**Re: Small Scale Amendment to the Lee Plan,
Adoption Submission Package
CPA2022-00016, Barrett Park**

Dear Ms. Powell,

In accordance with the provisions of F.S. Chapter 163.3187(1), this submission package constitutes the adoption of a Small Scale Comprehensive Plan Amendment known locally as CPA2022-00016 (Barrett Park). The adopted amendment is being submitted through the small scale review process as described in F.S. Chapter 163.3187(1). The amendment is as follows:

CPA2022-00016, Barrett Park: The proposed amendment to the future land use map changes 20.14 +/- acres from the Sub-Outlying Suburban future land use category to the Urban Community future land use category. (Adopted by Lee County Ordinance 23-17)

The Local Planning Agency held a public hearing for this plan amendment on May 22, 2023. The Lee County Board of County Commissioners held an adoption hearing to adopt the above identified ordinance for the plan amendment on June 21, 2023.

This small scale amendment to the Lee Plan consists of +/- 20.14 acres and is the fourth small scale amendment processed by Lee County this calendar year. The cumulative total number of acres for small scale amendments Lee County has approved during the 2023 calendar year is +/- 131.36 acres.

The adopted small-scale comprehensive plan amendment is not within an area of critical state concern, nor does it involve a site within a rural area of critical economic concern.

The name, title, address, telephone number, and email address of the person for the local government who is most familiar with the proposed amendment is as follows:

Mr. Brandon Dunn, Interim Manager
Lee County Planning Section
P.O. Box 398
Fort Myers, Florida 33902-0398
(239) 533-8585
Email: bdunn@leegov.com

By copy of this letter and its attachments, I certify that this amendment and supporting data and analysis have been sent on this date to the agencies listed below.

Sincerely,
Lee County Department of Community Development

Brandon Dunn
Interim Manager, Community Development Operations
Planning Section

NOTICE OF PROPOSED AMENDMENT TO THE LEE COUNTY COMPREHENSIVE LAND USE PLAN (ADOPTION HEARING)

The Lee County Board of County Commissioners will hold a public hearing to consider the adoption of proposed amendments to the Lee County Comprehensive Land Use Plan (Lee Plan) on Wednesday, June 21, 2023. The hearing will commence at 9:30 a.m., or as soon thereafter as can be heard, in the Board Chambers, 2120 Main Street in Downtown Fort Myers.

The Board proposes to adopt an ordinance amending the Lee Plan as follows:

CPA2022-00016 Barrett Park Amend Lee Plan Map 1-A to redesignate the ±20.14 acre property from the Sub-Outlying Suburban future land use category to the Urban Community future land use category.

Copies of this Notice and the proposed ordinance are available for inspection or copying during regular business hours at the Minutes Office of the Clerk of Courts of Lee County. The Minutes Office is located in the Courthouse Administration Building, 2115 Second Street, Fort Myers, Florida. This meeting is open to the public. Interested parties may appear at the meeting and be heard with respect to the proposed plan amendment. A verbatim record of the proceeding will be necessary to appeal a decision made at this hearing.

It is the intent of the Board of County Commissioners that the provisions of this Ordinance may be modified as a result of consideration that may arise during Public Hearing(s). Such modifications shall be incorporated into the final version.

Lee County will not discriminate against individuals on the basis of race, color, national origin, sex, age, disability, religion, income or family status. To request language interpretation, document translation or an ADA-qualified reasonable modification at no charge to the requestor, contact Joan LaGuardia, (239) 839-6038, Florida Relay Service 711, at least five business days in advance. El Condado de Lee brindará servicios de traducción sin cargo a personas con el idioma limitado del inglés.
 AD #5722134 June 9, 2023

LEE COUNTY ORDINANCE NO. 23-17

AN ORDINANCE AMENDING THE LEE COUNTY COMPREHENSIVE PLAN TO ADOPT A SMALL SCALE AMENDMENT (CPA2022-00016) PERTAINING TO BARRETT PARK; PROVIDING FOR PURPOSE, INTENT AND SHORT TITLE; ADOPTION OF SMALL SCALE AMENDMENT TO LEE PLAN MAP 1-A, THE FUTURE LAND USE MAP AND TABLE 1(B); LEGAL EFFECT OF THE "LEE PLAN"; PERTAINING TO MODIFICATIONS THAT MAY ARISE FROM CONSIDERATION AT PUBLIC HEARING; GEOGRAPHICAL APPLICABILITY; SEVERABILITY; INCLUSION IN CODE, CODIFICATION AND SCRIVENER'S ERRORS, AND AN EFFECTIVE DATE.

WHEREAS, the Lee County Comprehensive Plan ("*Lee Plan*") and Chapter XIII, provides for adoption of amendments to the Plan in compliance with State statutes and in accordance with administrative procedures adopted by the Board of County Commissioners ("*Board*"); and

WHEREAS, the Board, in accordance with Section 163.3181, Florida Statutes, and Lee County Administrative Code AC-13-6, provide an opportunity for private individuals to request amendment to the Future Land Use Map through a small scale amendment public hearing process; and

WHEREAS, the Local Planning Agency ("*LPA*") held a public hearing on the adoption of the proposed amendment on May 22, 2023. At that hearing the LPA found the proposed amendment to be consistent with the Lee Plan and recommended that the Board adopt the amendment; and

WHEREAS, the Board held a public hearing for the adoption of the proposed amendment on June 21, 2023. At that hearing, the Board approved a motion to adopt proposed amendment CPA2022-00016 pertaining to Barrett Park, amending Map 1-A of the Lee Plan, the Future Land Use Map and Table 1(b). The subject parcel is located between Pondella Road and Pine Island Road.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF LEE COUNTY, FLORIDA, THAT:

SECTION ONE: PURPOSE, INTENT AND SHORT TITLE

The Board of County Commissioners of Lee County, Florida, in compliance with Chapter 163, Part II, Florida Statutes, and with Lee County Administrative Code AC-13-6, conducted a public hearing to review a proposed small scale amendment to the Future

Land Use Map Series of the Lee Plan. The purpose of this ordinance is to adopt the amendment to the Lee Plan discussed at that meeting and later approved by a majority of the Board of County Commissioners. The short title and proper reference for the Lee County Comprehensive Land Use Plan, as hereby amended, will continue to be the "Lee Plan." This amending ordinance may be referred to as the "Barrett Park (CPA2022-00016)".

SECTION TWO: ADOPTION OF SMALL SCALE AMENDMENT TO LEE PLAN FUTURE LAND USE MAP SERIES, MAP 1A AND TABLE 1(B)

The Lee County Board of County Commissioners hereby amends the existing Lee Plan, adopted by Ordinance Number 89-02, as amended, by adopting an amendment to the Future Land Use Map Series, Map 1A, the Future Land Use Map to designate ±20.14 acres from Sub-Outlying Suburban to Urban Community, and amend Table 1(b) 2045 Population Allocation to accommodate residential development on the subject property. The subject parcel is located between Pondella Road and Pine Island Road. The corresponding staff report and analysis, along with all attachments for this amendment, are adopted as "support documentation" for the Lee Plan.

SECTION THREE: LEGAL EFFECT OF THE "LEE PLAN"

No public or private development will be permitted except in conformity with the Lee Plan. All land development regulations and land development orders must be consistent with the Lee Plan as amended.

SECTION FOUR: MODIFICATION

It is the intent of the Board of County Commissioners that the provisions of this Ordinance may be modified as a result of consideration that may arise during Public Hearing(s). Such modifications shall be incorporated into the final version.

SECTION FIVE: GEOGRAPHIC APPLICABILITY

The Lee Plan is applicable throughout the unincorporated area of Lee County, Florida, except in those unincorporated areas included in joint or interlocal agreements with other local governments that specifically provide otherwise.

SECTION SIX: SEVERABILITY

The provisions of this ordinance are severable and it is the intention of the Board of County Commissioners of Lee County, Florida, to confer the whole or any part of the powers herein provided. If any of the provisions of this ordinance are held unconstitutional by a court of competent jurisdiction, the decision of that court will not affect or impair the remaining provisions of this ordinance. It is hereby declared to be the legislative intent of the Board of County Commissioners that this ordinance would have been adopted had the unconstitutional provisions not been included therein.

SECTION SEVEN: INCLUSION IN CODE, CODIFICATION AND SCRIVENERS' ERROR

It is the intention of the Board of County Commissioners that the provisions of this ordinance will become and be made a part of the Lee County Code. Sections of this ordinance may be re-numbered or re-lettered and the word "ordinance" may be changed to "section," "article" or other appropriate word or phrase in order to accomplish this intention; and regardless of whether inclusion in the code is accomplished, sections of this ordinance may be renumbered or relettered. The correction of typographical errors that do not affect the intent may be authorized by the County Manager, or his designee, without need of a public hearing, by filing a corrected or re-codified copy with the Clerk of the Circuit Court.

SECTION EIGHT: EFFECTIVE DATE

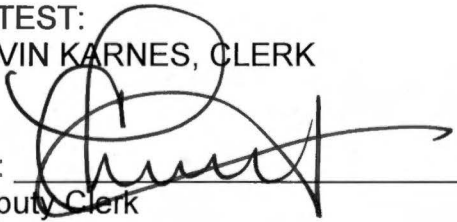

The small scale Lee Plan amendment adopted by this ordinance will be effective 31 days after adoption unless challenged within 30 days after adoption. If challenged within 30 days after adoption, the small scale amendment to the Lee Plan will not be effective until the Florida Department of Economic Opportunity or the Administrative Commission issues a final order determining the small scale amendment is in compliance with Florida Statutes, Section 163.3184. No development orders, development permits or land uses dependent on this amendment may be issued or commence before the amendment has become effective.

Commissioner Ruane made a motion to adopt the foregoing ordinance, seconded by Commissioner Sandelli. The vote was as follows:

Kevin Ruane	Aye
Cecil L Pendergrass	Aye
Raymond Sandelli	Aye
Brian Hamman	Aye
Mike Greenwell	Aye

DONE AND ADOPTED this 21st day of June 2023.

Small-Scale Map Amendment to the Lee Plan

Recommendation:

Adopt

Applicant:

Lee County Housing
Authority

Representative:

Daniel DeLisi, AICP

Property Location:

9251-9500 Westcreek Cir,
North Fort Myers, FL

Property Size:

± 20.14

Planning District:

North Fort Myers

Commissioner District:

District #4

Hearing Dates:

LPA: 05/22/23

BoCC #1: 06/21/23

Attachments:

1: Proposed Amendments

REQUEST

- Amend the Future Land Use Map designation on ±20.14 acres from Sub-Outlying Suburban to Urban Community.
- Amend Table 1(b): 2045 Population Allocation to accommodate residential development on the subject property.

SUMMARY

The requested amendments will allow for the redevelopment of an existing affordable housing neighborhood, increasing the number of dwelling units from 50 to 200.

PROJECT LOCATION

The subject property is located on Barrett Road between Pondella Road and Pine Island Road.

RECOMMENDATION

Staff recommends that the Board of County Commissioners **adopt** the requested amendments based on the analysis and findings provided in this staff report.

PART 1 STAFF DISCUSSION AND ANALYSIS

CONCURRENT REZONING

The applicant has filed a companion rezoning application (DCI2022-00063) which is being reviewed concurrently with this plan amendment request. The applicant is seeking to rezone the property from Residential Single Family (RS-1) to Residential Planned Development (RPD) to allow multifamily residential development.

Florida Statutes Chapter 163.3184(12) provides that “At the request of an applicant, a local government shall consider an application for zoning changes that would be required to properly enact any proposed plan amendment transmitted pursuant to this subsection.” This requires that Lee County provide concurrent review of the rezoning request.

Even with the recommended adoption of the proposed amendments, the applicant must demonstrate consistency with the Lee Plan, including the proposed amendments, in order for the companion rezoning to receive a favorable recommendation.

SUBJECT PROPERTY

The subject property is currently zoned RS-1 and contains 50 single-family affordable housing units. The subject property was designated as Sub-Outlying Suburban through Ordinance 07-09, the adopting ordinance of CPA2005-00040. Prior to adoption of CPA2005-00040, the property was designated as Outlying Suburban. The Outlying Suburban future land use category allows for a maximum standard density of 3 dwelling units per acre and does not allow for bonus density; however, the subject property and surrounding area were limited to 2 dwelling units per acre through specific language in the Outlying Suburban future land use category at that time.

Prior to the subject property being designated as Outlying Suburban, it was designated as Suburban. The property was within the Suburban future land use category from the inception of the Lee Plan until 1993, when Plan Amendment (PAM) 91-10 was adopted. Plan Amendment 91-10 changed the subject parcel and surrounding area from a mix of Suburban, Central Urban, and Intensive Development to Outlying Suburban. These categories have maximum standard densities ranging from 6 dwelling units an acre to 14 dwelling units an acre.

SURROUNDING PROPERTIES

Nearby uses are primarily residential homes within the Sub-Outlying Suburban and Suburban future land use categories and commercially zoned properties in the Commercial future land use category. Additional detail is provided in Table 1, below.

TABLE 1: SURROUNDING PROPERTIES INFORMATION

	Future Land Use	Zoning	Existing Use
North	Sub-Outlying Suburban	RS-1	Single-Family Residential
East	Sub-Outlying Suburban	RS-1 & RPD, approved for 32 units on ±24 acres	Single-Family Residential & Vacant
South	Suburban	RS-1 & RM-2	Single-Family Residential
West	Sub-Outlying Suburban, Commercial, & Conservation	RS-1 and CPD, approved for 575,000 SF of Commercial on ±39 acres	Single-Family Residential & DOT Operations Facility

Following the changes to the Future Land Use Map from PAM 91-10 and CPA2005-00040, the North Fort Myers Community Plan goal was adopted into the Lee Plan through the adoption of CPA2007-00056. Included in CPA2007-00056 was a Future Land Use Map amendment to redesignate approximately 85.30 acres northwest of the subject property from Suburban, Central Urban, and Sub-Outlying Suburban to Commercial and Conservation Lands. This change was intended to allow property owners to develop in a similar fashion to lands along Pine Island Road within the City of Cape Coral without having to incorporate.

DISCUSSION AND ANALYSIS – MAP 1-A: FUTURE LAND USE MAP

The applicant is requesting to amend the future land use category of the subject property from Sub-Outlying Suburban to Urban Community to allow higher density on the subject property. The current future land use category allows for up to two dwelling units per acre. The proposed future land use category would allow up to six dwelling units per acre with the opportunity to pursue bonus density of 10 dwelling units per acre.

Policy 1.1.4 describes the Urban Community future land use category as “a mixture of relatively intense commercial and residential uses.” Properties to the west are within the Commercial future land use category and have been since 2009. Parcels further north on Barrett Road, within the boundaries of the City of Cape Coral, are currently being developed as multi-family residential properties. The mixture of uses between Pine Island Road and Pondella Road are consistent with the proposed future land use category.

Policy 1.1.11 describes the Sub-Outlying Suburban future land use category as areas of low-density residential uses where infrastructure to support higher density development is not planned or in place. This description is no longer representative of the uses that are within the surrounding area or the level of public infrastructure that is available to the subject property. Multi-family housing is currently under construction within a quarter-mile of the subject parcel, and the adjacent future land use category supports high-intensity commercial uses. The “Service Availability” section of this report analyzes the infrastructure that is available to support the proposed amendment.

Objective 2.2 provides that new development should be directed “to those portions of the future urban areas where adequate public facilities exist or are assured and where compact and contiguous development patterns can be created.” The proposed amendments will allow for an in-fill development project that provides housing within an area where public facilities and services already exist. Consistent

with **Policy 4.1.1** and **Policy 4.1.2**, the subject property is able to connect to potable water and sanitary sewer, as identified in the letter of service availability from Lee County Utilities.

The proposed change to the Future Land Use Map will increase the allowable density on the subject property. As such the proposed amendment should be reviewed for consistency with **Policy 5.1.2** which prohibits residential development “where physical constraints exist, or require the density and design to be adjusted accordingly.” The Policy provides that such constraints or hazards may include flood, storm, or hurricane hazards; unstable soil or geological conditions; environmental limitations; aircraft noise; or other characteristics that may endanger the residential community. There are no characteristics of the property that would prohibit residential development. The subject property is located outside of the Coastal High Hazard Area and is primarily in FEMA Flood Zone X (shaded). A small portion of the property is located in Flood Zone AE, but the majority of the area within Flood Zone AE is in areas designated as preserve or retention on the Master Concept Plan submitted for DCI2022-00063. The proposed amendment is consistent with Policy 5.1.2.

Policy 5.1.3 directs high-density residential developments to locations near employment and shopping centers. The property is centrally located between Pine Island Road, Pondella Road, and US-41, all of which are arterial roadways with commercial uses to support potential residents. This location is also within five miles of downtown Fort Myers, a major employment center for Lee County.

The subject property falls within the North Fort Myers Community Plan Area. Consistent with **Policy 17.3.2**, the applicant conducted a public information meeting within the boundary of the North Fort Myers Community Plan Area on April 4, 2023. A summary of the meeting provided by the applicant states that there were no concerns expressed by those in attendance. At the meeting, the North Fort Myers Design Review Board voted to express support for the project.

Objective 30.1 of the Lee Plan supports the creation of affordable housing options in safe and attractive neighborhoods in the North Fort Myers Community Plan Area, consistent with the applicant’s intended use of the subject property. The amendment will accommodate 150 additional affordable units in an area that has included affordable housing for approximately three decades.

Policy 135.1.2 states that the county will work to form public-private partnerships to produce affordable housing with various non-profits, such as the applicant for the subject case. The concurrent rezoning application includes a provision for bonus density on the subject property, in which the applicant has indicated that the owner intends to provide affordable housing on the site.

Dwelling unit types in the surrounding area have been primarily single-family homes. Recently, multi-family apartments and townhomes have been approved north of the subject property on Barrett Road within the boundaries of the City of Cape Coral. An additional multi-family housing option at this location supports the Lee Plan’s goal of providing different housing options in safe and attractive neighborhoods and is consistent with recent approvals in this area. Allowing for density on the subject property that supports multi-family housing options would further **Objective 135.1, Policy 135.1.9, and Policy 158.1.9** by diversifying the mix of residential unit types within Lee County.

Based on the analysis above, redesignating the subject property from Sub-Outlying Suburban to Urban Community is found to be appropriate and consistent with the Lee Plan.

DISCUSSION AND ANALYSIS – TABLE 1(b): YEAR 2045 ALLOCATIONS

In addition to the requested Future Land Use Map Amendment, staff recommends an amendment to Table 1(b). This amendment is necessary to maintain internal consistency with the 2045 Lee County population accommodations and **Policy 1.6.5** of the Lee Plan at time of development order. The Table 1(b) amendment would provide residential acres for the Urban Community future land use category in the North Fort Myers Planning District, consistent with Lee Plan **Goal 5**, which is to provide sufficient land in appropriate locations on the Future Land Use Map to accommodate the 2045 projected population of Lee County. The proposed amendments include adding seven acres of residential development to the Urban Community future land use category in Planning District 19 (North Fort Myers) and subtracting 10 residential acres in the Sub-Outlying Suburban future land use category and 42 acres in the Suburban future land use category of Planning District 19 in order to make the population balance countywide. The proposed changes to Table 1(b) are identified in Attachment 1.

SERVICE AVAILABILITY

The proposed amendment to the Future Land Use Map would increase the allowable density on the subject property. There are adequate potable water, sanitary sewer, solid waste, police, fire/EMS, and school services to accommodate anticipated development on the subject property.

Transportation: The subject property is located on Barrett Road, a two lane undivided road classified by Lee County Department of Transportation as a Major Collector.

Short Range Impacts: Proposed change will not cause any roadway link to fall below the recommended minimum acceptable Level of Service thresholds.

Long Range Impacts: Proposed change will not cause any roadway link to fall below the recommended minimum acceptable Level of Service thresholds.

Transportation concurrency is non-regulatory per Florida Statutes Section 163.3180 and Lee Plan **Policy 95.1.3**, which provides “Compliance with non-regulatory LOS standards will not be a requirement for continued development permitting, but will be used for facility planning purposes.”

Mass Transit: The subject property is not within ¼ mile of a fixed route corridor and is further than ¼ mile of the nearest bus stop. The 2020 Transit Development Plan does not identify the need for enhanced or additional transit services in the area.

Utilities: The subject property is within the Lee County Utilities future potable water and sanitary sewer service areas as identified on Lee Plan Maps 4-A and 4-B. Lee County Utilities has provided a letter stating that adequate potable water and sanitary sewer services are available to support the increased density.

Solid Waste: The subject property has access to solid waste services. Solid waste collection services will be provided by Lee County using the Lee County Resource Recovery Facility and the Lee-Hendry Regional Landfill.

Fire: The North Fort Myers Fire District indicated that they are capable of providing fire protection to the subject property.

EMS: The subject property has access to Emergency Medical Services. Lee County Emergency Medical Services indicated that they will be able to serve the property from Medic 7 located 2.2 miles from the property. Two other locations are within 5 miles of the property.

Police: The Lee County Sheriff's Office will provide law enforcement services primarily from the North District offices in North Fort Myers. The Sheriff indicated in a letter that development of the subject property will not affect the ability of the Lee County Sheriff's Office to provide core services at this time. The Sheriff's Office requests a Crime Prevention through Environmental Design report at the time of Development Order.

Schools: The School District of Lee County provided a letter stating that capacity is an issue within the Concurrency Service Area (CSA) at the elementary school level, however, capacity is available in the adjacent CSA.

CONCLUSIONS

The proposed amendment will support the Lee Plan's aim to provide affordable, diverse housing options, allowing a density range of 1 dwelling unit per acre to 6 dwelling units per acre, with the potential for bonus density up to 10 dwelling units per acre. The increase in density from the map amendment is consistent with the original Future Land Use Map designation on the subject property. The proposed amendments will allow the applicant to redevelop an existing affordable housing neighborhood to increase Lee County's affordable housing stock.

Staff has reviewed the proposed amendments and provides the following conclusions.

- Similar developments in the surrounding area support the proposed increase in density.
- There are adequate public services available to accommodate anticipated development on the subject property, consistent with Objective 2.2.
- The proposed amendments will not cause any roadway link to fall below the recommended Level of Service in either the 5-year or 10-year planning horizon.
- There are no characteristics of the property that would prohibit residential development, consistent with Policy 5.1.2.
- The proposed amendments will encourage and support multi-family housing options, furthering Objective 135.1, Policy 135.1.9, and Policy 158.1.9.
- The concurrent rezoning request will provide opportunities to address compatibility with surrounding uses.

For the reasons discussed in this staff report, staff recommends that the Board of County Commissioners **adopt** the proposed amendments as provided in Attachment 1.

PART 2
LOCAL PLANNING AGENCY
REVIEW AND RECOMMENDATION

DATE OF PUBLIC HEARING: May 22, 2023

A. LOCAL PLANNING AGENCY REVIEW

The applicant's representatives provided a presentation addressing the requested amendments, subject property, existing and proposed future land use categories, surrounding uses, consistency with the Lee Plan, and concurrent rezoning.

Members of the LPA had questions about: how the community meeting was advertised, what improvements to Barrett Road will be required of the development, how Lee County Housing Authority is funded, and what will happen to the current residents during construction of the multi-family buildings.

Following this, staff made a presentation addressing the requested amendments, subject property, and consistency with the Lee Plan and staff recommendation.

There was one public comment on the proposed amendment. The public comment addressed the advertisement of the community meeting and appropriateness of the surrounding area for the proposed amendment.

B. LOCAL PLANNING AGENCY RECOMMENDATION

A motion was made to recommend that the Board of County Commissioners (BoCC) ***adopt*** CPA2022-00016. The motion passed 4 to 0.

RAYMOND BLACKSMITH	<u>AYE</u>
KEITH DEAN	<u>AYE</u>
DUSTIN GARDNER	<u>ABSENT</u>
DAWN RUSSELL	<u>ABSENT</u>
DON SCHROTENBOER	<u>AYE</u>
STAN STOUDE	<u>AYE</u>
HENRY ZUBA	<u>ABSENT</u>

C. STAFF RECOMMENDATION

Staff recommends that the BoCC ***adopt*** the proposed amendment as provided in Attachment 1.

**PART 3
BOARD OF COUNTY COMMISSIONERS
ADOPTION HEARING**

DATE OF PUBLIC HEARING: June 21, 2023

A. BOARD REVIEW:

Staff provided a brief presentation for the proposed amendment which included LPA and staff recommendations and an overview of the proposed amendment, including impacts to the surrounding area, Lee Plan consistency, and transportation impacts.

There was one public comment concerning the proposed amendments. This comment asked for the length of time that affordable housing would be provided and the income levels that will be served by the proposed development.

The Board asked what the extent of the redevelopment would be, staff and the applicant clarified that the concurrent rezoning is proposing to replace the existing 50 affordable units with a 200 unit affordable housing development within the same development footprint as the existing 50 units.

B. BOARD ACTION:

A motion was made to adopt CPA2022-00016 as recommended by staff and the LPA. The motion passed 5 to 0.

VOTE:

MIKE GREENWELL	<u>AYE</u>
BRIAN HAMMAN	<u>AYE</u>
CECIL PENDERGRASS	<u>AYE</u>
KEVIN RUANE	<u>AYE</u>
RAY SANDELLI	<u>AYE</u>

APPLICATION FOR A COMPREHENSIVE PLAN AMENDMENT - MAP

ProjectName: Barrett Park

ProjectDescription: Amend the future land use map for a 20.14 acre from Sub-Outlying Suburban to Urban Community to allow for the Redevelopment of affordable housing community.

Map(s) to Be Amended: Future Land Use Mapp

State Review Process: ☒ Small-Scale Review ☐ State Coordinated Review ☐ Expedited State Review

1. **Name of Applicant:** Lee County Housing Authority

Address: 14170 Warner Circle

City, State, Zip: North Fort Myers, FL 33903

Phone Number: 239-360-8040

E-mail: marcus@lchauthority.org

2. **Name of Contact:** Daniel DeLisi, AICP

Address: 520 27th Street

City, State, Zip: West Palm Beach, FL 33407

Phone Number: 239-913-7159

E-mail: dan@delisi-inc.com

3. **Owner(s) of Record:** See applicant information.

Address: _____

City, State, Zip: _____

Phone Number: _____

E-mail: _____

4. **Property Location:**

1. SiteAddress: 9251-9500 Westcreek Cir., North Fort Myers, FL

2. STRAP(s): 04-44-24-06-00000.0010

5. **Property Information:**

Total Acreage of Property: 20.14 acres

Total Acreage Included in Request: 20.14

Total Uplands: 20.14

Total Wetlands: 0

Current Zoning: RS-1

Current Future Land Use Category(ies): Sub-Outlying Suburban

Area in Each Future Land Use Category: 20.14 acres

Existing Land Use: Residential units.

6. **Calculation of maximum allowable development under current Lee Plan:**

Residential Units/Density: 50 units

Commercial Intensity: N/A

Industrial Intensity: N/A

7. **Calculation of maximum allowable development with proposed amendments:**

Residential Units/Density: 200 Units

Commercial Intensity: N/A

Industrial Intensity: N/A

Public Facilities Impacts

NOTE: The applicant must calculate public facilities impacts based on the maximum development.

1. Traffic Circulation Analysis: The analysis is intended to determine the affect of the land use change on the Financially Feasible Highway Plan Map 3A (20-year plus horizon) and on the Capital Improvements Element (5-year horizon). Toward that end, an applicant must submit a Traffic Impact Statement (TIS) consistent with Lee County Administrative Code (AC)13-17.

- a. Proposals affecting less than 10 acres, where development parameters are contained within the Traffic Analysis Zone (TAZ) or zones planned population and employment, or where there is no change in allowable density/intensity, may be eligible for a TIS requirement waiver as outlined in the Lee County TIS Guidelines and AC-13-17. Identification of allowable density/intensity in order to determine socio-economic data for affected TAZ(s) must be coordinated with Lee County Planning staff. Otherwise a calculation of trip generation is required consistent with AC-13-17 and the Lee County TIS Guidelines to determine required components of analysis for:
 - i. Total peak hour trip generation less than 50 total trip ends – trip generation.
 - ii. Total peak hour trip generation from 50 to 300 total trip ends – trip generation, trip distribution and trip assignment (manual or Florida Standard Urban Transportation Modeling Structure (FSUTMS) analysis consistent with AC-13-17 and TIS Guidelines), short-term (5 year) and long-range (to current Lee Plan horizon year) segment LOS analysis of the nearest or abutting arterial and major collector segment(s) identified in the Transportation Inventory based on the trip generation and roadway segment LOS analysis criteria in AC-13-17. A methodology meeting is recommended prior to submittal of the application to discuss use of FSUTMS, any changes to analysis requirements, or a combined CPA and Zoning TIS short term analysis.
 - iii. Total peak hour trip generation is over 300 total trip ends - trip generation, mode split, trip distribution and trip assignment (manual or FSUTMS analysis consistent with AC-13-17 and TIS Guidelines), short-term (five-year) and long-range (to current Lee Plan horizon year) segment LOS analysis of arterial and collector segments listed in the Transportation Inventory. LOS analysis will include any portion of roadway segments within an area three miles offset from the boundary of the application legal description metes and bounds survey. LOS analysis will also include any additional segments in the study area based on the roadway segment LOS analysis criteria in AC-13-17. A methodology meeting is required prior to submittal of the application.
- b. Map amendment - greater than 10 acres -Allowable density/intensity will be determined by Lee County Planning staff.

2. Provide an existing and future conditions analysis for the following (see Policy 95.1.3):

- a. Sanitary Sewer
- b. Potable Water
- c. Surface Water/Drainage Basins
- d. Parks, Recreation, and Open Space
- e. Public Schools

Analysis for each of the above should include (but is not limited to) the following (see the Lee County Concurrency Management Report):

- a Franchise Area, Basin, or District in which the property is located
- b Current LOS, and LOS standard of facilities serving the site
- c Projected 2030 LOS under existing designation
- d Projected 2030 LOS under proposed designation
- e Existing infrastructure, if any, in the immediate area with the potential to serve the subject property
- f Improvements/expansions currently programmed in 5 year CIP, 6-10 year CIP, and long range improvements
- g Provide a letter of service availability from the appropriate utility for sanitary sewer and potable water

In addition to the above analysis, provide the following for potable water:

- a. Determine the availability of water supply within the franchise area using the current water use allocation (Consumptive Use Permit) based on the annual average daily withdrawal rate.
- b. Include the current demand and the projected demand under the existing designation, and the projected demand under the proposed designation.
- c. Include the availability of treatment facilities and transmission lines for reclaimed water for irrigation.
- d. Include any other water conservation measures that will be applied to the site (see Goal 54).

3. Provide a letter from the appropriate agency determining the adequacy/provision of existing/proposed support facilities, including:

- a. Fire protection with adequate response times
- b. Emergency medical service (EMS) provisions
- c. Law enforcement
- d. Solid Waste
- e. Mass Transit
- f. Schools

In reference to above, the applicant must supply the responding agency with the information from application items 5, 6, and 7 for their evaluation. This application must include the applicant's correspondence/request to the responding agency.

Environmental Impacts

Provide an overall analysis of the character of the subject property and surrounding properties, and assess the site's suitability for the proposed change based upon the following:

1. A map of the Plant Communities as defined by the Florida Land Use Cover and Classification system (FLUCCS).
2. A map and description of the soils found on the property (identify the source of the information).
3. A topographic map depicting the property boundaries and 100-year flood prone areas indicated (as identified by FEMA).
4. A map delineating the property boundaries on the most recent Flood Insurance Rate Map.
5. A map delineating wetlands, aquifer recharge areas, and rare & unique uplands.
6. A table of plant communities by FLUCCS with the potential to contain species (plant and animal) listed by federal, state or local agencies as endangered, threatened or species of special concern. The table must include the listed species by FLUCCS and the species status (same as FLUCCS map).

Impacts on Historic Resources

List all historic resources (including structure, districts, and/or archaeologically sensitive areas) and provide an analysis of the proposed change's impact on these resources. The following should be included with the analysis:

1. A map of any historic districts and/or sites listed on the Florida Master Site File which are located on the subject property or adjacent properties.
2. A map showing the subject property location on the archaeological sensitivity map for Lee County.

Internal Consistency with the Lee Plan

1. Discuss how the proposal affects established Lee County population projections, Lee Plan Table 1(b) and the total population capacity of the Lee Plan Future Land Use Map.
2. List all goals and objectives of the Lee Plan that are affected by the proposed amendment or that affect the subject property. This analysis should include an evaluation of all relevant policies under each goal and objective.
3. Describe how the proposal affects adjacent local governments and their comprehensive plans.

State Policy Plan and Regional Policy Plan

List State Policy Plan and Regional Policy Plan goals, strategies and actions, and policies which are relevant to this plan amendment.

Justify the proposed amendment based upon sound planning principles

Support all conclusions made in this justification with adequate data and analysis.

Planning Communities/Community Plan Area Requirements

If located within a planning community/community plan area, provide a meeting summary document of the required public informational session [Lee Plan Goal 17].

Sketch and Legal Description

The certified legal description(s) and certified sketch of the description for the property subject to the requested change. A metes and bounds legal description must be submitted specifically describing the entire perimeter boundary of the property with accurate bearings and distances for every line. The sketch must be tied to the state plane coordinate system for the Florida West Zone (North America Datum of 1983/1990 Adjustment) with two coordinates, one coordinate being the point of beginning and the other an opposing corner. If the subject property contains wetlands or the proposed amendment includes more than one land use category a metes and bounds legal description, as described above, must be submitted in addition to the perimeter boundary of the property for each wetland or future land use category.

SUBMITTAL REQUIREMENTS

Clearly label all submittal documents with the exhibit name indicated below.

For each map submitted, the applicant will be required to submit a 24"x36" version and 8.5"x11" reduced map for inclusion in public hearing packets.

MINIMUM SUBMITTAL ITEMS (3 Copies)

<input type="checkbox"/>	Completed Application (Exhibit – M1)
<input type="checkbox"/>	Filing Fee (Exhibit – M2)
<input type="checkbox"/>	Disclosure of Interest (Exhibit – M3)
<input type="checkbox"/>	Surrounding Property Owners List, Mailing Labels, and Map For All Parcels Within 500 Feet of the Subject Property (Exhibit – M3)
<input type="checkbox"/>	Future Land Use Map - Existing and Proposed (Exhibit – M4)
<input type="checkbox"/>	Map and Description of Existing Land Uses (Not Designations) of the Subject Property and Surrounding Properties (Exhibit – M5)
<input type="checkbox"/>	Map and Description of Existing Zoning of the Subject Property and Surrounding Properties (Exhibit – M6)
<input type="checkbox"/>	Signed/Sealed Legal Description and Sketch of the Description for Each FLUC Proposed (Exhibit – M7)
<input type="checkbox"/>	Copy of the Deed(s) of the Subject Property (Exhibit – M8)
<input type="checkbox"/>	Aerial Map Showing the Subject Property and Surrounding Properties (Exhibit – M9)
<input type="checkbox"/>	Authorization Letter From the Property Owner(s) Authorizing the Applicant to Represent the Owner (Exhibit – M10)
<input type="checkbox"/>	Lee Plan Analysis (Exhibit – M11)
<input type="checkbox"/>	Environmental Impacts Analysis (Exhibit – M12)
<input type="checkbox"/>	Historic Resources Impact Analysis (Exhibit – M13)
<input type="checkbox"/>	Public Facilities Impacts Analysis (Exhibit – M14)
<input type="checkbox"/>	Traffic Circulation Analysis (Exhibit – M15)
<input type="checkbox"/>	Existing and Future Conditions Analysis - Sanitary Sewer, Potable Water, Surface Water/Drainage Basins, Parks and Rec, Open Space, Public Schools (Exhibit – M16)
<input type="checkbox"/>	Letter of Determination For the Adequacy/Provision of Existing/Proposed Support Facilities - Fire Protection, Emergency Medical Service, Law Enforcement, Solid Waste, Mass Transit, Schools (Exhibit – M17)
<input type="checkbox"/>	State Policy Plan and Regional Policy Plan (Exhibit – M18)
<input type="checkbox"/>	Justification of Proposed Amendment (Exhibit – M19)
<input type="checkbox"/>	Planning Communities/Community Plan Area Requirements (Exhibit – M20)

APPLICANT – PLEASE NOTE:

Once staff has determined the application is sufficient for review, 15 complete copies will be required to be submitted to staff. These copies will be used for Local Planning Agency hearings, Board of County Commissioners hearings, and State Reviewing Agencies. Staff will notify the applicant prior to each hearing or mail out to obtain the required copies.

If you have any questions regarding this application, please contact the Planning Section at (239)533-8585.

AFFIDAVIT

I, Marcus D. Goodson, certify that I am the owner or authorized representative of the property described herein, and that all answers to the questions in this application and any sketches, data, or other supplementary matter attached to and made a part of this application, are honest and true to the best of my knowledge and belief. I also authorize the staff of Lee County Community Development to enter upon the property during normal working hours for the purpose of investigating and evaluating the request made through this application.

**DISCLOSURE OF INTEREST
AFFIDAVIT**

BEFORE ME this day appeared Marcus Goodson, who, being first duly sworn and deposed says:

1. That I am the record owner, or a legal representative of the record owner, of the property that is located at 9262 Westcreek Circle, North Fort Myers, FL 33903 and is the subject of an Application for zoning action (hereinafter the "Property").

2. That I am familiar with the legal ownership of the Property and have full knowledge of the names of all individuals that have an ownership interest in the Property or a legal entity owning an interest in the Property.

[OPTIONAL PROVISION IF APPLICANT IS CONTRACT PURCHASER: In addition, I am familiar with the individuals that have an ownership interest in the legal entity that is under contract to purchase the Property.]

3. That, unless otherwise specified in paragraph 6 below, no Lee County Employee, County Commissioner, or Hearing Examiner has an Ownership Interest in the Property or any legal entity (Corporation, Company, Partnership, Limited Partnership, Trust, etc.) that has an Ownership Interest in the Property or that has contracted to purchase the Property.

4. That the disclosure identified herein does not include any beneficial Ownership Interest that a Lee County Employee, County Commissioner, or Hearing Examiner may have in any entity registered with the Federal Securities Exchange Commission or registered pursuant to Chapter 517, whose interest is for sale to the general public.

5. That, if the Ownership Interest in the Property changes and results in this affidavit no longer being accurate, the undersigned will file a supplemental Affidavit that identifies the name of any Lee County Employee, County Commissioner, or Hearing Examiner that subsequently acquires an interest in the Property.

6. Disclosure of Interest held by a Lee County Employee, County Commissioner, or Hearing Examiner.

Lee Plan Consistency

Exhibit - M11

The proposed map amendment is consistent with the Lee Plan and is being submitted concurrent with a Planned Development application on the subject property to allow for the development of a 200-unit multi-family community. The map amendment designates the subject property within the Urban Community Future Land Use category. Due to its location, infrastructure availability and surrounding uses the subject property is in an ideal location to provide affordable units to residents of Lee County. Below is an analysis of how the proposed rezoning implements the goals, objectives and policies of the Lee County Comprehensive Plan.

POLICY 1.1.4: The Urban Community future land use category are areas characterized by a mixture of relatively intense commercial and residential uses. The residential development in these areas will be at slightly lower densities than other future urban categories described in this plan. As vacant properties within this category are developed, the existing base of public services will need to be maintained which may include expanding and strengthening them accordingly. As in the Central Urban future land use category, predominant land uses in this category will be residential, commercial, public and quasi-public, and limited light industrial with future development encouraged to be mixed use, as described in Objective 11.1, where appropriate. The standard density range is from one dwelling unit per acre (1 du/acre) to six dwelling units per acre (6 du/acre), with a maximum total density of ten dwelling units per acre (10 du/acre). The maximum total density may be increased to fifteen dwelling units per acre (15 du/acre) utilizing Greater Pine Island Transfer of Development Units.

The Urban Community land use category allows for a standard density of up to 6 dwelling units per acre and a maximum density of 10 dwelling units per acre for the provision of affordable units. The proposed rezoning requests 200 dwelling units on 20.14 acres, just slightly less than 10 dwelling units per acre. All 200 dwelling units are being proposed as affordable units developed by the Lee County Housing Authority.

POLICY 1.1.11: The Sub-Outlying Suburban future land use category is characterized by low density residential areas. Generally the infrastructure needed for higher density development is not planned or in place. This future land use category will be placed in areas where higher densities would be incompatible or where there is a desire to retain a low-density community character. Industrial land uses are not permitted. The standard density range is from one dwelling unit per acre (1 du/acre) to two dwelling units per acre (2 du/acre). Bonus densities are not allowed.

The subject property includes 50 residential units on approximately 20 acres, a density that is greater than the Sub-Outlying Suburban land use category will allow. The Sub-Outlying future land use category was created in 2009, well after the subject property was developed. The purpose of this future land use category, as stated in Policy 1.1.11 is for areas where “the infrastructure needed for higher density development is not planned or in place”. This is simply not the case for subject property. The subject property is surrounded by and in very close proximity to urban services, included multiple schools, parks, a fire station within 1 tenth of a mile, two arterial roads, Pondella and Pine Island Roads that are running parallel and separated by less than a mile. The subject property has direct access to a collector road and is within a half mile of each of the two arterial roads. Furthermore, there are multi family developments on both the north and south sides of Barrett Road less than 1/3 mile in each direction of the subject property. While there are some remaining large lot, lower density residential units, that is more indicative of a neighborhood in transition rather than a land use pattern. The Sub-Outlying Suburban future land use category is inappropriate for the subject property as it currently exists and for the area to more efficiently utilize the urban services that exist.

POLICY 1.5.1: Permitted land uses in Wetlands consist of very low density residential uses and recreational uses that will not adversely affect the ecological functions of wetlands. All development in Wetlands must be consistent with Goal 124. The maximum density is one dwelling unit per twenty acres (1 du/20 acre) except as otherwise provided in Table 1(a) and Chapter XIII.

An approximately 4.3-acre portion of the subject property is wetland. As reflected on the Master Concept Plan, the wetland area on the subject property will remain in conservation.

OBJECTIVE 2.1: DEVELOPMENT LOCATION. Contiguous and compact growth patterns will be promoted through the rezoning process to contain urban sprawl, minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where large tracts of land are bypassed in favor of development more distant from services and existing communities.

The proposed development is an in-fill redevelopment project. The subject property already includes 50 affordable units. There is significant urban development in close proximity of the property on all sides. The location of affordable units on the urban infill property is consistent with the intent of Objective 2.1.

POLICY 2.1.1: Most residential, commercial, industrial, and public development is expected to occur within the designated future urban areas on the Future Land Use Map through the assignment of very low densities to the non-urban categories.

The proposed development is located in a “Future Urban Area” as designated on the Future Land Use Map.

OBJECTIVE 2.2: DEVELOPMENT TIMING. Direct new growth to those portions of the future urban areas where adequate public facilities exist or are assured and where compact and contiguous development patterns can be created. Development orders and permits (as defined in §163.3164, Fla. Stat.) will be granted only when consistent with the provisions of §163.3202(2)(g) and § 163.3180, Fla. Stat. and the concurrency requirements in the LDC.

The subject property is in an existing urban area where public facilities already exist. Schools, parks, fire, EMS, utilities, roads are all located in proximity to the property. Tropical Isles Elementary School and North Fort Myers Highschool are both located approximately ½ mile to the south of the subject property. North Fort Myers Fire State #2 is located approximately 0.1 miles from the subject property. In addition, the property is located in proximity to Lee Tran bus routes, ¼ mile from Bus Routes 595 and 70.

POLICY 2.2.1: Rezoning and DRI proposals will be evaluated as to the availability and proximity of the road network; central sewer and water lines; community facilities and services such as schools, EMS, fire and police protection, and other public facilities; compatibility with surrounding land uses; and any other relevant facts affecting the public health, safety, and welfare.

As stated above, the subject property has access to roads, sewer, water and community facilities. The proposed development is an urban area with urban land uses on all sides and in very close proximity to public services.

GOAL 5: RESIDENTIAL LAND USES. To accommodate the projected population of Lee County in the year 2045 in appropriate locations, guided by the Future Land Use Map, and in attractive and safe neighborhoods with a variety of price ranges and housing types.

The proposed development provides a much-needed housing type – housing priced for low and moderate income families. The proposed rezoning will implement Goal 5 through accommodating additional residential development in an existing urban area for an underserved population.

POLICY 5.1.1: Residential developments requiring rezoning and meeting Development of County Impact (DCI) thresholds must be developed as planned developments except if located within the Mixed Use Overlay.

The proposed development is being rezoned as a Planned Development in accordance with Policy 5.1.1.

POLICY 5.1.2: Prohibit residential development where physical constraints or hazards exist, or require the density and design to be adjusted accordingly. Such

constraints or hazards include but are not limited to flood, storm, or hurricane hazards; unstable soil or geologic conditions; environmental limitations; aircraft noise; or other characteristics that may endanger the residential community.

The subject property is outside of the Coastal High Hazard Area. There are no hazards or limitations on the subject property that would preclude or limit residential development. Any proposed development will have to meet the South Florida Water Management District's storm water, water quality and wetland permitting requirements. The site will be elevated to not be exposed to risk of flooding.

POLICY 5.1.3: During the rezoning process, direct high-density residential developments to locations that are near employment and shopping centers; are close to parks and schools; and are accessible to mass transit and bicycle facilities.

The proposed development is in a location in very close proximity to public facilities and employment centers. The property is within ½ mile of both an Elementary and a high school, within ¼ mile of Lee Tran service and bus stops, and approximately 3.5 miles from downtown Fort Myers, the urban hub of Lee County, and central employment base for both governmental and corporate offices.

POLICY 5.1.5: Protect existing and future residential areas from any encroachment of uses that are potentially destructive to the character and integrity of the residential environment. Requests for conventional rezonings will be denied in the event that the buffers provided in the LDC, Chapter 10, are not adequate to address potentially incompatible uses in a satisfactory manner. If such uses are proposed in the form of a planned development or special exception and generally applicable development regulations are deemed to be inadequate, conditions will be attached to minimize or eliminate the potential impacts or, where no adequate conditions can be devised, the application will be denied altogether. The LDC will continue to require appropriate buffers for new developments.

The proposed rezoning is being done as a planned development to include proper conditions that ensure compatibility with surrounding uses. The proposed development is a redevelopment project and will fit in with the surrounding urban neighborhood.

POLICY 5.1.8: Provide for adequate locations of low- and moderate-income housing through the rezoning process, the provision of public facilities and services, and the elimination of unnecessary administrative and legal barriers.

The proposed development will be comprised entirely of affordable housing, a much-needed housing product in Lee County. The property is ideally located in close proximity to public services and employment centers.

OBJECTIVE 30.1: NEIGHBORHOODS AND HOUSING. To support the creation and preservation of affordable housing options in safe and attractive neighborhoods.

The subject property is currently developed as an affordable housing community. The proposed redevelopment will allow the property to accommodate more affordable units within North Fort Myers in a safe and attractive neighborhood, consistent with Objective 30.1

POLICY 30.1.4: Encourage development of affordable housing options on property with the following characteristics: located within the Intensive Development, Central Urban, and Urban Community on the Future Land Use Map; located where central water/sewer service is available; and located within walking distance of mass transit, commercial and personal services, and parks and recreation facilities.

The proposed redevelopment is located consistent with Policy 30.1.4 and represents an opportunity for redevelopment of an affordable housing neighborhood to accommodate more affordable units. The subject property is located where central water/sewer service is available; and located within walking distance of mass transit, commercial and personal services, and parks and recreation facilities. Lee Tran service is less than a ½ mile from the subject property to both the north and the south, there are several parks located within a two-mile radius of the property, including the North Fort Myers Community Pool, with is less than a mile to the south of the subject property, and North Fort Myers Highschool which is just to the south of the pool. There are commercial areas located within 1-2 miles all along Pine Island Road, Pondella Road and US 41.

POLICY 124.1.1: Ensure that development in wetlands is limited to very low density residential uses and uses of a recreational, open space, or conservation nature that are compatible with wetland functions. The maximum density in the Wetlands category is one unit per 20 acres, except that one single family residence will be permitted on lots meeting the standards in Chapter XIII, and except that owners of wetlands adjacent to Intensive Development, General Interchange, Central Urban, Urban Community, Suburban, New Community, Outlying Suburban, and Sub-Outlying Suburban areas may transfer densities to developable contiguous uplands under common ownership (see Table 1(a)).

As reflected on the Master Concept Plan, the wetland area on the subject property will remain in conservation.

GOAL 125: WATER QUALITY. To ensure that water quality is maintained or improved for the protection of the environment and people of Lee County.

OBJECTIVE 125.1: Maintain high water quality, meeting or exceeding state and federal water quality standards.

POLICY 125.1.2: New development and additions to existing development must not degrade surface and ground water quality.

Any redevelopment of the subject property will be required to obtain an environmental resource permit from the South Florida Water Management District. As part of this permit process the applicant must demonstrate to the SFWMD that development will not degrade water quality. This "reasonable assurance" is necessary for the issuance of the federal Section 404 permit from the Department of Environmental Protection (DEP) and ensures that all State and Federal water quality standards are being met.

POLICY 125.1.3: The design, construction, and maintenance of artificial drainage systems must provide for retention or detention areas and vegetated swale systems that minimize nutrient loading and pollution of freshwater and estuarine systems.

The proposed redevelopment will include both wet and dry detention areas too meet water quality standards.

POLICY 126.1.1: Natural water system features which are essential for retention, detention, purification, runoff, recharge, and maintenance of stream flows and groundwater levels shall be identified, protected, and managed.

The natural creek on the north side of the property is being preserved and will not be impacted.

POLICY 126.1.4: Development designs must provide for maintaining or improving surface water flows, groundwater levels, and lake levels at or above existing conditions.

The natural creek on the north side of the property is being preserved and will not be impacted.

GOAL 135: MEETING HOUSING NEEDS. To provide decent, safe, and sanitary housing in suitable neighborhoods at affordable costs to meet the needs of the present and future residents of the County.

The proposed development implements Goal 135 through providing affordable housing in Lee County.

POLICY 135.1.2: The County will continue efforts to form public-private partnerships to produce affordable housing for very-low, low and moderate-income households with local private non-profit housing agencies, local for profit developers, local lenders, the Lee County Housing Authority (LCHA), and the Lee County Housing Finance Authority (LCHFA).

The plan amendment and rezoning are being proposed by the Lee County Housing Authority. It is the County's stated policy to assist the applicant in the provision of much needed affordable housing.

POLICY 135.1.4: Provide for housing bonus density to stimulate the construction of very-low, low and moderate income affordable housing in Lee County.

The proposed rezoning is requesting approval of bonus density on the property to allow for the entire property to be developed with affordable units.

POLICY 135.1.8: The County will provide through the rezoning process for the location of adequate sites for very-low, low- and moderate-income residential development including mobile homes, and housing for special needs populations as defined in § 420.0004, Fla. Stat.

This rezoning application requests that the county implement Policy 135.1.8 through the approval of the proposed affordable housing development.

OBJECTIVE 135.4: AFFORDABLE HOUSING. The County will provide adequate locations for housing for very-low, low- and moderate-income persons to meet their housing needs. Increasing the supply of affordable housing for very-low and low income housing needs will be a priority. In combination with allowing varied types of housing, the County will examine opportunities to expand affordable housing to mitigate the affordable housing needs identified in the Affordable Housing Needs Assessment.

The proposed development will implement Objective 135.4 through providing affordable housing in Lee County.

POLICY 135.4.12: Encourage affordable housing projects that are consistent with density, use, and land development provisions and located where: County concentrations of very-low and low-income households are avoided; public services are provided; and, environmentally sensitive areas are protected.

The North Fort Myers area is economically diverse, with a number of low, moderate and high income communities. The proposed redevelopment is an opportunity to provide additional affordable units in proximity to major employment centers where affordable housing is needed. Given the diverse nature of the area, the development of the proposed community does not represent a "concentration" of low-income households.

As stated above, the subject property is located in an area where full urban services are available, including utilities, recreational opportunities, schools, employment and transit.

Finally, as demonstrated in the attached protected species survey, the subject property is not located in an area of environmental sensitivity. The property is in a highly urban area and the subject site has already been developed with residential units.

POLICY 135.4.13: Lee County will examine opportunities to increase the availability of affordable housing and provide adequate sites for affordable housing through options such as: alternative use, density, and dimensional standards; expedited permit processing; dedicated funding source; inclusionary housing mitigation programs; linkage fee programs; community land trusts; and, resale controls and equity sharing.

The proposed development requests 200 units on 20.14 acres. In order to provide the product type to meet the needs of the community, additional density is needed. The proposed density request is consistent with Policy 135.4.13.

POLICY 135.4.14: Lee County will maintain the Affordable Housing Bonus Density program which provides bonus density for the provision of site-built affordable dwelling units and provides bonus density for cash contributions into the Lee County Affordable Housing Trust Fund.

The proposed planned development application includes a request for bonus density units, consistent with Policy 135.4.14.

INTRODUCTION

The 20.14± acre project is located within a portion of Section 4, Township 44 South, Range 24 East, North Fort Myers, Lee County, Florida. The land is bordered to the north by single-family homes, to the east by Barrett Road and single-family homes, to the south by commercial and undeveloped land, and to the west by single-family homes and undeveloped land.

SITE CONDITIONS

The majority of the site consists of residential developments with a variety of mowed grasses and scattered trees with an established wetland conservation area in the eastern portion.

VEGETATIVE CLASSIFICATIONS

The predominant vegetation associations were mapped in the field on 2022 digital 1" = 150' scale aerial photography. The project boundary was obtained from the Lee County Property Appraiser's Website and inserted into the digital aerial. Six vegetation associations were identified using the Florida Land Use, Cover and Forms Classification System (FLUCCS). Figure 1 depicts the approximate location and configuration of these vegetation associations and Table 1 summarizes the acreages by FLUCCS Code. A brief description of each FLUCCS Code is provided below. In general, as the density of exotics increases the density and diversity of native plants in the canopy, midstory, and ground cover strata decreases.

Table 1. Acreage Summary by FLUCCS Code

FLUCCS CODE	DESCRIPTION	ACREAGE
110	Residential	13.14
411E	Pine Flatwoods invaded by Exotics (5-9%)	0.46
438E1	Mixed Hardwoods Invaded by Exotics (10-25%)	1.54
510	Stream	0.23
510D	Ditch	0.44
617E2	Mixed Wetland Hardwoods Invaded by Exotics	4.33
Total		20.14

FLUCCS Code 110, Residential

These areas contain single-family homes with mowed bahia grass (*Paspalum notatum*), pusley (*Richardia scabra*), whitehead broom (*Spermacoce verticillata*), and broomsedge (*Andropogon* sp.). Widely scattered live oak (*Quercus virginiana*) and slash pine (*Pinus elliotii*) are also present along with various ornamentals.

An aerial photograph of a residential development site, outlined in yellow. The site is bounded by Barrett Road to the north and east. The development is divided into several tracts and transects, labeled in yellow text:

- Tracts:**
 - 438E1 (1.38 ac.)
 - 510 (0.23 ac.)
 - 434E1 (1.16 ac.)
 - 500 (0.44 ac.)
 - 119 (16.71 ac.)
 - 017E2 (4.33 ac.)
 - 411E (0.45 ac.)
- Transects:**
 - 50' Transects (top left)
 - 50' Transects (right side)
- Other Labels:**
 - Meandering Transects (center)
 - Barrett Road (top and right)

The map shows a mix of developed areas with houses and parking lots, and undeveloped areas with trees and vegetation. The yellow outline indicates the project boundary, while dashed yellow lines delineate the individual tracts and transects.

FLUCCS	Description	Acreage
110	Residential	13.14 ac.
411E	Pine Flatwoods Invaded by Exotics (5-9%)	0.46 ac.
438E1	Mixed hardwoods Invaded by Exotics (10-25%)	1.54 ac.
510	Stream	0.23 ac.
510D	Ditch	0.44 ac.
617E2	Mixed Wetland Hardwoods Invaded by Exotics (26-50%)	4.33 ac.
	Total	20.14 ac.

1. Property boundary was obtained from Delis Inc.
2. Mapping based on photointerpretation of 2022 aerial photography and ground truthing in November 2022.
3. Protected species assessment conducted on November 22, 2022.
4. Delineation of potential jurisdictional features is preliminary and subject to field review/approval by the applicable regulatory agencies.

Barrett Park ±20 Acre Parcel

D B DEXBENDER
ENVIRONMENTAL CONSULTING
FORT MYERS 239-334-3680

FLUCCS Code 411E, Pine Flatwoods Invaded by Exotics (5-9%)

The southernmost portion of the conservation area to the east primarily consists of slash pine with earleaf acacia (*Acacia auriculiformis*) and Brazilian pepper (*Schinus terebinthifolius*).

FLUCCS Code 438E1, Mixed Hardwoods Invaded by Exotics (10-25%)

This area contains live oak, cabbage palm (*Sabal palmetto*), laurel oak (*Quercus laurifolia*), Brazilian pepper (*Schinus terebinthifolius*), guinea grass (*Panicum maximum*), caesarweed (*Urena lobata*), ragweed (*Ambrosia artemisiifolia*), whitehead broom, Spanish needles (*Bidens alba*), grape vine (*Vitis* sp.), and swamp fern (*Blechnum serrulatum*).

FLUCCS Code 510, Stream

A stream running through the northern portion of the site has banks vegetated by cabbage palm, laurel oak, and swamp fern.

FLUCCS Code 510D, Ditch

The drainage ditch within the northern portion of the site consists of coinwort (*Centella asiatica*), pennywort (*Hydrocotyle umbellata*), torpedo grass (*Panicum repens*), joint vetch (*Aeschynomene americana*), willow (*Salix caroliniana*), primrose willow (*Ludwigia* sp.), spikerush (*Eleocharis* sp.), cattail (*Typha* sp.).

FLUCCS Code 617E2, Mixed Wetland Hardwoods Invaded by Exotics

The majority of the east conservation area is inundated with 6"-12" of standing water and contains laurel oak, cabbage palm, live oak, java plum (*Syzygium cumini*), swamp fern, Brazilian pepper, wild coffee (*Psychotria nervosa*), and greenbrier (*Smilax* sp.).

SURVEY METHOD

Lee County Protected Species Ordinance No. 89-34 lists several protected species of animals that could potentially occur on-site based on the general vegetative associations found on the subject parcel. Each habitat type was surveyed for the occurrence of these and any other listed species likely to occur in the specific habitat types. The survey was conducted using meandering linear pedestrian belt transects. This survey methodology is based on the Lee County administratively approved Meandering Transect Methodology. As part of this survey all live trees and snags were inspected for the evidence of cavities that could potentially be used as roosts by the Florida bonneted bat (*Eumops floridanus*). In order to provide at least 80 percent visual coverage of habitat types listed in Ordinance No. 89-34, the transects were spaced approximately 50 feet apart. The approximate locations of all direct sighting or signs (such as tracks, nests, and droppings) of a listed species were denoted on the aerial photography. The 1" = 150' scale aerial Protected Species Assessment map (Figure 1) depicts the approximate location of the survey transects and the results of the survey. The listed species survey was conducted during the mid-morning hours of November 22nd, 2022. During the survey the weather was cool and overcast.

Species listed as endangered, threatened, or species of special concern by the FWC and/or FWS that could potentially occur on the subject parcel according to the Lee County Protected Species Ordinance are shown in Table 2. This list from the Lee County Protected Species Ordinance is general in nature, does not necessarily reflect existing conditions within or adjacent to the 20.14± acre property, and is provided for general informational purposes only.

Prior to conducting the protected species survey, a search of the FWC listed species database was conducted to determine the known occurrence of listed species in the project area. This search revealed no known protected species occurring on or immediately adjacent to the site.

Table 2. Listed Species That Could Potentially Occur On-site

FLUCCS CODE	Percent Survey Coverage	Species Name	Present	Absent
110	80	None		
411	80	Eastern Indigo Snake (<i>Drymarchon corais couperi</i>)		√
		Gopher Tortoise (<i>Gopherus polyphemus</i>)		√
		Red-cockaded Woodpecker (<i>Picoides borealis</i>)		√
		Southeastern American Kestrel (<i>Falco sparverius paulus</i>)		√
		Big Cypress Fox Squirrel (<i>Sciurus niger avicennia</i>)		√
		Florida Panther (<i>Felis concolor coryi</i>)		√
		Beautiful Pawpaw (<i>Deeringothamnus pulchellus</i>)		√
		Fakahatchee Burmannia (<i>Burmannia flava</i>)		√
		Florida Coontie (<i>Zamia floridana</i>)		√
		Satinleaf (<i>Chrysophyllum olivaeforme</i>)		√
438	80	None		
510	80	American Alligator (<i>Alligator mississippiensis</i>)		√
		Little Blue Heron (<i>Egretta caerulea</i>)		√
		Reddish Egret (<i>Egretta rufescens</i>)		√
		Roseate Spoonbill (<i>Ajaia ajaja</i>)		√
		Tricolored Heron (<i>Egretta tricolor</i>)		√
		Everglades Mink (<i>Mustela vison evergladensis</i>)		√

FLUCCS CODE	Percent Survey Coverage	Species Name	Present	Absent

		Florida Panther (<i>Felis concolor coryi</i>)		√

SURVEY RESULTS

Florida Bonneted Bat

No dead trees containing potential cavities entrances were identified (Figure 1). No live trees with cavities or artificial structures were observed on-site.

Other Listed Species

No other species listed by either the FWS or the FWC were observed on the site during the protected species survey conducted November 22nd, 2022. There is the potential for periodic opportunistic foraging by both listed and non-listed species of wading birds within the onsite wetlands, borrow areas, and ditches. In addition to the site inspections, a search of the FWC species database revealed no additional known protected species within or immediately adjacent to the project limits.

- II. EXISTING CONDITIONS**
- III. PROPOSED COMPREHENSIVE PLAN AMENDMENT**
- IV. TRIP GENERATION**
- V. COMPREHENSIVE PLAN AMENDMENT ANALYSIS**
- VI. ZONING ANALYSIS**
- VII. CONCLUSION**

I. INTRODUCTION

TR Transportation Consultants, Inc. has conducted a traffic impact statement to fulfill requirements set forth by the Lee County Department of Community Development for projects seeking an amendment to the Comprehensive Land Use Plan and re-zoning approval. The subject site is located at 9262 Westcreek Circle in Lee County, Florida.

Figure 1 illustrates the approximate location of the subject site.

The analysis in this report will determine the impacts of change in land use on the approximately 20-acre subject site from Sub-Outlying Suburban to Urban Community as well as a zoning amendment to permit the development of up to 200 multi-family residential dwelling units. The transportation related impacts of the proposed Comprehensive Plan amendment will be assessed based on evaluation of the long range impact (20-year horizon) and short range impact (5-year horizon) the proposed amendment would have on the existing and future roadway infrastructure. The transportation related impacts of the proposed rezoning will be evaluated based on the estimated build-out year of the project and the impacts the proposed rezoning will have on the surrounding roadway infrastructure. Access to the subject site will continue be provided to Barrett Road via an existing full site access drive.

This report examines the impact of the development on the surrounding roadways. Trip generation and assignments to the various roadways within the study area will be completed and analysis conducted to determine the impacts of the development on the surrounding roadways.

II. EXISTING CONDITIONS

The subject site is currently occupied by 50 single-family dwelling units, which will be demolished as part of this project. This subject site is generally bordered by residential uses to the north, east, south and west.

Barrett Road is a two lane undivided Major Collector within the vicinity of the subject site. Barrett Road has a posted speed limit of 30 mph and is under the jurisdiction of the Lee County Department of Transportation.

III. PROPOSED COMPREHENSIVE PLAN AMENDMENT

The proposed Map Amendment would change the future land use designation on the approximate 20-acre subject site from Sub-Outlying Suburban to Urban Community. For the trip generation purposes, the permitted development under the existing land use category was assumed to consist of the 50 single-family dwelling units that are currently on site. Under the proposed land use change, the site would be allowed to be developed with up to 200 multi-family residential dwelling units based on 10 units per acre. **Table 1** summarizes the land use that is constructed today under the existing land use designation and the intensity of uses that would be permitted under the proposed land use designation.

Table 1
Comprehensive Plan Amendment
Land Uses

Existing/ Proposed	Land Use Category	Intensity
Existing	Sub-Outlying Suburban	50 Single-Family Dwelling Units *
Proposed	Urban Community	200 Multi-Family Dwelling Units

*Existing development on site.

IV. TRIP GENERATION

The trip generation for the proposed development was determined by referencing the Institute of Transportation Engineer's (ITE) report, titled *Trip Generation Manual*, 11th Edition. Land Use Code 210 (Single-Family Detached Housing) was utilized for the trip generation purposes of the existing single-family residential uses on site. Land Use Code 220 (Multifamily Housing Low-Rise) was utilized for the generation purposes of the proposed development under the proposed Urban Community land use category. The

equations from these land uses are included in the Appendix of this report for reference.

Table 2 outlines the anticipated weekday AM and PM peak hour trip generation based on the existing development on site. **Table 3** outlines the anticipated weekday AM and PM peak hour trip generation based on the proposed land use category. The daily trip generation is also indicated in both tables.

Table 2
Comprehensive Plan Amendment
Trip Generation Based on Existing Use

Land Use	Weekday AM Peak Hour			Weekday PM Peak Hour			Daily (2-way)
	In	Out	Total	In	Out	Total	
Single-Family Detached Housing (50 Dwelling Units)	10	30	40	33	19	52	533

Table 3
Comprehensive Plan Amendment
Trip Generation Based on Proposed Land Use

Land Use	Weekday AM Peak Hour			Weekday PM Peak Hour			Daily (2-way)
	In	Out	Total	In	Out	Total	
Multifamily Housing Low-Rise (200 Dwelling Units)	20	65	85	67	40	107	1,357

Table 4 indicates the trip generation difference between the existing development on site and the development that would be permitted under the proposed land use category.

Table 4
Comprehensive Plan Amendment
Trip Generation – Resultant Trip Change

Land Use	A.M. Peak Hour			P.M. Peak Hour			Daily (2-way)
	In	Out	Total	In	Out	Total	
Proposed Land Use	20	65	85	67	40	107	1,357
Existing Land Use	-10	-30	-40	-33	-19	-52	-533
Resultant Trip Change	+10	+35	+45	+34	+21	+55	+824

The positive number shown as the resultant trip change in Table 4 indicates that the trip generation will be **increased** as a result of this land use change action.

V. COMPREHENSIVE PLAN AMENDMENT ANALYSIS

As mentioned previously, the proposed Map Amendment would change the future land use designation on the approximate 20-acre subject site from Sub-Outlying Suburban to Urban Community. The transportation related impacts of the proposed Comprehensive Plan Amendment were evaluated pursuant to the criteria in the application document. This included an evaluation of the long range impact (20-year horizon) and short range impact (5-year horizon) the proposed amendment would have on the existing and future roadway infrastructure.

Long Range Impacts (20-year horizon)

The Lee County Metropolitan Planning Organization's (MPO) 2045 Long Range Transportation Plan was reviewed to determine if any future roadway improvements were planned in the vicinity of the subject site. Based on the review, Pine Island Road west of Hancock Creek Boulevard was shown to be widened to a six-lane facility. There are no other improvements within the vicinity of the subject site on the Long Range Transportation Plan.

The Lee County Metropolitan Planning Organization's (MPO) long range transportation plan along with the FDOT District One travel model were also reviewed in order to determine the impacts the amendment would have on the surrounding area. The base 2045 loaded network volumes were determined for the roadways within the study area. The PM peak hour trips to be generated from the project as shown in Table 3 were then added to the projected 2045 background volumes. The Level of Service for those roadways were then evaluated. The Level of Service threshold volumes for County maintained roadways were obtained from *Lee County's Generalized Peak Hour Directional Service Volumes* table. The Level of Service threshold volumes for State maintained roadways were derived based on the *Florida Department of Transportation Generalized Peak Hour Directional Volumes for Florida's Urbanized Areas, Table 7*. Both documents are attached to the Appendix of this report for reference.

The results of the analysis indicate that the proposed change to the land use category on the subject parcel will not cause any roadway link to fall below the recommended minimum acceptable Level of Service thresholds as recommended in Policy 37.1.1 of the Lee County Comprehensive Plan. US 41 south of Hancock Bridge Parkway and Business 41 south of Pondella Road were both shown to operate below the adopted LOS standards in 2045 in the Background traffic conditions and not as a result of adding the minimal number of additional trips from the project. Therefore, no changes to the adopted long range transportation plan are required as result of the proposed land use change. Attached **Table 1A** and **Table 2A** reflect the Level of Service analysis based on the 2045 conditions.

Short Range Impacts (5-year horizon)

The 2022/2022-2025/2026 Lee County Transportation Capital Improvement Plan and the 2023-2027 Florida Department of Transportation Adopted Work Program were reviewed to determine the short term impacts the proposed land use change would have on the surrounding roadways. Based on the review, there are no programmed improvements in the vicinity of the subject site.

The proposed map amendment will increase the overall trip generation potential of the subject site by approximately 55 vehicles during the weekday P.M. peak hour. **Table 3A** and **Table 4A** attached to this report indicate the projected 5-year planning Level of Service on the area roadways based on the uses that would be permitted under the proposed land use change. The existing peak hour, peak season, peak direction traffic volumes on the various roadway links maintained by Lee County were obtained from the most recent Lee County *Public Facilities Level of Service and Concurrency Report*. The existing peak hour, peak season, peak direction traffic volumes for state maintained roadways were obtained from the most recent *FDOT's District One LOS Spreadsheet*.

The existing peak hour, peak season, peak direction traffic volumes were then factored by the appropriate annual growth rates in order to obtain the 2027 background traffic conditions on the area roadway network. The growth rates for each roadway were calculated based on historical traffic data obtained from the FDOT's *Florida Traffic Online* resource as well as the traffic data from the latest *Lee County Traffic Count Report*. Due to lack of historical traffic data on Barrett Road, an annual growth rate of 2% compounded annually was assumed. Based on the projected traffic distribution, the roadway link data was analyzed for the year 2027 without the proposed amendment and year 2027 with the proposed amendment. Traffic data obtained from the aforementioned Lee County and FDOT resources is attached to the Appendix of this report for reference.

The results of the analysis indicate that the addition of the trips as a result of the proposed amendment to the projected 2027 volumes will not cause any roadway links to fall below the minimum acceptable Level of Service standards. US 41 south of Hancock Bridge Parkway and Pine Island Road west of Del Prado Boulevard were both shown to operate below the adopted LOS standards in 2027 in the Background traffic conditions and not as a result of adding the minimal number of additional trips from the project. All remaining analyzed roadways were shown operate within their adopted minimum Level of Service standards. Therefore, no modifications will be necessary to the Lee County or FDOT short term capital improvement programs.

VI. ZONING ANALYSIS

An analysis was also completed to support the rezoning on the approximate 20-acre subject site to allow a development of up to 200 multi-family residential dwelling units. The trips the proposed development is anticipated to generate, as shown in the Table 3, were assigned to the surrounding roadway network. The trips were assigned based upon the routes drivers are anticipated to utilize to approach the subject site. **Figure 2** illustrates the anticipated trip distribution. Also shown in Figure 2, is the site traffic assignment of the proposed development.

F2210.03

BARRETT RD.

SITE

LEGEND

- ← 000 WEEKDAY AM PEAK HOUR SITE TRAFFIC
- ← (000) WEEKDAY PM PEAK HOUR SITE TRAFFIC
- ← 20% → PERCENT TRIP DISTRIBUTION

In order to determine which roadway segments surrounding the site will be significantly impacted as outlined in the Lee County Traffic Impact Statement Guidelines, **Table 5A**, contained in the Appendix, was created. This table indicates which roadway links will experience a significant impact as a result of the added development traffic. Significant impact is defined as any roadway projected to experience greater than 10% of the Peak Hour – Peak Direction Level of Service “C” volumes. The Level of Service threshold volumes were derived based on the Lee County’s *Generalized Peak Hour Directional Service Volumes* table. Based on the information contained within Table 5A, Barrett Road south of the site is the only roadway segment that is anticipated to be significantly impacted as a result of the proposed development.

Level of Service Analysis

The future Level of Service analysis was based on projected build-out year of the project, or year 2027. Based on this horizon year, a growth rate was applied to the existing traffic conditions for all roadway links in the study area. Due to lack of historical traffic data on Barrett Road, a minimum annual growth rate of 2% compounded annually was assumed. Based on the project distribution illustrated on Table 5A, the link data was analyzed for the year 2027 without the development and year 2027 with the development.

Table 6A in the Appendix of the report indicates the methodology utilized to obtain the year 2027 background and build-out traffic volumes. The existing peak hour, peak season, peak direction traffic volumes on the roadway links maintained by the Lee County were obtained from the most recent Lee County *Public Facilities Level of Service and Concurrency Report*. The existing peak hour, peak season, peak direction traffic volumes were then factored by the appropriate annual growth rates in order to obtain the 2027 background traffic conditions on the area roadway network.

Figure 3 indicates the year 2027 peak hour – peak direction traffic volumes and Level of Service for the various roadway links within the study area. Noted on Figure 3 is the peak hour – peak direction volume and Level of Service of each link should no development occur on the subject site and the peak hour – peak direction volume and Level of Service for the weekday A.M. and P.M. peak hours with the development traffic added to the roadways. This figure is derived from Table 6A contained in the Appendix.

As can be seen from Figure 3, the roadway links analyzed as part of this report will not be adversely impacted as a result of the proposed rezoning request. Barrett Road was shown to operate at acceptable Level of Service “C” in 2027 both with and without the proposed development. Therefore, roadway capacity improvements will not be warranted as a result of the additional traffic to be generated by the proposed rezoning request.

Intersection Analysis

Intersection analysis was performed at the proposed site access drive on Barrett Road utilizing the latest version of the *Highway Capacity Software (HCS®)*. The analysis was based on the projected 2027 weekday A.M. and P.M. peak hour traffic conditions with the project traffic conditions. Traffic counts were conducted at the intersection of Barrett Road and Westcreek Circle between the hours of 7:00 to 9:00 A.M. and 4:00 to 6:00 P.M. on November 3, 2022. The peak hour turning movements were then adjusted for peak season conditions based on the peak season factor data as provided by FDOT in their *Florida Traffic Online* resource. The FDOT peak season correction factor is included in the Appendix of this report for reference.

The existing weekday peak hour traffic volumes were then increased by a growth rate factor to determine the projected 2027 background turning movement volumes. The turning volumes projected to be added to the intersection as illustrated on Figure 2 were then added to the 2027 background volumes to estimate the future 2027 traffic volumes with the project. These volumes are based on the data from the spreadsheets contained in the Appendix of this report titled *Development of Future Year Background Turning Volumes*.

The results of the intersection analysis indicate all approaches to operate at an acceptable Level of Service in 2027 with the project trips added to the intersection in the AM and PM peak hour traffic conditions. Therefore, no intersection capacity improvements are warranted as a result of this analysis. *HCS*® summary sheets are attached to the Appendix of this report for reference.

VII. CONCLUSION

The proposed project is located at 9262 Westcreek Circle in Lee County, Florida. Based upon the roadway link Level of Service analysis conducted as a part of this report for both the Comprehensive Plan amendment and rezoning request, the development of the subject site meets the requirements set forth by the Lee County Comprehensive Plan and Land Development Code in that there is sufficient capacity available to accommodate the new trips that will be generated by the proposed development. Therefore, no roadway capacity improvements will be warranted as a result of the additional traffic to be generated by the proposed Comprehensive Plan Amendment and Rezoning requests.

The 2045 Financially Feasible Roadway network and the short term 5-year Capital Improvement Program currently in place in the Lee County will not require any modification in order to accommodate the proposed Land Use Change. The rezoning analysis also indicates that the subject site will not have an adverse impact on the surrounding roadway network. Therefore, no roadway capacity improvements are necessary to accommodate the proposed development.

The results of the intersection analysis at the proposed site access drive on Barrett Road indicate all approaches to operate at an acceptable Level of Service in 2027 with the project trips added to the intersection in the AM and PM peak hour traffic conditions. Therefore, no intersection capacity improvements are warranted as a result of this analysis.

¹ The 2045 Pk Hr Pk Direction Traffic Volumes were calculated by adjusting the 2045 AADT volumes obtained from the adopted FSUTMS model by the appropriate K and D factors.

* The K-100 and D factors for County maintained roadways were obtained from Lee County Traffic Count Report.

Note: Due to lack of traffic data in the Lee County Traffic Count Report, the K-100 and D factors for Barrett Road were assumed from Lee County PCS #34.

Note: Due to lack of traffic data in the Lee County Traffic Count Report, the K-100 and D factors for Orange Grove Boulevard were assumed from Lee County PCS #34.

* The K-100 and D factors for FDOT maintained roadways were obtained from Florida Traffic Online resource.

1 AGR for all roadways was calculated based the historical traffic data obtained from the Lee County Traffic Count Report and Florida Traffic Online webpage.

1 Due to lack of historical traffic data on Barrett Road, a minimum annual growth rate of 2% compounded annually was assumed.

2 Current peak hour peak season peak direction traffic volumes for all County roadways were obtained from the 2021 Lee County Public Facilities Level of Service and Concurrency Report.

2 Due to lack of traffic data, the current peak hour peak season peak direction traffic volumes for Hancock Bridge Pkwy west of Del Prado Blvd was obtained by adjusting the 2021 AADT by appropriate K and D factors (Station No. 124166).

2 Current peak hour peak season peak direction traffic volume for all State roadways was obtained from the 2021 FDOT's District One LOS Spreadsheet.

Multiply the corresponding directional volumes in this table by 1.2						Lanes	Median	Exclusive left lanes	Adjustment factors		
						1	Divided	Yes	+5%		
						Multi	Undivided	Yes	-5%		
						Multi	Undivided	No	-25%		
BICYCLE MODE ²						¹ Values shown are presented as peak hour directional volumes for levels of service and are for the automobile/truck modes unless specifically stated. This table does not constitute a standard and should be used only for general planning applications. The computer models from which this table is derived should be used for more specific planning applications. The table and deriving computer models should not be used for corridor or intersection design, where more refined techniques exist. Calculations are based on planning applications of the HCM and the Transit Capacity and Quality of Service Manual.					
(Multiply vehicle volumes shown below by number of directional roadway lanes to determine two-way maximum service volumes.)						² Level of service for the bicycle and pedestrian modes in this table is based on number of vehicles, not number of bicyclists or pedestrians using the facility.					
Paved						³ Buses per hour shown are only for the peak hour in the single direction of the higher traffic flow.					
Shoulder/Bicycle						* Cannot be achieved using table input value defaults.					
Lane Coverage	B	C	D	E		** Not applicable for that level of service letter grade. For the automobile mode, volumes greater than level of service D become F because intersection capacities have been reached. For the bicycle mode, the level of service letter grade (including F) is not achievable because there is no maximum vehicle volume threshold using table input value defaults.

BARRETT PARK SURFACE WATER LEVEL OF SERVICE ANALYSIS:

I. Existing Facilities

The subject property consists of 20.14 acres, and exists as a single-family residential development located along the south side of a tributary of Hancock Creek. The general drainage pattern for the area is from west to east to the confluence of Yellow Fever Creek and Hancock Creek.

Existing stormwater facilities serving the residential development include two (2) dry detention areas constructed along the north property line and in the southeast corner of the development for water quality treatment and attenuation. These facilities were permitted through the South Florida Water Management District (SFWMD) (#36-01760-S) in September, 1990.

Surface water from the property discharges through two control structures, one from each detention basin. Discharges through the control structure are conveyed by the aforementioned tributary and an existing wetland to Hancock Creek.

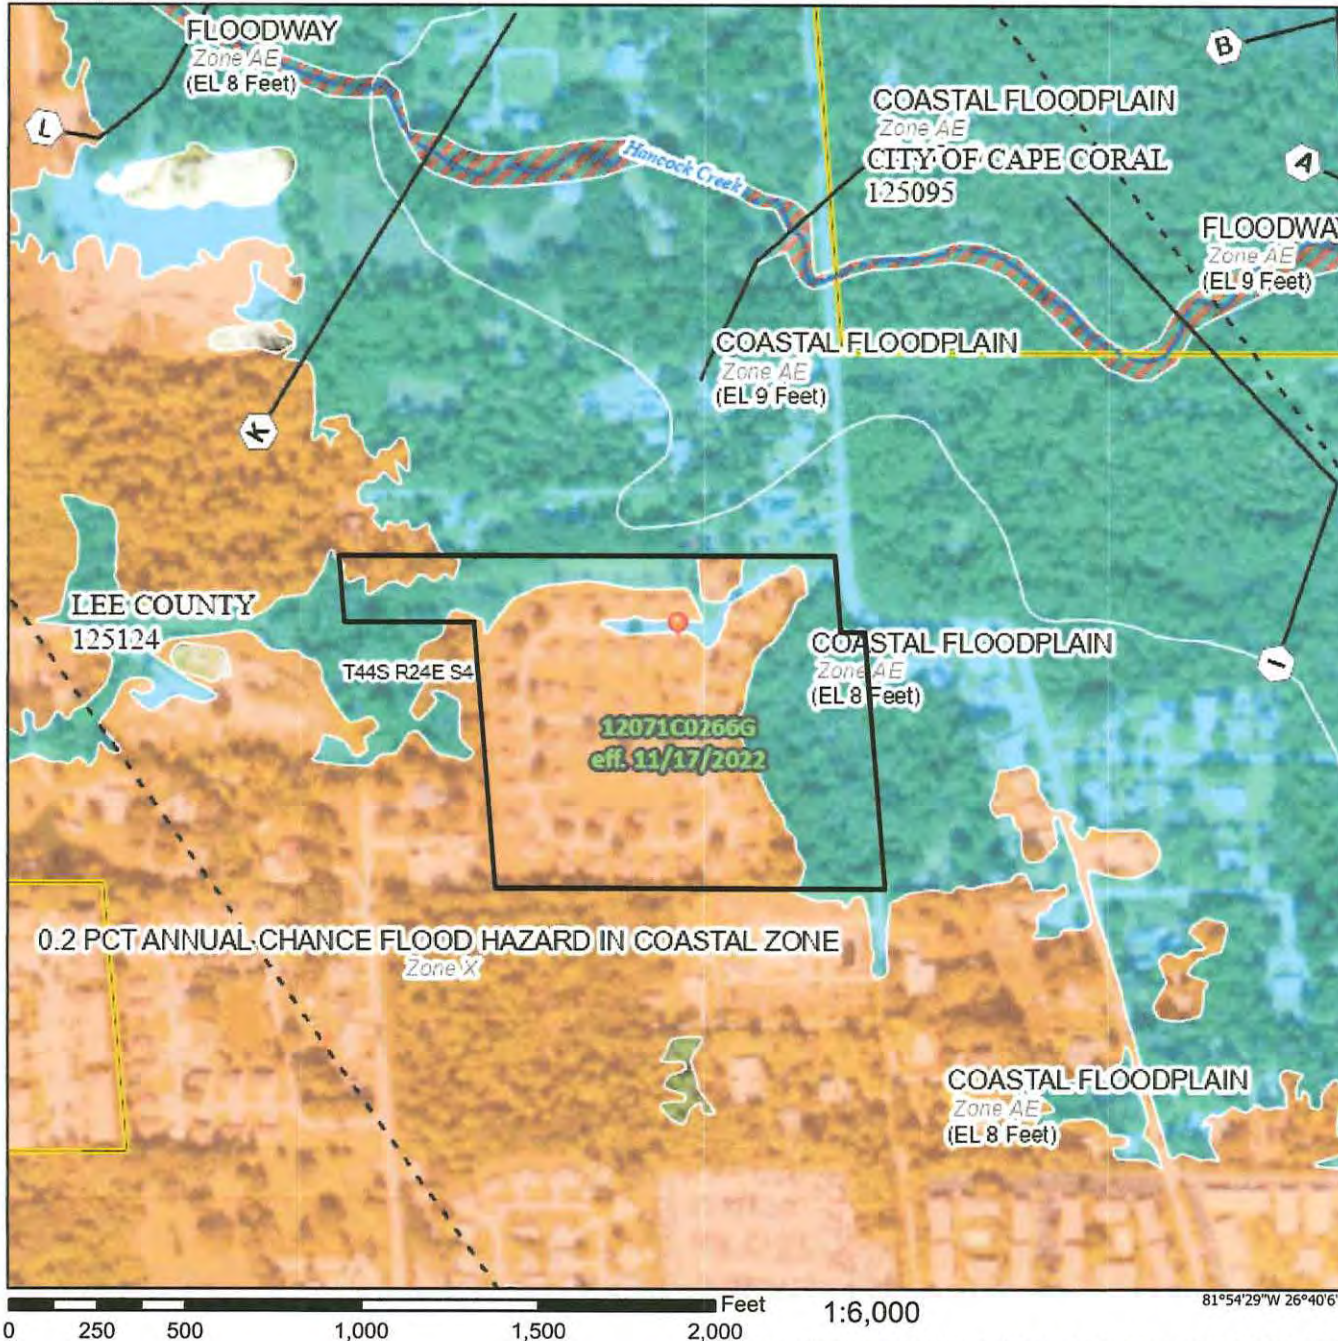

II. Proposed Facilities

Stormwater run-off from the proposed multi-family development will be directed to interconnected detention basins for water quality treatment and attenuation prior to discharging into the Hancock Creek tributary and the existing wetland preserve on east side of the property. The detention basins will be designed to limit discharge rates from the development to a 25-Year, 3-day storm peak discharge rate of 64 cubic-feet-per-square-mile (CSM), which is the required Lee County Level of Service standard for Hancock Creek. The control elevation for the water management facilities will be established to be consistent with the control elevation of the previously permitted system of the existing development.

The pin displayed on the map is an approximate point selected by the user and does not represent an authoritative property location.

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 1/16/2023 at 10:00 AM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

Planning Justification Exhibits - M16 and M19

Location and Property Description

The subject property is located along the west side of Barrett Road approximately ½ mile south of Pine Island Road and approximately ¼ mile north of Pondella Road in North Fort Myers. The property is 20.14 acres in area located in the Sub-Outlying Suburban future land use category but is currently developed with more units than allowed within that future land use category. The current use of the property is for affordable housing. The proposed application will allow for a greater density to accommodate the County's growing needs for affordable units in a strategic location, close to urban infrastructure, transit service and within proximity to one of the County's central employment districts - downtown Fort Myers. The requested future land use map amendment is to change the land use category to Urban Community to allow for a multi-family redevelopment of the subject property.

Surrounding Uses/Compatibility

The property is located in an area of existing development on all sides. To the north of the subject property are a mix of scattered single-family units with two higher density multi-family projects south of Pine Island Road on the east side of Barrett Road within the City of Cape Coral limits. To the west of the subject property is a mix of single and multi-family uses, both within the City of Cape Coral limits and unincorporated Lee County. The Lee County Housing Authority has a single-family affordable housing development approximately 500 feet to the west off of McNeill Road. To the south, along Barrett Road are a mixture of single and multi-family developments on the east and west sides of Barrett Road, north of Pondella Road. To the east of the subject property, across Barrett Road, is a mix of single family and vacant properties.

Existing and Future Conditions Analysis

In accordance with Policy 95.1.3 below is an analysis on public facilities based on the existing development of the subject property as the baseline for the analysis. In addition, attached are analyses of the impacts on sanitary sewer, potable water and surface water by Andrew Fitzgerald, PE, DeLisi Fitzgerald and a Transportation Impact Study by TR Transportation. Letters of service availability for each County service provider are attached to this application as Exhibit M17.

The subject property is currently in the Outlying Suburban future land use category allowing for 42 residential units. However, the subject property is already developed with 50 single family units built and occupied on the property. The proposed amendment would allow for the development of 200 multi-family residential units. Therefore, the following analysis is based on a comparison between the 50 units that are in existence today with the proposed 200 units that are part of the proposed application.

Parks

The level of service for Parks is established in Policy 95.1.3.6 as follows:

NON-REGULATORY STANDARDS

6. Parks and Recreation Facilities: Minimum Level of Service:

(a) Regional Parks - 6 acres of developed regional park land open for public use per 1000 total seasonal county population.

(b) Community Parks - 0.8 acres of developed standard community parks open for public use per 1000 permanent population, unincorporated county only.

The proposed amendment would allow an increase of 150 residential units from what is existing to the proposed density. The addition of 150 units proposed would create the demand for an additional 1.8 acres of regional park, assuming 2 people per unit. In accordance with Lee County's 2022 Concurrency Report, available capacity exists to meet the increase in demand (Page 37).

The inventory indicates a total of 7,066 acres of existing regional parks operated by county, local, state, and federal governments. The capacity required to meet The Lee Plan non-regulatory LOS standard of 6 acres per 1,000 total seasonal county population (as illustrated in Table 3) is equal to 923,000 [seasonal county population] X (6 acres/1,000 population) = 5,538 acres.

The addition of 150 units proposed would create the demand for an additional .24 acres of Community Park, assuming 2 people per unit. In accordance with Lee County's 2022 Concurrency Report, available capacity exists to meet the increase in demand (Page 40). The current demand to meet the County's level of service is 307 acres. The County currently has 762 acres existing.

Lee County Schools

A letter from the Lee County School District has been requested and is forthcoming. The Lee County School Board projects student generation by dwelling unit. According to the School Board, the school children generation rate for single family homes is .297 students per unit and .116 students per unit for multi-family dwellings. This student

generation rate is further broken down by grade level. Assuming a current built density of 50 single family units, the following is what the current level of development generates based on school level.

Student Generation Rates - Existing Development		
	Rate	Projected Students
Elementary	.149	7.5
Middle	.071	3.6
High	.077	3.9
Total	.297	14

Student Generation Rates - Proposed Development		
	Rate	Projected Students
Elementary	.058	11.6
Middle	.028	5.6
High	.03	6.0
Total	.116	23

The proposed amendment would therefore produce an increase in 9 students. In accordance with the attached letter from the Lee County School Board, capacity exists within each school level to accommodate the increase in units.

Environmental Impacts

The proposed amendment will have no impact on environmentally sensitive resources in Lee County as demonstrated in Exhibit M12 of this application. The subject property has already been developed. The proposed redevelopment of the site will not impact the existing wetland on the east side of the property. The proposed development will need to comply with Lee County open space and indigenous preservation requirements.

Daniel DeLisi

RE: Barrett Road in North Fort Myers,

Dear Daniel DeLisi:

This letter is in response to your request for concurrency review dated November 21, 2022 for the subject property in Barrett Road in North Fort Myers, in regard to educational impact. This project is located in West choice Zone.

This development is a request for 200 Multi-Family housing units. With regard to the inter-local agreement for school concurrency the generation rates are created from the type of dwelling unit and further broken down by grade level.

For multi-family homes, the generation rate is .116 and further broken down by grade level into the following, .149 for elementary, .0071 for middle and .077 for high. A total of 23 school-aged children would be generated and utilized for the purpose of determining sufficient capacity to serve the development.

The Concurrency Analysis attached, displays the impact of this development. Capacity is an issue within the Concurrency Service Area (CSA) at the elementary school level, however, capacity is available in the adjacent CSA.

Thank you and if I may be of further assistance, please contact me at 239-335-1494

Sincerely,

Jacqueline Heredia, District Planning Specialist

Re: Letter of Service Availability – Westcreek Cir.

Mr. DeLisi,

I am in receipt of your letter requesting a Letter of Service Availability for a community located on Westcreek Cir in North Fort Myers. The property is denoted by STRAP 04-44-24-06-00000.0010. The project is proposed to include 200 multi-family residential units.

Lee County Emergency Medical Services is the primary EMS transport agency responsible for coverage at the location you have provided. Because we currently serve this area and have a sufficient response data sample, we evaluated response times in this vicinity to simulate the anticipated demand and response.

The primary ambulance for this location is Medic 7, located 2.2 miles east. There are two other locations within 5 miles of the existing development.

It is our opinion that the service availability for the proposed development of this property is adequate at this time. Should the plans change, a new analysis of this impact would be required.

Sincerely,

A handwritten signature in blue ink, appearing to read "Benjamin Abes", is written over a circular stamp.

Re: Pine Echo II - STRAP #: 04-44-24-06-00000.0010
14170 Warner Circle
N. Ft. Myers, FL 33903

The property is 21.14 acres in size and is currently in the Sub-Outlying Suburban Land Use Category which allows for up to 2 dwelling units per acre. Currently, the property is already developed with 50 single family units. Your client is proposing a plan amendment to change the property to Urban Community so as to allow for up to 200 multi-family residential units.

If the amendment is approved, the North Fort Myers Fire District will be able to provide fire suppression and emergency medical services to the above proposed development, as well as fire prevention, and public education service. If you require additional information, please do not hesitate to contact my office at (239) 731-1931.

Respectfully,

Rick Jones

Daniel DeLisi
DeLisi, Inc.
520 27th St.
West Palm Beach, FL 33407

Mr. DeLisi,

The Lee County Sheriff's Office has reviewed your Comprehensive Plan Amendment request for a 21.14-acre property on Barrett Road approximately ¼ mile north of Pondella Road and ½ mile south of Pine Island Road with the following STRAP #: 04-44-24-06-00000.0010.

The proposed amendment would change the current land designation from the Sub-Outlying Suburban Land Use Category to Urban Community and allow for up to 200 multi-family residential units currently planned for the site. This Agency evaluated your rezoning request solely on its ability to provide law enforcement service to the proposed development. Based on that criterion, we have no objections as it would not affect our ability to provide law enforcement services to the project and surrounding area.

Law enforcement services will be provided from our North District offices in North Fort Myers. As this development builds out, we will factor its impact into our annual manpower review and make adjustments accordingly. At the time of application for a Development Order or building permit, we request that the applicant provide a Crime Prevention Through Environmental Design (CPTED) report done by the applicant and given to the Lee County Sheriff's Office for review and comment. Please contact Community Response Unit Crime Prevention Practitioner Beth Schell at (239) 477-1677 with any questions regarding the CPTED study.

Respectfully,

A handwritten signature in blue ink, appearing to read "Chris Reeves", with a date "11/22/22" written to the right.

RE: Letter of Availability Lee County Solid Waste Barrett Road Strap # 04-44-24-06-00000.0010

Dear Mr. DeLisi:

The Lee County Solid Waste Department is capable of providing solid waste collection service for the proposed comprehensive plan amendment for up to 200 multi-family residential units located along Barrett Road in North Fort Myers through the franchised hauling contractors. Disposal of the solid waste from this development will be accomplished at the Lee County Resource Recovery Facility and the Lee-Hendry Regional Landfill. Plans have been made, allowing for growth, to maintain long-term disposal capacity at these facilities.

Please review Lee County Land Development Code, Chapter 10, Section 261, with requirements for on-site space for placement and servicing of solid waste containers. Please note that the property owner will be responsible for all future applicable solid waste assessments and fees.

If you have any questions, please call me at (239) 533-8007.

Sincerely,

Justin Lighthall

County Manager

Mr. DeLisi,

Richard Wesch
County Attorney

LeeTran has reviewed your request for service availability in regard to a proposed Comprehensive Plan Amendment. After reviewing the site and comparing the location with our existing and planned route locations according to the 2020 Transit Development Plan (TDP), the following has been determined:

Donna Marie Collins
County Hearing Examiner

- Subject area is not within one-quarter mile of a fixed-route corridor
- Closest bus stop is not within one-quarter mile of a bus stop
- The 2020 TDP does not identify the need for enhanced or additional transit services in the area

The proposed future development does not currently meet the applicability outlined in Sec. 10-442 and Sec. 10-443. The developer will not be required to connect to and improve transit facilities because planning action does not trigger the relevant Lee County Land Development Code.

If transit services have been modified within one-quarter mile of the subject parcels at the time of a DO or LDO type D submittal, necessary improvements will be determined at that time.

If you have any questions or require further information, please do not hesitate to contact me at (239) 533-0340 or cmarinodiaz@leegov.com.

Sincerely,

Clarissa Marino Diaz

STRATEGIC REGIONAL POLICY PLAN ANALYSES AND STATE POLICY PLAN Exhibit M-18

Strategic Regional Policy Plan

The proposed Plan Amendment implements the Affordable Housing Element of the Strategic Regional Policy Plan. Specifically, the proposed amendment implements the following Goals, Strategies and Actions.

Goal 1: Supply a variety of housing types in various price ranges to ensure that all residents have access to decent and affordable housing.

Strategy: Increase the supply of affordable housing through public and private efforts.

Strategy: Reduce opposition to affordable housing.

Actions:

- 1. Promote the development of "quality" affordable housing projects.*
- 4. Promote the mix of affordable and non-affordable housing to create integrated communities.*

Strategy: Develop livable, integrated communities that offer residents a high quality of life.

Actions:

- 1. Encourage programs that promote infill development in urban areas to maximize the efficient use of existing infrastructure.*
- 5. Promote the mix of affordable and non-affordable housing to create integrated communities.*

State Policy Plan

The proposed Plan amendment also implements the following Goal from the State Policy Plan:

(4) *HOUSING.* –

(a) Goal. – The public and private sectors shall increase the affordability and availability of housing for low-income and moderate-income persons, including citizens in rural areas, while at the same time encouraging self-sufficiency of the individual and assuring environmental and structural quality and cost-effective operations.

3. Increase the supply of safe, affordable, and sanitary housing for low-income and moderate-income persons and elderly persons by alleviating housing shortages, recycling older houses and redeveloping residential neighborhoods, identifying housing needs, providing incentives to the private sector to build affordable housing, encouraging public-private partnerships to maximize the creation of affordable housing, and encouraging research into low-cost housing construction techniques, considering life-cycle operating costs.
