subject: Lee County's 2001/2002 Regular Comprehensive Plan Amendment Cycle

date: December 23, 2002

Attached are the agenda and staff reports for the public hearing to be held beginning at 9:30 A.M. on Thursday, January 9th, 2003. This is an adoption hearing for the 2001/2002 Comprehensive Plan Amendment Cycle. The Board of County Commissioners transmitted the 2000/2001 Lee Plan amendments to the State for review on September 19, 2002. The Department of Community Affairs (DCA) issued its Objections, Recommendations and Comments (ORC) Report on November 22, 2002. The DCA did not pose any objections or recommendations to any of the 15 transmitted amendments. The DCA did provide one comment regarding CPA2001-10, the Captiva Island Community Planning Effort. The comment points out that proposed Policy 21.9, which states that "mangroves on Captiva Island should be protected," is vague and should be revised to establish guidelines on how they should be protected. Per the DCA's comment, staff is proposing modified language in order to satisfy the Captiva residents desire to further protect mangroves on the island.

Three other amendments have been revised to reflect recent updates that have occurred since the transmittal hearing. The next revised amendment is CPA2001-12, which adds a specific access management plan to Policy 1.3.8 for Alico Road in the vicinity of the I-75 interchange, and adds the maps of the specific access management plans to the Future Land Use Map series. Since the time of transmittal, the connection between Three Oaks Parkway and Oriole Road has been revised and has been coordinated with the adjacent property owners.

CPA2001-28, which amends the Capital Improvements Element (Tables 3 & 4) to reflect the latest adopted Capital Improvement Program, has also been revised to reflect the latest tables approved by the Board at the budget meetings. The changes to the tables occurred after the plan amendment transmittal hearings and are updated in the attached staff report..

The final amendment that is being modified since the transmittal hearing is CPA2001-27. This amendment adds a new Objective and Policy to the Community Facilities and Services Element of the Lee Plan regarding the incorporation of green infrastructure into the surface water management systems of proposed developments as well as providing definitions for green infrastructure and flow-way in the Glossary. Since transmittal, staff has been meeting with the public and state agencies on issues raised at the Transmittal hearing. Staff has revised the proposed language in the attached staff report as a result of those meetings. The revisions to the subject amendment were sent to the DCA for review on November 8, 2002 prior to the issuance of the ORC Report.

Other than these 3 amendments that will require modifications as noted above, the remaining documents were simply updated to reflect that there were no objections, recommendations, or comments by the DCA.

If you have any questions regarding the adoption hearing, do not hesitate to call me at 479-8309.

PART I - BACKGROUND AND STAFF RECOMMENDATION

A. SUMMARY OF APPLICATION

1. APPLICANT:

LEE COUNTY BOARD OF COUNTY COMMISSIONERS
REPRESENTED BY LEE COUNTY DIVISION OF PLANNING AND
DIVISION OF PUBLIC SAFETY

2. REQUEST:

Amend the Build Back Policy of the Procedures and Administration Element by replacing references to the term "cost" with the term "value."

B. STAFF RECOMMENDATION AND FINDINGS OF FACT SUMMARY:

1. RECOMMENDATION: Staff recommends that the Board of County Commissioners transmit this proposed amendment. The specific language modifications that staff recommends is provided below:

F. Build-back Policy

Structures which have been damaged by fire or other natural forces to the extent that the cost of their reconstruction or repair exceeds 50% of the replacement cost value of the structure may be reconstructed at (but not to exceed).....

1. Structures damaged less than 50% of their replacement cost value at the time of damage can be rebuilt to their original condition, subject only to current building and life safety codes.

2. Structures damaged more than 50% of their replacement ~~cost~~ value at the time of damage can be rebuilt to their original square footage and density, provided that they comply with.....

2. BASIS AND RECOMMENDED FINDINGS OF FACT:

- The proposed amendment will clear up language differences between the Lee Plan and what is contained in the Lee County Post Disaster Ordinance No. 95-14
- The proposed change will make the terminology in the Lee Plan consistent with that used in the ordinance.
- The term used should clearly reflect the intent of the Policy.

C. BACKGROUND INFORMATION

This amendment was initiated by the Board of County Commissioners on September 25, 2001. The proposed amendment will clear up language differences between the Lee Plan and what is contained in the Lee County Post Disaster Ordinance No. 95-14 as to how the terms replacement cost versus the term replacement value should be interpreted. The proposed change will make the terminology in the Lee Plan consistent with that used in the ordinance.

PART II - STAFF ANALYSIS

A. STAFF DISCUSSION

Currently the Build Back Policy of the Procedures and Administration Element refers to the term replacement cost throughout the policy language. Staff proposes correcting the term by replacing “cost” with “value” which will correct the measurement used to determine a structure’s damage in the provisions of the Build Back Policy through the definition of replacement value found in the Lee County Post Disaster Ordinance No. 95-14. Replacing the term will make the Lee Plan consistent with the intent of the policy. Both replacement cost and replacement value definitions, as provided in the Lee County Post Disaster Ordinance, are reproduced below:

“Replacement Cost” means the actual cost to repair, reconstruct, rebuild, or replace a damaged structure. It will not include the following parts of a structure or items not considered a permanent part of the structure: building plans, surveys, permits, sidewalks, pools, screens, sheds, gazebos, fences, furniture and carpeting. For purposes of this Ordinance, the replacement cost will be compared to the structure’s replacement value to determine the percent of the structure damaged.

“Replacement Value” of a structure means the market building value contained in the Lee County Property Appraiser’s File multiplied by one of the following factors:

1. 120% in a major disaster, or
2. 150% in a catastrophic disaster

The structure’s owner may opt to establish replacement value by hiring a state certified property appraiser rather than use the formula stated in this definition.

The term used should clearly reflect the intent of the Policy. When developing the Post Disaster Ordinance, which implements the Build Back Policy, staff found they were working with a different

measure to determine if provisions of the Build Back Policy would go into effect under certain circumstances. Both of the terms "replacement cost" and "replacement value" are found in the Post Disaster Ordinance. By replacing the current term "replacement cost" with the term "replacement value," structure damage will be defined to account for variability in the market, such as labor and materials.

B. CONCLUSIONS

Making the noted changes to the Build Back Policy will allow language differences between the Lee Plan and the Lee County Post Disaster Ordinance to be clarified, reflecting the actual thought process and implementation of the policy. The correction will improve the consistency of the documents and will assist in avoiding misinterpretations of the policy itself.

C. STAFF RECOMMENDATION

Planning staff recommends that the Board of County Commissioners transmit this proposed amendment. This recommendation is based upon the previously discussed issues and conclusions of this report. Staff recommends that the Build Back Policy, as provided in the Procedures and Administration Element be modified as follows:

F. Build-back Policy

Structures which have been damaged by fire or other natural forces to the extent that the cost of their reconstruction or repair exceeds 50% of the replacement ~~cost~~ value of the structure may be reconstructed at (but not to exceed).....

1. Structures damaged less than 50% of their replacement ~~cost~~ value at the time of damage can be rebuilt to their original condition, subject only to current building and life safety codes.
2. Structures damaged more than 50% of their replacement ~~cost~~ value at the time of damage can be rebuilt to their original square footage and density, provided that they comply with.....

**PART III - LOCAL PLANNING AGENCY
REVIEW AND RECOMMENDATION**

DATE OF PUBLIC HEARING: April 22, 2002

A. LOCAL PLANNING AGENCY REVIEW

Planning staff provided a brief presentation concerning the proposed amendment. Staff stated that this amendment will clear up differences between the Lee Plan and the contents of the post disaster ordinance. One LPA member asked staff to elaborate on the difference between value and cost. Staff responded that value accounts for market factors, such as labor and materials. One member asked what was used to define the value. Staff responded that the Land Development Code defined replacement value, which is what the Lee County Property Appraiser's office has on file multiplied by 120% in major disasters or 150% in a catastrophic disaster.

B. LOCAL PLANNING AGENCY RECOMMENDATION AND FINDINGS OF FACT SUMMARY

1. **RECOMMENDATION:** The Local Planning Agency recommends that the Board of County Commissioners transmit this proposed amendment to the Florida Department of Community Affairs.
