RE: Wastewater and Reclaim Water Availability – LOA ID#: 24-092 NFMD
Parcel ID No.: 27-43-24-00-00009.0000
2787/2751 N Tamiami Trl, North Fort Myers, FL 33903
Shell Factory Redevelopment

Dear Mr. Smith:

The FGUA has received your Application for Service Availability, and upon review, it has been determined that wastewater disposal service is generally available to the address provided. The attached site map indicates the approximate size and location of the existing mains in the area. Please be advised that main extensions, connection to the reclaimed water system, and other system enhancements funded by the project sponsor may be required.

The application indicated that the proposed project consists of 315 multi-family units with an estimated wastewater disposal demand of 78,750 GPD. Currently, FGUA facilities are able to accommodate this demand. During the design process, if existing conditions warrant, a hydraulic analysis may need to be performed by the project engineer to evaluate the impacts the proposed project may have on the existing wastewater system.

This letter should not be construed as a commitment to serve, but only as a statement of the availability of service and is effective for twelve (12) months from the date of issue. The FGUA commitment to serve will be made once a Utility Infrastructure Conveyance and Service Agreement (CSA) is fully executed. To move this project forward, contact Development Services via email at devservices@fgua.com to receive a plan submittal package and schedule the pre-application meeting if required.
