CYPRESS WOODS RVPD PD AMENDMENT

Schedule of Deviations & Justifications

Deviations 1-26 – No Change.

27. Deviation 27 seeks relief from the LDC Section 10-421(a)(8) requirement for walls or fences, that are proposed but not required, to have required buffer plantings installed on the exterior side of the wall or fence; to allow the no buffer plantings to be installed on the exterior side of the wall or fence along the western property boundary abutting the BF Industrial Park.

JUSTIFICATION: The intent of the LDC requirement is to provide a vegetative screen to soften the wall/fence abutting external properties. The opaque fence/wall is proposed at a maximum height of 8 feet to screen the Cypress Woods RV subject property from the more intensive industrial uses to the immediate west. The Applicant is proposing to utilize the existing native vegetation to meet the required 40-foot-wide RV perimeter buffer screening, on the “inside” of the wall. Locating the fence/wall in this location will mitigate the need to remove existing vegetation to install the fence/wall.

Due to the nature of the light industrial uses that abut the western property boundary, providing the buffer along the interior of the wall adjacent to RV lots would not negatively impact the industrial land uses as the intent to screen their views of the resort is met. No reduction to screening is proposed and the deviation will serve to maintain the maximum amount of native vegetation.

28. Deviation 28 seeks relief from the LDC Section 34-1743(b)(3) requirement of project wall/fences to be landscaped on the exterior side with a minimum of five trees per 100 linear feet and shrub hedges within a minimum plantable width of seven and on-half feet with shrubs planted and maintained to form a 36-inch high continuous visual screen within one year after time of planting; to allow no landscaping exterior to the fence/wall, along the western property boundary abutting the BF Industrial Park.

JUSTIFICATION: The intent of the LDC requirement to provide landscaping on the exterior side of the wall is to soften and breakup the planar massing typically associated with walls for the adjacent properties and/or traveling public.

Interior to the proposed fence/wall, the 40-foot RVPD perimeter buffer will contain a minimum of 10 trees per 100 linear feet at a minimum height of 14

feet, and 66 shrubs per 100 linear feet maintained at 60 inches in height and planted at 36 inches. Thus, the view from the industrial park will be a new and aesthetically pleasing fence and substantial native vegetation.

As previously mentioned above in Deviation 27 due to the nature of the light industrial uses that abut the western property boundary of this development providing the buffer along the interior of the wall adjacent to residential uses would be more beneficial to protect the aesthetics of residential neighborhoods.

The proposed landscaping and fence/wall will provide greater visual screening and articulation than required by the LDC. Therefore, the deviation will not negatively impact public health, safety or welfare.

29. Deviation 29 seeks relief from the LDC Section 34-939(b)(3) requirement of recreational vehicle parks to have a perimeter buffer at least 40 foot wide adjacent to and completely around the property boundary of the site, to allow for a 30-foot-wide buffer where the RV & Boat Storage area abuts the eastern property line adjacent to active agricultural development.

JUSTIFICATION: The requested deviation proposes a 10-foot reduction from the required 40-foot RV Park perimeter buffer to allow a 30-foot perimeter buffer specifically along the eastern property boundary of the development per the existing conditions.

As identified on the MCP, an interior 40-foot vegetative buffer is already provided to the east of the RV/mobile home lots and west of the storage area. Thus, the proposed conditions will include a 40-foot wide buffer, storage area, then an additional 30-foot-wide perimeter buffer, resulting in 70 feet of planted area in between the eastern neighbor and the internal RV lots.

The Applicant is requesting to locate ancillary recreational and accessory facilities in the form of RV & Boat storage to the between the interior 40-foot buffer and 30-foot buffer along the eastern property line. Furthermore, the neighboring use to the east consists of an intensive agricultural operation, C & S landscape nursery and tree farm, which is zoned Agricultural (AG-2). The property will not be negatively impacted by the deviation and is more intensive in nature than the Cypress Woods uses in the abutting area.

The proposed design provides an appropriate transition from the RV/residential uses in the interior of the site to the more intensive uses to the east, and will not negatively impact public health, safety or welfare.

30. Deviation 30 seeks relief from the LDC Section 34-939(b)(7)(c) requirement of a minimum 10-foot setback from each side and rear recreational vehicle lot, to allow a 5-foot setback for side and rear lot line of all recreational vehicle lots subject to Condition 12.

JUSTIFICATION: The proposed deviation will allow for a 5-foot setback to accommodate the development program of “Casitas” on the RV lots. This request would be in line with the approved deviation for Phase 5 of this development and allow for consistent development standards across the entire RVPD. Additionally, 5-foot setbacks are common to RV, mobile home and conventional single-family residential developments particularly in clustered communities such as the subject property.

The proposed development is a clustered Mobile Home and RV resort community with relatively small lots and internal setbacks to accommodate large preserve areas and recreational amenity space within the site, and also foster a community feel that is common to the RV Resorts.

The design ensures appropriate separation of 10 feet between both principal and accessory structures on adjacent lots per fire code, while allowing structures to be placed on the shared lot line to maximize usable area within each lot. Due to the 10-foot minimum separation between structures on adjacent lots, public health, safety and welfare will not be negatively impacted by this request.

31. Deviation 31 seeks relief from the LDC Section 10-415(b)(1)(c) requirement of a 20-foot minimum setback from indigenous vegetation and trees and 30 foot setback for indigenous plant communities subject to fire, to allow a 20-foot minimum setback from upland preserves lots 3-9 in Phase 1 and lots 87-99 in Phase 3.

JUSTIFICATION: Deviation 23 was approved via ADD2002-00108 for several lots in Phase 5. The request is to extend the deviation to specific lots in Phase 1 & 3.

The proposed preserve setback will only relate to accessory structures, not principal structures. The Applicant is not requesting the expand the deviation to apply to principal structures.

It is understood the required upland preserve setback relates to fire protection concerns. From an environmental standpoint, the indigenous restoration areas in question are relatively small and narrow (30-40' wide) with a tree planting schedule consisting of slash pines, live oaks, laurel oaks and dahoon hollies as well as the following shrubs palmetto, wax myrtle, beautyberry, gallberry, muhly grass per the approved restoration plan.

The request to extend the reduction of the upland preserve setback for Phase 5 was previously reviewed and approved by the Tice Fire Department per the attached letter.

Additionally, the accessory structures on the lots with the 20-foot upland preserve setback will be constructed with flame retardant roofing and wall materials. Specifically, the roofing material is metal or concrete tile and not straw or other flammable material. The building walls will be constructed of

a pre-fabricated composite material that is fire retardant, and Class A firewall rating of 2 hours. The Applicant will install sprinklers in the casita structures for those specified lots to fully mitigate any fire hazard associated with the design.

All of the mitigating factors that allowed this deviation to be approved originally remain applicable to this expanded request. Therefore, the deviation will not negatively impact public health, safety or welfare.

**Subject: Cypress Woods RV Resort RVPD
Request for Submittal Requirement Waiver**

Dear Mr. Rodriguez:

Laguna Caribe at Cypress Woods, LLC (Applicant) is proposing to amend Z-011-021 ,as amended, to:

- Amend the Schedule of Uses, Development Standards and Conditions to add “casitas”
- Request three (3) new deviation relating to existing buffer conditions and wall placement along the project perimeter;
- Amend the MCP to reflect existing emergency access points; expand the RV/boat storage area; correct preserve acreages (while maintaining preserve area in excess of the LD

The Applicant is requesting a waiver from the requirements to submit a Traffic Impact Statement per LDC Section 34-373(a)(7) based upon the fact that the proposed amendment will not increase the number of units in the RVPD that are currently approved at 611 RV and mobile home units allowed by condition 1 of Z-11-021.

The applicant is also requesting a waiver from requirements for Surface Water Management Plan, Protected Species Survey and Phasing Plan per LDC Section 34-373(b)(1-3); Potable Water & Central Sewer Letter, Ownership/Title Certification, Soils Map, FLUCCS Map, Rare & Unique Upland Habitat Map & Existing and Historical Flow-Ways Map as the development has been built out and the proposed changes address impacted areas. Moreover, the project is already connected to potable and central water.

The only area that has not been built out completely of this development is Phase 5, where no amendments are being requested.

Thank you for your consideration of this request. If you need any further information, please do not hesitate to contact me directly at (239) 908-3421, or JMedina@RViPlanning.com.

Dear Cypress Woods RV Resort Property Owner:

Cypress Woods RV Resort Homeowners Association, Inc., (Applicant) is proposing to amend Z-011-021 , as amended to update the Master Concept Plan; modify preserve acreages (with no net reduction to the LDC required amount of indigenous preserve); add deviations relating to project wall/fence landscaping/buffer requirements, to RV lot setbacks and expansion of RV & Boat Storage area location in relation to required RVPD perimeter buffer requirements; and amend the Schedule of Uses and Development Standards to allow for the residential accessory use of “casitas” and a maintenance area ancillary to a permitted RVPD.

In accordance with LDC Section 34-373(c), this letter is notifying all owners within the RVPD of this amendment request. If you need any further information, please do not hesitate to contact me directly at (239) 908-3421, or JMedina@RViPlanning.com.

Sincerely,

RVi Planning + Landscape Architecture

Cypress Woods RV Resort RVPD Amendment Request Statement and Lee Plan Compliance Narrative

Cypress Woods RV Resort Homeowners Association, Inc. ("Applicant") is requesting approval to amend the Cypress Woods RV Resort RVPD, approved per Z-20-027, as consisting of 153.55+/-acres. The amendment request includes the following changes to the current zoning approval:

- 1) Amend the Schedule of Uses, Site Development Regulations and Conditions as follows:
 - Add "Casitas" consistent with LDC §34-1179 and "Maintenance Area" as accessory uses
 - Revisions to Development Regulations to include "Casitas"
 - Revisions to the Indigenous Open Space acreage, Condition # 7
- 2) Amend the Master Concept Plan as follows:
 - Identify landscape maintenance area along Luckett Road, and label "landscape maintenance only" access point to this area from Luckett Road.
 - Update access points per existing conditions to identify the existing permanent emergency access point to the north and remove the temporary emergency access point and secondary potential interconnection identified on the MCP that were not constructed.
 - Identify a maximum 8-foot-tall fence along a portion of the western property line.
 - Expansion of RV & Boat Storage Area for Phases 1-4.
 - Update of preserve acreages within Master Concept Plan to allow expansion of the RV & Boat Storage, while maintaining minimum required preserve and open space acreages.
 - Reduction of Perimeter Buffer Area to from 40 feet to 30 feet on along a portion of the eastern property line to reflect existing conditions.
- 3) Request four (5) new deviations:
 - Relief from 40-foot RVPD perimeter buffer, to allow for a 30-foot buffer where RV & Boat Storage outside of the proposed buffer within Phase 3 of the development.
 - Relief from the requirements to install buffer plantings on the exterior of a residential project wall/fence where the RV Resort abuts the BF Industrial Park to the west.
 - Allow a 5-foot setback for side and rear lot line of all recreational vehicle lots similar to Phase 5 subject to condition 12 (10-foot separation between RVs and accessory structures on adjacent lots) applying to all lots within the development.
 - Allow principal and accessory structures to maintain a 20-foot minimum setback from indigenous plant communities instead of a 30-foot minimum setback subject to fire approval.

I. Existing Conditions & Property History

The 153.55 +/-acre subject property is located north of Luckett Road and east of Interstate 75 in the northeast corner of the Cypress Woods RV Resort. The Property is zoned Recreational

Vehicle Planned Development (RVPD) per Z-20-027, as amended, and is located within the Caloosahatchee Shores Planning Community. The underlying future land use designation is Urban Community and Wetlands. Phases I-IV are built out and Phase V is partially undeveloped.

The Cypress Woods RVPD is permitted for a maximum of 611 units (density of 3.98 du/acre), including 522 RV sites and 89 mobile home sites. Access to the RVPD is provided from the main gated ingress/egress from Luckett Road, with a secondary emergency access at the north end of Brightwood Drive, which provides connection to the internal street network in the Cypress Trails RV Resort.

II. Surrounding Land Use Pattern

The surrounding land use pattern consists of a mix of RV resorts, agricultural and light industrial uses due to proximity to I-75. An RV development is located to the north known as Cypress Trail RV Resort. To the northwest is undeveloped agricultural property with a pending rezoning application under review for a CPD rezone to allow for warehousing including mini-storage. To the south the RVPD abuts a public right-of-way (Luckett Road); to the east is Duke Farms (a landscape nursery). Table 1 below further defines the surrounding Future Land Use designations, zoning districts and adjacent land uses.

Table 1: Inventory of Surrounding Lands

	FUTURE LAND USE	ZONING	EXISTING LAND USE
NORTH	Urban Community	RVPD/AG-2	RV Lots; Undeveloped Agricultural Land (Proposed Warehousing and Ministorage)
SOUTH	Urban Community; Wetlands	AG-2; HLSFD (City of Fort Myers)	Luckett Road ROW; RV Sales; Agriculture; Large Lot Single-Family
EAST	Rural Community Preserve	AG-2	Landscape Nursery
WEST	Industrial Interchange	IL; AG-2 (Proposed CPD)	Undeveloped Agriculture Land (Proposed Warehousing and Ministorage)

The immediate area contains RV Resorts and Mobile Home Parks that provide transition from the more intensive land use pattern along the I-75 frontage, and the rural uses to the east in Buckingham. The site remains an appropriate location for the proposed 611 RV units, and associated uses and the amendment proposes no changes to the character, density or intensity of the existing RVPD approval. The area is well-served by existing public infrastructure.

Potable water and sanitary sewer services are available to the subject property by Lee County Utilities. The surrounding roadway network has adequate capacity as demonstrated in the supportive TIS for the 2011 RVPD rezone. There are also adequate community facilities and services in the immediate vicinity of the project, including Fire, EMS, and park and recreation.

III. Proposed Amendment

The proposed amendment largely consists of housekeeping type requests to reflect current conditions within the development and provide flexible design standards to help modernize the resort to current industry standards.

Through this PD amendment application, the Applicant proposes the addition of two uses to the schedule of uses, the accessory “Casita” (consistent with LDC Section 34-1179) and “Maintenance Area” (Limited to maintenance trucks, maintenance sheds, and other vehicles/equipment needed for the maintenance of the development).

The Recreational Vehicle (RV) industry continues to grow in the U.S. with RV shipments having grown from 400,000 in 2016 to approximately 480,000 in 2019 (a 20% increase). Correspondingly, Florida continues to be a leader in net domestic migration, adding over 1 million residents from other states between 2010-2017, due in large part to our warm climate, lack of state income tax, and general demand by the baby boomer generation relocating upon retirement. With the continued influx of retirees to Florida, and specifically the Fort Myers area, along with the popularity of the RV lifestyle, the industry continues to evolve to capture and retain customers.

A highly demanded RV amenity is for a private accessory structure located on the same lot as the RV to provide additional multi-purpose living area. It is understood Lee County currently permits RV accessory structures known as “Casitas”, which are regulated in the Land Development Code Section 34-1179, per Ordinance 22-12.

Similar to Phase 5 of Cypress Woods aka “Laguna Caribe at Cypress Woods”, property owners within Phases 1-4 have stated a desire to have a multi-purpose, fully enclosed accessory structure on their RV lot to provide space for entertaining, crafts/hobbies, leisure, and cooking. Therefore, the Applicant is seeking through this site-specific PD amendment to allow for the accessory structure referred to herein as a “casita”.

“Casitas” are permanent accessory structures used in long-term occupancy Recreational Vehicle developments to provide additional living space for the single-family occupants of RV lots and their temporary guests. Permitted uses include spaces for overnight sleeping; kitchen and cooking; entertainment; studies or home offices; storage; and garages or car ports for golf carts or motor vehicles. As identified in by the LDC the “Casitas” along with the RV shall be defined and treated collectively as a single residential unit i.e. separate rental of the casita is strictly prohibited to ensure the RV lot retains occupancy as a single dwelling unit.

The Maintenance Area proposed within the area located along the southwest corner of the development is for trucks and storage of maintenance specifically for the Cypress Woods RVPD. This area had previously been the designated temporary access point for the development to Luckett Road. The Applicant proposes the temporary emergency access point identified on the MCP along Luckett Road to be changed into a maintenance only access point.

The RV lots and Mobile homes are in compliance with the currently approved Property Development Regulations set forth in Z-20-021, providing for 10-foot side yard setbacks for RVs and 5-foot side setbacks for mobile homes. The application seeks to modify the side yard setbacks to allow for “Casitas” with 5-foot setback configuration on lots for RVs, which requires for a 10 feet minimum building separation to be maintained between RVs and accessory structures on adjacent lots. The application is also seeking the ability to locate accessory structures a minimum of 20 feet from the lake, i.e. an 0-foot setback from the rear property line/lake maintenance easement.

The development provides 40-foot buffers along the perimeter of the RV/mobile home lots.

The MCP includes slight modifications to the acreages of the preserve areas, while maintaining excess preserve and open space in the overall RVPD, as shown on the MCP data summary tables and draft revised Conditions to identify Indigenous Open Space acreage requirement changes that still exceed the LDC requirement.

The proposed design will remain compatible with the surrounding development pattern, both internal and external to the Cypress Woods RVPD. Minor corrections to the preserve acreages have been requested based upon built/existing conditions and proposed design modifications. The MCP, including the indigenous preserve tables, demonstrates the RVPD will provide more than the minimum required acreages for both preserve and open space.

The Applicant proposes four new deviations. The 1st and 2nd deviations allows for a maximum 8-foot-tall project fence/wall along the western property line with the required 40-foot-wide RV perimeter buffer along the interior of the fence/wall and no buffer along the exterior of the fence/wall. The 3rd deviation addresses existing conditions and expansion RV & Boat Storage allowing for RV & Boat Storage outside of the proposed 40-foot buffer within Phase 3 of the development. The 4th deviation requests to change the accessory structure setback for side and rear lot line to 5 feet similar to Phase 5 of the development to allow for better use of the lot and allow for “Casita” accessory use. The Applicant proposes the safeguard of requiring a 10-foot separation between RVs and accessory structures on adjacent lots. The Applicant’s justification for the requests is further elaborated on within the Deviations Justification Narrative provided as part of this submittal.

The full details of the proposed development program are provided in the enclosed Master Concept Plan, Schedule of Uses, Property Development Regulations, and proposed Conditions.

IV. Lee Plan Compliance

The following is an analysis of how the proposed amendment is consistent with the goals, policies and objectives of the Lee Plan.

POLICY 1.1.4: The Urban Community future land use category are areas characterized by a mixture of relatively intense commercial and residential uses. The residential development in these areas will be at slightly lower densities than other future urban categories described in this plan. As vacant properties within this category are developed, the existing base of public services will need to be maintained which may include expanding and strengthening them accordingly. As in the Central Urban future land use category, predominant land uses in this category will be residential, commercial, public and quasi-public, and limited light industrial with future development encouraged to be mixed use, as described in Objective 11.1, where appropriate. The standard density range is from one dwelling unit per acre (1 du/acre) to six dwelling units per acre (6 Future Land Use II-2 January 2023 du/acre), with a maximum total density of ten dwelling units per acre (10 du/acre). The maximum total density may be increased to fifteen dwelling units per acre (15 du/acre) utilizing Greater Pine Island Transfer of Development Units.

In compliance with this policy, the subject property is located in an urbanized area of the Lee County, as evidenced by the surrounding land use pattern, existing densities/intensities, and available public infrastructure. No density increase is being requested and the proposed development has an approved density of 3.98

du/acre, or 611 units, for the RVPD. Therefore, the density is well below the maximum attainable density in the Urban Community category. The amendment will allow for the continuation of the increased amenities for the existing RV residential development and will allow for more enjoyable long term use of RV lots.

OBJECTIVE 1.5: WETLANDS. Designate on the Future Land Use Map those lands that are identified as Wetlands in accordance with § 373.019(27), Fla. Stat. through the use of the unified state delineation methodology described in Fla. Admin. Code R. 62-340, as ratified and amended in § 373.4211, Fla. Stat. (Ord. No. 94-30, 21-09)

POLICY 1.5.1: Permitted land uses in Wetlands consist of very low density residential uses and recreational uses that will not adversely affect the ecological functions of wetlands. All development in Wetlands must be consistent with Goal 124. The maximum density is one dwelling unit per twenty acres (1 du/20 acre) except as otherwise provided in Table 1(a) and Chapter XIII.

There is no increase in density being requested as part of this proposed amendment and proposed changes to the development indigenous preserve acreage consistent with the conservation easements identified in the SFWMD Permit No. 36-02960-S. The proposed density of 3.98 du/acre for the whole development is consistent with the 1 du/20 acres for 16.5 acres identified by the Future Land Use Map as Wetlands is well below the maximum density allowed by the future land use map.

POLICY 5.1.5: Protect existing and future residential areas from any encroachment of uses that are potentially destructive to the character and integrity of the residential environment. Requests for conventional rezonings will be denied in the event that the buffers provided in Chapter 10 of the Land Development Code are not adequate to address potentially incompatible uses in a satisfactory manner. If such uses are proposed in the form of a planned development or special exception and generally applicable development regulations are deemed to be inadequate, conditions will be attached to minimize or eliminate the potential impacts or, where no adequate conditions can be devised, the application will be denied altogether. The Land Development Code will continue to require appropriate buffers for new developments.

The proposed amendment will not negatively impact surrounding residential uses or internal uses within Cypress Woods RVPD. The request will not increase the density of the project or reduce adopted minimum lot sizes. The expansive 40-foot-wide buffer between the site and the Cypress Trails RV Resort to the north, Luckett Road to the south and light industrial uses to the west will be retained. Larger lot rural residential uses in Buckingham to the east are well buffered and separate from the development via preserve, a 160-foot-wide FPL easement and a landscape nursery. The proposed amendment will allow changes similar to what has already been approved in Phase 5 of the development and allow for better use of the FPL easement. The additional RV associated uses are complimentary to the surrounding development pattern at a density substantially lower than the future land use map allows.

STANDARD 4.1 & 4.2: WATER & SEWER

The proposed RVPD development is already almost fully built and connected to potable water and sanitary sewer services are available to service to the development.

POLICY 21.3.1: Maintain LDC regulations that provide for greater buffering between adjacent commercial and residential uses except for in mixed use developments.

The proposed amendment will provide 40-foot RVPD buffer in line with the LDC requirements including a maximum 8-foot-tall fence/wall along the eastern property boundary allowing for enhanced visual and audio screening for the RVPD development which is adjacent to light industrial uses to the east of the development. The Applicant is proposing a deviation to further screen the residential RVPD use from the eastern property boundary by allowing the landscape buffer to be completely interior of the fence/wall allowing instead of on the exterior of the wall allowing for the softer and aesthetics of the vegetation to be along the residential side of the wall.

POLICY 124.1.1: Ensure that development in wetlands is limited to very low density residential uses and uses of a recreational, open space, or conservation nature that are compatible with wetland functions. The maximum density in the Wetlands category is one unit per 20 acres, except that one single family residence will be permitted on lots meeting the standards in Chapter XIII. Owners of wetlands adjacent to Intensive Development, General Interchange, Central Urban, Urban Community, Suburban, New Community, Outlying Suburban, Sub-Outlying Suburban, and Rural future land use categories may transfer dwelling units from preserved freshwater wetlands to developable contiguous uplands under common ownership at the same underlying density as permitted for those uplands.

As previously identified there is no change to the density as part of this amendment but the approved density of the development is greatly lower than the maximum density allowed by the future land use map when taking into account the 16.5 acres of Wetland category that make up the 153.5 acre development.

V. LDC Review Criteria

The proposed amendment complies with the LDC review criteria set forth in LDC 34-135(d)(4)(a) as follows:

LDC Section 34-145(d)(4)(a)1 Criteria

a. Complies with the Lee Plan.

The application is consistent with the uses and densities set forth for Urban Community Future Land Use Designation. Additionally, the project will meet or exceed the performance standards set forth in the Land Development Code for planned development zoning districts, except where a deviation is requested for the unique development program for RV resort uses. Refer to the Lee Plan Compliance Section above for a more detailed explanation of the requests compliance with Lee Plan Policies.

b. Meets this Code and other applicable County regulations or qualifies for deviations.

The request will meet or exceed all performance and locational standards set forth for the proposed RVPD, except where a deviation is requested and demonstrates the protection of public health, safety and welfare. In compliance with LDC Section 34-3005 the open storage area shall provide fencing and screening to adjacent residential uses through an 8-foot opaque fence and minimum 6-foot opaque fence when adjacent to the street right-of-way.

c. Is compatible with existing and planned uses in the surrounding area.

The amendment proposed no change to the approved density for the RVPD is at 3.98 dwelling units per acre, which is consistent with allowable density in the Urban Community and Wetland Future Land Use Category. The proposed amendment is compatible with the RV uses to the north in Cypress Trails, the existing uses within the Cypress Woods RV Resort, light industrial uses to the west and agricultural uses to the east. LDC requirements for the accessory casita units will ensure these structures are not used as conventional dwelling units. The development regulations for “Casitas” similar to Phase 5 of the development will serve to assure this accessory use is of appropriate scale and size for the development and surrounding area. In compliance with LDC Section 34-3005 the open storage for the expanded RV & Boat Storage as well as the “Maintenance Area” for the development shall provide fencing and screening to adjacent residential uses through an 8-foot opaque fence and minimum 6-foot opaque fence when adjacent to the street right-of-way.

d. Will provide access sufficient to support the proposed development intensity.

Access will be provided from Brightwood Drive and eventually to Luckett Road. A secondary access point to the north into the Cypress Trails RV Resort will provide emergency access to the development per the 2019 Administrative Amendment. Proposed amendment revises the existing Master Concept Plan to clean up and correctly identify the location of the established permanent emergency access point.

e. The expected impacts on transportation facilities will be addressed by existing County regulations and conditions of approval.

Approval of the request will not have a significant impact upon the surrounding roadway network. The amendment will not increase the density of the overall project currently approved and additional access is limited to landscape maintenance vehicle will therefore have no impact on trip generation.

f. Will not adversely affect environmentally critical or sensitive areas and natural resources.

This request will not adversely affect environmentally critical areas and natural resources. The project will maintain all preserve and restored preserve areas with credits in compliance with the LDC. Open space will also be provided in compliance with LDC Chapters 10 and 34.

g. Will be served by urban services, defined in the Lee Plan, if located in a Future Urban area category.

The Project is served by urban services, as defined in the Lee Plan, as it is located within a Future Urban area category. Public infrastructure and services are currently available to service the development.

LDC Section 34-145(d)(4)(a)2 Criteria

a. The proposed use or mix of uses is appropriate at the proposed location.

The proposed RVPD and accessory RVPD uses are appropriate for the proposed location which has the necessary infrastructure and is surrounded by compatible uses. The proposed amendment includes the addition of the accessory use of “Casita” now common accessory uses to RV resort and approved for Phase VI of this development. The proposed amendment also includes the addition of a maintenance area that is limited to the use of maintaining the proposed RVPD development which is again a common use within RV developments and assures the upkeep of the development is kept meeting the desired aesthetic of the interior and exterior of the development.

b. The recommended conditions provide sufficient safeguards to the public interest and are reasonably related to the impacts on the public's interest expected from the proposed development.

The proposed amendment does not propose any increase in density or in traffic generation. The existing development already contains safeguards in place to protect the public interest and these will continue to be in place with a 40-foot buffer around the development, 8-foot project wall/fence along the Lockett Road right of way and visual screening in line with LDC requirement for outdoor storage areas.

c. If the application includes deviations pursuant to section 34-373(a)(9), that each requested deviation:

- 1) Enhances the achievement of the objectives of the planned development; and**
- 2) Preserves and promotes the general intent of this Code to protect the public health, safety and welfare.**

Please see Schedule of Deviations and Justification addressing how the proposed deviations enhance the objectives of the RVPD and preserves and promotes public health, safety and welfare.

VI. Conclusion

The proposed RVPD amendment will address sound planning principles that are currently of interest to Lee County and Caloosahatchee Shores Planning Community. The Property is adjacent to existing development on all sides, including similar RV development to the north. The site will be well separated from the active agricultural uses to the east via the expansive on-site preserve area and FPL easement. The proposed amendment is requesting to allow uses more in line with those approved for Phase 5 of the development including “Casitas”.

In summary, approval of this request will allow the Cypress Woods to accommodate new market demand for RV resorts in the form of “Casitas” and additional on-site storage by efficiently

maximizing use of unused land such as the FPL easement along the eastern portion of the development. The proposed amendment will allow RV residents to enjoy long term use of the resort without having to look outside to fulfill storage and long term housing needs. The proposed changes are consistent with the underlying Future Land Use category and the proposed uses are compatible with the surrounding land use pattern. The proposed rezoning will meet or exceed the standards set forth in the LDC for planned developments, except where a deviation has been requested. For these reasons, the Applicant respectfully requests approval of this amendment as proposed.
