**Re: The Preserve Sporting Club and Residences Text and Map Amendments
CPA2022-00014 and CPA2022-00015
Extension Request**

Mr. Dunn,

This letter is being sent to request an extension for the response to the latest sufficiency letter for the above referenced amendments to the Comprehensive Plan. The remaining comments/questions are almost entirely dealing with the surface and groundwater modeling. As a result, following our meeting with staff last November, we have retained a new firm to use the ICPR model based on the parameters that staff laid out for us in that meeting.

The modeling is near completion. We expect to submit the results of the model and the answers to staff's remaining questions by the end of February 2024. For this reason, we are requesting an extension of time. This request is for an additional 60 days from today.

Please feel free to contact me if you have any questions.
