

ADMINISTRATIVE AMENDMENT (PD) ADD2024-00183

ADMINISTRATIVE AMENDMENT
LEE COUNTY, FLORIDA

WHEREAS, Q. Grady Minor & Associates, P.A., filed an application for an administrative amendment to a Residential Planned Development (RPD) known as Brightwater RPD (F/K/A Stoneybrook North) to request a deviation from Land Development Code Section 34-2013(a), which requires parking lots to be designed to permit vehicles exiting a parking lot to enter the street right-of-way or easement in a forward motion, to allow parking to back out into rights-of-way on property located on Tract J as depicted on the Master Concept Plan approved by Resolution Z-22-015; and

WHEREAS, the applicant has indicated that the property's current STRAP numbers are 16-43-25-L3-050FD.0000, 15-43-25-L1-U1947.5648, 16-43-25-00-00003.0150, and 16-43-25-00-00003.0160, a legal description of the properties are attached hereto as Exhibit "A"; and

WHEREAS, the property was originally rezoned to Residential Planned Development (RPD) by Resolution Z-22-015, which supersedes and codifies all prior zoning actions, and was most recently amended by ADD2023-00050; and

WHEREAS, the subject property is located in the Sub-Outlying Suburban Future Land Use Category and in the Bayshore Community Plan Area, as designated by the Lee Plan; and

WHEREAS, the applicant has provided a narrative detailing the deviation request, which seeks relief from Land Development Code (LDC) Section 34-2013(a), which requires vehicles exiting a parking lot and entering a street right-of-way or easement to do so in a forward motion, to allow parking to back out into rights-of-way (see Exhibit "B"); and

WHEREAS, the roadways affected by the requested deviation are known as Trellis Dock Court and Lagoon Circle, which are privately maintained local roads located in the Residential Planned Development (RPD), which are connected to a privately maintained road local road known as Sunny Page Lane, and the applicant has provided a master site plan demonstrating the proposed parking design (see Exhibit "C"); and

WHEREAS, the applicant's justification for the requested deviation notes that the additional 30 parking spaces surrounding the community open space area in three different sections, which will provide additional parking for the residents in the development (see Exhibit "D"); and

WHEREAS, the subject property is classified as "Tract J" as depicted on the Master Concept Plan (MCP) within Resolution Z-22-015, and is to be developed with townhomes with each dwelling unit having its own parking space and garage, and a common open space area with a mail kiosk and open space for the residents within the community (see Exhibit "E"); and

WHEREAS, the proposed parking spaces will be designed for the residents of the community and the nearby recreational uses depicted on "Tract K" of the Master Concept Plan (MCP) approved by Resolution Z-22-015 (see Exhibit "E"); and

WHEREAS, the Lee County Land Development Code provides for certain administrative changes to planned development master concept plans and planned unit development final development plans; and

WHEREAS, the subject application and plans have been reviewed by the Lee County Department of Community Development in accordance with applicable regulations for compliance with all terms of the administrative approval procedures; and

WHEREAS, it is found that the proposed amendment does not increase density or intensity within the development; does not decrease buffers or open space required by the LDC; does not underutilize public resources or infrastructure; does not reduce total open space, buffering, landscaping or preservation areas; and does not otherwise adversely impact on surrounding land uses.

NOW, THEREFORE, IT IS HEREBY DETERMINED that the application for administrative approval for an amendment to the Residential Planned Development (RPD) known as Brightwater RPD (F/K/A Stoneybrook North) to request a deviation from Land Development Code Section 34-2013(a), which requires parking lots to be designed to permit vehicles exiting a parking lot to enter the street right-of-way or easement in a forward motion, to allow parking to back out into certain private rights-of-way is **APPROVED, subject to the following conditions:**

1. **Deviation (22), which seeks relief from Land Development Code Section 34-2013(a), which requires parking lots to be designed to permit vehicles exiting a parking lot to enter the street right-of-way or easement in a forward motion, to allow parking to back out into the private rights-of-way of Trellis Dock Court and Lagoon Circle, is hereby APPROVED subject to the following condition:**
 - a. **The approval is limited to only 30 parking spaces located in Phase 6 of the community as shown on the master site plan attached hereto as Exhibit "C". All other development must comply with the applicable provisions of the LDC.**
2. **The terms and conditions of the original zoning resolution and subsequent amendments thereto remain in full force and effect, except as amended herein.**
3. **If it is determined that inaccurate or misleading information was provided to the County or if this decision does not comply with the LDC when rendered, then, at any time, the Zoning Manager may issue a modified decision that complies with the Code or revoke the decision. If the approval is revoked, the applicant may acquire the necessary approvals by filing an application for public hearing in accordance with Chapter 34.**

Duly passed, adopted, and electronically signed on 1/7/2025

Exhibit B

Heritage Creek RPD Narrative of Request

Written Narrative: Provide a written narrative statement explaining exactly what is proposed. [34-373(a)(5)]

The applicant is seeking an administrative deviation from a provision of Chapter 34 of the Land Development Code (LDC), which require vehicles exiting a parking lot to do so in a forward manner. The proposed parking deviation for Bright Water Phase 6 is requested in order to provide a separate parking area to serve guests for the community, and to provide parking near the common open space amenity serving Phase 6 of the community. This Phase of the community has approximately 34 townhomes and generates a low volume of traffic. The parking has been designed to be 90-degree parking that will back out into the private right-of-way for Lagoon Circle and Trellis Dock Court. The spaces are not provided to meet the general required parking for the community as each of the townhome units have garage and driveway parking. The request is consistent with the intent and purpose of the LDC and the criteria in LDC Chapter 34-2013 which permits the Director to approve administrative amendments to provide for parking lots to back into a right-of-way. The area as designed is not a parking lot and the parking areas have been designed in 3 distinct pods surrounding the open space.

Exhibit D

Heritage Creek RPD Schedule of Deviations

Deviation seeking relief from LDC Sections 34-2013(a), which requires parking lots to be designed to permit vehicles exiting the parking lot to enter the street ROW in a forward motion, to instead allow for vehicles to back out of the parking spaces into the private ROW. This Administrative Deviation is limited to only 30 parking spaces located in Phase 6 of the community as shown on the attached site plan.

Justification:

The subject 30 parking spaces are excess spaces for the surrounding 34 townhomes and community open space. Each Townhome will have a garage parking space and a parking space in each driveway, which is the minimum required parking space for each unit. Because the townhomes do not have large outdoor recreation areas associated with each unit, the community has been designed to have a community open space tract which can be used by residents for common open space purposes. The parking as designed is not a parking lot, but rather 3 separate parking areas having 10 parking spaces in each area.

The request meets the requirements of LDC Section 34-2013 in which the Director may administratively approve the proposed back out parking, subject to the following:

1. The street must be a privately owned and maintained, low volume, local street.

The proposed parking spaces are proposed to back into Lagoon Circle and Trellis Dock Court. The low volume local streets are privately owned and maintained.

2. All parking spaces must be for amenities to the development such as parks and recreational facilities and not for dwelling units or commercial uses.

The parking spaces are not provided to meet the LDC required parking for the approximate 60 townhome units in the immediate vicinity of the proposed parking spaces. The spaces are provided for common parking near the open space amenity for this townhome area. The open space tract will serve as the community open space for the residents, offering a larger green space tract to enjoy outside of their platted townhome yard space.

3. Parking spaces may be perpendicular or at a 30- or 45-degree angle to the roadway and must comply with the parking space dimensions set forth in Section 34-2016(1). The Director may require surfacing to comply with Section 34-2017(a) or (b), depending on the type of amenity served.

The parking spaces will be perpendicular to the roadway and will be designed to standard parking space dimensions and asphalt surfacing.

WHEREAS, North Brook Holdings, LLC filed an application on behalf of the property owner, Stoneybrook North Community Development District, to amend the existing Brightwater Residential Planned Development (RPD) f/k/a Stoneybrook North, in reference to Brightwater RPD; and

WHEREAS, a public hearing before the Lee County Zoning Hearing Examiner, Amanda L. Rivera, was advertised and held on April 28, 2022; and

WHEREAS, the Hearing Examiner gave full consideration to the evidence in the record for Case #DCI2021-00012 and recommended APPROVAL of the Request; and

WHEREAS, a second public hearing was advertised and held on August 17, 2022 before the Lee County Board of Commissioners; and,

WHEREAS, the Lee County Board of Commissioners gave full and complete consideration to the recommendations of the staff, the Hearing Examiner, the documents on record and the testimony of all interested persons.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS:

SECTION A. REQUEST

The Applicant filed a request to amend the existing Brightwater RPD f/k/a Stoneybrook North to:

1. Reconfigure tracts;
2. Relocate dwelling units to the interior;
3. Add 'Dwelling Unit, Townhouse' to the approved schedule of uses;
4. Add Brightwater Country Club and allow limited non-resident access to the Crystal Lagoon amenity;
5. Add 225 dwelling units [increase maximum dwelling units from 1,275 to 1,500];
6. Convert 590 single-family dwelling units to senior adult housing;
7. Incorporate voluntary enhancements;
8. Allow fill material to be moved across Pritchett Parkway; and
9. Add two deviations.

The property is located in the General Interchange, Sub-Outlying Suburban and Wetlands Future Land Use Categories and is legally described in attached Exhibit A. The request is APPROVED, SUBJECT TO the conditions and deviations specified in Sections B and C below.

SECTION B. CONDITIONS:

All references to uses are as defined or listed in the Lee County Land Development Code (LDC).

1. Master Concept Plan (MCP) and Development Intensity

- a. MCP. Development must be consistent with the two-page MCP entitled "Master Concept Plan Brightwater RPD F/K/A, Stoneybrook North," prepared by Banks Engineering, Inc., last revised August 17, 2022 (Exhibit C), except where modified by the conditions below.
- b. Lee Plan and LDC. Development must comply with the LDC and Lee Plan at the time of local development order approval, except where deviations are approved herein. Subsequent amendments to this zoning resolution and MCP may be subject to further development approvals.
- c. Development Parameters. The RPD is permitted a maximum of 1,475 dwelling units, limited to the maximum calculated development density/intensity with respect to new trip generation utilizing the following development scenario based on the Institute of Transportation Engineers (ITE) report in effect at time of development order:
 - i. 885 detached single-family dwelling units, or a combination of detached single-family, townhouse, or two-family attached, with the trip generation equivalent to 910 single-family dwelling units;
 - ii. 590 detached or two-family attached senior adult dwelling units; and
 - iii. Brightwater Country Club (See Condition 34).

2. Uses and Site Development Regulations

b. Site Development Regulations

See Exhibit D

3. Deleted.
4. Track K. The Tract K recreational area must include at a minimum: one multi-purpose field, a playground, and picnic area; or recreational water feature. Developer must provide facilities for safe passage of pedestrians/cyclists from one side of Pritchett Parkway to the other at the time of local development order, as determined by the Director of Development Services.
5. High Point Sewage Plant. No residential lots may be located within 250 feet of the existing High Point sewage treatment plant property lines until the sewage treatment plant is no longer in operation. If the High Point sewage treatment plant is still in operation when the plat is approved for lots located on Tract G or H, Developer must include a 30-foot-wide Type F buffer around the perimeter of the plant's property lines, excluding the access easement.
6. Tree Preservation. Common area open space must be designed to incorporate as many native heritage trees and Sabal palms as possible. Preserved trees/ relocated palms must be delineated on development order plans. Preserved trees and relocated Sabal palms will receive protected tree credits per LDC §10-420(j).

7. Protected Species. A detailed protected species management plan for gopher tortoises, Big Cypress fox squirrels, and wading birds must be submitted with the initial development order for any portion of the RPD. The gopher tortoise management plan must include either a permanent fence or a continuous native shrub hedge where the gopher tortoise preserve abuts the road/park to protect tortoises from vehicular traffic and active recreation area.

A pedestrian/bicycle trail with a maximum four-foot width is permissible within the gopher tortoise preserve located east of Tract M and south of the LCEC easement. The trail must be designed to avoid impacting gopher tortoise burrows and large native trees. Two access points to the trail may be incorporated into the fence, provided the openings are designed to minimize the potential for tortoises to disperse from the preserve. Details of the trail and fence must be included in development order plans.

8. Open Space. Developer must provide an open space table detailing the residential unit type with lot size per tract, required open space, provided open space, required indigenous preservation and provided indigenous preservation with development order application. The RPD must preserve at least 100.1± acres of conservation area. If more than 500 acres is developed with residential tracts (including roads and lakes) requiring open space, the development order must delineate additional required indigenous preservation for Lee County Development Services staff approval.
9. Cypress Mulch Prohibited. Cypress mulch is prohibited in preserve areas.
10. ADA Compliance. Preserve area boardwalk width may not exceed the minimum lot width requirements set forth by the Americans with Disabilities Act.
11. Boardwalks. Boardwalks within preserve areas must be designed to avoid mature native trees and protected species burrows, nests, or dens. Final layout of the boardwalks must be field verified by Lee County Development Services prior to construction. Minor adjustments to minimize impacts to native vegetation may be required.
12. Gazebos. Construction of gazebos or viewing platforms within conservation areas is limited to no more than two structures. Each gazebo/platform may have a footprint not larger than 200 square feet.
13. Vegetation Removal. Prior to site work for recreational use that requires vegetation removal within a conservation area, a development order showing impacts to the conservation area must be submitted for review and approval of Development Services and other applicable County staff.
14. Littoral Plantings. Development order plans must include littoral planting areas in substantial compliance with the LDC. The planting area along the northern ditch expansion must also provide native wetland plants installed three feet on center.
15. Communication Tower. The Communication Tower denoted on the MCP must be of a monopole design limited to 35 foot height. The tower and associated maintenance buildings must be designed to minimize impacts to birds.
16. Lake 1. Lake 1 is existing and does not require additional plantings. Changes to Lake 1 in Tract O requires the following within the limits of the shoreline proposed to be revised:

- a. Littoral plantings within Tract O must be calculated at one littoral plant per linear foot of lake shoreline;
 - b. One 10-foot-tall tree or two three-gallon shrubs may be substituted for 10 herbaceous plants;
 - c. Trees and shrubs may be used to count toward up to 50 percent of the required lake littoral planting requirements;
 - d. A minimum of two native wetland tree species and four native herbaceous plant species must be installed in Lake 1 (contained within Tract O).
17. Vegetation within Easements. The placement of required vegetation within a utility, power, or drainage easement must be clearly delineated on an Alternate Landscape Betterment Plan per LDC §10-419 and submitted with the local development order. The placement of vegetation within any easement must be approved by Lee County Development Services staff and other affected Division (Utilities, Zoning, etc.). If the easement is granted to an entity other than Lee County, written approval of the location of vegetation from any affected easement holder must be submitted to Lee County Development Services staff as part of the development order. Approval from all affected parties must be obtained prior to local development order approval.
18. Bulkheads. Lake Bulkheads are limited to roads and the clubhouse area. Bulkheads are not permitted along residential boundaries and are subject to the following conditions:
- a. Development order plans must show the location of bulkheads to confirm that no more than 20 percent of each lake shoreline consists of bulkhead or rip-rap. Lakes where bulkheads are proposed must be designed to provide one linear foot of compensatory littoral zone with an 8:1 slope for each linear feet of bulkhead. For lakes that utilize bulkheads, littoral plants must be calculated at two plants per linear foot of shoreline clustered within the 8:1 slope portion of the lake.
 - b. The development order must include a typical cross-section detail of a bulkhead and rip-rap areas on the paving, grading, and landscape plan.
19. Deleted.
20. Intersection Improvements. Developer must provide intersection improvements to the intersection of Bayshore Road and Pritchett Parkway. Developer must coordinate with Lee County Department of Transportation and Florida Department of Transportation to find an acceptable improvements to the intersection that meet Florida Administrative Code (FAC) 14-97 standards.
21. Pedestrian/Bicycle Paths. Developer must construct an eight-foot-wide bicycle path or two five-foot-wide sidewalks along Pritchett Parkway from Bayshore Road to Rich Road. Staff and Developer will determine whether portions of the bicycle/pedestrian improvements constructed 1) between Bayshore Road and the southernmost site entrance, and 2) between Rich Road and the northernmost site entrance, will be eligible for road impact fee credits when there is sufficient information to make such a determination.

23. Deleted.

24. Agricultural Uses:

Agriculture is not approved as a permanent use in the Schedule of Uses for this property. Agricultural uses must cease upon approval of the requested rezoning, EXCEPT as follows:

- a. Existing bona fide agricultural uses may continue until approval of a local development order for the area of the project containing those uses.
- b. Additional clearing of trees or other vegetation in agricultural areas is prohibited. Existing areas of bona fide agricultural use may be maintained, i.e. mowed, but not cleared or expanded. This prohibition is not intended to preclude County approved requests for the removal of invasive exotic vegetation.
- c. The property owner must terminate the agricultural tax exemption for any portion of the property that receives a local development order. The agricultural use must cease by December 31st of the calendar year in which the local development order is issued. The exemption termination must be filed with the Property Appraiser's Office by December 31st of the calendar year in which the local development order is issued. A copy of the exemption termination must be provided title of the Office of the County Attorney.

25. Deleted.

26. Popash/Bayshore Creeks Development.

- a. Prior to issuance of a development order (or early work, clearing, filling permits), Developer must submit the following information for approval by the Division of Lee County Natural Resources:
 - i. The HEC-RAS model was based upon the absence of development within 50 feet from the top of creek bank. No development is proposed within 50 feet from top of creek bank with the exception of an at-grade walking path. If development is later proposed within 50 feet of the top of creek bank, Developer must provide an updated HEX-RAS model pursuant to the same modeling parameters established during the rezoning process for Popash and Bayshore Creeks demonstrating that the development will not induce any rise to existing flood elevations, or any increases in velocities or transfer in overbank flows for the 10-, 25-, and 100-year storms.
 - ii. The location and extent of the existing and proposed cross sections from the HEC-RAS model on the development order plans, as well as the defined existing top of bank/elevation, overbank elevations, roadway elevations, and bridge dimensions and elevations. Sufficient details or sections showing continuity and capacity of flows in the overbank must be clearly demonstrated.

- iii. All plans and documents related to the above must include the statement: "This is to certify that I am a duly qualified engineer licensed to practice in the State of Florida. It is to further Certify that these design plans, drawings, and associated technical calculations and/or data demonstrate that no adverse effects to the existing flood elevations will occur as a result of this development."
- iv. The above information must be submitted to the South Florida Water Management District (SFWMD) for review, consideration, and inclusion in their permit files.
- v. Developer or its assigns must dedicate a drainage/maintenance easement to Lee County for Popash and Bayshore Creeks for all portion(s) of the channel and its overbanks included in the HEC-RAS modeling and that lie within the property limits. The easement may be part of any conservation easement dedicated to Lee County and the SFWMD, but must be consistent with the maintenance activities anticipated and outlined herein. The easement must also give the county the right, but not the obligation for maintenance and provide for maintenance access along the creeks. As a part of the easement, Developer agrees to a monthly maintenance schedule to include initial and ongoing maintenance for these creeks that must include removal of all exotics including, but not limited to, grape vines (above three feet in height above ground) and rosary pea, any deposited debris, fencing, fallen trees, or eroded vegetation. The basic ground cover within the easement areas is to remain in its current grassed condition. The relocation of onsite Sabal palms from other parts of the property onto the easement area is permissible, but must not be collocated closer than a ten (10) foot spacing. No saw palmetto or shrubbery of any type is to be planted within the easement area. The easement must be reviewed and approved by the County Attorney and Division of Natural Resources during the platting process. The same drainage/maintenance easement language must be contained within the Community Development District (CDD) or Homeowners Association (HOA) documents.
- vi. All modifications and exotic vegetation removal outlined herein for Popash and Bayshore Creeks must be completed before issuance of the first development order.
- vii. The east-west ditch proposed along the northerly boundary of the development must have no interconnection between Popash and Bayshore Creeks.

Popash Creek:

- b. Prior to issuance of the development order (or any early work, clearing, filling permits) containing the bridge crossing, Developer must provide complete construction plans for the bridge for review and approval by the Division of Lee County Natural Resources in accordance with the following:

- i. The bridge crossing of Popash Creek must be a pole-supported structure.
- ii. No more than two rows of pilings/supports are permitted in the overbank and none may be closer than 10 feet to the existing top of bank. Each row must be perpendicular to the direction of the flood flows and each must have a maximum dimension of twenty-four inches.
- iii. The low chord of the bridge must be at or above the 100-year floodwater surface elevation and the abutments for the bridge may not be closer than 50 feet to the existing top of bank. Additionally, the low chord must be at least two feet above the highest overbank elevation within the 50-foot offset areas (total of 100 feet $\pm$).
- iv. No berming, filling, planting, or other above ground construction/amenities are permitted within 50 feet of the existing top of banks for Popash Creek, unless permitted elsewhere in these conditions by the Lee County Division of Natural Resources.

Bayshore Creek:

- c. All modifications and exotic vegetation removal outlined below for Bayshore Creek must be completed before the issuance of the first Certification of Completion for the first development order:
 - i. The spoil is to be removed down to an elevation of 18.0 feet NGVD and then sloped in conjunction with the perimeter berm along Bayshore Creek for that portion upstream of Pritchett Parkway and within the 50-foot offset from the existing top of bank.
 - ii. No berming, filling, planting, or other above ground construction/amenities are permitted within 50 feet of the existing top of bank for Bayshore Creek, unless permitted elsewhere in these conditions by Lee County Natural Resources.
27. Treatment Plant Disclosure. Developer must disclose the existence, location, and operation of the sewage treatment plant to purchasers of property immediately adjacent to a line 250 feet from the perimeter boundary of the WWTP site (excluding that portion of the site containing the access road into the WWTP site). Agreements for the sale of property immediately adjacent to the 250-foot dimension must include the following disclosure statement. This disclosure statement must appear in bold face and conspicuous type that is larger than the type in the remaining text of the contract:
- “Lot owners immediately adjacent to the line, 250 feet from the perimeter boundary of the WWTP site within the Brightwater RPD F/K/A Stoneybrook North (f/k/a Heritage Creek) Planned Development, must acknowledge the presence of the High Point Wastewater Treatment Plant.”
28. Surety. The maintenance of Popash and Bayshore Creeks within the property limits as required in Condition 26, will be assured by the provision of a surety for the annual cost of maintenance. Evidence of the surety must be provided to the County prior to the issuance

of a Certificate of Compliance for the first development order for the drainage infrastructure for the project.

29. Drainage Easement. To cooperate in achieving reduction of the regional flooding problem, Developer must provide a drainage easement to Lee County for the drainage ditch along the north boundary of the property. The easement is to allow the existing ditch to accept the quantity of stormwater approved pursuant to a SFWMD permit addressing the regional flooding problem.
30. Perimeter Buffers. Except as otherwise noted on the MCP, perimeter buffers around the outside of the property require 10 trees per 100 linear feet and a double staggered hedge. The hedge must be installed at 36 inches high and maintained at 60 inches high for areas annotated with Buffer Note 1 or installed at 48 inches high and a minimum of 20 feet from the property line for areas annotated with Buffer Note 2, except as modified by Deviation 18.
31. Lighting.
 - a. Outdoor ballfield lights for baseball fields located on Tract K are prohibited.
 - b. Outdoor recreational lighting for amenities located on Tract K or B-1 (with the exception of ballfields where lighting is prohibited) and Tract B-1 must be on timers. Lighting impacts must be measured at the boundary of Tracts K and B-1, and not at the boundary of adjacent lakes or preserve areas.
32. Future Approvals. Approval of this rezoning does not guarantee local development order approval. Future development order approvals must satisfy the requirements of the Lee Plan Planning Communities Map and Acreage Allocations Table, Map 2-A and Table 1(b).
33. 590 Senior Housing Units. Declaration of covenants and restrictions must be provided as an amendment to the Phase 2 development order to reflect 590 dwelling units limited to adult senior housing within Tracts A, B, B1, C & D. Amendment to this condition or relevant documentation must be considered through additional zoning process.
34. Brightwater Country Club. Brightwater Country Club consists of the building(s) and associated recreational facilities constructed in conjunction with the Brightwater Crystal Lagoon, open to members and their guests for a membership fee, and also includes daily non-resident reservation based system. Resident memberships in the Brightwater Country Club must be included in every purchase of a Brightwater home.
 - a. Access to Brightwater Crystal Lagoon must be fully gated;
 - b. Non-resident access to the Brightwater Country Club amenities and recreational facilities requires a reservation on a reservation portal website. Daily reservations to non-residents will be limited based upon parking availability in the parking lot adjacent to the Brightwater Country Club which will be monitored and controlled by Staff of the Brightwater Country Club;
 - c. Signage is required on Pritchett Parkway to notify the public that no parking is permitted on Pritchett Parkway;

- d. The Brightwater Country Club parking lot (limited to Tract K) must provide a minimum of 180 parking spaces and a maximum of 400 parking spaces (including golf carts) of which a minimum of 33% shall be resident only spaces (including golf carts). Parking limited to Brightwater RPD residents only will be clearly marked and signed; and
 - e. Golf cart parking areas are available for exclusive use of Brightwater homeowners.
35. Fill Crossing Pritchett Parkway. Developer must comply with LDC §10-329 at development order approval. Access points for fill transported across Pritchett Parkway must be limited to a single location on both sides of Pritchett Parkway. Erosion control measures for Pritchett Parkway and the crossing area must be detailed in the development order for staff approval.
36. Voluntary Enhancements.
- a. Tract E1 (±9.73 acres). Residential uses are removed from and density is transferred internal to site.
 - b. Tract N (±10.37 acres). Residential uses are removed from and density is transferred internal to site.
 - c. Tract O (±14.43 acres). Residential uses are removed from and density is transferred internal to site.
 - d. Tract D. Prior to construction certification of the westernmost lots abutting the Hunter's Glen property line, Developer must provide:
 - i. An easement to allow for Hunter's Glen's construction (at their option) of a turnaround for emergency, solid waste, and resident vehicles for the Hunter's Glen subdivision. Developer has the right (but not the obligation) to construct this improvement.
 - ii. An easement and stubbed water mains to allow for Hunter's Glen's construction (at their option) of fire hydrants as enhancement to Hunter's Glen subdivision fire protection. Developer has the right (but not the obligation) to construct this improvement.
 - e. Tract A's development order must demonstrate increased open space separation to lots (varying 35'± to 82'± setback between lot lines and perimeter) along western perimeter boundary as shown on the MCP.
 - f. Tract M. Prior to construction certification of easternmost lots in Tract M, Developer must provide a utility easement for Seminole Campground to allow (at their option):
 - i. Connection to central sewer to take the Seminole Campground WWTP off-line; and
 - ii. Opportunity for water main looping for increased fire protection. Developer has the right (but not the obligation) to construct this improvement.

37. Water Quality Monitoring Program. Each development order must reference the "Brightwater Site-Wide Construction Water Quality Monitoring Program" on file with case number DOS2018-00034-A01, which may be amended as needed to address current circumstances without requiring a zoning amendment.
38. Popash Creek Sidewalk. Developer must amend and demonstrate on development order plans that the constructed sidewalk within the natural waterway buffer and indigenous open space abutting Popash Creek complies with LDC §§ 10-415(d)(2)(d) and 10-416(d)(11)(b).
39. Development Permits. Issuance of a County development permit does not establish a right to obtain permits from state or federal agencies. Further, it does not establish liability on the part of the County if the Developer: (a) does not obtain requisite approvals or fulfill obligations imposed by state or federal agencies or (b) undertakes actions that result in a violation of state or federal law.

SECTION C. DEVIATIONS:

1. Deviation (1) – Withdrawn
2. Deviation (2) – Withdrawn
3. Littoral Shelf. Deviation (3) seeks relief from the LDC §10-418(2)d, requirement to provide the installation of native wetland herbaceous plants at a calculation of 25 percent of the total linear feet of shoreline multiplied by the 20-foot-wide planted littoral shelf and divided by four to obtain two-foot-on-center spacing, and where trees and shrubs can be substituted for up to 25 percent of the total number of herbaceous plants required; to allow the required plantings to include up to 50 percent trees in the Tract O lake (Lake L1). This deviation is APPROVED, SUBJECT TO condition 16.
4. Deviation (4) – Withdrawn
5. Deviation (5) – Withdrawn
6. Deviation (6) – Withdrawn
7. Deviation (7) seeks relief from the LDC §10-329(d)(4), requirement to provide excavations to be sloped at a ratio not greater than six (6) horizontal to one (1) vertical from the top of bank to a water depth of two feet below the dry season water table and a ratio of two (2) horizontal to one (1) vertical thereafter; to allow 40 percent of the lake bank slopes within the development to utilize vertical bulkheads or rip rap. This deviation is APPROVED, SUBJECT TO condition 18
8. Deviation (8) – Withdrawn
9. Deviation (9) – Withdrawn
10. Deviation (10) – Withdrawn
11. Deviation (11) – Withdrawn

12. Model Homes. Deviation (12) seeks relief from the LDC §34-1954(a)(1) requirement to provide administrative approval of locations for model homes in new developments; to allow model homes by right in the locations within the development as shown on the MCP. This deviation is APPROVED.
13. Model Home Parking. Deviation (13) seeks relief from the LDC §34-1954(f) requirement to provide parking for model homes or model units to be located on the same premises and in compliance with the type of dwelling unit being displayed; to permit the development of accessory parking for model homes as low turnover and therefore permit development of these lots with alternative surfaces. This deviation is APPROVED, SUBJECT TO the following conditions:
 - a. The entrance apron into each parking lot would be paved;
 - b. the handicapped parking space(s) in each lot would be paved; and
 - e. the Applicant will keep the portion or the street in front of each model free from gravel or shell that may be tracked out of the model home parking area(s) by departing vehicles.
14. Subdivision Signs. Deviation (14) seeks relief from the LDC §30-153(2)(a)(iv) which limits the text of additional subdivision or residential development identification signs to the subdivision or project name; to allow the additional signs for this project to include the notation "A [Developer's Name] Community," in addition to the name of the development. This deviation is APPROVED, SUBJECT TO the proposed project sign must be in substantial compliance with the rendering submitted in conjunction with the justification for Deviations 14 and 15, stamped "Received Apr 07 2003 Community Development."
15. Entrance Sign. Deviation (15) seeks relief from the LDC §30-152(2)(d) which limits the size of project entrance signs and which limits the size and number of additional project signs to allow all of the permitted square footage for the number of permitted signs to be combined into the main project entrance sign and a deviation from LDC §30- 94(h) which restricts double faced signs with opposing faces to an interior angle of less than 30 degrees; to allow the [Community Name] project sign to have two sign faces of approximately 130 square feet in size and be located on a curvilinear wall. This deviation is APPROVED, SUBJECT TO the proposed project sign must be in substantial compliance with the rendering submitted in conjunction with the justification for Deviations 14 and 15 stamped "Received Apr 07 2003 Community Development."
16. Deviation (16) – Withdrawn
17. Planting Strip/Pedestrian Facility. Deviation (17) seeks relief from the LDC §§ 10-296(e)(2)h.5.ii. and iii., requirement to provide Residential Suburban Local Streets to have a 5-foot planting strip and 5-foot pedestrian facility on both sides of the road, to allow internal roadways to be designed and constructed in accordance with the following cross sections approved by DOS2015-00083, as amended:

This deviation is APPROVED, SUBJECT TO Developer must provide a pedestrian way along one side of all streets internal to the development and must extend each pedestrian way from intersection to intersection.

18. Waterway Buffer. Deviation (18) seeks relief from the LDC §10-416(d)(9), requirement to provide a 50-foot-wide vegetated natural waterway buffer containing six native canopy trees and 50 native shrubs per 100 linear feet, which may be met through credits from the existing native vegetation within the waterway buffer area at a 1:1 credit ratio, to allow existing vegetation to remain to meet the buffer requirements and to allow areas to remain in their natural state if no vegetation exists with no planting plan required. This deviation is APPROVED, SUBJECT TO the areas at the northwestern corner of the property within the required natural waterway buffer depicted on the MCP with annotations referencing Buffer Note 1 and Buffer Note 2 may not be planted.
19. Deviation (19) - Withdrawn
20. Street Terminus. Deviation (20) seeks relief from the LDC §10-296(k)(1), requirement to provide dead-end streets to provide a circular turnaround, to allow a dead-end street in Tract E as shown on the MCP. This deviation is APPROVED, SUBJECT TO at the time of development order submittal, Developer must provide a letter of no objection to the dead-end roadway in Tract E from the fire department having jurisdiction.

- Exhibit D: Site Development Regulations

SECTION E. FINDINGS AND CONCLUSIONS:

Based upon its review, The Board of County Commissioners adopts the recommendation of the Hearing Examiner, including the following findings and conclusions:

1. *As conditioned herein*, the proposed amendment to the Brightwater RPD:
 - a. Complies with the Lee Plan. *See*, Lee Plan Goals 2, 4, 5, 18, 39, 60, 77, 124, 135, Objectives 1.5, 2.1, 2.2, 5.1, 18.1, 18.3, and Policies 1.1.11, 1.3.2, 1.5.1, 2.2.1, 5.1.2, 5.1.5, 5.1.10, 115.1.2; Lee Plan Maps 1A-B, 2A.
 - b. Complies with the LDC and other County regulations or qualifies for deviations. *See*, LDC Chapters 10 and 34;
 - c. Is compatible with existing and planned uses in the area. *See*, Lee Plan Policies 1.1.11, 1.3.2, 2.1.1, 2.1.2, 2.2.1, 5.1.5, 135.1.9; LDC §§ 34-411(c), (i), and (j).
 - d. Provides sufficient access to support the proposed development intensity, with expected impacts on transportation facilities address by existing County regulations or conditions of approval;
 - e. Will not adversely affect environmentally critical areas and natural resources. *See*, Lee Plan Goals 77, Objectives 4.1, 77.1, Policy 1.5.1, Standard 4.1.4, LDC §34-411(h).
 - f. Will be served by urban services. *See*, Lee Plan Glossary, Map 4A-B, Goal 2; Objectives 2.1, 2.2, 4.1, 53.1, 56.1; Policies 2.2.1, and Standards 4.1.1 and 4.1.2; LDC §34-411(d).
2. The MCP reflects sufficient access to support the intensity of development. In addition, County regulations and conditions of approval will address expected impacts to transportation facilities. *See*, Lee Plan Goal 39, Objective 39.1; LDC §34-411(d).
3. The proposed mix of uses is appropriate at the proposed location. *See*, Lee Plan Objective 18.1, Policies 1.1.11, 1.3.2, 2.1.1, 5.1.5, and 135.1.9.
4. The recommended conditions are sufficient to protect the public interest and reasonably relate to the impacts expected from the development. *See*, Lee Plan Policies 5.1.5, 135.9.6; *See also*, LDC Chapters 10 and 34.

5. As conditioned herein, the deviations:

- a. Enhance the objectives of the planned development; and
- b. Promote the intent of the LDC to protect the public health, safety, and welfare. See, LDC §34-377(b)(4).
