market Assessment* after any *Save Our Homes* or *10% Assessment Limitation* cap is applied. This assessment cap is applied to all properties and limits year-to-year assessment increases to either the *Consumer Price Index* or 3%, whichever is lower for Homestead properties OR 10% for non-Homestead properties.

The **Exemptions** value is the total amount of all exemptions on the parcel.

The **Taxable** value is the *Capped Assessment* after exemptions (*Homestead, etc.*) are applied to it. This is the value that most taxing authorities use to calculate a parcel's taxes. (i.e. Taxable = Capped Assessed - Exemptions)

Exemptions / Classified Use (Current)

Description of Existing Land Uses of the Subject Property and Surrounding Properties

Subject Properties

The subject property is a total of ± 1.93 acres site. The property is located to the west of McGregor Blvd. approximately 0.1 mile north of the intersection of McGregor Blvd. and College Pkwy. The overall site consists of three parcels with existing commercial development that consist of Vacant Commercial Building, Neighborhood Shopping Center and JM Business Equipment and Handling with development order approvals under 88-12-014-00D, LDO2011-00128 and 94-04-025-01L which provides pedestrian and automobile connection onto McGregor Blvd.

East

Adjacent to the east is McGregor Blvd. (arterial roadway) with existing sidewalk, bike lane and paved shoulder. Across McGregor consist of neighborhood shopping center, a restaurant, nightclub, a multiple-occupancy office and various retail shops.

South

Adjacent to the south is Hippy Trippy Ice Cream parlor, Surterra Wellness Medical Marijuana and Judy antiques and estates jewelry store. Behind the commercial parcels is College Parkway (County Maintained Arterial Road)

West

Adjacent to the west is residential, single-family homes and multi-family. (Caloosa Yacht & Racquet Club.

North

Adjacent to the north is Advanced Automotive Pro, Underwater Explorers Diving Center-Retail then Residential, primarily single family.

SPECIAL WARRANTY DEED

SPEEDWAY LLC, a Delaware limited liability company, with a principal address of c/o 7-Eleven, Inc., 3200 Hackberry Road, Irving, Texas 75063 ("Grantor"), **GRANTS, BARGAINS, CONVEYS AND SELLS** to **MCGREGOR 12690 PROPERTIES, LLC**, a Florida limited liability company, with a principal address of 10481 Solaro Street, Fort Myers, Florida 33913 ("Grantee"), for the sum of TEN AND NO/100 DOLLARS (\$10.00) AND OTHER GOOD AND VALUABLE CONSIDERATION, the real property located in FORT MYERS, LEE COUNTY, FLORIDA and more fully described on Exhibit A attached hereto and made a part hereof (the "Property"). For purposes of this Deed, the "Closing" shall mean the recordation of this Deed, fully-executed and acknowledged, in the official records of the County, and the "Closing Date" shall mean the date this Deed is so recorded.

TO HAVE AND TO HOLD the Property, with all and singular the rights, members and appurtenances thereof, belonging or in anywise appertaining, to Grantee, its successors and assigns, forever. GRANTOR, for itself and its successors, does covenant, promise and agree, to and with Grantee, its successors and assigns, that Grantor is lawfully seized of said land in fee simple; that Grantor has good, right and lawful authority to sell and convey said land; Grantor has not done, or suffered to be done, anything whereby the Property is, or may be, in any manner encumbered or charged, except as set forth

above, and Grantor hereby SPECIALLY WARRANTS AND AGREES TO FOREVER DEFEND the Property against all persons lawfully claiming the same by, through or under it, but not otherwise,

SUBJECT TO (i) current taxes and assessments not yet delinquent and taxes and assessments for subsequent years; (ii) all covenants, conditions, restrictions, servitudes, liens, reservations, easements, rights-of-way, declarations, encumbrances and other matters of record or to which reference is made in the public records; (iii) zoning and other regulatory laws and ordinances affecting the Property; (iv) matters that would be disclosed by an accurate survey; and (v) rights of tenants in possession (if any); and (v) any plat affecting the Property ("Conditions").

The payment of current ad valorem taxes on the Property having been prorated to the date hereof, the payment thereof is assumed by Grantee.

Invalidation of any one provision herein by judgment or court order shall in no way affect any other provision.

Neither Grantee nor its successors, assigns or legal representatives, lessees, or sublessees, shall conduct or permit the conduct on the Property of, and the Property shall not be used for:

- i. a grocery or convenience store selling at retail any food or food products, dairy products, beer, or wine or other alcoholic beverages for consumption off the premises; or
- ii. the sale of motor fuels and petroleum products.

The Property is sold and conveyed AS IS, WHERE IS, WITH ALL FAULTS, SUBJECT, HOWEVER, TO THE WARRANTIES OF TITLE SET FORTH IN THIS DEED. GRANTOR DOES NOT EXPRESSLY OR IMPLIEDLY WARRANT OR GUARANTEE THE CONDITION OF THE PROPERTY NOR ITS MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

BY ITS ACCEPTANCE OF THIS CONVEYANCE, GRANTEE AGREES AS FOLLOWS: PURSUANT TO SECTION 10 OF THE SALES CONTRACT, DATED JANUARY 31, 2022, BY AND BETWEEN GRANTOR AND GRANTEE, SUBSECTIONS (A) THROUGH (J) BELOW SHALL BE COVENANTS RUNNING WITH THE LAND AND SHALL BE BINDING UPON GRANTEE AND ITS SUBSIDIARIES, LEGAL REPRESENTATIVES, HEIRS, SUCCESSORS AND ASSIGNS, AS APPLICABLE, INCLUDING, BUT NOT LIMITED TO, FUTURE OWNERS OF ALL (OR ANY PORTION) OF THE PROPERTY, AND SHALL INURE TO THE BENEFIT OF GRANTOR AND ITS SUBSIDIARIES, LEGAL REPRESENTATIVES, HEIRS, SUCCESSORS AND ASSIGNS, AS APPLICABLE. THE INTENTION OF GRANTOR AND GRANTEE IS THAT SAID COVENANTS SHALL LAST IN PERPETUITY. IF REQUESTED BY GRANTOR, GRANTEE OR THE THEN OWNER(S) OF THE PROPERTY, BY ITS ACCEPTANCE OF A DEED FOR ALL OR A PORTION OF THE PROPERTY, AGREES TO EXECUTE SUCH DOCUMENTATION OR TAKE SUCH ACTION AS GRANTOR MAY REASONABLY REQUEST TO CONFIRM OR OTHERWISE GIVE EFFECT TO SUCH COVENANTS.

a. Hazardous Substances. Except as set forth below, Grantee hereby assumes liability for, and agrees to take all actions required by law relating to, all environmental obligations or liabilities, including investigation, monitoring and remediation obligations and third party claims, arising from environmental conditions or Hazardous Substances (as defined herein) existing on, beneath or migrating from the Property as of the Closing Date, including, but not limited to: (i) any violation or alleged violation of, or liability or alleged liability under, any local, state or federal law, rule or regulation or common law duty pertaining to human health, natural resources or the environment, including, without limitation, the

Comprehensive Environmental Response, Compensation and Liability Act of 1980 (42 U.S.C. §9601 et seq.), the Resource Conservation and Recovery Act of 1976 (42 U.S.C. §6901 et seq.), the Federal Water Pollution Control Act (33 U.S.C. §1251 et seq.), the Clean Air Act (42 U.S.C. §7401 et seq.), the Emergency Planning and Community-Right-to-Know Act (42 U.S.C. §11001 et seq.), the Endangered Species Act (16 U.S.C. §1531 et seq.), the Toxic Substances Control Act (15 U.S.C. §2601 et seq.), the Occupational Safety and Health Act (29 U.S.C. §651 et seq.) and the Hazardous Substances Transportation Act (49 U.S.C. §1801 et seq.), and those relating to Lead Based Paint (as hereinafter defined) and each of their state counterparts and the regulations promulgated pursuant to said laws, all as amended from time to time (collectively, "Environmental Laws"), relating to or affecting the Property, whether or not caused by or within the control of Grantor; (ii) the presence, release or threat of release of or exposure to any hazardous, toxic or harmful substances, wastes, materials, pollutants or contaminants (including, without limitation, asbestos or asbestos-containing materials, polychlorinated biphenyls, petroleum or petroleum products or byproducts, flammable explosives, radioactive materials, paint containing more than .05% lead by dry weight ("Lead Based Paint"), infectious substances or raw materials which include hazardous constituents) or any other substances or materials which are included under or regulated by Environmental Laws (collectively, "Hazardous Substances") or any toxic mold or fungus of a type that may pose a risk to human health or the environment or would negatively impact the value of the Property ("Toxic Mold"), on, in, under or affecting all or any portion of the Property or any surrounding areas, regardless of whether or not caused by or within the control of Grantor; (iii) any transport, treatment, recycling, storage, disposal or arrangement thereof of Hazardous Substances whether on the Property, originating from the Property, or otherwise associated with the Grantee or any operations conducted on the Property at any time; or (iv) any environmental investigation, assessment, audit or review conducted in connection with the Property or the operations conducted at any time thereon, including, without limitation, the cost of assessment, investigation, containment, removal and/or remediation of any and all Hazardous Substances or Toxic Mold from all or any portion of the Property or any surrounding areas, the cost of any actions taken in response to the presence, release or threat of release of any Hazardous Substances or Toxic Mold on, in, under or affecting any portion of the Property or any surrounding areas to prevent or minimize such release or threat of release so that it does not migrate or otherwise cause or threaten danger to present or future public health, safety, welfare or the environment, and costs incurred to comply with Environmental Laws in connection with all or any portion of the Property or any surrounding areas.

b. Indemnity. Grantee will protect, defend, hold harmless and indemnify Grantor, its directors, officers, agents and employees from and against any and all expenses, claims, actions, liabilities, attorney's fees, damages, losses, penalties, fines and interest of any kind whatsoever (including without limiting the foregoing, death of or injury to persons and damage to Property), actually or allegedly resulting from or connected with the environmental condition of the Property or from the omission or commission of any act, lawful or unlawful, by Grantee or its agents or employees, whether or not such act is within the scope of the employment of such agents or employees, or from leaks, seepage, spills or other loss of motor fuels or other toxic pollutants at the Property. Grantee hereby agrees that this indemnity shall survive the Closing.

c. Waiver and Release. Subject to the terms of subsection (d) below, (i) Grantee hereby waives, relinquishes and releases Grantor from all costs by reason of or arising out of any environmental conditions at the Property and from any contribution action; and (ii) should any clean-up, remediation or removal of Hazardous Substances or other environmental conditions on the Property be required after the Closing Date, it is hereby understood and agreed that such clean-up, removal or remediation shall be the responsibility of and shall be performed at the sole cost and expense of Grantee. It is understood and agreed that the Purchase Price reflects the allocation of risk set forth in this subsection. Further, notwithstanding anything to the contrary herein, Grantee covenants and agrees that in no event shall it commence any action or make any claim against Grantor, its parent corporation, subsidiaries, affiliates and assigns, or any former owner or operator of the Property which in any way relates to the environmental or other condition of the Property, including any claim for property damage or diminution

of property value by reason of the presence of Hazardous Substances at, on under or emanating from the Property, and Grantee hereby releases Grantor from all such claims. It is acknowledged and agreed that the Purchase Price of the Property reflects the condition of the Property. Grantee's sole remedy after Closing with respect to any such contamination shall be for specific performance of Grantor's obligations under this Section.

d. Remedial Measures. Notwithstanding the foregoing, Grantee is hereby advised that the Property has been impacted by subsurface petroleum contamination ("Release"), which has been reported to the Florida Department of Environmental Protection ("Department"). Grantor is currently conducting Remedial Measures (as defined below) and shall, at its expense, use commercially reasonable efforts to complete such Remedial Measures after the Closing. As used herein, "Remedial Measures" shall consist of those activities which, in Grantor's reasonable opinion, in consultation with the Department, are required to investigate, monitor and/or remediate petroleum hydrocarbon conditions or other environmental conditions originating on the Property prior to Closing. The Remedial Measures shall be undertaken in such a commercially reasonable manner, subject to the requirements of the Department, as to minimize disruption to Grantee's business on the Property. The parties agree that Grantor's Remedial Measures shall be based upon the least stringent standards acceptable to the Department for non-residential or commercial purposes, including natural attenuation, and that residual contamination may remain at the Property after the conclusion of the Remedial Measures. Grantor will provide to Grantee copies of all reports generated by the environmental consultant for delivery to the Department. Grantor will be entitled to all reimbursement available with respect to the performance of the Remedial Measures and Grantee will cooperate with Grantor in that regard to the extent reasonably requested. Grantor acknowledges that the indemnity set forth in subsection (a) above shall not be applicable to the Release.

e. Access Agreement. At Closing, in addition to the closing documents set forth in Section 7 of the Sales Contract, Grantor and Grantee will execute an Access Agreement in the form attached to the Sales Contract as Exhibit C, pursuant to which Grantee will provide Grantor with access to the Property for the purpose of performing the Remedial Measures.

f. Completion of Remedial Measures. Remedial Measures for the Property shall be deemed completed when either (i) Grantee receives a written determination from the appropriate governmental authority having jurisdiction over the Property that no further activities are required to meet applicable industrial/commercial clean-up standards (excluding periodic monitoring) under applicable environmental laws, including without limitation a "No Further Action" letter or order; or (ii) if the applicable environmental laws do not provide for such a written determination, then when all required activities have been completed to meet applicable industrial/commercial clean-up standards pursuant to a work plan approved by the Department or any appropriate governmental authority having jurisdiction over the Property (the "Satisfaction of Environmental Remediation"). Grantor will deliver the Satisfaction of Environmental Remediation to Grantee and upon Grantee's receipt of the Satisfaction of Environmental Remediation, Grantor shall thereafter be released from any liability associated with any Hazardous Substances fuels on the Property prior to Closing.

g. Post-Closing Release. If, at any time after Closing, during the performance of the Remedial Measures at the Property, either party has reason to believe that a post-closing release has occurred, such party shall notify the other immediately and take those steps reasonably required by law or by the Department, to determine and abate the source of the release. If, upon subsequent investigation by Grantor and Grantee, hydrocarbon contamination is determined to have occurred subsequent to the Closing, Grantor and Grantee shall agree on an allocation of responsibility for tests undertaken by Grantee and for the remediation expenses from that date forward based on the degree to which the post-closing release increased the estimated overall remediation costs, with Grantee and Grantor to be responsible for their respective share of the remediation costs and entitled to receive the reimbursement applicable to their

respective share. If the subsequent release is larger than the condition being remediated, Grantee shall become the "responsible party" and shall conclude any required remediation, and Grantor shall reimburse Grantee its pro-rata share of such remediation costs base on the allocation of responsibility described above.

h. Memorandum of Agreement. At Closing, in addition to the closing documents set forth in Section 7 of the Sales Contract, Grantor and Grantee will execute and record a Memorandum of Agreement in the form attached to the Sales Contract as Exhibit D, pursuant to which Grantee shall agree on behalf of itself and its successors, assigns, lessees, or other persons with any interest or control of the Property ("Grantee Controlled Entities") to assume a duty of cooperation with Grantor. Such cooperation may include, without limitation (i) ongoing compliance with the Access Agreement, and agreement to modify the Access Agreement as may be reasonably necessary in Grantor's sole discretion, to provide Grantor the ongoing access to the Property necessary for the purpose of conducting the Remedial Measures; (ii) executing or causing to be executed documents that are necessary for Grantor to perform or complete the Remedial Measures, including any restrictive covenants that prohibit the use of the Property for non-residential purposes and/or the use of groundwater; (iii) complying with the requirements and/or conditions of any institutional controls; (iv) agreeing to not destroy, alter, remove, relocate or block any investigation, monitoring or remediation equipment, or otherwise interfere with or obstruct Grantor's performance or completion of the Remedial Measures; (v) cooperating with Grantor as to any ongoing or future investigations, including the installation of borings and monitoring wells at the Property, that are required by the Department or that Grantor in its sole discretion determines are reasonably necessary; and (vi) cooperating with Grantor as to any other reasonable requests necessary for the performance and completion of the Remedial Measures.

i. Notice of Changes. Grantee shall give Grantor not less than thirty (30) days' prior written notice of any plans of Grantee to remove, relocate or alter the equipment utilized by Grantor to perform the Remedial Measures, whether above or below the surface of the Property, and including, without limitation, all piping used by Grantor to perform the Remedial Measures, and any such activities will require Grantor's prior approval and will be performed at Grantee's sole cost and expense.

j. Survival. The covenants of this Section 10 shall survive Closing and shall be binding upon and shall inure to the successors and assigns of each of the parties and all subsequent purchasers of the Property. Upon the request of Grantor, Grantee agrees to execute and deliver such instruments in recordable form as necessary to effect record notice of the foregoing rights and covenants.

Warranty Deed

(STATUTORY FORM - SECTION 689.02, F.S.)

This Indenture made this **31st** day of **March, 2020** between **Barbara Proctor, a married woman** whose post office address is **3404 Jewel Court, The Villages, FL 32163** of the County of **Sumter**, State of **Florida**, grantor*, and **T & C Enterprises of SWFL, Inc, a Florida corporation** whose post office address is **12680 McGregor Boulevard, #2, Fort Myers, FL 33919** of the County of **Lee**, State of **Florida**, grantee*,

Witnesseth that said grantor, for and in consideration of the sum of **TEN AND NO/100 DOLLARS (\$10.00)** and other good and valuable considerations to said grantor in hand paid by said grantee, the receipt whereof is hereby acknowledged, has granted, bargained, and sold to the said grantee, and grantee's heirs and assigns forever, the following described land, situate, lying and being in **Lee County, Florida**, to-wit:

The South one-half (S 1/2) of the following described property: A parcel of land in the Northwest Quarter (NW 1/4) of the Southeast Quarter (SE 1/4) of Section 16, Township 45 South, Range 24 East, Lee County, Florida, described as follows: BEGINNING at the Northeast corner of Lot 12, in Block A, Unit No. 1, EDISON ACRES, according to the map or plat thereof on file and recorded in the Office of the Clerk of the Circuit Court of Lee County, Florida, in Plat Book 9, at Page 56, run East, along a prolongation of the North line of said Lot 12 and the South line of the lands conveyed by deed recorded in Deed Book 173, at Page 141 of said Public Records, for 158.39 feet to a point on the West right-of-way line of McGregor Boulevard (State Road 867); thence run South 17°43' West along said right-of-way line (40 feet from center line) for 200 feet; thence run South 88°59' West, parallel to said North line of Lot 12, Block A, for 158.39 feet to the Easterly line of said Block A; thence run North 17°43' East, along said Easterly line of Block A, for 200 feet to the Point of Beginning.

Subject to taxes for 2020 and subsequent years; covenants, conditions, restrictions, easements, reservations and limitations of record, if any.

NON-HOMESTEAD: Grantor warrants that at the time of this conveyance, the subject property is not the Grantor's homestead within the meaning set forth in the constitution of the state of Florida, nor is it contiguous to or a part of homestead property.

and said grantor does hereby fully warrant the title to said land, and will defend the same against lawful claims of all persons whomsoever.

* "Grantor" and "Grantee" are used for singular or plural, as context requires.

McGregor-Mixed Use Overlay

Lee Plan Analysis
Exhibit M12

Request

The 2-acre +/- site is located on the west side of McGregor Blvd. and north of College within the South Fort Myers Planning Community. Its Future Land Use Classification is Intensive Development. The overall site consists of three parcels as seen in the aerial below.

Figure 1. Subject Property Location Map

Existing and Surrounding Conditions

The subject property is located within the South Fort Myers Planning Community. It consists of three C-I zoned parcels. The surrounding area has been developed with a mixture of Residential, Commercial and institutional uses. Future Land Use designations, zoning and current adjacent uses are identified in the table below.

	North	South	East	West
FLU	Central Urban & Intensive Development	Intensive Development	Intensive Development w./Mixed Use	Central Urban & Intensive Development
Zoning	C-I & RS-I	C-I & RS-I	C-I & MPD	RS-I
Actual Use	Auto Repair * Business Services	Retail * Medical * Auto Repair	Office * Retail * Bar & Lounge	SF

	w./Retail * SF			
--	----------------	--	--	--

Extension of and Compatibility with Existing Development Patterns and Surrounding Uses:

The proposed mixed-use overlay amendment will advance a more efficient use of the land via alternative land development standards that incentivize a more efficient use of the property. Thus, the amendment facilitates neighborhood re- development.

The subject property abuts McGregor, a major roadway connecting employment and activity centers to the North Fort Myers city-center and to the South Fort Myers metropolitan area. Existing uses along McGregor Blvd are a range of residential, commercial retail, commercial office, professional office and institutional activities. Due to the de-minimis size of the property and of its existing commercial uses, the roadway has sufficient capacity to serve the subject property. The proposed amendment is consistent with sound planning practices promoting infill and allowing intensification along major corridors to ensure an efficient use of public infrastructure.

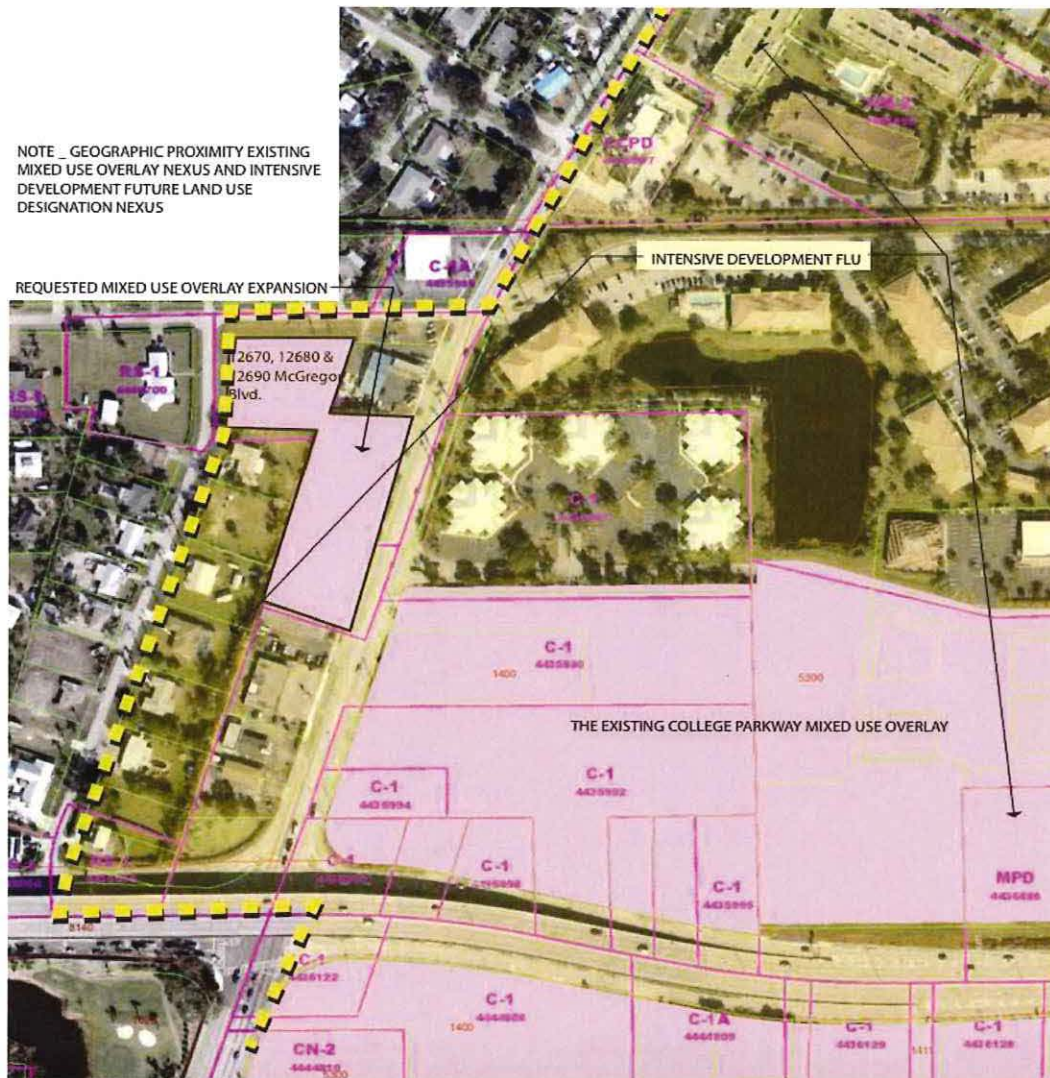

As identified on the following pages, the proposed incorporation of the Mixed Use overlay over the 2 acre Intensive Future Land Use property will serve to promote a more intensive urban redevelopment that is consistent, compatible and complementary to the surrounding land uses and development patterns

Lee Plan Consistency Narrative

Future Land Use Element

POLICY 1.1.2: The Intensive Development future land use category is located along major arterial roads. By virtue of their location, the County's current development patterns, and the available and potential levels of public services, areas with this designation are suited to accommodate high densities and intensities. Mixed use developments of high-density residential, commercial, limited light industrial, and office uses are encouraged to be developed as described in Objective 1.1.1, where appropriate. The standard density range is from eight dwelling units per acre (8 du/acre) to fourteen dwelling units per acre (14 du/acre), with a maximum total density of twenty-two dwelling units per acre (22 du/acre). The maximum total density may be increased to thirty dwelling units per acre (30 du/acre) utilizing Greater Pine Island Transfer of Development Units. (Ord. No. 94- 30, 09-06, 10-10, 16-07, 21-09)

NOTE _ GEOGRAPHIC PROXIMITY EXISTING MIXED USE OVERLAY NEXUS AND INTENSIVE DEVELOPMENT FUTURE LAND USE DESIGNATION NEXUS

RESPONSE _ The subject property is located in close proximity to two arterial roadways (McGregor Blvd. and College Pkwy). Urban services are available and adequate to serve the development, as demonstrated in the letters of availability provided by Lee County Utilities, Lee Tran, Lee County Schools, Iona McGregor Fire District, Lee County Solid Waste Division, Lee County Emergency Medical Services, and the Lee County Sheriff's Office. The property is adjacent to the College Parkway Mixed-Use Overlay district which consists of conventional and mixed use planned development zoned projects and high-density MF residential and commercial use. Consisting of long-standing commercial suitable for redevelopment, the subject two acre property is ideally suited for the Mixed Use Overlay in that the reduced development standards will serve as sound incentives for greater urbanized, compact growth. This is consistent with Policy I.1.2.

properties are built-out with uses including retail, professional office, restaurants and multi-Family. The property has a zoning designation of C-1. Adding the 2-acre property to the Mixed-Use Overlay is consistent with Objective 2.1: Development Location, Policy 2.1.1 and Policy 2.1.2 because it incentivizes appropriate commercial uses based on accepted professional planning practices.

OBJECTIVE 2.2: DEVELOPMENT TIMING. *Direct new growth to those portions of the future urban areas where adequate public facilities exist or are assured and where compact and contiguous development patterns can be created. Development orders and permits (as defined in Section 163.3164(7), F.S.) will be granted only when consistent with the provisions of Sections 163.3202(2)(g) and 163.3180, F.S. and the concurrency requirements in the Land Development Code. (Ordinance No. 94-30, 00-22, 17-19)*

POLICY 2.2.1: *Rezoning's and Development of Regional Impact proposals will be evaluated as to the availability and proximity of the road network; central sewer and water lines; community facilities and services such as schools, EMS, fire and police protection, and other public facilities; compatibility with surrounding land uses; and any other relevant facts affecting the public health, safety, and welfare. (Ordinance No. 94-30, 00-22)*

RESPONSE _ The subject property is located within the Intensive Development urban land use. The property has more than adequate public facilities. The property has frontage on an arterial roadway (McGregor Blvd) near the intersection with an Arterial roadway (College Parkway) that is signalized. Lee County Utilities has existing potable water and sanitary sewer lines in operation adjacent to the subject property and has provided a letter of availability, which is included with the application. Tanglewood Riverside School Elementary School is ± 2.7 miles from the site, Cypress Lake Middle School is ± 1.8 miles from the site and Cypress Lake High School is ± 2.3 miles from the site. Iona-McGregor Fire Station 74 and EMS Medic 84 are located ± 0.7 mile from the property at 6061 South Pointe Blvd. Lee County Sheriff's Office West District Substation is ± 3.8 miles from the site. There is existing development to the north, south, east and west. Approval of the requested Map Amendments will allow for incentivized urban infill development providing a compact and contiguous development pattern, consistent with Objective 2.2 and Policy 2.2.1

POLICY 2.2.2: *Map 1 of the Future Land Use Map series indicates the uses and density ranges that will ultimately be permitted on a given parcel. However, it is not a guarantee that such densities or uses are immediately appropriate, as the map provides for the county's growth beyond the Lee Plan's planning horizon of 2030. During the rezoning process the Board of County Commissioners will balance the overall standards and policies of this plan with three additional factors:*

- 1. Whether a given proposal would further burden already overwhelmed existing and committed public facilities such that the approval should be delayed until the facilities can be constructed; and*
- 2. Whether a given proposal is for land so far beyond existing development or adequate public facilities that approval should be delayed in an effort to encourage compact and efficient growth patterns; and*

RESPONSE _ The subject property is zoned C-1 (Commercial District), which permits a mix of residential and commercial uses. As such, is perfectly suited for the Mixed Use Overlay, The request is consistent with Objective 2.2: Development Timing, Policy 2.2.1, and Policy 2.2.2

GOAL 4: GENERAL DEVELOPMENT STANDARDS. Pursue or maintain land development regulations which protect the public health, safety and welfare, encourage creative site designs and balance development with service availability and protection of natural resources. (Ordinance No. 94-30, 07-15, 17-13)

STANDARD 4.1.1: WATER.

2. If the proposed development lies within the boundaries of a water utility's certificated or franchised service area, or Lee County Utilities' future potable water service area (see Map 6), then the development must be connected to that utility.
3. The developer must provide proof that the prior commitments of the water utility, plus the projected need of the developer, do not exceed the supply and facility capacity of the utility
4. All waterline extensions to new development will be designed to provide minimum fire flows, as well as adequate domestic services as required by Chapter 62-555, FAC.

RESPONSE _ The subject property is located within the Lee County Utilities future water service area as depicted on Lee Plan Map 4-A. Lee County Utilities has existing potable water distribution lines in place adjacent to the subject property (see Letter of Service Availability). Water treatment and distribution will be provided through the Corkscrew Water Treatment Plant. The requested Map is consistent with Standard 4.1.1.

STANDARD 4.1.2: SEWER.

2. If the proposed development exceeds the thresholds listed above and lies within the boundaries of a sewer utility's certificated or franchised service area, or Lee County Utilities' future sanitary sewer service area (see Map 7), and that utility has sufficient capacity to provide minimum service to the development, then the development must connect to that sewer utility if there is existing infrastructure adequate to accept the effluents of the development within 1/4 mile from any part of the development.

RESPONSE _ The subject property is located within the Lee County Utilities future sewer service area as depicted on Lee Plan Map 4-B. Lee County Utilities has existing sanitary sewer collection lines in place adjacent to the subject property (see Letter of Service Availability). Sanitary Sewer treatment service will be provided through the Fort Myers South Water Reclamation Facility. The requested Map and Text Amendments are consistent with Standard 4.1.2.

STANDARD 4.1.4: ENVIRONMENTAL FACTORS.

1. In any case where there exists or there is the probability of environmentally sensitive areas (as identified by Lee County, the Corps of Engineers, Department of Environmental Protection,

South Florida Water Management District, or other applicable regulatory agency), the developer/applicant must prepare an environmental assessment that examines the existing conditions, addresses existing or anticipated environmental problems, and proposes means and mechanisms to protect, conserve, or preserve the environmental and natural resources.

RESPONSE _ The proposed land use change will not negatively impact environmental protection policies and standards because the 2-acre property is completely developed; it does not contain natural features. The amendment is consistent with Standard 4.1.4.

GOAL 6: COMMERCIAL LAND USES. *To permit orderly and well-planned commercial development at appropriate locations within the county. (Ordinance No. 94-30)*

POLICY 6.1.1: *All applications for commercial development will be reviewed and evaluated as to:*

a. *Traffic and access impacts (rezoning and development orders);*

- RESPONSE _ The parcel has direct access onto McGregor Blvd.

c. *Screening and buffering (planned development rezoning and development orders);*

- RESPONSE _ The mixed-use overlay allows for reduced ROW and Adjacent Property Sec. 10-416 Buffering. The amendment advances a more efficient use of the land and thus encourages re-development.

d. *Availability and adequacy of services and facilities (rezoning and development orders);*

- RESPONSE _ As documented by Lee County Utilities the project has access to water and sanitary sewers.

e. *Impact on adjacent land uses and surrounding neighborhoods (rezoning)*

- RESPONSE _ The amendment does not change the existing non-residential to residential west boundary interface. Hence no unanticipated impacts are expected at the subject location.

f. *Proximity to other similar centers (rezoning);*

- RESPONSE _ The property adjoins commercial facilities and uses, including restaurants, business, and personal services.

g. *Environmental considerations (rezoning and development orders).*

- RESPONSE _ The property is comprised of improved commercial uses absent of critical or sensitive environmental site characteristics.

POLICY 6.1.3: *Commercial developments requiring rezoning and meeting Development of County Impact (DCI) thresholds must be developed as commercial planned developments designed to arrange uses in an integrated and cohesive unit in order to:*

• *Provide visual harmony and screening.*

- RESPONSE _ The mixed-use overlay allows for continued ROW and Adjacent Property Buffering.

• *Reduce dependence on the automobile.*

- **RESPONSE _** The mixed-use overlay may end up reducing automobile dependence depending of the final re-development of the property.
- *Promote pedestrian movement within the development.*
 - **RESPONSE _** The mixed use overlay may end up promoting internal pedestrian movement depending if the property is re-developed as a uniform project; code required sidewalks will promote pedestrian traffic based on the final re-development plan.
- *Utilize joint parking, access and loading facilities.*
 - **RESPONSE _** The mixed-use overlay may end up promoting joint parking, access and loading depending if the property is re-developed as a uniform project.
- *Avoid negative impacts on surrounding land uses and traffic circulation.*
 - **RESPONSE _** The mixed use overlay amendment does not create new negative impacts on the surrounding land uses and circulation due to the underlying land use and zoning remain the same with or without the mixed use overlay.
- *Protect natural resources;*
 - **RESPONSE _** The property is comprised of improved commercial uses absent of critical or sensitive environmental site characteristic. The overlay amendment does not impact natural resources.
- *Provide necessary services and facilities where they are inadequate to serve the proposed use.*
 - **RESPONSE _** As documented by Lee County Utilities the project has access to water and sanitary sewers, along with fire and other public safety services.

POLICY 6.1.4: *Commercial development will be approved only when compatible with adjacent existing and proposed land uses and with existing and programmed public services and facilities.*

- **RESPONSE _** The mixed-use overlay amendment does not present new and/or unanticipated compatibility and public services and facilities impacts on surrounding land uses. This is because the underlying land use and zoning remain the same and, that the property's di minimus size eliminates potential unanticipated impacts.

POLICY 6.1.5: *The land development regulations will require that commercial development be designed to protect the traffic-carrying capacity of roads and streets. Methods to achieve this include but are not limited to frontage roads; clustering of activities; limiting access; sharing access; setbacks from existing rights-of-way; acceleration, deceleration and right-turn-only lanes; and, signalization and intersection improvements. (Ordinance No. 94-30, 00-22)*

- **RESPONSE _** The mixed use overlay amendment does not create new and/or unanticipated McGregor Blvd. traffic circulation because the underlying land use and zoning remain the same and, that the properties small size reduces noticeable traffic impacts.

POLICY 6.1.6: *The land development regulations will require that commercial development*

provide adequate and appropriate landscaping, open space, and buffering. Such development is encouraged to be architecturally designed so as to enhance the appearance of structures and parking areas and blend with the character of existing or planned surrounding land uses.

- **RESPONSE** _ Any project that occurs via the mixed-use overlay amendment will meet all LDC rules and regulations.

POLICY 6.1.7: Prohibit commercial developments from locating in such a way as to open new areas to premature, scattered, or strip development; but permit commercial development to infill on small parcels in areas where existing commercial development would make a residential use clearly unreasonable.

- **RESPONSE** _ The mixed use overlay amendment for an existing commercial property does not open up new and premature, scattered strip development.

POLICY 6.1.8: Prohibit commercial development from locating near existing or planned school areas in such a way as to jeopardize the safety of students. (Ord. No. 00-22, 17-13)

- **RESPONSE** _ The mixed-use overlay amendment is for an existing and developed commercial property that is not located near existing or planned schools.

POLICY 6.1.11: Encourage the upgrading or revitalization of deteriorating commercial areas, but prohibit the expansion or replacement of commercial uses which are inappropriately located or that have an adverse impact on surrounding residential and non-residential uses. Such revitalization includes but is not limited to: store-front renewal, sign control, and the provision of common parking areas and consolidated access. (Ord. No. 94-30, 17-13, 21-09)

- **RESPONSE** _ The mixed-use overlay amendment's development standards encourages the upgrading of the property; the small size of the property serves to avoid an inappropriate use potential.

OBJECTIVE 11.2: MIXED USE OVERLAY. The county will maintain an overlay in the future land use map series identifying locations appropriate for mixed use located in proximity to: public transit routes; education facilities; recreation opportunities; and, existing residential, shopping and employment centers. Mixed Use, Traditional Neighborhood, and Transit Oriented development patterns are encouraged and preferred within the Mixed-Use Overlay.

POLICY 11.2.1: The Mixed-Use Overlay identifies locations where mixed use development will have a positive impact on transportation facilities through increased transit service, internal trip capture, and reduced travel distance. Requests to expand the Mixed Use Overlay will be evaluated based on all of the following criteria:

1. Located within the extended pedestrian shed of established transit routes; and,
2. Distinct pedestrian and automobile connections to adjacent uses can be achieved without accessing arterial roadways; and,
3. Located within the Intensive Development, Central Urban, or Urban Community future land use categories; and,
4. Availability of adequate public facilities and infrastructure.
5. Will not intrude into predominately single-family residential neighborhoods.

- **RESPONSE _** The mixed-use overlay amendment advances and is consistent with 11.2.1. Lee Tran Routes 30 run along College Parkway, with an existing bus stop #10210 @ 0.1 mile to the south. There are existing sidewalks on both sides of McGregor Blvd., and an existing bike lane. The site access has existing access to an arterial roadway. The portion of the site proposed for inclusion in the Mixed-Use Overlay is within the Intensive Development future land use category. The submitted letters of review and recommendation demonstrate that adequate public facilities and infrastructure are available. Being along McGregor Blvd and with less than 300-ft in depth, any new development t project under the Mixed Use Overlay will not intrude into predominately single-family residential neighborhoods. The subject property and the properties to the north, south and east have existing commercial zoning along the McGregor Blvd. frontage. The request is consistent with Policy 11.2.1

POLICY 11.2.3: *At the discretion of the Board of County Commissioners, the Mixed-Use Overlay boundary may be extended up to one-quarter mile to accommodate developments located partially within a Mixed Use Overlay or immediately adjacent to a Mixed Use Overlay. (Ord. No. 07-15, 17-13)*

- **RESPONSE _** The mixed-use overlay amendment is adjacent to and well within one-quarter mile distance of an existing Mixed Use Overlay boundary.

Conclusion

In conclusion, the proposed Map Amendment is consistent with accepted professional planning principles and practices, is consistent with the intent of the Objective 11.2 Mixed-use Overlay and is consistent with Lee Plan goals, objectives and policies.

McGregor-Mixed Use Overlay

Environmental Analysis Exhibit M13

The total site area is ± 2 -ac developed and urbanized land that abuts the arterial road McGregor Blvd and commercial and residential uses. The property may be classified as FLUCCS 1822 High Intensity Urban, which includes residential, commercial and institutional uses. The map overlay amendment does not change the FLUCCS category. The requested Map Series are identified below.

FLUCCS 1822 _ 100% Site Area

The property does not have any potential to contain plant and animal species listed by federal, state or local agencies as endangered, threatened or species of special concern.

EXTERNAL SENDER

Good morning Sharon,

I have searched the properties you listed and have attached the results here. There is one previously recorded resource on/near each of the properties listed. Please let me know if you have any questions or need anything else. Have a great day!

Kind regards,

CASSIE FREDERICK

Jennifer,

Currently our firm will be submitting Comp Plan Amendment within Lee county. We will need to provide correspondence with the Bureau of Historic Preservation regarding the search of the Florida Master Site File. The properties are located. 12690, 12670, 12680 McGregor Blvd; Fort Myers, FL 33919, with strap # 16-45-24-00-00007.0060, 16-45-24-00-00005.0000, 16-45-24-00-00006.0010

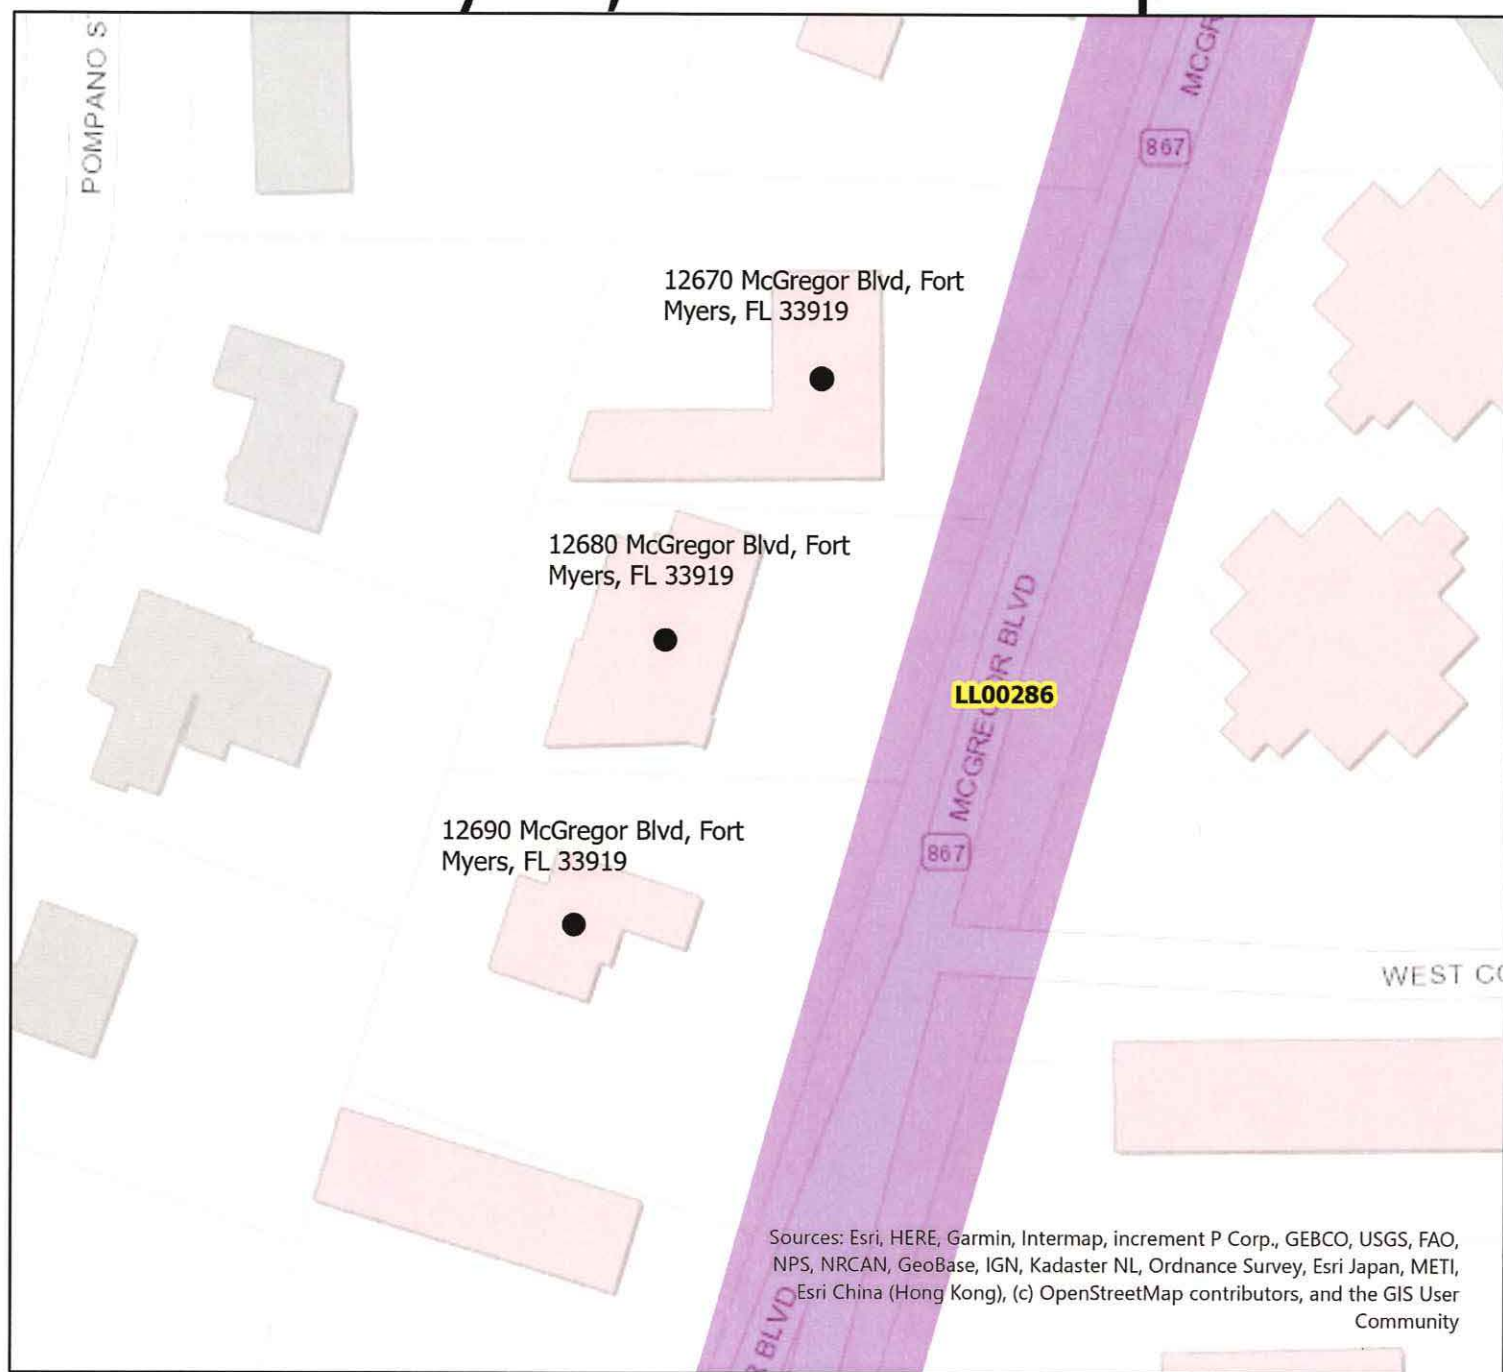

Thank you,

Sharon Hrabak

McGregor-Mixed-Use Overlay

Existing and Future Public Facilities Impacts Analysis
Exhibit M15

Potable Water and Sanitary Sewer

The subject property is within Lee County Utilities (LCU)

The subject property is within the Lee County Utilities (LCU) potable water franchise area as depicted on Maps 4A and 4B of the Lee Plan. LCU owns and maintains existing potable water and wastewater lines along the adjacent streets. Pinewood Water Treatment Plant will provide potable water service to the proposed development while Three Oaks Water Reclamation Facility will provide wastewater service.

Lee County utilities has sufficient capacity to provide water and sewer service at buildout for both the existing Urban Community land use as well as the proposed Central Urban land use to include multi-family residential units. As similar uses could be developed in both land use categories, the difference in the expected water and sewer demand would be only due to the addition of the residential units and is summarized below.

Existing Development Potential: 30,000 SF commercial:

$$(\pm 8,000 \times 15/100) = 1,200 \text{ GPD}$$

Proposed Development Potential: 19,300 SF commercial):

$$(\pm 19,300 \times 15/100) = 2,895 \text{ GPD}$$

According to the 2022 Lee County Concurrency Report, LCU's interconnected water distribution system is permitted with a capacity of 52.9 million gallons per day (MGPO) and is projected planned future to operate at 54.3 MGPO. Therefore, there is sufficient capacity within the existing water distribution system to serve the project at build-out.

According to the 2022 Lee County Concurrency Report LCU's / CFM combined wastewater Water Reclamation Facility is permitted with a capacity of 43.4 million gallons per day (MGPD) and is projected to operate at 49.4, by 2023/2024. Therefore, there is sufficient capacity within the existing plant to serve the increase in demand to the wastewater system from the project at build-out.

Surface Water/Drainage Basins

The existing site consists of developed commercial parcels. There is an existing stormwater swale along ROW of McGregor Blvd. The existing stormwater runoff sheet flows generally to the south into Coastal flow way and will continue to do so.

The subject site is currently in a FEMA Zone AE-EL8 per map panel 12071C0416G, which has an established base flood elevation of 9' NAVD.

The Lee Plan Policy 95.1.3 establishes regulatory standards and non-regulatory standards for public facilities and states as follows:

Stormwater Management Facilities LOS: The existing surface water management system in the unincorporated areas of the county will be sufficient to prevent the flooding of designated evacuation routes (see Map 3J) from the 25-year, 3-day storm event (rainfall) for more than 24 hours.

The 2022 Concurrency Report confirms that none of the evacuation routes in the studied watersheds are anticipated to be flooded for more than 24 hours, and that new developments that receive approval from the South Florida Water Management District and comply with standards in Florida Administrative Code Chapter 62- 330 will be deemed concurrent with the Lee Plan's surface water management LOS. The McGregor-Mixed Use Overlay project will receive approval for an Environmental Resource Permit from the South Florida Water Management District and, as such, will be consistent with the surface water management Level of Service standards of the Lee Plan.

The amendment to extend the Mixed-Use Overlay will not change the developable area. The proposed development will include a surface water management system which will provide both stormwater attenuation and water quality treatment. The surface water management system will include controlled discharge into the Hendry Creek system, meeting all requirements of South Florida Water Management District and Lee County at the time of development order.

The change in land use will have no impacts on the design or function of the surface water management system, drainage basin, discharge rates, nutrient loadings, water quality or flood zone.

Parks, Recreation and Open Space

Regional Parks:

The Lee County Public Facilities Level of Service and Concurrency Report 2022 indicates a total of 7,066 acres of existing regional parks operated by county, local, state, and federal governments within Lee County. The capacity required to meet The Lee Plan Policy 95.1.3 non-regulatory level of-service standard of 6 acres per 1,000 total seasonal county population is equal to:

$$923,000 \text{ [seasonal county population]} \times (6 \text{ acres}/1,000 \text{ population}) = 5,538 \text{ acres}$$

The Bureau of Economic and Business Research (BEBR) Projections of Florida Population by County, 2020-2045, with Estimates for 2019 provided a high projected population of 997,000 for Lee County in 2030. This would require 5,982 acres to meet the level of service standard. There is more than adequate existing Regional Park acreage in Lee County to meet the needs of the project.

Community Parks

The Lee County Public Facilities Level of Service and Concurrency Report 2022 indicates a total of 670.1 acres of existing community parks operated by Lee County or jointly operated with The School District of Lee County within Lee County. The capacity required to meet the Lee Plan Policy 95.1.3 non-regulatory level of-service standard of 0.8 acres per 1,000 total permanent county population is equal to:

384,000 [permanent unincorporated county population] X (0.8 ac/1,000 population) = 307 ac

The existing inventory of community parks within Lee County meets the community park level of-service standard in the County for the year 2020 and will continue to do so at least through the next five years. The level of service standard increased from 285 acres in 2019 to 295 acres in 2021 which represents here is more than adequate existing Community Park acreage in Lee County to meet the needs of the project.

Public Schools

The subject property is within the South Zone, Lee Plan Policy 95.1.3 provides that Public Schools Facilities LOS standards for Elementary Schools, Middle Schools, High Schools and Special Purpose Facilities is based upon Permanent Florida Inventory School Houses (FISH) capacity and is 100% as adjusted by the School Board annually to account for measurable programmatic changes.

According to the Lee County Public Facilities Level of Service and Concurrency Report 2022, the South Zone showed an available capacity of 638 elementary school seats, 337 middle school seats, and 347 high school seats. The letter of review and recommendation has been requested from the School District of Lee County.

Comprehensive Plan Amendment
Strap # 16-45-24-00-00007.0060, 16-45-24-00-00005.0000, 16-45-24-00-00006.0010

Dear Major Chris Reeves,

We are seeking an amendment to the Lee County Comprehensive ± 1.93 acres to the Mixed-Use Overlay. The application is intended to extend the Mixed-Use Overlay Boundary on the west of McGregor Blvd. and North of College Parkway.

The primary intent of the amendment is to accommodate redevelopment of the property. The current land uses of Intensive Development encourage mixed use of high density residential and commercial development. Although the proposed land use would be slightly more intensive from a development, traffic, utility and public service needs standpoint, there is adequate infrastructure to serve the project.

The application requires us to provide a Letter of Service Availability from all agencies determining the adequacy/provision of existing/proposed support facilities. If you could please provide us with a letter of availability for services to the referenced parcels at your earliest convenience, we would greatly appreciate it.

If you have any questions, or require additional information, please do not hesitate to contact me at 239-936-5222 or sharon@qainc.net

Sincerely,
QUATTRONE & ASSOCIATES, INC.

Stan,

We will be proposing a Comprehensive Amendment to change the future land use and as part of the submittal we need to provide a letter from the appropriate agency determining the adequacy/provision of existing/proposed support facilities. Please see attached Letter of request as well as the Geo Map for the properties that would be included with our proposal.

Please feel free to reach out if you have any questions.

Thank you,

Sharon Hrabak

Strap # 16-45-24-00-00007.0060, 16-45-24-00-00005.0000, 16-45-24-00-00006.0010

Ms. Hrabak,

Our office is in receipt of your request for a Letter of Service Availability for the above-mentioned parcels. The proposed project is a 5,250ft² single-story automobile service station located at 12670-12690 McGregor Blvd. in Fort Myers.

Iona McGregor Fire District is the primary fire protection rescue service agency responsible for coverage at the location you have provided. Because we currently serve this area and have a sufficient response data sample, we evaluated response times in this vicinity to simulate the anticipated demand and response.

The primary responding fire protection and rescue service for this location is IMFD Station #74, located 1.4 miles southeast of the property.

It is our opinion that the fire protection and rescue service availability for the proposed development of this property is adequate at this time. Should the plans change, a new analysis of this impact would be required.

Please contact our office if we can be of further assistance.

Sincerely,

Jackielou Mozes
Fire Marshal

Sharon Hrabak,

Richard Wesch
County Attorney

LeeTran has reviewed your request for service availability regarding a proposed Comprehensive Plan Amendment. After reviewing the site and comparing the location with our existing and planned route locations according to the 2020 Transit Development Plan (TDP), the following has been determined:

Donna Marie Collins
County Hearing Examiner

- Subject area is within one-quarter mile of a fixed-route corridor.
- Closest bus stop, #10210 is within one-quarter mile of the subject parcels.
- The 2021 TDP does identify the need for enhanced or additional transit services in the area.

Proposed future development does currently meet the applicability outlined within Lee County Transit Land Development Code Sec. 10-442 (a)(1) and Sec. 10-296 (4)(a). The developer will be required to connect to and improve transit facilities because planning action does trigger the relevant Development Code.

If transit services have been modified within one-quarter mile of the subject parcels at the time of a DO or LDO type D submittal, necessary improvements will be determined at that time.

Attached is a map of the closest bus stop that serves the subject parcels. If you have any questions or require further information, please do not hesitate to contact me at (239) 533-0340 or cmarinodiaz@leegov.com.

Sincerely,

Clarissa Marino Diaz

Re: Letter of Service Availability – McGregor/Edinburgh

Ms. Hrabak,

I am in receipt of your letter requesting a Letter of Service Availability for a Comprehensive Plan Amendment. This amendment would extend the mixed use overlay west of McGregor Boulevard. The property bears STRAP 16-45-24-00-00007.0060, 16-45-24-00-00005.0000, and 16-45-24-00-00006.0010.

Lee County Emergency Medical Services is the primary EMS transport agency responsible for coverage at the location you have provided. There are two ambulances located 0.8 miles southeast. There are two other locations within five miles of the property.

It is our opinion that the EMS service availability for the proposed development of this property is adequate at this time. Should the plans change, a new analysis of this impact would be required.

Sincerely,

Benjamin Abes
Director, Public Safety

RE: **Potable Water and Wastewater Availability**
12690, 12680, 12670 McGregor
STRAP # 16-45-24-00-00007.0060; 16-45-24-00-00005.0000;
16-45-24-00-00006.0010

To whom this may concern:

The subject property is located within Lee County Utilities Future Service Area as depicted on Maps 4A and 4B of the Lee County Comprehensive Land Use Plan. Potable water and sanitary sewer lines are in operation adjacent to the property mentioned above. However, in order to provide service to the subject parcels, developer funded system enhancements such as line extensions may be

Your firm has indicated that this project will consist of one commercial unit with an estimated flow demand of approximately 500 gallons per day. Lee County Utilities presently has sufficient capacity to provide potable water and sanitary sewer service as estimated above.

Availability of potable water and sanitary sewer service is contingent upon final acceptance of the infrastructure to be constructed by the developer. Upon completion and final acceptance of this project, potable water service will be provided through our Corkscrew Water Treatment Plant.

Sanitary sewer service will be provided by the City of Ft Myers South Water Reclamation Facility. The Lee County Utilities' Design Manual requires the project engineer to perform hydraulic computations to determine what impact this project will have on our existing system.

There are no reuse mains in the vicinity of these parcels.

Prior to beginning design work on this project, please meet with LCU Staff to determine the best point of connection and discuss requirements for construction.

This letter should not be construed as a commitment to serve, but only as to the availability of service. Lee County Utilities will commit to serve only upon receipt of all appropriate connection fees, a signed request for service and/or an executed service agreement, and the approval of all State and local regulatory agencies.

Further, this letter of availability of potable water and sanitary sewer service is to be utilized for Comprehensive Plan Amendment only. Individual letters of availability will be required for the purpose of obtaining building permits.

Sincerely,

LEE COUNTY UTILITIES

McGregor-Mixed Use Overlay

State and Regional Policy Plan
Exhibit M19

Consistent with FSS 29I-6.002 Strategic Policy Plan, the 2-acre +/- property is consistent with the SWFRPC SRPP in the following manner:

Transportation Strategy _ Promote Smart growth where residential communities are linked with job centers through transit, carpooling, or other high occupancy vehicle transportation.

REPOSE – The requested Mixed-use Overlay map amendment serves to advance urban infill redevelopment via reduced development standards. It is an accepted professional planning principle and practice that urban infill redevelopment is “Smart Growth”. The map amendment is consistent with the SWFRPC Strategic Regional Policy Plan.

Economic Strategy _ Ensure the adequacy of lands for commercial and industrial centers, with suitable services provided.

REPOSE – The requested Mixed-use Overlay map amendment serves to ensure an adequate supply of urban city-center commercial lands. It does so by incentivizing urban infill commercial redevelopment. The map amendment is consistent with the SWFRPC Strategic Regional Policy Plan.

Consistent with FSS 187.201 State Comprehensive Plan, the 2-acre +/- property is consistent with the Florida plan in the following manner:

(7)(a)(b.5) Water Resources _ 5. Ensure that new development is compatible with existing local and regional water supplies.

REPOSE – The requested Mixed-use Overlay map amendment has available to it at adequate capacity potable water and sanitary sewer services consistent with all local government utility plans. The map amendment is consistent with the State Comprehensive Plan.

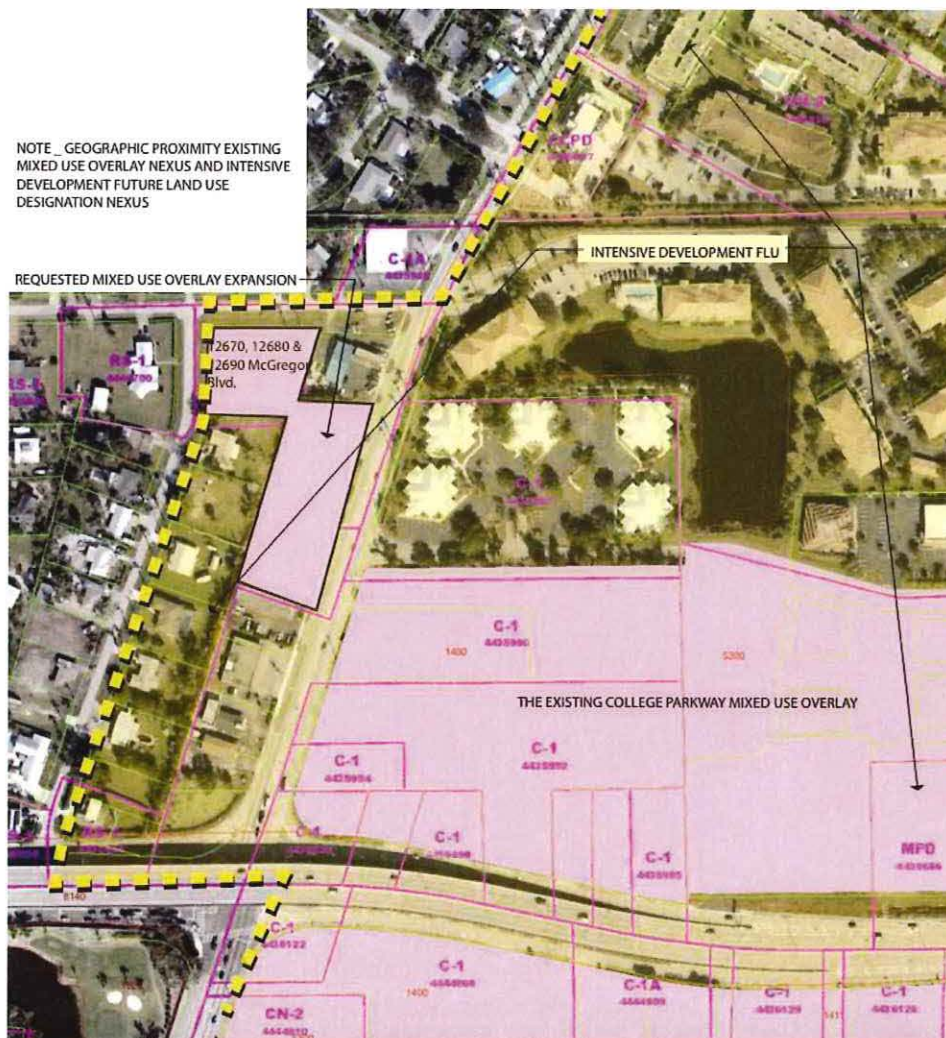

(7)(b.1) Land Use _ 1. Promote state programs, investments, and development and redevelopment activities which encourage efficient development and occur in areas which will have the capacity to service new population and commerce.

REPOSE – The requested map amendment advances urban infill investment and redevelopment via reduced development standards. The map amendment is consistent with the State Comprehensive Plan.

McGregor-Mixed Use Overlay

Justification of Proposed Amendment
Exhibit M20

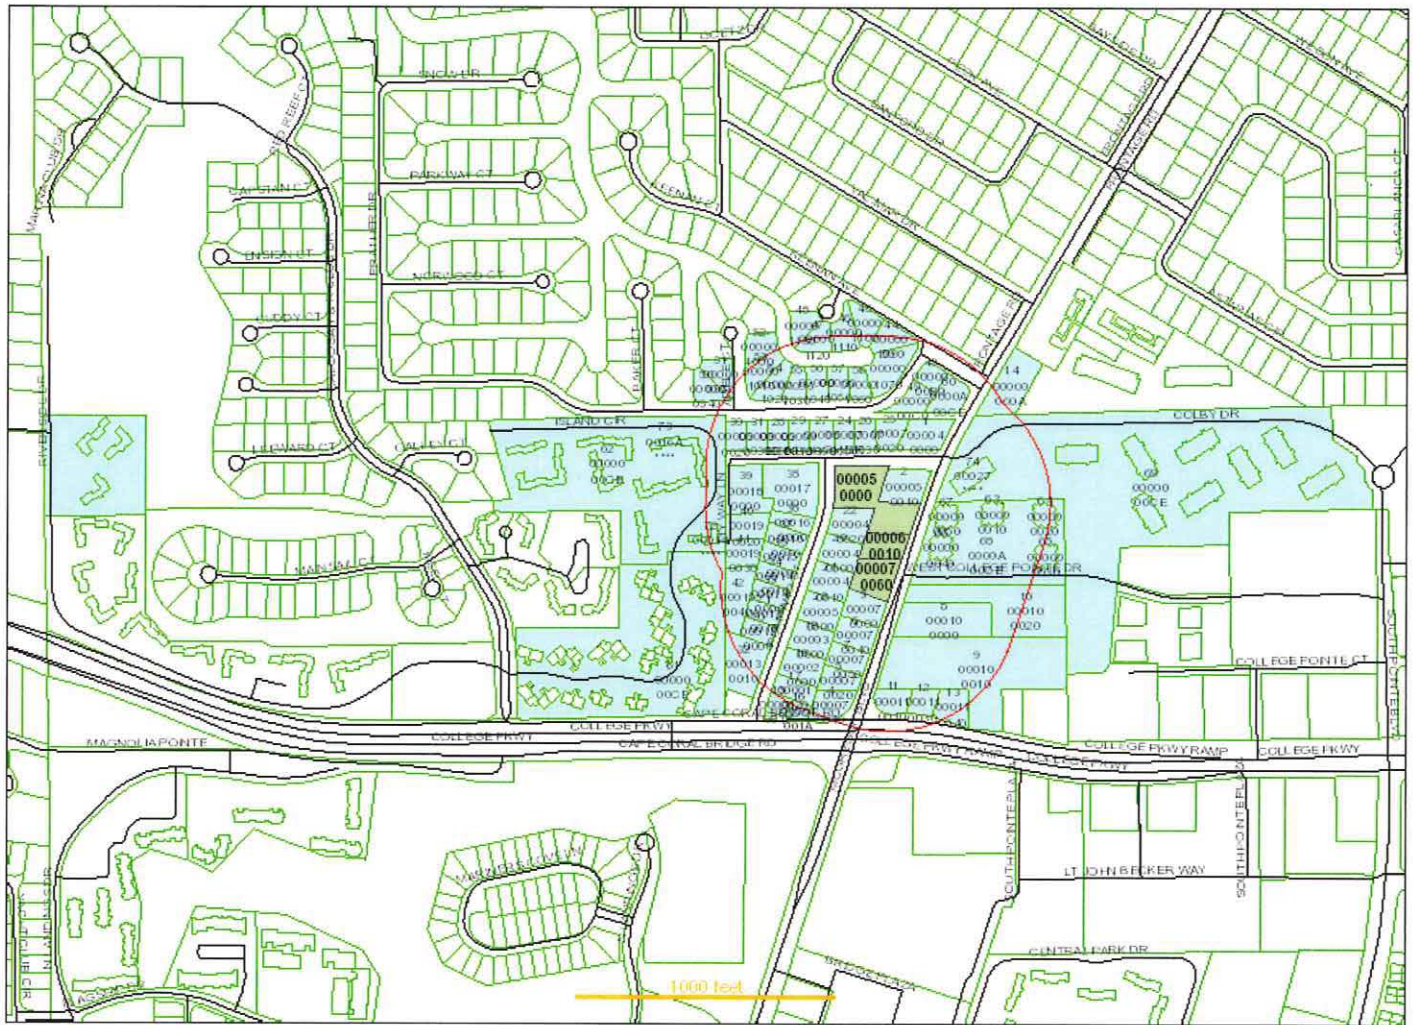

The applicant is requesting an amendment to Lee Plan Map I-C to allow the Mixed-Use Overlay to be extended west to include 2 acres +/- . The subject property is located on the west side of McGregor Blvd, approximately 0.5 mile north of College Parkway and is adjacent to the College Parkway Mixed-use Overlay. The property is development and improved commercial land, is located within the Intensive Development Future Use Category, and is zoned C-1. The applicant desires to re-develop the property and thus desires the overlay's reduced development standards to advance economic feasibility. As identified within the below graphic, there is sound location and land use nexus to support the minor westward expansion of the College Parkway Mixed-use Overlay.

The intent of the Mixed-Use Overlay is to identify locations within Lee County that facilitate mixed-use development and urban infill development. Overlay location criteria are based on accommodating future growth in proximity to public transportation, existing commercial and residential centers, education and recreation facilities. As outlined within Policy 11.2.1, overlay expansion criteria includes proximity of transit routes, enabling pedestrian and automobile connections, location within the Intensive Development Future Land Use, having adequate public facilities and infrastructure, and not intruding into predominately single-family residential neighborhoods. The subject property, being located on Lee Tran routes 30, in the Intensive Development future land use category and its proximity to several properties within the Mixed-Use Overlay and existing public facilities, serves to facilitate continued opportunities for infill-clustered development. Though the 2 acre property abuts 4 home lots to the west, the site is not within a predominantly single family neighborhood since it's urban form is McGregor Blvd. commercial strip. The subject property and the properties to the north and south have existing commercial zoning, and development since 1965. The request is consistent with Policy 11.2.1.

In conclusion, the application meets the criteria to amend the College Parkway Mixed-Use Overlay and is consistent with and furthers the Goals, Objectives and Policies of the Lee Plan.
