Re: Amendments to the Lee Plan
Adoption Submission Package (DCA No. 01-1) for the 2000/2001 Regular Comprehensive
Plan Amendment Cycle

Dear Mr. Eubank:

In accordance with the provisions of F.S. Chapter 163.3184 and of 9J-11.011, this submission package constitutes the adopted 2000/2001 Regular Comprehensive Plan Amendment Cycle to the Lee Plan (DCA No. 01-1), known locally as PAT 99-14, PAT 99-20, CPA 2000-03, CPA 2000-06, CPA 2000-07, CPA 2000-08, CPA 2000-09, CPA 2000-10, CPA 2000-11, CPA 2000-13, CPA 2000-14, CPA 2000-17, CPA 2000-21, CPA 2000-22, CPA 2000-23, CPA 2000-25, CPA 2000-26, CPA 2000-29, CPA 2000-31, CPA 2000-02, CPA 2000-15, CPA 2000-19 and CPA 2000-27. The adoption hearing for these plan amendments was held at 9:30 am on January 10, 2002.

Included with this package, per 9J-11.011(5), are three copies of the adopted amendments, supporting data and analysis, and the following five adopting ordinances: Ordinance No. 02-02, Ordinance No. 02-03, Ordinance No. 02-04, Ordinance No. 02-05, and Ordinance No. 02-06. By copy of this letter and its attachments I certify that this amendment has been sent to the Regional Planning Council, the Florida Department of Transportation (FDOT), the Department of Environmental Protection, the Florida Department of State, the Florida Fish and Wildlife Conservation Commission, the Department of Agriculture and Consumer Services, Division of Forestry, and the South Florida Water Management District.

The initial staff reports for the proposed amendments were sent to the DCA with a transmittal cover letter dated September 12, 2001. Only one amendment, PAM 98-06, previously reviewed and objected to by the Department in this current cycle of amendments, was not adopted by the Board of County Commissioners. In addition, changes have occurred in CPA 2000-02, CPA 2000-15, CPA 2000-19 and CPA 2000-27. Revisions in CPA 2000-02 were made in response to objections raised by the Department in the ORC Report. The revisions clarify permitted uses in the Boca Bay Community. In amendment CPA 2000-15 golf maintenance building setbacks

adjacent to residential uses within the DR/GR land use category have been increased for compatibility purposes. The Board of County Commissioners made changes to CPA 2000-19 in response to the representatives of the Estero Planning Community Effort clarifying the status of night clubs in the community, mitigation banking options in the community, and removing the requirement of Mixed Planned Development zoning outside of commercial nodes. CPA 2000-27 has added a new table reflecting the new 2002/2006 fiscal year to the CIP. The Board of County Commissioners adopted CPA 2000-02, CPA 2000-15, CPA 2000-19 and CPA 2000-27 with the noted changes.

If you have any questions, or if I can be of any assistance in this matter, please feel free to call me at the above telephone number.

Sincerely,
DEPT. OF COMMUNITY DEVELOPMENT

WHEREAS, the Board of County Commissioners during its statutorily prescribed public hearing for the plan amendments on January 10, 2002, moved to adopt the proposed amendments as more particularly set forth herein.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF LEE COUNTY, FLORIDA, THAT:

SECTION ONE: PURPOSE, INTENT AND SHORT TITLE

The Board of County Commissioners of Lee County, Florida, in compliance with Chapter 163, Part II, Florida Statutes, and with Lee County Administrative Code AC-13-6, has conducted a series of public hearings to review the proposed amendments to the Lee Plan. The purpose of this ordinance is to adopt those amendments to the Lee Plan discussed at those meetings and approved by a majority of the Board of County Commissioners. The short title and proper reference for the Lee County Comprehensive Plan, as hereby amended, will continue to be the "Lee Plan." This ordinance may be referred to as the "2000/2001 Regular Comprehensive Plan Amendment Cycle Consent Ordinance."

SECTION TWO: ADOPTION OF LEE COUNTY'S 2000/2001 REGULAR COMPREHENSIVE PLAN AMENDMENT CYCLE

The Lee County Board of County Commissioners hereby amends the existing Lee Plan, adopted by Ordinance Number 89-02, as amended, by adopting amendments, as revised by the Board of County Commissioners on January 10, 2002, known as PAT 99-14, PAT 99-20, CPA 2000-03, CPA 2000-06, CPA 2000-07, CPA 2000-08, CPA 2000-09, CPA 2000-10, CPA 2000-11, CPA 2000-13, CPA 2000-14, CPA 2000-17, CPA 2000-21, CPA 2000-22, CPA 2000-23, CPA 2000-25, CPA 2000-26, CPA 2000-29, and CPA 2000-31, which amend the text of the Lee Plan as well as the Future Land Use Map series, the Transportation Map series, and the tables of the Lee Plan.

SECTION THREE: LEGAL EFFECT OF THE "LEE PLAN"

No public or private development will be permitted except in conformity with the Lee Plan. All land development regulations and land development orders must be consistent with the Lee Plan as so amended.

SECTION FOUR: GEOGRAPHIC APPLICABILITY

The Lee Plan is applicable throughout the unincorporated area of Lee County, Florida, except in those unincorporated areas included in any joint or interlocal agreements with other local governments that specifically provide otherwise.

SECTION FIVE: SEVERABILITY

The provisions of this ordinance are severable and it is the intention of the Board of County Commissioners of Lee County, Florida, to confer the whole or any part of the powers herein provided. If any of the provisions of this ordinance are held unconstitutional by a court of competent jurisdiction, the decision of that court will not affect or impair the remaining provisions of this ordinance. It is hereby declared to be the legislative intent of the Board of County Commissioners that this ordinance would have been adopted had such unconstitutional provisions not been included therein.

Sections of this ordinance may be renumbered or relettered and the word "ordinance" may be changed to "section," "article," or such other appropriate word or phrase in order to accomplish such intention; and regardless of whether such inclusion in the code is accomplished, sections of this ordinance may be renumbered or relettered. PART I - BACKGROUND AND STAFF RECOMMENDATION

A. SUMMARY OF APPLICATION

1. APPLICANT:

LEE COUNTY BOARD OF COUNTY COMMISSIONERS
REPRESENTED BY LEE COUNTY DIVISION OF PLANNING

2. REQUEST:

Amend Policy 16.8.12(2) to include a minimum acreage and width for on-site indigenous preserves and for receiving a 2:1 credit for preserving existing indigenous areas on-site within private recreational facilities in the Density Reduction/Groundwater Recharge Land Use Category (DR/GR).

B. STAFF RECOMMENDATION AND FINDINGS OF FACT SUMMARY

1. REVISED RECOMMENDATION: Planning staff recommends that the Board of County Commissioners (BOCC) transmit this proposed amendment to include a minimum acreage and width for indigenous preserves and credits under Policy 16.8.12: Golf Site Requirements of Goal 16: Private Recreational Facilities in the DR/GR as follows:

Policy 16.8.12: Golf Site Requirements.

1. No Change

2. Two hundred (200) acres of indigenous vegetation preserve is required for every 18 holes. The indigenous vegetation preserve requirement may be provided on-site or off-site. On-site preserves must be a minimum of 1-acre in size; minimum 75-foot wide with an average 100-foot width. Indigenous vegetation preserved on-site may utilize a two to one (2:1) credit on a sliding scale based on minimum acreage and width criteria to be included in the Land Development Code. However, the indigenous vegetation preserve requirement must be met with a minimum of one hundred (100) actual indigenous acres ~~on-or-off-site~~. Indigenous vegetation preservation requirements must be met outside of the 150 acre golf course impact area.

3. No Change

4. No Change

5. No Change

2. ORIGINAL RECOMMENDATION: Planning staff recommends that the Board of County Commissioners (BOCC) transmit this proposed amendment to include a minimum acreage and width for indigenous preserves and credits under Policy 16.8.12: Golf Site Requirements of Goal 16: Private Recreational Facilities in the DR/GR as follows:

Policy 16.8.12: Golf Site Requirements.

1.. No Change

2. Two hundred (200) acres of indigenous vegetation preserve is required for every 18 holes. The indigenous vegetation preserve requirement may be provided on-site or off-site. On-site preserves must be a minimum of 1-acre in size; minimum 75-foot wide with an average 100-foot width. Indigenous vegetation preserved on-site may utilize a two to one (2:1) credit on a sliding scale based on minimum acreage and width criteria to be included in the Land Development Code. Indigenous vegetation preservation requirements must be met outside of the 150 acre golf course impact area.

3. No Change

4. No Change

5. No Change

3. BASIS AND RECOMMENDED FINDINGS OF FACT:

- Private Recreational Facilities are required to be designed to incorporate preservation that restricts the unnecessary loss of wildlife habitat or impact on listed species per Objective 16.5.
- Private Recreational Facilities must be designed to minimize environmental impacts per Objective 16.6.

- Large, contiguous indigenous preserves better maintain their natural functions.
- Preservation of existing indigenous plant communities on-site receive a 2:1 credit for the required 200 acres of indigenous preserve per Policy 16.8.12(2).
- Proposed large projects may receive indigenous preservation credits up to 150% when minimum width and acreage are met per Land Development Code (LDC) Section 10-415(b)(2) as follows:

<u>Credit Provided</u>	<u>Minimum size</u>	<u>Minimum width</u>
110%	½ acre	50 feet
125%	1 acre	75 feet
150%	3 acre	150 feet

C. BACKGROUND INFORMATION

The Board of County Commissioners adopted Goal 16: Private Recreational Facilities in the DR/GR amendment in November 1999 (effective January 2000). This was a privately initiated amendment with the main objective to allow the development of stand-alone golf courses within the DR/GR.

The Policies associated with Goal 16 are more detailed than other portions of the Lee Plan due to the sensitivity of the DR/GR. Such details are necessary to insure certain standards are achieved with every private recreational facility that is developed within the DR/GR.

PART II - STAFF ANALYSIS

A. STAFF DISCUSSION

Goal 16 was adopted by the BOCC with the understanding that the private recreational facilities would be designed to preserve and improve native plant communities in the DR/GR. The proposed developments would preserve the high quality existing indigenous areas capable of sustaining wildlife and take into consideration improvements to flow-ways. The applicant requesting the Private Recreational Facilities within the DR/GR confirmed this intent in their response regarding PAT 98-08 dated January 14, 1999 stating "Our intent is to save real, viable habitat, not property that could be viable habitat and that may be used by some animal at some point in time."

A minimum 200 acres of indigenous preservation are required for each proposed 18-hole golf course with no less than 100 actual acres of indigenous plant communities preserved on-site. In order to achieve the intent of the preserve requirement of Policy 16.8.12, minimum area and width standards need to be included within the Policy statements.

Planning staff have evaluated the Lee Plan and the LDC in relation to indigenous preservation and credit allowance. The Lee Plan emphasizes the need for well planned preservation and protection of natural resources in the following:

- Objective 16.5: Private Recreational Facilities are required to be designed to incorporate preservation that restricts the unnecessary loss of wildlife habitat or impact on listed species.

- Objective 16.6: Private Recreational Facilities must be designed to minimize environmental impacts.
- Policy 40.1.3: Incorporate, utilize, and where practicable restore natural surface water flow-ways and associated habitats.
- Objective 40.4: The county will maintain existing regulations to protect the unique environmental and water resource values of the DR/GR.
- Objective 77.1: The county will continue to implement a resource management program that ensures the long-term protection and enhancement of the natural upland and wetland habitats through the retention of interconnected, functioning, and maintainable hydroecological systems where the remaining wetland and uplands function as a productive unit resembling the original landscape.
- Policy 77.2.4: Encourage the protection of viable tracts of sensitive or high-quality natural plant communities within developments.
- Policy 77.2.6: Avoid needless destruction of upland vegetation communities including interior hammocks through consideration during the site plan review process of alternative layouts of permitted uses.
- Policy 77.3.1: Encourage upland preservation in and around preserved wetlands to provide habitat diversity, enhance edge effect, and promote wildlife conservation.
- Policy 77.4.2: Conserve critical habitat of rare and endangered plant and animal species through development review, regulation, incentives, and acquisition.

LDC Section 10-415 establishes minimum criteria for open space and preserve areas. This standard is applied to development proposals through the Development Order Review process. Staff also utilizes this standard in the rezoning process. The minimum area to be counted toward open space requirements is 180 square feet with an average 10-foot minimum width. Indigenous preserve open space must be a minimum of 400 square feet with a minimum 20-foot width.

LDC Section 10-415(b)(2) provides incentive for preserving large, upland indigenous areas through the following credits to meet native plant community preservation requirements:

<u>Credit Provided</u>	<u>Minimum size</u>	<u>Minimum width</u>
110%	½ acre	50 feet
125%	1 acre	75 feet
150%	3 acre	150 feet

The Private Recreational Facilities within the DR/GR have development requirements that are stricter than other Land Use Categories that allow development due to the sensitivity and importance of the DR/GR. Therefore, Planning staff believe that it is important to establish minimum indigenous preservation criteria and credit allowance that exceeds the criteria already available outside of the DR/GR.

Staff have been reviewing three golf course proposals within the DR/GR. It has taken more than two sufficiency reviews to achieve the preservation intent of the Lee Plan. Establishing minimum standards and providing a means for a sliding credit scale will clarify the minimum design standards for indigenous preservation within the DR/GR golf course developments. This will reduce the time involved in obtaining the zoning required to proceed forward with a local development order to construct the private recreational facility.

B. CONCLUSIONS

The purpose of the 200 acre indigenous preservation requirement for golf courses within the DR/GR is to protect water recharge, stormwater storage, and wildlife habitat. The criteria for achieving the indigenous preservation within these DR/GR developments should be stricter than areas within other Land Use Categories due to the sensitivity and importance of these lands to the general public. Policy 16.8 does not currently contain all the pertinent information for establishing minimum indigenous preservation criteria. It is important to amend Policy 16.8.12(2) of the Lee Plan to include minimum standards for indigenous preservation areas to insure the intent of the design criteria under Goal 16 is achieved.

C. STAFF RECOMMENDATION

Planning staff recommends that the Board of County Commissioners transmit the proposed plan amendment.

PART III - LOCAL PLANNING AGENCY REVIEW AND RECOMMENDATION

DATE OF PUBLIC HEARING: June 4, 2001

A. LOCAL PLANNING AGENCY REVIEW

Staff presented the proposal to amend the DRGR golf course preservation requirements to include minimum acreage and credits. During reviews of proposed DRGR golf courses, staff realized the need to include size and credit standards for indigenous preserves to meet the understanding that these courses would achieve higher standards than other less sensitive areas within the County. Staff indicated that LDC language would need to be submitted this fall as a follow-up to this Lee Plan amendment.

One LPA member asked for clarification if the recommended credit ratios were based on the current LDC credit table. Staff replied that the LDC standards were used as a basis for the recommendation. The current Lee Plan language allows for 2:1 credit for any on-site preservation. Staff believes that the recommended standards will result in golf course designs that concentrate the indigenous in large tracts as was originally intended.

Another LPA member asked if staff received any comments from the development community. Staff indicated that no comments were received. However, the original applicants stated in a review response letter "our intent is to save real, viable habitat, not property that could be viable habitat and that may be used by some animal." This means preserves would consist of large tracts providing habitat for sustaining wildlife, not just cover for animals to cross through the property.

Two LPA members had questions regarding how the proposed preservation standards compare to existing DRGR golf courses or proposals currently under review. Staff informed the LPA that no golf courses have been developed in the DRGR to date. Additionally, staff has been working with the applicants to insure the proposed courses meet the intent of the regulations, and therefore the current proposals will not be adversely affected by the proposed standards. Staff noted that the proposed indigenous credit standards will better guide the applicants in the initial design of their projects, and thus reduce the time involved in the zoning review process.

One member of the public requested clarification on acres of indigenous vegetation versus actual indigenous acreage. Staff explained the difference in regard to on-site credits. An additional question arose as to the appropriateness of the reference to 100 acres on or off site. Staff concurred that this statement should not apply to off site.

One member of the public asked if an area with more than seventy-five (75%) percent exotic vegetation would count toward the required preserves. Staff clarified that the preserves would consist of existing native plant communities with less than 75% exotic vegetation. If native plant communities are not present on a site, then the applicant may provide the required preserves through on-site restoration or off-site.

B. LOCAL PLANNING AGENCY RECOMMENDATION AND FINDINGS OF FACT SUMMARY

1. RECOMMENDATION:

The LPA recommend transmittal of CPA 2000-13 as presented by staff with the change in the next to last sentence, deleting the words, "or off" as follows:

Policy 16.8.12: Golf Site Requirements.

6. No Change

7. Two hundred (200) acres of indigenous vegetation preserve is required for every 18 holes. The indigenous vegetation preserve requirement may be provided on-site or off-site. On-site preserves must be a minimum of 1-acre in size; minimum 75-foot wide with an average 100-foot width. Indigenous vegetation preserved on-site may utilize a two to one (2:1) credit on a sliding scale based on minimum acreage and width criteria to be included in the Land Development Code. However, the indigenous vegetation preserve requirement must be met with a minimum of one hundred (100) actual indigenous acres ~~on or off-site~~. Indigenous vegetation preservation requirements must be met outside of the 150 acre golf course impact area.

8. No Change

9. No Change

1.0. No Change

2. BASIS AND RECOMMENDED FINDINGS OF FACT:

The proposed amendment to establish preservation standards in regard to size and credits within DRGR golf courses was found to be consistent with the Lee Plan, current LDC standards, and the intent of the original approval of the DRGR golf courses.
